## Executive summary

---

This statement provides a summary of the Regulation 18 Enfield Local Plan 2019-2039 consultation which took place between June and September 2021.

Consultation on the draft Enfield Local Plan took place over a 12-week period, exceeding the statutory minimum and the requirements of the adopted Statement of Community Involvement. The consultation was promoted to the 1,600 subscribers to the Enfield Local Plan consultation database, and a dedicated web page was set up to host key consultation documents and publicise ways to get involved. Insofar as coronavirus arrangements allowed, copies of the draft Enfield Local Plan and key supporting documents were placed in Council libraries.

A digital advertising campaign, encompassing Facebook, Twitter and YouTube, was used to publicise local plan consultation to those who live, work and study in Enfield. The consultation was also promoted extensively in the Council's suite of newsletters. Press adverts were placed in several local newspapers, in English, Greek and Turkish.

In order to engage with 'hard to reach' groups, specific efforts were made to target the south and east of the borough through digital advertising, and a number of voluntary and community groups were specifically targeted for engagement. Particular attention was paid to reaching out to young people, through workshops with Enfield Youth Parliament, Oasis Hadley Academy, Enfield Grammar, and Alan Pullinger Youth Centre.

A number of workshop sessions were held with voluntary groups and businesses throughout the consultation period, including Enfield Sport, Local Estates Forum, Enfield Food Alliance, Friends of Parks, WENTA, and the Enfield Caribbean Association. In addition, drop-in sessions were held at Palmers Green, Ordnance Road, and Edmonton Green.

In total, 7,267 written responses were received, the vast majority (7,098) from individuals. Most responses were received by email, with approximately one third by letter. Of the individual responses received, 87% originated from Enfield postcodes, with 4% from the rest of London, and the remainder from outside London. Most of the Enfield responses received (41%) came from EN2. 18% originated in EN4, 16% from N21, whilst 2% came from N18 and N9.

Most comments received related to housing delivery, the impacts of new development, and the proposed limited release of Green Belt sites. In addition, several proposed site allocations attracted a number of responses. The key themes identified were as follows:

- Support and concerns of the need for additional housing
- Support and concerns of the Appropriateness of preferred housing target
- Support for proposed affordable housing targets
- Concerns around deliverability of affordable housing targets
- Opposition and support for Green Belt release
- Opposition to tall buildings – especially in Enfield Town
- Need to ensure sufficient infrastructure to support the level of growth proposed.
- Support and opposition to Chase Park and Crews Hill policies and site allocations (draft policies PL9 and PL10 and draft Site Allocations SA27 and SA28)

- Loss of large format food stores and associated car parking
- Opposition to the proposed development of Firs Farm Recreation Ground (SA59), Sainsburys Green Lanes (SA32), and Land between Camlet Way and Crescent West, Hadley Wood (SA45).

# 1. Introduction

---

- 1.1 The purpose of this Consultation Statement is to summarise the feedback received response to the 'Enfield Local Plan: Main issues and preferred approaches' consultation document (ELP). This second Regulation 18 consultation ran for a 12-week period between 21 June and 13 September 2021.
- 1.2 This was the third formal consultation on the emerging Enfield Local Plan (a stage known as the "Regulation 18" stage<sup>1</sup>). This builds on the first Regulation 18 stage of consultation in 2015, and the second which ran for a 12-week period between December 2018 and January 2019.
- 1.3 The consultation carried out by the borough complied with the statutory requirements set out in the Town and Country Planning (Local Development) (England) Regulations 2012 (Regulation 18). The report also shows that public involvement was carried out following the approach set out in the Statement of Community Involvement (SCI)<sup>2</sup>. This report has been produced in accordance with Town and Country Planning (Local Development) (England) Regulations 2012 (Clause 22) (1)(c) (i-iv).
- 1.4 This statement provides a summary of consultation responses received for the public stakeholders and interested parties and identifies the key themes that emerged.

---

<sup>1</sup> Regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations 2012.

<sup>2</sup> The SCI guides the approach to consultation stages throughout the preparation of the Local Plan. It sets out how the community should be engaged in the Local Plan process and at what stages that involvement should take place. Furthermore, the consultation and engagement activities have been carried out within the context of paragraph 16 (c) of the National Planning Policy Framework (NPPF) which states that plans should: "be shaped by early, proportionate and effective engagement between plan-makers and communities, local organisations, businesses, infrastructure providers and operators and statutory consultees"

## 2. How we consulted

---

- 2.1 The Statement of Community Involvement (SCI) indicates that the Council will consult on the Regulation 18 Local Plan for a minimum of six weeks. It commits the Council to:
- consult with statutory bodies on the scope of the Integrated Impact Assessment;
  - undertake early engagement with relevant groups and organisations; and
  - carry out the 'duty to co-operate' requirement.
- 2.2 The Town and Country Planning (Local Planning) (England) Regulations 2012 sets out legal requirements for local plan preparation. In preparing a local plan, the regulations (paragraph 18) indicate that a local authority must invite representations from:
- 'General' consultation bodies the LPA considers appropriate. These include voluntary, religious, ethnic, national, business and disabled persons groups;
  - 'Specific' consultation bodies that the LPA considers may have an interest in the subject of the plan. These include the Environment Agency, Natural England and adjoining local authorities (amongst others), as well as
  - 'such residents or other persons carrying on business in the local planning authority's area from which the local planning authority consider it appropriate to invite representations.'
- 2.3 Account must be taken of representations made in response to invitations. The representations received must be addressed in a consultation statement, prepared in line with Regulation 22 of the Act.

### Promotion of the consultation

- 2.4 Consultation ran for a 12-week period from 21st June to 13th September 2021. This significantly exceeded the minimum 6-week period that was required by the Council's adopted Statement of Community Involvement.
- 2.5 The approach to publicity built on and exceeded minimum statutory obligations and the requirements of the Statement of Community Involvement.
- 2.6 At the outset of the consultation period, 1,600 subscribers to the Council's local plan database were notified of the consultation opportunity by email and letter. This was followed up by a 'reminder' on 2nd August. The Council's plan making team's mailing list consists of local residents, businesses, developers and agents who have expressed an interest in receiving planning-related updates from the Council, as well as 'specific' consultation bodies set out in the 2012 act (also known as 'statutory consultees').
- 2.7 The Town and Country Planning (Local Planning) (England) (Coronavirus) (Amendment) Regulations 2020 temporarily removed the requirement to make paper copies of planning documents available 'on deposit' at libraries.
- 2.8 Despite this, the Council were mindful of the need to engage with residents who are digitally excluded, or who feel more comfortable dealing with printed rather than digital materials.
- 2.9 Copies of the draft ELP, draft Policies Map, Integrated Impact Assessment, Habitat Regulations Assessment, Whole Plan Viability Study, Infrastructure Delivery Plan,

Chase Park and Crews Hill Placemaking Studies, Housing Topic Paper, Employment Topic Paper, and Growth Topic Paper were placed in libraries for public view.

- 2.10 The documents were placed in the four hub libraries of Edmonton Green, Enfield Town, Palmers Green and Ordnance Unity Centre, as well as the community libraries of Bullsmoor, Enfield Highway, Enfield Island Village, Fore Street, John Jackson, Oakwood, Ridge Avenue, Winchmore Hill, and Bowes Road. These libraries are those which had, at the time of consultation, reopened as part of the relaxation of coronavirus regulations.
- 2.11 The consultation was publicised prominently on the Council's website, and a dedicated web page [www.enfield.gov.uk/enfieldlocalplan](http://www.enfield.gov.uk/enfieldlocalplan) provided key consultation documents and publicised ways to get involved. The consultation webpage was kept up to date throughout the consultation period with information about drop-in sessions and new resources (such as the local plan errata). Paper copies of the draft ELP and evidence base documents were also made available to purchase by the public.
- 2.12 The consultation was publicised throughout the consultation period on the Council's consultations webpage <https://new.enfield.gov.uk/consultations>, highlighting ways of responding.
- 2.13 A digital advertising campaign, encompassing Facebook, Twitter and YouTube, was used to publicise local plan consultation to those who live, work and study in Enfield. The campaign was targeted to encourage proportionate responses across age groups and wards and to try and ensure that all sectors of Enfield's communities were reached.
- 2.14 The main Facebook advert reached 64,000 people and resulted in 5,115 web visits from a borough-wide audience.
- 2.15 The Twitter advert reached 39,000 people, resulting in 707 web visits.
- 2.16 Web banner advertising on a wide variety of popular sites resulted in 206 web visits during the launch phase, and 156 web visits during the final weeks of the consultation window.
- 2.17 In addition to paid advertisements, organic social media posts were used to further embed key messaging on the scope and ambitions of the draft Enfield Local Plan, and to signpost readers to ways of getting involved. Organic posts were used on LinkedIn, Twitter and Facebook.
- 2.18 'Out of home' advertising was used to communicate the details of the consultation to audiences physically located throughout the borough. This included 17 large format advertisements were placed throughout the borough, and 700 posters were displayed by local businesses.
- 2.19 The draft ELP consultation was promoted extensively in the Council's suite of newsletters. These communicated key messages and ways to get involved to a range of residents and specialist stakeholders. The newsletters included:
  - News from the Council (50,382 subscribers). Stories featured on 24th June and 5th August, banners ads on 8th and 23rd July, and 2nd September. These resulted in 1,225 clicks through to the consultation platform;
  - Have Your Say (9,266 subscribers). Stories on 2nd July and 7th September resulted in 551 clicks through to the consultation platform;

- Improving Enfield (12,070 subscribers). A story featured on 10th August resulted in 464 clicks through to the consultation platform;
- Stories and banner ads also featured in Enjoy Enfield, Health and Wellbeing, Job and Training, Information for Young People, Improving Enfield, Volunteering in Enfield, and Information for Local Businesses;
- Press adverts were placed in several local newspapers, in English, Greek and Turkish. The adverts appeared in:
  - o Enfield Independent
  - o Avrupa
  - o Parikiaki
  - o Edmonton Green Magazine
  - o Housing News

2.20 Two press releases were used to disseminate key information to media outlets:

- 'Take part to help develop Enfield's future', issued on 21 June; and
- 'Enfield's plan to become the green heart of London and increase opportunities for all', issued on 2nd July.

2.21 Press engagement was evident in stories in Avrupa, Parikiaki, and Enfield Dispatch.

2.22 A total of 130,000 mailshots were printed and delivered to every household in the borough in mid-August which summarised key challenges and proposed approach taken by the draft ELP.

2.23 Efforts to promote the draft ELP consultation resulted in 16,400 visits to the Let's Talk platform. This is double the number of visits to the consultation platform as compared to the previous draft Local Plan consultation in 2018-19.

2.24 Visits to the Enfield Local Plan website <https://www.enfield.gov.uk/enfieldlocalplan> totalled 10,200 during the consultation period.

## **Hard to reach groups**

2.25 A key aim of the draft ELP consultation was to reach out to 'hard to reach' groups. Some residents may be harder to reach because of disadvantage, disempowerment, and other barriers.

2.26 The digital advertising campaign was targeted at the south and east of the borough, to better reach residents traditionally less likely to engage with Council consultations.

2.27 We also liaised with the third sector development officers within the Council to understand how best to engage. Drawing on existing relationships and contacts held within the Council, 97 groups were identified, encompassing a range of voluntary and community groups active in Enfield. These included groups whose activities focus on ability, faith, ethnicity, education, health and wellbeing activities. The groups were approached to see if they would like to disseminate details of the draft ELP consultation to their networks, and to offer the opportunity of a presentation and Q&A at their meetings so planning officers could provide an overview of the ambitions and scope of the draft ELP and answer questions.

2.28 In addition, the Council approached local sports organisations to try and reach younger age groups. This included Enfield Sport, Middlesex County Cricket Club and Middlesex Football Association.

2.29 As the draft ELP sets out a far-reaching strategy for the coming decades, particular attention was paid to engaging with young people to understand their priorities for the future of the borough. A multi-stranded approach was taken, encompassing:

- Enfield Youth Parliament – an initial ‘visioning’ session was followed up with a further session on the content of the draft Plan;
- Oasis Hadley Academy – session with sixth form geography students;
- Enfield Grammar – session with Year 10 Student Council; and
- Youth Centre Session – with members of Enfield’s youth leadership group.

