

Conclusion

5.01 | Conclusion and Next Steps

Overall this report proposes to give Enfield's Local Planning Authority a strong evidence base on what forms of development could be acceptable for every part of the borough. It is hoped this will be a proactive driver of change in a direction that is sustainable and good quality.

Key Outputs:

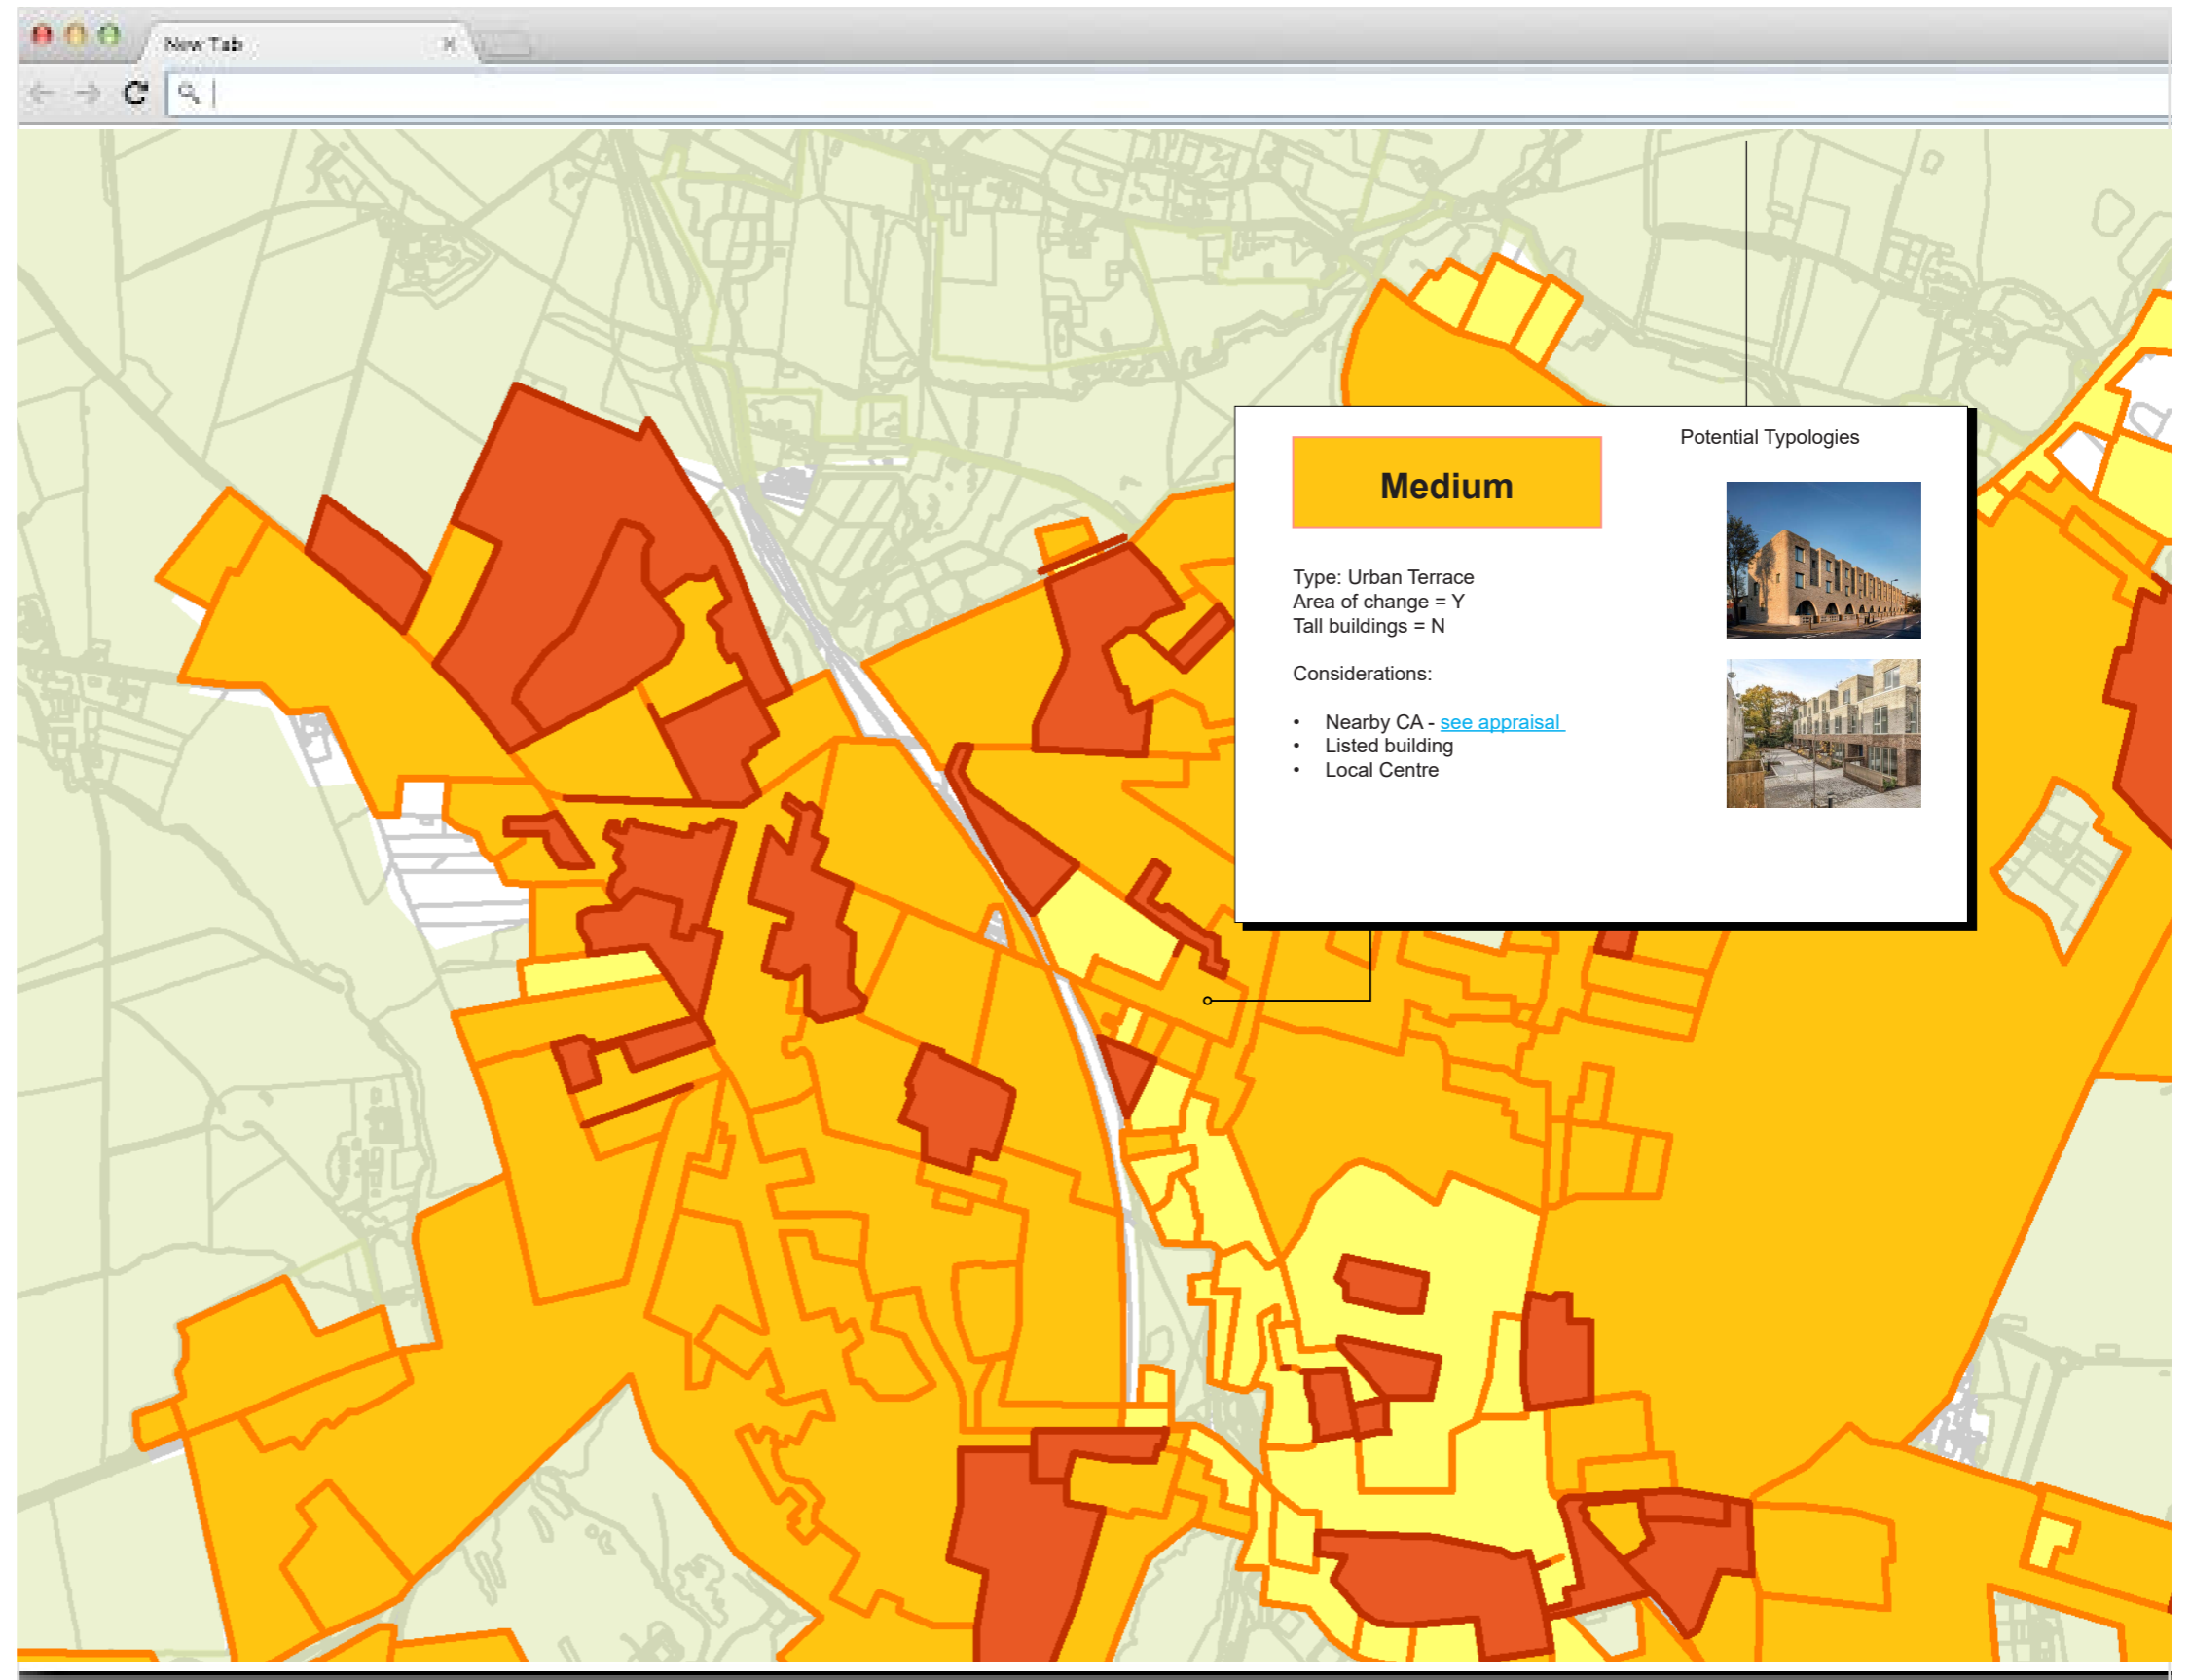

1. Inform growth and design policies in the New Enfield Local Plan.
2. Provide a basis for future SPDs and Design Codes .
3. GIS based, web ready output to be uploaded in a way that is accessible to the public (see across)

Next Steps

4. Consolidate recommendations into web based format as part of local plan accompanying documents

Notes:

5. This document forms recommendations based purely on design and heritage matters and does not take account of specific sites viability or other The local authority will need to consider other material considerations when assessing an application and in the plan making process.

Mock up of potential GIS web based service