### Consultation workshops

2.30 A number of consultation workshops were held throughout the consultation period. A flexible approach was adopted to meet the needs of the consultees and the evolving coronavirus situation.

2.31 Many groups had adapted to the Government’s social distancing requirements by convening online meetings. Presentations given at these sessions followed the format of a brief introduction to the draft ELP, highlighting the need for a plan, main challenges and opportunities, and key themes. This was followed by a Q&A which provided an opportunity for a more wide-ranging discussion. Where in-person sessions were permitted, a more tailored approach was followed.

2.32 The following table provides a summary of draft ELP workshops undertaken as part of Local Plan consultation:

**Table 2.1:** Local Plan engagement workshops

Workshops	Method of engagement	Date
Enfield Youth Parliament pre-consultation engagement <sup>3</sup>	Online	09/02/2021
Oasis Hadley Academy	In-person	01/07/2021
Enfield Grammar year 10 student council	In-person	14/07/2021
Enfield Sport AGM	In-person	15/07/2021
Youth Centre session	In-person	19/07/2021
Overview and Scrutiny Committee	In-person	20/07/2021

<sup>3</sup> A pre-consultation engagement session was held with Enfield Youth Parliament on key priorities for the new Local Plan.

<b>Workshops</b>	<b>Method of engagement</b>	<b>Date</b>
Environment Forum - workshop	In-person	27/07/2021
Local Estates Forum	Online	27/07/2021
Enfield Food Alliance	Online	28/07/2021
Enfield Faith Forum	Online	28/07/2021
Friends of Parks and VCS	Online	03/08/2021

Industry in Enfield workshop - agents, landowners and developers	Online	07/09/2021
Enfield Caribbean Association	Online	09/09/2021
Industry in Enfield workshop - businesses	Online	09/09/2021
Enfield Youth Parliament	Online	20/09/2021

## **Drop-in sessions**

- 2.33 In addition, drop-in sessions at local libraries and an outdoor community event were held during the consultation period to allow residents and other interested persons to view the draft Local Plan and supporting evidence, ask questions to Council officers, and share their views.
- 2.34 The drop-in sessions could only be arranged after coronavirus regulations were amended in the summer, as libraries' risk assessments indicated that public consultations could not be held in libraries until restrictions were lifted.
- 2.35 Three locations were chosen to encompass a large geographical area, providing good coverage of the borough. Sessions were held at Palmers Green Library, Ordnance Unity Centre Library, and Edmonton Green (part of the 'Month of Sundays' event). The catchments of Palmers Green, Ordnance Road and Edmonton Green events together cover a large geographical area of the borough. Residents were free to attend any of the events, and no one was excluded.
- 2.36 As the events were drop-in sessions a register was not taken. The drop-in session format enabled members of the public to turn up without an appointment and engage

in informal dialogue with officers and other visitors. However, a tally of visitors was taken:

- approximately 40 attendees for the morning and evening sessions at Palmers Green Library on 17 August;
- approximately 30 attendees for the Edmonton Green 'Month of Sundays' event on 22 August; and
- 35 attendees for the morning and evening sessions at the Ordnance Unity Centre on 26 August.

## How people could comment

2.37 In addition to sharing their views at workshops and drop-in sessions, individuals and organisations had three main ways to share their views:

- **By email** to: [localplan@enfield.gov.uk](mailto:localplan@enfield.gov.uk). Email representations were acknowledged and logged, and redacted versions are available on the Council's website;
- **By post** to: Strategic Planning and Design, Enfield Council, FREEPOST NW5036 EN1 3BR. Postal responses were acknowledged and logged, and redacted versions are available on the Council's website; and
- Through a bespoke consultation platform <https://www.letstalk.enfield.gov.uk/localplan> set up to allow stakeholders to express their views.

2.38 A summary of consultation responses can be found in Appendix A.

2.39 The technical evidence base documents which supported Local Plan development were made available to view on the Council's website at <https://new.enfield.gov.uk/services/planning/evidence-base/>. In addition, several 'topic papers' covering the key issues of Growth, Housing, Employment, Chase Park and Crews Hill were made available.

2.40 An errata was published on 4 August 2021 to correct eight minor omissions and typographical errors. This was made available on the Council's website <https://new.enfield.gov.uk/services/planning/errata-to-the-enfield-local-plan-issues-and-preferred-approaches-planning.pdf> The errata note was also distributed to libraries.

2.41 The Local Plan was written in plain English, limiting insofar as possible the use of jargon and technical terms. A glossary was prepared to define technical terms where their use could not be avoided.

### 3. Responses to the consultation

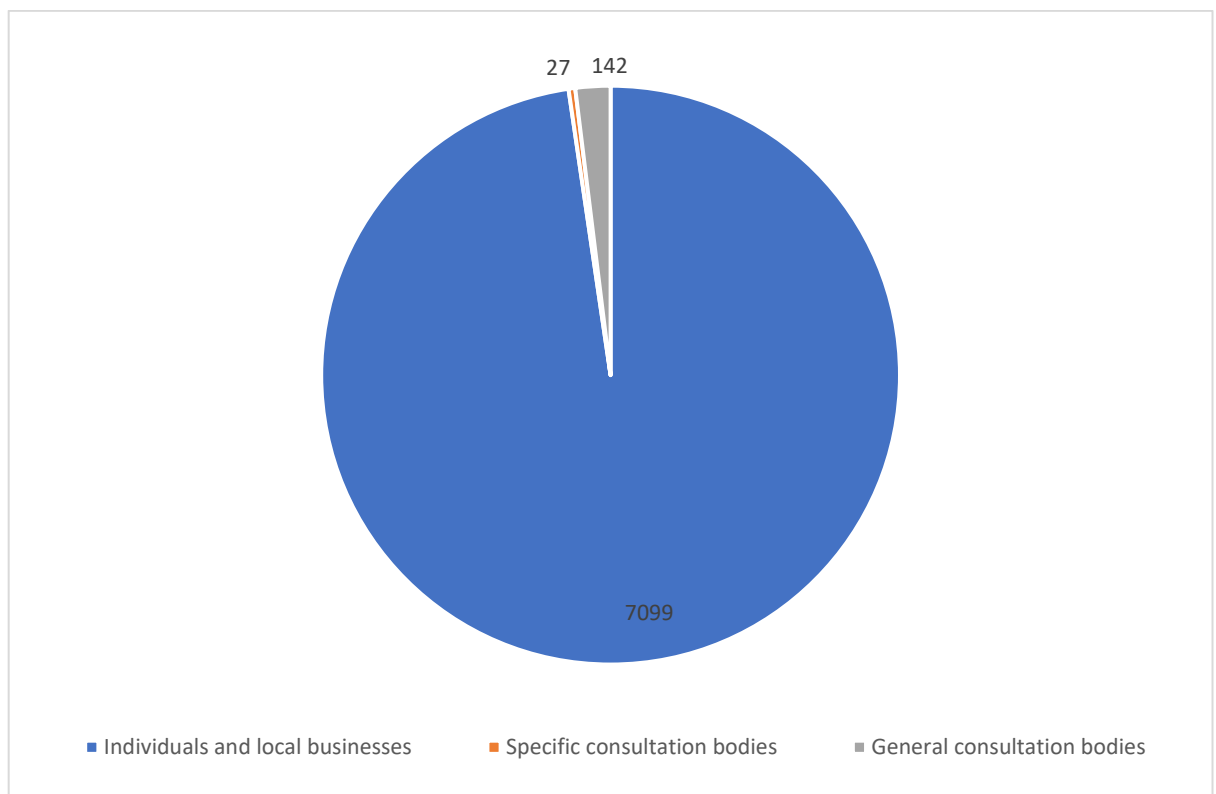

---

3.1 This section summarises the main feedback from respondents to the draft Local Plan consultation. A more detailed summary of responses received, broken down by policy area, is available in Appendix A.

3.2 A total of **7,268** responses were received and a breakdown of representations by consultee types is as follows:

- **7,099** from individuals and local businesses;
- **27** from 'Specific' consultation bodies, also known as 'statutory' consultation bodies, including adjoining local authorities and national agencies such as the Environment Agency and Natural England; and
- **142** from 'General' consultation bodies, such as local voluntary and amenity groups:

**Figure 3.1:** Representation received by consultee type

3.3 In terms of the method by which representation were made, the vast majority of responses were received by email (**4,620**), followed by post (**2,363**) and the online Let's Talk platform (**285**).

**Figure 3.2:** Method of representation

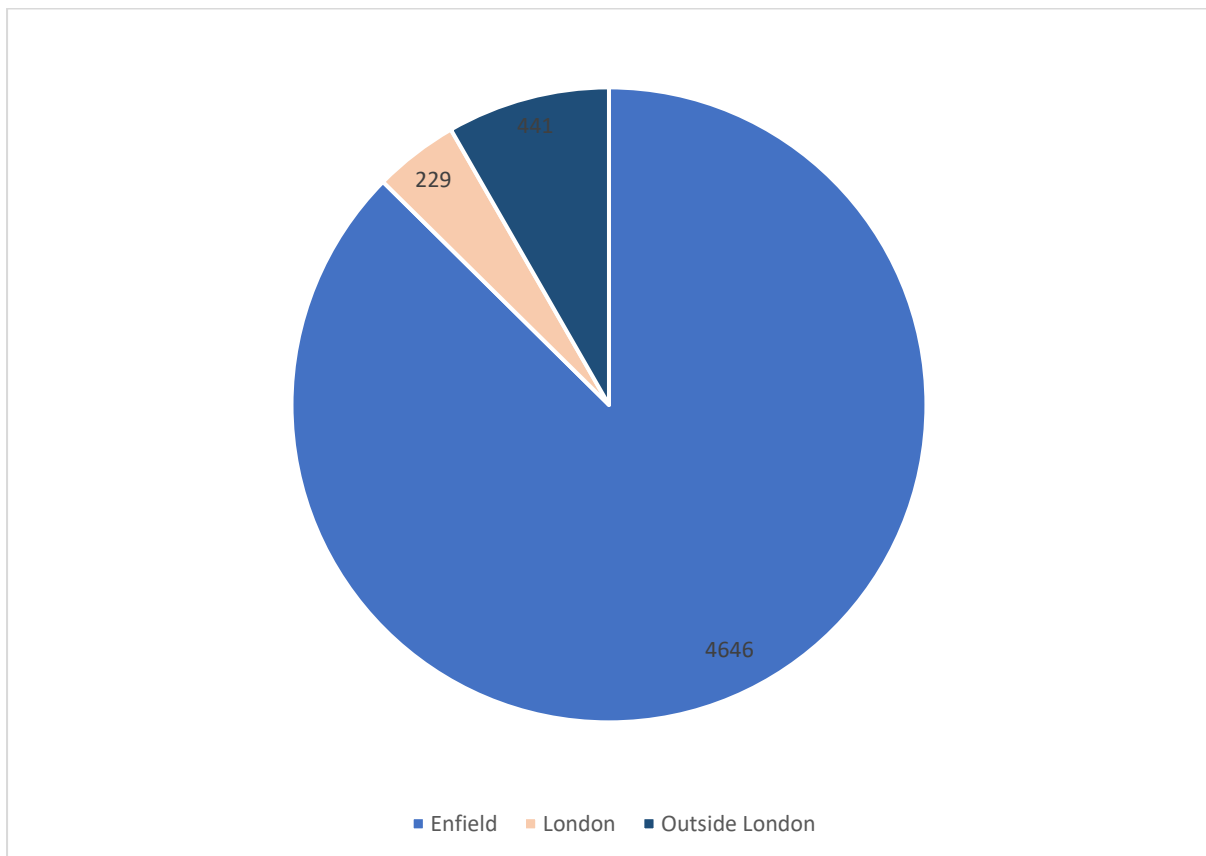

3.4 Representors were not obliged to provide their address details when making reps. For this reason, a comprehensive breakdown of the origin of all responses is not possible. However, approximately three quarters of individuals and local businesses who responded did include their address details, totalling **5,316**.

- 87% originated from 'Enfield'<sup>4</sup> postcodes.
- 4% came from the rest of London.
- 8% came from outside of London.

<sup>4</sup> As postcode boundaries do not map neatly onto local authority administrative boundaries, the following postcodes have been taken to comprise Enfield postcodes – EN1, EN2, EN3, EN4, N9, N11, N13, N14, N18, N21.

**Figure 3.3:** Origin of responses

**3.5** In terms of Enfield responses received:

- 41% originated from EN2
- 18% originated in EN4
- 16% originated from N21
- Approximately 2% originated from N18 and N9.

**Figure 3.4:** Breakdown of Enfield responses

3.6 The large majority of comments were related to housing delivery, the potential impacts of new development and proposed limited release of Green Belt sites. In addition, several proposed site allocations attracted a number of responses. The key themes identified were as follows:

- Support and concerns of the need for additional housing
- Support and concerns of the appropriateness of preferred housing target
- Support for proposed affordable housing targets
- Concerns around deliverability of affordable housing targets
- Opposition and support for Green Belt release
- Opposition to tall buildings – especially in Enfield Town
- The need to ensure sufficient infrastructure to support the level of growth proposed
- Support and opposition to Chase Park and Crews Hill policies and site allocations (draft policies PL9 and PL10 and draft Site Allocations SA27 and SA28)
- The loss of large format food stores and associated car parking
- Opposition to the proposed development of: Firs Farm Recreation Ground (SA59), Sainsburys Green Lanes (SA32), and Land between Camlet Way and Crescent West, Hadley Wood (SA45).

3.7 These key feedback themes are summarised in table 3.1 below.

**Table 3.1:** Summary of comments by theme

Theme <sup>5</sup>	Summary of comments
<p>Support and concerns of the need for additional housing</p>	<p>Support from respondents for housing development and the ambition to meet Enfield’s housing needs. However, quantitative assessments of need were questioned, in particular noting the possible impacts of Brexit and the Covid-19 pandemic.</p> <p>Concerns from respondents about the negative impacts of the addition of new homes on the character of the borough, specifically the pleasant and quiet environment of many parts of Enfield.</p> <p>On the other hand, several respondents welcomed the prioritisation of well-connected brownfield sites (i.e. urban placemaking areas), as these would deliver benefits (including crime reduction) resulting from greater residential population.</p> <p>Several respondents suggested alternative locations which could accommodate more homes – including redundant commercial sites and Meridian Water.</p> <p>Benefits arising from an increased supply of new homes were raised by several – including a reduction in the number of households being forced to rent, reduction in households in temporary accommodation, greater ability for local people to stay in the borough, increased housing choice, reduction in waiting lists, and benefits for young people.</p>
<p>Support and concerns of the appropriateness of preferred housing target</p>	<p>Support from a wide range of organisations for the preferred option of delivering 25,000 new homes.</p> <p>However, concerns were also expressed from respondents that the plan’s housing target does not meet the requirements of the Government’s Standard Methodology and questioned whether the plan is ‘sound’ as a consequence.</p> <p>Similarly, some support from respondents was expressed for a higher target, given significant housing needs and historic Housing Delivery Test (HDT) results. Related to this, some respondents flagged implications of Enfield not meeting housing needs on neighbouring local authorities.</p>

<sup>5</sup> As set out in paragraph 3.6

Theme <sup>5</sup>	Summary of comments
	<p>Suggestions were made by respondents that an intermediate housing target option between 25,000 homes and 55,000 homes should have been tested through the Sustainability Appraisal process to ensure all reasonable alternatives had been considered.</p> <p>Some respondents argued that the proposed approach to setting the housing target did not comply with the approach set out in London Plan (2021) paragraph 4.1.11.</p> <p>Other respondents argued that that Covid-19 and Brexit would affect future population growth, with implications for the preferred housing target.</p>
Support for proposed affordable housing targets	<p>There was widespread support for building more affordable homes to tackle homelessness and wealth divides, and for securing at least 50% of new homes as genuinely affordable.</p> <p>Several respondents argued that new development should not 'price out' local people, and as a consequence welcomed the 50% affordable housing target.</p> <p>Specific support was expressed by respondents for the affordable housing target on Green Belt sites.</p>
Concerns around deliverability of affordable housing targets	<p>Several respondents raised concerns that residential development on Green Belt sites and Meridian Water would not provide sufficient provision of affordable housing.</p> <p>Some respondents expressed support for a more 'realistic' target to be stringently enforced.</p> <p>Several respondents raised the issue of viability and the need for flexibility when it comes to affordable housing requirements.</p> <p>Some respondents cautioned that affordable housing aspirations should be balanced against site specific circumstances, including the need for development to secure wider community benefits.</p>

Theme <sup>5</sup>	Summary of comments
<p>Opposition and support for Green Belt release</p>	<p>Strong support from respondents was expressed for a 'brownfield first' approach, only using Green Belt sites as a last resort. However, several respondents questioned whether enough had been done to fully exploit the potential of brownfield sites.</p> <p>Mixed views were expressed by respondents on whether housing need represents an exceptional circumstance for the release of Green Belt sites.</p> <p>Some respondents argued for alternative spatial strategy approaches to meet housing targets, including residential development on redundant industrial sites.</p> <p>Some support was expressed by respondents for limited release of Green Belt sites, with those that are well used or have nature conservation value safeguarded from development.</p> <p>However, many respondents objected to the release of any Green Belt sites. Several respondents highlighted that many sites proposed for release in the draft Local Plan form part of the historic Enfield Chase, a rare and valuable landscape asset.</p> <p>There were several respondents suggesting the Green Belt sites selected for release represented unsustainable locations for development. Many respondents pointed to the tensions between the 'deeply green' vision for Enfield and proposals to develop Green Belt sites.</p> <p>Several respondents highlighted negative impacts resulting from the loss of Green Belt sites on the 'character and charm' of Enfield, with harmful visual and landscape impacts.</p> <p>Several respondents also highlighted the value of Green Belt sites to biodiversity, climate change mitigation, and recreation (including mental and physical health benefits). Some argued specifically that development of high-quality countryside land should be avoided.</p> <p>Conversely, criticism was made by some respondents for the lack of greater ambition in terms of Green Belt release. Housing affordability was cited as a justification for greater Green Belt release to deliver housing.</p>

Theme <sup>5</sup>	Summary of comments
	Several respondents raised the need for a fairer distribution of new development across the borough, arguing that areas such as Crews Hill and the outer reaches of the borough should be prioritised rather than overcrowding districts like Edmonton and Ponders End.

## **4. Next steps**

---

- 4.1 The responses to consultation received will inform the future stages of Local Plan development. These steps are set out in detail in the Council's adopted Local Development Scheme.

## A. Appendix A: Detailed summary of main issues

1. A number of events were held to elicit responses from a wide range of Enfield's communities, as set out in section 2 of this statement. This section summarises the wide range of responses received at the following engagement sessions.

**Table A.1:** Engagement sessions

When	Sessions
1 July 2021	Oasis Hadley Academy workshop session
19 July 2021	Alan Pullinger Youth Centre workshop session
15 July 2021	Enfield Sport Annual General Meeting
22 November 2021	Environment Forum
28 July 2021	Enfield Faith Forum workshop
3 August 2021	Friends of Parks and Voluntary Sector Strategy Group workshop
18 August 2021	Customer Voice workshop
17 August 2021 (am)	Palmers Green library drop in
17 August 2021 (pm)	Palmers Green library drop in
17 August 2021	Wenta business workshop
22 August 2021	Edmonton Green – street stall at 'Month of Sundays' event
26 August 2021 (am)	Ordnance Unity library drop-in
26 August 2021 (pm)	Ordnance Unity library drop-in
9 September 2021	Enfield Caribbean Association workshop
7 September 2021	Industrial landowners, developers and agents' workshop
9 September 2021	Industrial businesses workshop
20 September 2021	Enfield Youth Parliament workshop

2. The key issues raised by participants are summarised below.

**Table A.2:** Key issues raised

Issue	Summary
General	<ul style="list-style-type: none"> <li>- Reduction in east-west disparities in all respects – housing, greening and economic opportunities.</li> <li>- Achieving growth whilst safeguarding the environment and delivering energy efficient sustainable buildings.</li> <li>- Support for accommodating as much growth as possible in urban areas, whilst safeguarding the character of towns.</li> <li>- Danger in concentrating growth in the east of the borough which could create a poor environment. Growth should be spread more evenly throughout the borough.</li> <li>- Existing communities in regeneration/ placemaking areas should not lose out.</li> <li>- Support for maximising growth opportunities at Meridian Water.</li> </ul>
Housing	<ul style="list-style-type: none"> <li>- Support for Enfield as a place of future opportunity, including the provision of more and affordable housing to facilitate this.</li> <li>- Tackling the housing crisis should be a priority. Need for new homes to address local needs, rather than for the wealthy. Family housing – units with 3 or more beds – should be provided.</li> <li>- Need for new housing to be properly supported by infrastructure.</li> </ul>
Green Belt	<ul style="list-style-type: none"> <li>- Concerns raised about developing homes at Crews Hill and Green Belt release more generally.</li> <li>- Support for protecting the Green Belt, with greenfield development as the last resort.</li> <li>- If parts of the Green Belt are developed, affordable housing should be prioritised.</li> <li>- Need to ensure that any development in Green Belt areas is properly served by infrastructure, including transport infrastructure.</li> </ul>
Climate change	<ul style="list-style-type: none"> <li>- Imperative to address climate change a key challenge.</li> <li>- Development should be designed to address the risk of overheating, prioritise reuse of materials.</li> <li>- Need to ensure housebuilding does not have a negative environmental impact.</li> </ul>

Issue	Summary
	<ul style="list-style-type: none"> <li>- Potential flooding impacts of new development need to be considered.</li> </ul>
Character	<ul style="list-style-type: none"> <li>- Need for development to reflect existing character, as growth could bring issues with height and loss of greenery. Need to densify in ways which respects character.</li> <li>- Opportunities for delivering density without towers should be explored.</li> <li>- Support for considering heritage in its built, landscape, social and environmental forms.</li> </ul>
Economy	<ul style="list-style-type: none"> <li>- Need to support job opportunities for young people in a range of sectors.</li> <li>- Support for providing sufficient space for businesses coming into the borough.</li> <li>- Employment opportunities should be provided close to home to reduce the need to travel.</li> </ul>
Green spaces	<ul style="list-style-type: none"> <li>- Support for green space preservation and improvements to biodiversity.</li> <li>- Existing and new green spaces should be multifunctional, including sports facilities and biodiverse planting.</li> </ul>
Leisure	<ul style="list-style-type: none"> <li>- Welcome recognition for sports and recreation, but more could be done with regards to laying pitches and community sport.</li> </ul>
Transport	<ul style="list-style-type: none"> <li>- Support for active travel and car free development.</li> <li>- East west movement in Enfield is difficult and needs to be improved.</li> </ul>
Community	<ul style="list-style-type: none"> <li>- Health-related elements of the plan could be improved, especially since the pandemic has highlighted health inequalities.</li> <li>- Need for more community spaces for existing residents, and community space needs to be planned into new developments from the outset.</li> </ul>

3. Whilst a summary of issues raised has been provided above, comprehensive notes were taken at all sessions, and this feedback has been taken into consideration in revising the draft ELP.
4. The following table summarises the key themes emerging from each of the policies and proposals contained in the ELP.

5. We have grouped responses to reflect the structure of consultees in our Statement of Community Involvement (SCI):
- **Specific Bodies (Statutory)** – these are the bodies that we are bound to work together with by the Duty to Cooperate, the National Planning Policy Framework and also any locally prescribed bodies
  - **General bodies / other organisations** - these include but are not limited to, voluntary organisations representing certain groups within the community, environmental groups, local residents' associations, landowners and housebuilders
  - **Wider Community** - this category includes those who live, work or visit the Borough, who are making comments relating to their own personal views and are not responding on behalf of an organisations.

**Table A.3:** Summary of main issues and how representations have been taken into account – Chapter 1

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
Introduction	<p>Comments were received from the wider community only.</p> <p>The focus of response is for more clarification over what makes policies strategic where others are not.</p> <p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comments noted related to this section.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• No comments noted related to this section.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Section 1.28 and table 1.1: The section could benefit from an explanation as to why certain policies are deemed strategic whereas other are not.</li> <li>• Section 2.2 of the ELP needs to recognise the need for Intra Enfield Connectivity – how residents in all parts of the Borough can access the various facilities – by roadside walking, pedestrian paths, cycleways and an extensive bus network. As well as highlighting how Enfield can connect to Central London, focus should be made of how all Enfield’s residents can share what it has to offer.</li> </ul>	<p>The approach is set out in paragraph 1.22.</p> <p>Noted. Section 2.2 sets out the context, whilst policies in the movement and connectivity section of the plan have been updated to recognise that transport is not only a driver and a maker of economic development but also acts as catalyst, connecting individuals and communities, facilitating access to job opportunities and enabling businesses to connect to goods and markets, both within</p>

		London and the wider sub-regional marketplace.

**Table A.4:** Summary of main issues and how representations have been taken into account – Chapter 2: Good Growth in Enfield

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
Section 2.1: Spatial portrait	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Greater London Authority (GLA) noted that Chapter 2 of the draft plan provides excellent contextual description of the borough and background for the plan. GLA indicated that objectives within Table 2.1 (of the ELP) align well with many of the Mayor’s Good Growth objectives, including GG1, building strong and inclusive communities, and GG3, creating a healthy city.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Some developers suggested that the draft plan should include a reference to recreation and health, such as “Support a wide range of sports and recreational developments, especially innovative and regionally important facilities as these will enhance opportunities and health outcomes”</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>The wider community mentioned that the draft plan needs to acknowledge important strategic proposals in South East England such as the Oxford to Cambridge arc. Schemes such as this have important implications for Enfield and London. Implications of these proposals on population</li> </ul>	<p><b>Comments welcomed.</b></p> <p>Comments welcomed and addressed through revisions to Policy CL4: Promoting Sporting Excellence/</p> <p>We acknowledge the importance of such schemes and their potential implications for Enfield and London as a whole. We recognise the need to thoroughly understand the implications of these proposals on population projections used in the plan. To address</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>projections used in the plan should be understood and various scenario-based models should be constructed to model their impact on current population projections and housing need.</p>	<p>this concern, the plan's various scenario-based models accurately capture the potential impact of these proposals on current population projections and housing need, where appropriate.</p>
<p>Section 2.2: Key spatial issues</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>No comments noted related to this section.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Resident/businesses provided support for Figure 2.2 on the need to provide a range of housing to ensure that new and improved infrastructure is delivered to support the population increases and to preserve character areas and heritage and historic assets.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>Respondents commented that the document is ambiguous in relation to potential development within the Green Belt. For example, it was noted that a developer has already created plans for over 5,500 homes for the site at Vicarage Farm in anticipation that the area will be released.</li> <li>Respondents commented that the plan states what planners believe could be built within the life of the plan, not what individual sites could eventually deliver. It was noted that there is an obvious disconnect between the two which would strongly suggest that the release of such sites on the scale proposed is not required. This disconnect impacts all the sites proposed for development within the whole plan. If</li> </ul>	<p>Noted.</p> <p>Comments welcomed. It is important to note that the emerging Local Plan aims to strike a balance between addressing housing needs and protecting the Green Belt. Regarding the specific example of Vicarage Farm, while a developer may have proposed plans for over 5,500 homes in anticipation of potential release, it's essential to emphasise that no decisions have been finalised on this matter. Any potential development within the Green Belt will be subject to rigorous assessment and scrutiny in line with planning policies, taking into account various factors including environmental impact and community feedback.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>the non-Green Belt sites can deliver more homes once built out, that of itself seriously challenges the document's argument for Green Belt release.</p> <ul style="list-style-type: none"> <li>• Respondents commented that despite opposing all de-designation proposals for sites within the Green Belt calls for greater transparency in relation to the number of homes these sites will deliver, not just the number within the plan period.</li> </ul>	<p>There is the aim is to ensure alignment between the planned housing targets and the actual deliverable homes from each site. We are committed to enhancing transparency in this regard and will work towards bridging this gap to provide a more accurate representation of future housing provision within the plan period.</p> <p>More information is set out in the Site Allocation Topic Paper regarding the approach taken to allocate sites.</p>
Section 2.3: Spatial vision and objectives	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Hertsmere Council supported Enfield as a 'deeply green place'.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Strong support for several aspects of the vision and strategic objectives, in particular: <ul style="list-style-type: none"> <li>– SEGRO and Epping Forest Conservators support Enfield as a 'deeply green place'.</li> <li>– The Barnet Society supported the principle of using good design to create connected walkable communities, 50% affordable housing, ensuring new homes are supported by high quality infrastructure.</li> </ul> </li> </ul>	<p>Comments noted.</p> <p>Objective 11 amended to reference protection of EFSAC habitats (in response to comment from City of London - Conservators of Epping Forest).</p> <p>Vision has been updated following recommendations set out in the IIA. Slight amendments to the wording have been made to closely align with the Council's Plan.</p> <p>The Vision is an overarching, aspirational statement. Further details to help give effect to the vision are included in the Strategic Objectives.</p> <p>The emerging Local Plan identifies key challenges such as housing affordability, sustainable</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>– Some organisations pointed for minor changes for example the inclusion of Monken Hadley Brook on flooding and Strategic Objective, referring to regenerating industrial estates in economy Strategic Objectives.</li> <li>– There were also several minor suggestions for changes to policies map/ key diagram.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Need to specify the ‘unique challenges’ the borough faces.</li> <li>• Local Plan contents does not match its vision – namely, because of the proposed release of Green Belt.</li> <li>• Opportunity to embed Healthy Streets approach more widely rather than just in new developments.</li> <li>• Option of high-density housing around transport hubs as an alternative to Green Belt release should be explored more thoroughly.</li> <li>• The community noted that the plan sketches a vision where people will work from home and will not need to commute into London, which was felt not a realistic image.</li> <li>• It was noted that there should be a single strategic objective for housing</li> <li>• The community noted that it is wrong to set a firm plan for 18 years as things change and predictions will invariably be wrong. It was suggested that there should be a staged</li> </ul>	<p>development, and infrastructure provision. These challenges are clearly articulated and addressed throughout the plan.</p> <p>There is acknowledgment of concerns regarding the alignment of the plan contents with its vision, particularly concerning the proposed release of Green Belt. Efforts have been made to ensure coherence between the vision and plan contents, balancing housing and economic growth with environmental protection.</p> <p>Suggestions to embed the Healthy Streets approach more widely are noted. The plan emphasises sustainable development principles, including promoting active travel and improving street environments, which will be further integrated across the borough.</p> <p>Suggestions to explore high-density housing around transport hubs as an alternative to Green Belt release are appreciated. All options, including high-density developments, have been thoroughly considered and assessed to ensure a balanced approach to meeting housing needs while preserving green spaces.</p> <p>Concerns regarding the realism of the vision of people working from home are acknowledged. The plan will reflect the evolving nature of work and commuting preferences within the community.</p> <p>Recognising the value of having a single strategic objective for housing, efforts will be made to provide</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>approach with an opportunity to review again particularly relevant given likelihood of government planning reform.</p>	<p>clarity and coherence in the housing strategy to address the diverse needs of the community.</p> <p>Suggestions for a staged approach with opportunities for review are noted. A flexible planning approach will be adopted to allow for periodic reviews and adaptations, ensuring the plan remains relevant and effective amidst changing circumstances.</p>
<p>Policy SS1: Spatial Strategy</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Broad support from developers and statutory consultees on the preferred option (25,000 homes). It was noted that the approach accords with the Government’s objective to significantly boost the supply of homes as well as London Plan paragraph 4.1.11 in terms of setting housing requirements beyond 2029.</li> <li>• Most neighbouring authorities were supportive of the plan’s preferred strategy seeking to provide 25,000 homes to 2039, by rolling forward the London Plan requirement to 2039.</li> <li>• Welwyn Hatfield District Council raised concerns that rolling forward the London Plan requirement will result in an undersupply. Any undersupply would result in an increase in London’s growing backlog of unmet housing need. It would also drive increased levels of out-migration to surrounding areas. Welwyn Hatfield considers the Spatial Strategy should reflect the Enfield housing requirement in</li> </ul>	<p>Support and comments noted. The spatial strategy sets out areas for regeneration consistent with the London Plan and based on local evidence.</p> <p>Comments on the differing scenarios and growth strategy are noted. Amendments have been made to reflect growth and development in the borough to improve accessibility and optimise the use of land, promote development in areas which are well connected.</p> <p>In response to public consultation feedback on the Regulation 18 plan, it is considered necessary to update Policy SS1 to ensure conformity with the London Plan, in particular taking into account the approach set out in paragraph 4.1.11.</p> <p>The Borough has carefully considered potential areas for Green Belt release, carefully weighing the Green Belt harm and other associated harm, against the strategic case for more family and affordable homes and/or employment land delivery. The results of this</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>full by adopting the high growth option and is unlikely to be sound if it does not.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Some developers recognised the Council has clearly demonstrated that exceptional circumstances do exist for amending Green Belt boundaries. In particular, meeting housing needs is an exceptional circumstance justification to review the Green Belt, but this is compounded within LB Enfield given the nature of housing need – both in the Borough and across London – including acute affordability pressures and the need to deliver family homes (which becomes difficult/impossible within a spatial strategy that is overly focused on delivering urban intensification via high density redevelopment within the existing urban area).</li> <li>There were mixed views on proposed future SIL extension in Southbury from landowners. Goodman Logistics Development UK Ltd stated their strong support for this, whilst the Universities Superannuation Scheme offered a dissenting voice, arguing for future flexibility.</li> <li>There was general support for a new Local Plan, and it was accepted that the need to build a reasonable number of new sustainable and affordable properties in the borough. However, it was noted that the plan gives inadequate thought to the pressures on crucial local infrastructure requirements, development in the Green Belt is not sustainable and does not preserve local character and/or heritage.</li> </ul>	<p>assessment can be found in the Exceptional Circumstances Topic Paper</p> <p>Further rationale on the selection of sites can be found in the Site Selection Topic Paper.</p> <p><a href="https://www.enfield.gov.uk/services/planning/evidence-base">https://www.enfield.gov.uk/services/planning/evidence-base</a></p> <p>Following the Regulation 18 consultation, the site capacities and mix of uses have been revisited. This has taken into account the complexities of some of the sites and additional information submitted to the Council. Based on these considerations, the land use mix and residential units have been amended.</p> <p>However, the appropriateness of the final level of density can only be judged on a site by site basis. Optimal capacities for sites will be established at planning application stage through a design led approach.</p> <p>Policies D1 and D3 in the plan provides an approach for dealing with infrastructure funding and seeks planning obligations on a case-by-case basis, taking into account necessary mitigation and site viability. The Plan should be read as a whole.</p> <p>The draft Local Plan was largely prepared at the peak of the Covid-19 pandemic. Additional evidence base documents have been prepared taking into account the latest information on the impact of Covid-19, Brexit and related issues. The latest GLA population</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• There was broad support for the Spatial Strategy, but some developers considered that that the Plan should be bolder in its ambition to accommodate growth.</li> <li>• Some developers were concerned that the plan's housing target set at a minimum of 25,000 over 20 years is not meeting the requirements of the Standard Methodology and question whether the plan is 'sound' as a consequence.</li> <li>• Broad support from developers and statutory consultees on the preferred option (25,000 homes). They considered the approach accords with the Government's objective to significantly boost the supply of homes as well as London Plan paragraph 4.1.11 in terms of setting housing requirements beyond 2029.</li> <li>• However, some developers indicated that whilst the borough can demonstrate a 5-year housing supply, Enfield has a significant housing need over the 20-year plan period and the preferred option within the draft Local Plan, is not sufficient to meet the identified needs of the borough and a higher growth option should be pursued. This will inevitably require greater intensification of brownfield land and existing urban areas, as well as additional Green Belt release than is currently proposed.</li> <li>• Developers indicated that the level of growth identified in the preferred option is insufficient to meet the identified housing need. There is a pressing need as a result of a national housing crisis, which is particularly prevalent in the</li> </ul>	<p>projections continue to forecast growth for London over the long-term, despite short term impacts from Brexit and Covid-19.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>South East and London. Therefore, it was suggested that a higher growth strategy is more appropriate.</p> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• A high number of residents supported growth, but were concerned about the amount of development proposed on the Green Belt particularly around Crews Hill and Chase Park</li> <li>• Several respondents highlighted the potentially car-dependent nature of Green Belt development (namely Chase Park, Crews Hill, Hadley Wood (SA45), and the industrial site near Junction 24. They questioned the ability of stakeholders to provide effective infrastructure to serve these sites.</li> <li>• A high number of residents objected to the preferred strategy on the basis that the extensive use of the Green Belt for development goes against the purposes of the Green Belt and will damage the local environment and ecology, adding to the problems to climate change, take out a large proportion of land out of food production, degrade the land with pollution and road traffic and place undue strain on water resources.</li> <li>• A high number of residents believed that the proposed release of Green Belt cannot be described as being 'sustainable' – as these sites are not located close to passenger transport and other services, facilities and employment opportunities.</li> </ul>	<p>Concerns about Green Belt Development are understood, particularly around Crews Hill and Chase Park. The protection of green spaces is paramount, and we are committed to striking a balance between housing needs and environmental preservation.</p> <p>The potential car-dependent nature of Green Belt development, coupled with concerns about infrastructure provision, is duly noted. We acknowledge the importance of providing effective infrastructure to support new developments and will explore sustainable solutions in collaboration with stakeholders.</p> <p>Concerns about the environmental impact and sustainability of Green Belt release are acknowledged. We are committed to mitigating the ecological footprint of development and ensuring that any proposed releases are in line with sustainable development principles.</p> <p>The "brownfield first" approach is supported. Efforts are made to prioritise brownfield sites within sustainable locations, such as town centre and areas around stations, to minimise the need for Green Belt release.</p> <p>Concerns regarding population projections and housing numbers, especially in light of Brexit and Covid-19 are duly noted. We will carefully review and</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Many respondents supported the principle of the 'brownfield first' approach.</li> <li>• Many respondents felt that growth has been disproportionately concentrated in the borough, with residents indicating there is too much in the west of the borough and that growth should be focused on the east where there is existing infrastructure and is in need of significant regeneration.</li> <li>• Conversely, some residents felt that too much growth has been focused on the east of the borough and growth should be evenly spread across the borough.</li> <li>• Many respondents supported growth in the urban areas, particularly in town centres and areas around stations but objected to growth in Enfield Town and Southgate.</li> <li>• Respondents suggested that the plan should include more brownfield sites within sustainable locations such as the town centres and areas around stations rather than Green Belt sites.</li> <li>• Objections were raised with growth around stations in Enfield Town, Southgate and Cockfosters.</li> <li>• Many respondents questioned why the council is only planning for 5,000 homes at Meridian Water rather than the previously stated 10,000 homes, which would avoid the need to release Green Belt for housing.</li> </ul>	<p>challenge these projections to ensure they accurately reflect current trends and needs.</p> <p>Balanced growth and exploring alternative options outside the borough are noted. We will consider all viable options to ensure a holistic approach to housing and economic development.</p> <p>The importance of reviewing surplus retail floorspace and empty homes for potential housing opportunities in urban areas is acknowledged. Efforts will be made to maximise existing resources before considering Green Belt release.</p> <p>The impact of remote working on office space demand is duly considered. We will account for these changes in our planning strategies and evidence base to optimise land use for residential development.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• On a similar point, the wider community questioned why the council had not considered growth at Brimsdown (SIL), Harbet Road (SIL) and other industrial sites/estates. They suggested that if these sites were promoted in the plan, then the release of Green Belt is not needed.</li> <li>• Many resident groups and local politicians supported the findings in CPRE's Report titled: 'Space to Build' re-emphasising that there is enough brownfield land in the borough to provide 30,000+ homes, so there is no need to release Green Belt for development. Overall, the wider community indicated that the plan had not included enough sites identified CPRE's report.</li> <li>• Many felt that development in the Green Belt would take away the opportunity for people to walk and have fresh air.</li> <li>• The potential air quality problems arising from growth and its link to mortality was raised.</li> <li>• Many respondents felt that the proposals to release Green Belt would have a damaging impact on the local character and quality of life for people who use the Green Belt/live nearby.</li> <li>• Respondents highlighted that there are major congestion issues near Hadley Wood, Chase Park and Crews Hill – and these areas would not be able to cope with additional development.</li> <li>• A higher number of residents indicated that the reason for housing need cannot be used to take land out of the Green</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>Belt and does not represent 'exceptional circumstances' that are fully evidenced and justified.</p> <ul style="list-style-type: none"> <li>• Several respondents also raised issues of affordability with homes in the Green Belt, arguing that these sites would inevitably have expensive and exclusive homes, therefore not meeting local needs for cheaper housing.</li> <li>• Residents felt that the plan is conflicting and does not offer the full national protection of the Green Belt and the Council has misunderstood its responsibilities.</li> <li>• There was a small number of respondents who were fully supportive of the plans to release Green Belt and to reuse the golf course for housing for the local community to support the number of people on the council's waiting list for social rented housing or people who can't afford a home to get onto the property ladder.</li> <li>• A high number of residents indicated that the council must challenge the population projections taking into account the impacts of Brexit and Covid-19. It was suggested that a lot of people have left the UK and moved out of London therefore the number of people needing housing has reduced.</li> <li>• A number of residents indicated that the council must challenge the housing numbers (Mayor and Government) rather than just accept them.</li> <li>• Too much growth is focused on the South East, the council should challenge the national 'top-down approach' to</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>housing and other options to consider growth outside of the borough should be properly explored.</p> <ul style="list-style-type: none"> <li>• Many residents urged the council to review the surplus retail floorspace, empty homes, industrial land- as some of the sites could potentially be considered for housing in the urban areas, without having to go into the Green Belt.</li> <li>• It is important that the council accounts for the change from office to homeworking as a result of the Covid-19 pandemic which is likely to result in a considerably reduced demand for office space within the borough, meaning that additional brownfield sites are likely to become available for residential development.</li> </ul>	
POLICY SS2	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The metropolitan police welcomed the reference to safety and security and suggested that crime concerns are addressed through good design of all placemaking areas.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Support for the principle of policy SS2 was noted.</li> <li>• A suggestion was put forward to change the threshold for sites to which parts of this policy would apply.</li> <li>• Some landowners suggested introducing additional flexibility in the context of scheme viability.</li> </ul>	<ul style="list-style-type: none"> <li>• The addition of interim requirements in relation to placemaking areas was not considered necessary, as in the interim proposals would be expected to confirm with the London Plan's policies in relation to good growth, as well as general design policies in the ELP.</li> <li>• It was not considered appropriate to change the thresholds for which this sites this policy applies to, as good placemaking is needed on all sites, irregardless of size.</li> <li>• Further flexibility in the context of scheme viability was not considered appropriate, as the wording aligns with many of the objectives of the overall plan.</li> </ul>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Though the need for proposals to accord with the placemaking visions for individual areas it was suggested that an interim requirement be introduced.</li> <li>• Some landowners suggested that masterplans and site briefs to not lead to good placemaking and so the requirement should be removed.</li> <li>• Sport England welcomed the policy is seeking to create healthy places which promote healthy and active lifestyles</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Cockfosters local residents association endorsed the need for applicants to justify the contribution their proposals make to placemaking in its neighbourhood and for proposals to make a positive contribution to the borough's heritage.</li> </ul>	<ul style="list-style-type: none"> <li>• It was considered appropriate to retain the need for site masterplans/briefs and codes, particularly in the context of an increasing emphasis on design within guidance such as the National Model Design Code and Design Guide.</li> <li>• Part 1: expanded for clarity</li> <li>• Part 2: additional points added to encourage use of masterplans and design codes and to articulate expectations for sites in multiple ownerships, and for sites larger than 100 homes.</li> <li>• Part 3: Need for brownfield land in sustainable locations to be optimised added to reiterate national and regional policy in line with comments received in representations to regulation-18 plan.</li> <li>• Part 3: Encouragement for smaller scale developments to also meet requirements for good growth added.</li> <li>• Part 5: wording amended to clarify how applications will be determined in advance of preparation of masterplans for Crews Hill and Chase Park.</li> <li>• Part 7: New part added to emphasise that the Council will be proactive in finding solutions to support development proposals as per national policy – in response to regulation-18 representation comments.</li> </ul>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
		<ul style="list-style-type: none"> <li>Explanatory text: definition of healthy places added in response to regulation-18 representation comments.</li> </ul>

**Table A.5:** Summary of main issues and how representations have been taken into account – Chapter 3: Place

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
Overall		<p>Minor changes made to the introduction, namely the order and wording to aid with clarity.</p> <p>Figure 3.2 updated to correct graphical and typographic errors from regulation-18 publication.</p>
Policy PL1: Enfield Town	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Historic England welcomed inclusion of Enfield Town as a placemaking area and the aim of improving accessibility and density in this key location.</li> <li>However, Historic England felt the impacts on the historic environment had not been fully assessed.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>A number of civil society groups felt that tall buildings were not necessary in order to accommodate growth.</li> </ul>	<p><b>Vision:</b></p> <p>Emphasis to enhancement of historic environment emphasised. Emphasis on ambition to create and sustain a successful evening and night-time</p> <p><b>Policy:</b></p> <p>Part 3: emphasis on enhancing significance of heritage assets and facilitating enhancements to historic environment added.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Enfield Ignatian highlighted the opportunity for developer gain to be captured to help deliver a sports village at Enfield Playing Fields.</li> <li>• NHS CCG recognised that redevelopment offers an opportunity to improve health facilities.</li> </ul> <p><b>Wider community</b></p> <p>In general, there was concern over the level and height of development proposed in Enfield Town. There were also a number of comments which related more specifically to the sites contained within the placemaking area. These are summarised in later in the appendix for each specific site.</p> <p>A number of more specific points were also raised in relation to the extent of the area, and considerations which could be added.</p> <ul style="list-style-type: none"> <li>• Plans for Enfield Town are out of keeping with the character of the area. Proposals are considered as over-development.</li> <li>• Tall buildings will have a negative impact on the character.</li> <li>• Suggestion that popularity of high-rise development would reduce as popularity of working from home increases, therefore typologies proposed Enfield Town are inappropriate.</li> <li>• Respondents also suggested that the typologies would be unsuitable for families and therefore fail to achieve mixed and balanced communities.</li> </ul>	<p><b>Policy</b></p> <p>Part 8: reference to need to minimise negative impacts of car parking and servicing added to take into consideration practical challenges associated with these. In response to comment within regulation-18 representation.</p> <p><b>Explanatory Text:</b></p> <p>Site allocation name amended to clarify it refers to the Tesco on Southbury Road.</p> <p>Importance of enhancing historic environment and heritage assets emphasised</p> <p>Improvements to public space and open space re-ordered to align with emerging IDP priorities.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• It was suggested that local infrastructure would not be able to sustain level of growth proposed.</li> <li>• Possible undesirable impacts of taller buildings were highlighted such as overshadowing and microclimate impacts and increase to urban heat island effect.</li> <li>• The Enfield Town placemaking area is too narrowly defined.</li> <li>• There were concerns about the gyratory and one-way system, and suggestions that this should be dealt with, as it currently feels like a racetrack.</li> <li>• Enfield Town needs more of an evening economy.</li> <li>• Nature of improvements to be delivered which is mentioned in policy should be elaborated upon.</li> <li>• Respondents supported the development of an SPD but should be subject to meaningful consultation with the community.</li> <li>• Respondents support measures to improve public realm and vitality of the high street, but greater emphasis should be given to reducing vehicle dominance and improving air quality.</li> </ul> <p style="text-align: center;">○</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p><b>Wider community</b></p> <p>In general, as with other placemaking areas, many of the concerns from the wider community related to the amount of development and impact on local infrastructure and services with some concern about possible heights. Specific to Southbury was concern over the loss of supermarkets, which many highlighted as a valuable local amenity.</p> <ul style="list-style-type: none"> <li>• Concern about the loss of supermarket amenities.</li> <li>• Concern about the height of buildings proposed.</li> <li>• Would have liked to see a clear walking and cycling route between Enfield Town and Southbury.</li> <li>• Unsure about the placemaking vision which describes the areas role as gateway to Enfield.</li> <li>• Maps have too many layers to be readable.</li> <li>• Has one of the highest levels of development proposed of the placemaking areas, despite having a relatively low PTAL – this will contribute to road congestion.</li> <li>• Scale of development will overwhelm local services.</li> <li>• Implication of policy wording is that east-west connectivity will be for motorised vehicles and this should exploit opportunity to maximise active travel to fullest potential.</li> </ul> <p style="text-align: center;">○</p>	<p>response to range of comments received including Hertfordshire County Council.</p> <p>New part added to emphasise nature of public realm improvements required along Southbury Road</p> <p>Wording added to confirm that contributions will also be required to increase station capacity in response to TfL comments.</p> <p>Wording referring to release of retail parks clarified.</p> <p>Need for ongoing SIL to be operational and for new development to not compromise integrity of SIL.</p> <p>Need for enhancements of quality and access to existing green spaces and need for creation of new green spaces explicitly referenced within policy text in response to comments from a number of individuals, to help achieve vision, and to help address deficiency of access to green space in this area.</p> <p>A number of placemaking area requirements re-ordered to assist grouping of similar themes.</p> <p><b>Explanatory Text:</b> Nature of potential supporting social infrastructure that will need to be provided</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
		<p>through Class E space within site allocations added</p> <p>Expanded commentary on the reason for the requirement for public realm and pedestrian/cyclist improvements.</p> <p>Further explanation has been added to explain how the vision for improving deficiency of access to green space will be addressed.</p> <p>Additional site allocations listed within explanatory text.</p> <p>Storey heights adjusted to reflect updated evidence.</p>
Policy PL3: Edmonton Green	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Historic England recognised that that the approach underplays potential impact on Historic Environment.</li> <li>• There was explicit support from TfL for the need for car-free development.</li> <li>• TfL recognised that there should be some contributions to be ringfenced for Edmonton rail station and bus station improvements.</li> <li>• TfL recognised that the policy should be explicit with regards to what contributions will be sought in relation.</li> </ul>	<ul style="list-style-type: none"> <li>• An additional point has been added highlighting how this specific place should respond to the climate emergency.</li> <li>• Greater specificity was added in respect to land use requirements in part</li> <li>• Part 10c specifies the need to safeguard the bus station.</li> </ul>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• TfL suggested that the bus station should be explicitly safeguarded.</li> <li>• Hertfordshire County Council supports the ambition for sustainable transport in Edmonton Green and welcome the recognition to bring forward car-free development.</li> </ul> <p><b>General bodies / other organisations</b></p> <p>The majority of comments from developers/landowners were from Crosstree who have a land interest in Edmonton shopping centre, where a hybrid planning application is being determined.</p> <ul style="list-style-type: none"> <li>• Crosstree recognised the need for flexibility in relation to site allocation capacities.</li> <li>• Crosstree recognised there was conflict between existing tower heights and what is set out in the Character of Growth in terms of maximum acceptable heights.</li> <li>• Crosstree suggested that the policy should have greater specificity included in land use requirements.</li> </ul> <p><b>Wider community</b></p> <p>A small number of comments were received from residents on this placemaking area policy, suggesting that:</p> <ul style="list-style-type: none"> <li>• The Enfield Society were supportive of the principle of the policy, though indicated that development should be sensitive to the surrounding area and heritage assets.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
Policy PL4: Angel Edmonton	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• There was general support for inclusion of placemaking area from specific bodies.</li> <li>• Historic England recognised that the policy underplays the potential impact on the historic environment at Angel Edmonton.</li> <li>• TfL considered the lack of certainty for delivery/funding for east-west BRT and suggested reference to this should therefore be removed.</li> <li>• Any proposals affecting North Circular should involve early discussion with TfL to establish feasibility and costs.</li> <li>• Hertfordshire County Council recognised that further commitment could be given for public transport improvements.</li> <li>• Sport England recognised that the vision mentions sport provision, but nothing has been included within the policy.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Haringey, Social Capital Partners, Enfield Society support for inclusion of the placemaking area in the ELP.</li> <li>• Langhedge Industrial estate should be included in boundary (Langhedge Industrial estate).</li> </ul> <p><b>Wider community</b></p>	<p><b>Context:</b></p> <p>Description aligned to recently published Town Centre Action plans, which will form part of evidence base.</p> <p><b>Vision:</b></p> <p>Revised to make more locally specific and less 'generic' in response to comments received at regulation-18. Also aligned to recently published Town Centre Action plans, which will form part of evidence base.</p> <p><b>Diagram:</b></p> <ul style="list-style-type: none"> <li>• Changes to be made in line with other areas. To be clarified.</li> </ul> <p><b>Policy:</b></p> <ul style="list-style-type: none"> <li>• Minor changes to clarify wording in response to comments from TfL in particular.</li> <li>• Modifications to requirements around infrastructure improvements to reflect further information on feasibility of making changes to roundabout at Edmonton Green.</li> </ul>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Visions seem very vague compared to other placemaking areas such as Southbury and Enfield Town.</li> <li>• Object to tall buildings.</li> <li>• Respondents noted the lack of reference to Edmonton incinerator, but also recognised that it is not within the placemaking area.</li> </ul>	<p><b>Explanatory Text:</b></p> <ul style="list-style-type: none"> <li>• Minor edit to suggest market could be re-provided as well as retained.</li> </ul>
Policy PL5: Meridian Water	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• There was general support for inclusion of placemaking area.</li> <li>• The Lee Valley Regional Park Authority (LVRPA) is supportive of the aspiration for the enhancement of the river and to encourage the public connection to the waterways, but noted that space for nature should not be overlooked. suggested that a clearer statement was needed about the need to establish attractive and safe walking and cycling links through to Pickett’s Lock and to the Lee Valley Regional Park to the south.</li> <li>• Sport England recognised that sports facilities should be inclusive for all ages and considered that the policy wording should reflect this.</li> <li>• Hertfordshire County Council suggested that further thought could be given to delivering sustainable transport connections to the Lea Valley, recognising that is an important asset as both a north-south corridor and green space.</li> </ul>	<ul style="list-style-type: none"> <li>• Further detail has been added with respect to the expectations around the delivery of green infrastructure.</li> <li>• A new policy has been added entitled ‘Meridian Hinterlands’ which sets out clear policy requirements around SIL retention and release.</li> <li>• Housing delivery and accelerating this has been explored through individual site allocations and the housing trajectory. As such the policy requirements have not changed.</li> <li>• The plan must be read as a whole and tenure requirements are set out in relevant policies. The plan does not seek to take a differential approach to affordable housing at Meridian Water, so no specific references to tenure are included, to avoid repetition.</li> </ul>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• TfL welcomed inclusion of part 10 requiring contributions for rail and bus provision improvements.</li> <li>• The NHS support the policy and noted they are working with applicants through the development management process to secure contributions.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• There was general support for the inclusion of Meridian Water as a placemaking area.</li> <li>• The Canal and Rivers trust were generally supportive of the intention for the waterways to become public spaces and the encouragement of new water sports facilities but noted that the environment of navigation would need to be considered in detail as proposals are brought forward.</li> <li>• London Historic Parks and Gardens Trust object to loss of open space to create new parks.</li> <li>• The Conservative Group recognised that any speculation regarding the release of SIL should be made clear in policy text and highlighted that the GLA is not supportive of SIL release.</li> <li>• The Conservative Group recognised that clearer proposals with respect to retail provision and other non-residential space – are required.</li> <li>• Enfield Road Watch recognised that there is potential for delivery to be accelerated.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• The Enfield Climate Action Forum recognised the discrepancy between the Local Plan and other Council communications in relation to the number of homes that could be accommodated here i.e. 0,000 and 5,000 homes.</li> <li>• ENCAF recognised that Meridian Water will deliver less green space per person than Hong Kong. Green space / woodlands could be planned for in rest of the east of the borough.</li> <li>• Quod on behalf of Ikea considered that policies should not undermine Ikea's present or future role.</li> <li>• Better Homes considered that Harbet Road industrial estate should be included within plan.</li> <li>• Loss of Green Belt unacceptable when Meridian Water delivery is so slow.</li> </ul> <p><b>Wider community</b></p> <p>Of all the urban placemaking areas, this policy received a substantial amount of comments and had the widest variety of comments from different residents. Much of this focused on matters that go beyond purely the local plan policy, focusing on frustrations with the slow delivery of the existing plans, and the discrepancy between the Local Plan and other Council communications in relation to the number of homes that could be accommodated here (i.e. the Local Plan does not propose to de-designate SIL and therefore proposes only 5,000 homes in the plan period at Meridian Water, whilst other communications allude to the Council's overall vision to deliver 10,000 homes here in the long term – which is contingent on SIL de-designation.)</p>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>Comments on this also linked to the potential for SIL de-designation to remove the need to release Green Belt for housing delivery.</p> <p>Other comments focused on the opportunities that could be unlocked through development here by improving connectivity to the waterways and open spaces.</p> <ul style="list-style-type: none"> <li>• The Council should build 10,000 new homes which would avoid need to build on the Green Belt.</li> <li>• The Council were told they could not release SIL at the Examination in Public relating to the Edmonton Leaside Area Action Plan.</li> <li>• Delivery at Meridian Water is taking a very long time compared to places like Tottenham Hale.</li> <li>• No mention of social rented housing at Meridian Water in policy, therefore object.</li> <li>• Respondents recognised that the Harbet Road industrial area is still designated SIL and is “beyond the proposed site allocation” it is to be “safeguarded for future plan periods”, but what those intentions might be should be considered now, since its extended use as SIL will impact on any housing, recreational and environmental use of space to the east of this area, as suggested in the current Local Plan.</li> <li>• There were significant concerns over the approach to the drafting of green space requirements for Meridian Water. Respondents raised concern that the LPA is drafting policy to serve the Council’s own needs. Concern that overall % targets should not be expected to be delivered on a phase-by-phase basis. The</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>existing evidence base figure of 2.15 ha open space per 1,000 of population should be used.</p> <ul style="list-style-type: none"> <li>• There is no mention made of the Edmonton Incinerator – this should be included and is a concerning omission.</li> <li>• If land on east bank of Meridian Water does not get put forward for development, then the new homes delivered (and existing residences) will be cut off from the greenspace planned for delivery at Edmonton Marshes.</li> <li>• The area along the River Lee/Meridian Way could provide fantastic waterside living for our current and future residents and already has the infrastructure in place. Instead of pursuing release of Green Belt sites and high rise in Enfield Town. Respondents considered that the Administration should pursue an option that releases non SIL industrial land for mixed use development.</li> </ul>	
Policy PL6: Southgate	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Historic England’s concern was noted over the potential impact of heights on listed buildings and the historic environment.</li> <li>• Hertfordshire County Council suggested that improved cycling infrastructure could be provided, although policy generally welcomed.</li> <li>• TfL indicated an ambition to move towards car-free development and that policy must safeguard continued operation of bus station.</li> </ul>	<ul style="list-style-type: none"> <li>• Reference to working towards car-free development and delivering pedestrian improvements added.</li> <li>• Included suggestion to explore integrating public art.</li> <li>• Noted that small scale housing through intensification would be supported.</li> <li>• Diagrams clarified.</li> </ul>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• LB Barnet supported the renewal of buildings but considered that building heights must respect the low-rise suburban character of the area.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Southgate District Civic Voice noted the potential impact of building heights on listed buildings and the historic environment.</li> <li>• Barnet and Southgate College - is keen to collaborate to help deliver vision for the placemaking area.</li> <li>• It was noted that greater clarity was needed in the diagrams – this was mentioned in relation to a number of placemaking areas.</li> <li>• Concern was highlighted over support for evening/night-time economy due to potential impact for surrounding residents.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Respondents raised concerns over the potential impact of building heights on listed buildings and the historic environment.</li> <li>• As with elsewhere in the borough, objections were lodged in relation to redevelopment of supermarkets.</li> <li>• The wider community considered that the pedestrian environment does not need enhancement, but design of Southgate Circus does require improvements as it is difficult to navigate.</li> <li>• Respondents noted that greater emphasis could be given to the relatively close links between Southgate and Palmers Green with</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>walking and cycling route maximisation/enhancement in key locations would assist in achieving the vision.</p> <ul style="list-style-type: none"> <li>• The new walking route opportunity will be welcomed.</li> <li>• Concern over support for evening/night-time economy due to potential impact.</li> <li>• Vision has wording that is unfinished.</li> <li>• Further detail is required on the intensification sites – it is not clear what is intended for these, though there are many noted on the diagram.</li> <li>• It was noted that greater clarity was needed in the diagrams and specific comments were raised in relation to missed opportunities for proposed cycling routes.</li> <li>• Figure 3.7 includes Southgate Library as a site allocation, but it is not included within the plan.</li> <li>• The figure is missing items such as the tube station symbol and not all heritage assets are identified.</li> <li>• It was noted that Oakwood Park is missing from the list and the inclusion of ‘Southgate Park’ was queried – it was not clear which park this is.</li> </ul>	
Policy PL7: New Southgate	<b>Specific Bodies (Statutory)</b>	<ul style="list-style-type: none"> <li>• Highlights the need to positively address the north circular road whilst minimising air quality impacts.</li> </ul>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• The London boroughs of Haringey and Barnet support the inclusion of the placemaking area but are keen to see reference to cross borough cooperation with a joint planning framework.</li> <li>• Historic England recognises that the Policy underplays the potential impact on historic environment.</li> <li>• Sport England stated it is not clear how Arnos Pools has been identified as a facility requiring improvement.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• TfL Commercial Developments support the Council’s advocacy for tall buildings in area but want to see capacity of Arnos Grove uplifted.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Limited feedback on this placemaking area.</li> <li>• Objection to tall buildings, as with elsewhere in the borough.</li> </ul>	<ul style="list-style-type: none"> <li>• Need for improvement of facilities to be included within IDP rather than policy, to avoid out of date policies following improvement.</li> <li>• Capacities have been based on HELAA methodology across the whole borough, not appropriate to introduce site specific uplifts.</li> </ul>
Policy PL8: Rural Enfield ‘London National Park City’	<p>Mixed views were received on the principles of this policy.</p> <p>The main issue was highlighted in a public letter sent out by the National City Park Foundation and picked up by the wider community. The letter identified that the Plan misappropriates and misrepresents London National Park City and its status in support of a choice to de-designate Green Belt in the London Borough of Enfield.</p> <p><b>Specific Bodies (Statutory)</b></p>	<p>The concerns raised about the misrepresentation of London National Park City status in justifying the de-designation of Green Belt are acknowledged. Revisions have been made to ensure clarity and accuracy in the policy framework.</p> <p>The engagement of bodies such as LVRPA, the GLA, and Sport England in providing their perspectives on Policy PL8 is appreciated. The</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• LVRPA highlighted that the ‘London National Park City’ is an interesting concept and the Authority would welcome the opportunity to engage with the Council on this topic and consider how the concept might align with the Regional Park. They suggested that the Council should add emphasis on supporting LVRPA to realise potential of regional park within the policy.</li> <li>• A number of responses highlighted that the improvements would make marginal difference to the rural area, would remove local commercial food-growing as a viable option and would fail to compensate for the major harm inflicted by development on the targeted Green Belt sites.</li> <li>• Tottenham Hotspurs Football Club support this Policy which provides a positive approach to proposals which contribute positively to the delivery of the Rural Enfield objectives within the London National Park City and believes that the Lee Navigation can contribute to many of the aspirations set out in the Rural Enfield Vision, including the health and wellbeing gains.</li> <li>• The GLA welcomes Enfield’s recognition and reflection of London’s National Park City status through Policy PL8 of the draft Plan. They recognised that this policy makes a commitment to re-wild 1,000 ha of proposed woodland and open space, implement flood risk mitigation, create new or improved walking and cycling routes and provide much needed burial space among others.</li> <li>• The GLA is supportive of Policy PL8 in the draft Plan but considers it is difficult to reconcile how Enfield can support London’s National Park City status while simultaneously</li> </ul>	<p>feedback has been taken into account as we refine the policy to ensure that it aligns with regional park objectives and addresses any conflicting priorities.</p> <p>The concerns raised by residents and local interest groups regarding the loss of Green Belt countryside and the proposed improvements elsewhere are understood. These concerns and options have been explored to minimise the impact on valued landscapes while meeting our development objectives.</p> <p>The challenge of reconciling support for London’s National Park City status with proposed Green Belt loss is recognised. The approach taken in the plan strives to find a balance that preserves the integrity of the Green Belt while promoting environmental sustainability and access to green spaces.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>proposing the potential loss of approximately 186 ha of Green Belt land.</p> <ul style="list-style-type: none"> <li>• Sport England suggested that the Sporting hub at Tottenham Hotspurs was not assessed and the need for this was questioned. Confirmation was sought whether the Playing Pitch Strategy had informed the Local Plan.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• The Canals and Rivers Trust support the policy, which provides a positive approach to proposals that contribute positively to the delivery of the Rural Enfield objectives within the London National Park City. They believe that the Lee Navigation can contribute to many of the aspirations set out in the Rural Enfield Vision, including the health and wellbeing gains.</li> <li>• It was suggested that uses such as music festivals should not be permitted in this area.</li> <li>• Some bodies supported encouragement within the policy for active travel even in rural areas.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Residents and local interest groups objected to the principle of the policy. The main issue they raised was that this policy justifies the loss of large parts of the most beautiful and strategically important Green Belt countryside by proposing ‘improvements’ elsewhere on the Green Belt paid for by development. They indicated that the Green Belt is not there to be ‘traded’. If the</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>Council is serious about being 'deeply green' the entire Green Belt would be protected and enhanced.</p> <ul style="list-style-type: none"> <li>• Residents and local interest groups highlighted that the proposed improvements would make marginal difference to the rural area and would in no way compensate for the loss of beautiful open, historic countryside that is valued so highly by residents. The plan would also remove commercial food-growing as a viable option and would fail to compensate for the major harm inflicted by development on the targeted Green Belt sites.</li> <li>• Respondents considered that the policy misappropriates and misrepresents the 'National Park City' concept to justify de-designation of Green Belt and harmful development and are aware that the National Park City Foundation has been very critical of the attempt to justify development in the countryside by reference to the National Park City concept</li> <li>• Respondents considered that the 'rewilding' of Enfield Chase ignores the fact that the Green Belt areas targeted for development are equally parts of historic Enfield Chase and are irreplaceable. While improving access to the countryside is a laudable goal, this policy appears to treat Enfield's Green Belt as a countryside theme park, rather than a functional eco-system, with a patchwork of habitats that are vital for wildlife and the potential to once again provide local food for local people.</li> <li>• Some residents provided support in principle to the idea of sensitive restoration of historic parks and gardens, protecting the Green Belt including open skylines, entrance points, strategic views and valued landscapes</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>Some residents suggested that the policy was just rebranding of green and blue infrastructure strategy.</li> <li>Detailed comments were made suggesting that many terms noted on the key for the placemaking vision diagram were not defined (green link, green loop etc) and further clarification should be provided.</li> </ul>	
Policy PL9: Crews Hill	Comments in relation to the policy itself is set out under SA27.	As set out under SA27.
Policy PL10: Chase Park	Comments in relation to the policy itself is set out under SA28.	As set out under SA28.

**Table A.6:** Summary of main issues and how representations have been taken into account – Chapter 4: Sustainable Enfield

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
Policy SE1: Responding to the climate change emergency	<p>Broad support from many quarters, including Joanne McCartney MP who welcomed the ‘Positive and ambitious proposal’ set out in the policy wording.</p> <p><b>Specific Bodies (Statutory)</b></p> <p>Support was received from several specific bodies:</p> <ul style="list-style-type: none"> <li>LB Waltham Forest – who were supportive of the comprehensive approach taken by the policies in this chapter to</li> </ul>	<p>Point 3 amended to reference net zero carbon and fabric efficiency standards (in response to Centre for Sustainable Energy comment).</p> <p>Point 5 amended to reference maximising the deployment of renewable energy (in response to Centre for Sustainable Energy comment).</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>deliver the growth projected in the Local Plan period and beyond in a sustainable manner and the package of mitigation measures that will help the London Borough of Enfield respond to the various environmental and climate challenges detailed the Plan.'</p> <ul style="list-style-type: none"> <li>The Greater London Authority – welcomed 'draft Plan's focus on sustainability and the borough's ambitions to become carbon neutral by 2040.'</li> </ul> <p>However, some gaps were highlighted by:</p> <ul style="list-style-type: none"> <li>Thames Water – they recommended that guidelines relating to water efficiency should be included, whilst the Environment Agency suggested that, whilst they support the intention of this policy, it would be useful for there to be a reference to reducing all sources of flood risk.</li> <li>Natural England – they welcomed the consideration of climate change outlined in the chapter but argue that consideration should be given to the role the natural environment plays in reducing the effects of climate change.</li> <li>Hertfordshire County Council and the role played by sustainable transport in contributing to decarbonisation was highlighted as an additional point.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Enfield Climate Action Forum, Cockfosters Local Area Residents Association, and Henry Boot. The Enfield Society – expressed broad support for the policy, including support proposals for environmental improvements to address climate</li> </ul>	<p>Point 7 amended to reference flood risk from all sources (in response to Environment Agency comment).</p> <p>Additional text included as point 10 to reference sustainable transport and link across to transport policies (in response to comments from Better Streets for Enfield and the Enfield Cycling Campaign, Centre for Sustainable Energy, Enfield Climate Action Forum (Encaf) Land Use Working Group), Connected Living London (Arnos Grove station car park), Connected Living London (Cockfosters station car park parcels a+b), and Hertfordshire County Council).</p> <p>Additional text included as part of point 11 to reference the role of the natural environment as a carbon sink (in response to Hadley Wood Neighbourhood Planning Forum comments).</p> <p>Additional text included as point 12 to reference the role of the natural environment in adaptation and as a carbon sink (in response to Natural England and Hadley Wood Neighbourhood Planning Forum comments).</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>change and improvements to biodiversity, urban greening, allotments and community food production, especially the de-culverting of watercourses and naturalisation of river channels.</p> <ul style="list-style-type: none"> <li>• The Canal and River Trust support the approach of the policy to encourage the provision of heating and hot water from low carbon sources of energy.</li> <li>• Some organisations pointed to gaps in this policy, or the chapter more generally for example: <ul style="list-style-type: none"> <li>○ the Conservative Group highlighted the crucial role that green spaces can play in mitigating the effects of climate change – including sites designated for release from the Green Belt.</li> <li>○ The Hadley Wood Neighbourhood Planning forum also pointed to the lack of reference to the natural environment in this policy. Better Streets for Enfield and the Enfield Cycling Campaign have highlighted the lack of a transport focus.</li> <li>○ Others argued for a more flexible approach.</li> <li>○ Connected Living London (Arnos Grove) Ltd suggested modifications to include wording such as ‘where possible’ and where ‘feasible.’</li> </ul> </li> </ul> <p><b>Wider community</b></p> <p>A number of these points were echoed by individual responses. The need to tackle the climate emergency through zero carbon development was raised, as well as the imperative to tackle heating</p>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	and flooding risks. Climate change as a social justice issue was highlighted, alongside the need to consider the implications of LB Enfield Climate Action Plan. The environmental infrastructure benefits of the natural environment, including Green Belt sites, was raised by some.	
Policy SE2: Sustainable design and construction	<p><b>Specific Bodies (Statutory)</b></p> <p>No comments were received on this policy from specific consultees.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• The Strategic Property Services for Enfield Council support for Policy SE2.</li> <li>• Several development industry respondents pushed for greater flexibility, including TfL Commercial Development. SEGRO argued for a greater consideration of feasibility and viability in detailed requirements, while Henry Boot pointed to the challenge of achieving BREEAM Excellent on industrial schemes.</li> <li>• LaSalle IM requested that the requirement to submit a statement applies only to major new developments and excludes change of use and refurbishment.</li> <li>• The Home Builders Federation argued that building regulations should be used in preference to impose planning requirements on building performance.</li> <li>• Some argued that policy requirements should be more exacting.</li> </ul>	New point added to 4.2.1 to reference ‘Site and building level measures to mitigate overheating and enable passive and cross ventilation’ in response to Centre for Sustainable Energy ‘critical friend’ review.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>The Hadley Wood Neighbourhood Planning Forum stated that ‘The mere requirement to provide a statement (on sustainable design and construction) is pointless. Quantifiable limits and measurements that the actual construction must comply with are instead required.’</li> <li>Affinity Water argued that this policy should contain requirements on water efficiency.</li> </ul> <p><b>Wider community</b></p> <p>Wider responses included the suggestion that all developments should be required to meet the certification standards set out in the policy.</p>	
Policy SE3: Whole life carbon and circular economy	<p><b>Specific Bodies (Statutory)</b></p> <p>The GLA stated their support, ‘Policy DM SE3 which requires circular economy statements for all major development proposals is particularly welcome and supported as it exceeds the Mayor’s requirement for circular economy statements for all referable planning applications as set out in Policy SI 7 of the LP2021.’</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Several development industry representations argued for less stringent standards, such as Connected Living London (Cockfosters Site), who argued that whole life cycle carbon requirements should apply to developments referable to the Mayor of London.</li> </ul>	<p>Part 1 of the policy amended to bring requirements in line with London Plan Policy SI7.</p> <p>Table 4.1 amended to match the best practice targets set out in LETI (2020) Climate Emergency Design Guide (in response to comments from British Land and Centre for Sustainable Energy).</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• LaSalle IM suggested that the policy should apply only to major development proposals resulting in the creation of 1,000 sqm or more of new floor area (in the case of non-residential development).</li> <li>• The policy was supported by LBE Strategic Property Services.</li> <li>• British Land recommended that Table 4.1 is updated to reflect the updated targets adopted by the RIBA and LETI, 'which represent the industry standard for whole life cycle carbon benchmarking'.</li> <li>• Enfield Climate Action Forum questioned whether this policy would be followed by the council.</li> <li>• Cockfosters Local Area Residents Association made the observation that high-rise concrete structures are carbon intensive and should be discouraged.</li> </ul> <p><b>Wider community</b></p> <p>Respondents expressed support for an approach which prioritises the re-use and retrofit of existing buildings, with the implication that green field development should be minimised. Some commented on the carbon implications of the Edmonton Incinerator.</p>	
Policy SE4: Reducing energy demand	<p><b>Specific Bodies (Statutory)</b></p> <p>No comments were received on this policy from specific consultees.</p> <p><b>General bodies / other organisations</b></p>	Main change to the policy is the shift to a solely EUI approach to energy requirements, focusing on space heating and operational energy use, rather than repeating the % over Part L requirement of the London Plan, in line with the recommendations of the Centre for Sustainable

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Several development industry representations argued for greater flexibility, such as LaSalle IM who argued for a greater consideration of feasibility and viability and Connected Living London (Cockfosters Site) who argued for an ‘aim to’ approach to specified standards.</li> <li>• The Home Builders Federation argued in favour of a national standardised approach, and ‘advise strongly against the council making policy in this area.’</li> <li>• Connected Living London (in relation to the Cockfosters Site) pointed to a lack of clarity on what the specific standards contained within Table 4.2 had been based.</li> <li>• Origin Housing, Regenta Development and Notting Hill Genesis characterised the requirement to report energy use for 5 years after occupation as ‘onerous’.</li> <li>• Support was expressed from LBE Strategic Property Services.</li> </ul> <p><b>Wider community</b></p> <p>No specific comments were received on this policy from individuals and local businesses.</p> <p><b>How have representations been taken into account?</b></p> <p>The Reg 19 draft Enfield Local Plan has been revised to include the provisions of the former ‘SE5: Greenhouse gas emissions and low carbon energy supply’ as part of SE4.</p>	<p>Energy and Etude et al (2023) ‘Delivering Net Zero’ report. This shift has opened the opportunity to streamline and consolidate the provisions of SE4 and SE5.</p> <p>Part 2 amended to include a single space heating demand figure in line with Etude et al (2023) ‘Delivering Net Zero’ study; this metric was also recommended by the Centre for Sustainable Energy review of draft Reg 18 policies.</p> <p>Part 3 was amended to include EUI targets in line with Etude et al (2023) ‘Delivering Net Zero’ study. Part 5 amended to include renewable energy generation requirements in line with Etude et al (2023) ‘Delivering Net Zero’ report.</p> <p>Part 6 amended to include energy offset rate from Etude et al (2023) ‘Delivering Net Zero’ report; part 6 also amended to include reference to off-site provision, with new accompanying supporting text, in response to comment from Crosstree Real Estate Partners LLP.</p> <p>Part 10 amended to reference the need to address sites’ energy infrastructure requirements and necessary infrastructure upgrades, in response to comment from Connected Living London (Arnos Grove station car park).</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
		Part 12 introduced to reference demand response and energy storage technologies, in response to Centre for Sustainable Energy recommendation.
Policy SE5: Greenhouse gas emissions and low carbon	<p><b>Specific Bodies (Statutory)</b></p> <p>No comments were received on this policy from specific consultees.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Several development industry representations argued for amended wording to introduce greater flexibility.</li> <li>• Areli for Blackrock and a consortium of landowners suggested that net zero carbon strategy be developed in collaboration with stakeholders and developers.</li> <li>• Crosstree, SEGRO and LaSalle IM stressed the need to take into account feasibility and viability considerations.</li> <li>• Connected Living London (in relation to the Arnos Grove site) argued that no evidence has been provided that such targets (such as the 45% figure) are realistic or feasible, arguing for a viability tested approach.</li> <li>• A similar point was raised by TfL Commercial Development.</li> <li>• Enfield Climate Action Forum, referring to the requirement that ‘temporary fossil-fuel primary heat sources must only be installed for a maximum of five years prior to connection to an</li> </ul>	The Reg 19 draft Enfield Local Plan has been revised to include the provisions of the former ‘SE5: Greenhouse gas emissions and low carbon energy supply’ as part of SE4. Please see the entry above for a summary of how representations have been taken into account.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>approved low carbon heat source, contended that temporary solutions tend to become permanent.</p> <p><b>Wider community</b></p> <p>One individual commented on the proposals for an incinerator at Edmonton with regards to the requirements of this policy.</p>	
Policy SE6: Renewable energy development	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comments were received on this policy from specific consultees.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• LBE Strategic Property Services expressed support for this policy.</li> </ul> <p><b>Wider community</b></p> <p>One individual commented on the proposals for an incinerator at Edmonton with regards to this policy.</p>	Changes to the phrasing of the policy to highlight positive opportunities, in particular new part A which references the potential for renewables to contribute to cutting greenhouse gas emission and decarbonisation, and a new part D which references community led renewables. Changes made in response to Centre for Sustainable Energy feedback.
Policy SE7: Climate change adaptation and managing heat risk	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comments were received on this policy from specific consultees.</li> </ul> <p><b>General bodies / other organisations</b></p>	<p>Point 1 deleted as it repeated the provisions of the following point.</p> <p>Point 2 (formerly point 3) amended to clarify that the provisions apply to major developments. Changes made in response to internal comments.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• LBE Strategic Property Services expressed support for this policy.</li> <li>• Other development industry respondents did not provide detailed comments on this policy; only British Land commented that cooling contribution requirements would be subject to CIL Regulation 122 tests for planning contributions.</li> <li>• Enfield Climate Action Forum argued that tower blocks would need air conditioning to address overheating, while Hadley Wood Neighbourhood Planning Forum argued that the policy highlights why development on brownfield land before greenfield, and Green Belt, is required.</li> </ul> <p><b>Wider community</b></p> <p>No specific comments were received on this policy from individuals and local businesses.</p>	
Policy SE8: Managing flood risk	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Thames Water’s main concerns with regard to subterranean development is the scale of urbanisation throughout London is impacting on the ability of rainwater to soak into the ground resulting in more rainfall in Thames Water’s sewerage network when it rains heavily. New development needs to be controlled to prevent an increase in surface water discharges into the sewerage network.</li> <li>• The Environment Agency noted, overall in terms of flood risk this submission is very encouraging, and they consider it to have some strong flood risk policies. There is work to be done</li> </ul>	<p>Point 2: Text added to clarify that the policy requirement applies to all development proposals including any applications for the change of use. Reference to groundwater assessment has been added to the policy as this is stipulated within the supporting text, and not the policy.</p> <p>Point 3h: Text amended to emphasise the importance of not increasing run-off further to representation received from Thames Water.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>on the place-based strategic policies, relating to those sites being allocated which are partially in flood plains, as these must be informed by the Level 2 SFRA and include any site-specific flood risk recommendations (following demonstration that the Sequential Test has been passed).</p> <ul style="list-style-type: none"> <li>• Highways England noted in relation to drainage and the SRN, it is important to note that no new connections are permitted to Highways England drainage network. In the case of an existing 'permitted' connection, this can only be retained if there is no land use change. Development must not lead to any surface water flooding on the SRN carriageway. These points apply to the site operation and construction phases. Highways England should be contacted to discuss these points in detail as part of, or in advance of a planning application submission.</li> <li>• The Environment agency note that Vicarage Farm soak-away is part of the Salmon's Brook Flood Alleviation Scheme, designed to prevent Salmon's Brook being overwhelmed upstream, and hence leading to flooding in areas around Slades Hill/Enfield Road and beyond. Intensive building on these natural uplands soak-aways, combined with the additional run off from roads and pavements in the proposed development would overwhelm the tributaries of Salmon's Brook and, in an exceptional rainfall event, could overwhelm the bund on Cheyne Walk Open Space. It was noted that in the LBE Strategic Flood Assessment it states: <i>"further design work and liaison with LBE Lead Local Flood Authority may be required to understand the implications of surface water flooding to the proposed development."</i> The EA emphasised that this should have been undertaken PRIOR to proceeding to propose building on this critical site. The EA found it hard to believe that, given the statements issued by the</li> </ul>	<p>Point 4: Text amended to emphasise the importance of the sequential test evidence.</p> <p>Point 6: Amended and added text to allow flexibility within the policy further to representations received from landowners noting that the wording used within Part c of Policy SI 12 of the London Plan.</p> <p>Supporting text 4.8.5: Text added to clarify that the policy requirement applies to all development proposals including any applications for the change of use.</p> <p>Supporting text 4.8.7: Text amended to emphasise the importance of the sequential test evidence.</p> <p>Supporting text 4.8.10: Reference to capacity added further to concerns raised in the Hadley Wood Conservation Area Study Group representation.</p> <p>Supporting text 4.8.12: Text amended to strengthen the requirement for a sustainable drainage strategy further to comments received from community groups.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>Environment Agency previously that this can be an acceptable area for development. For these many reasons the EA strongly object to the proposal to build on 'Chase Park'.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• The Hadley Wood Conservation Area Study Group noted the current civil engineering infrastructure in Hadley Wood has been rendered inadequate by the addition in the last few years of a high number of new dwellings as residents have developed their back gardens. Parts of Hadley Wood are prone to flooding and that is exacerbated by the fact that we now have too many properties dependant on waste and sewerage systems that were not designed for the number of houses now using them. The addition of 160 new households, all at once, to the current drainage and sewerage systems is a recipe for disaster. The Draft Plan nowhere recognises this very real issue and so, clearly, there is no intent to match the proposed introduction of 160 households with proportionate sewage capacity. The increased flood risk that such development would bring is a recipe for disaster which will harm the whole of Hadley Wood and, by definition, in doing so will harm the Conservation Area.</li> <li>• The Enfield Society in principle supports the following policies and proposals for environmental improvements to address climate change and improvements to biodiversity, urban greening, allotments and community food production, especially the de-culverting of watercourses and naturalisation of river channels.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>Developers and Landowners have noted support for the draft policy.</li> </ul> <p><b>Wider community</b></p> <p>There is support for the policy from community groups.</p>	
<p>Policy SE9: Protecting and improving watercourses</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Canals and River Trust suggest that a requirement should be added to section 1 of this policy to ensure that development does not adversely affect waterway infrastructure, which may result in an increased risk of flooding, land instability and/or inhibit navigation. Waterway walls that support the banks of navigable waterways and towpaths were not designed with the consideration of modern -day loadings. Additional loadings may be temporary or permanent and may include items such as buildings, embankments, scaffolding, construction plant &amp; equipment, roadways and new foundations. Any lateral or vertical surcharge on waterway walls poses a risk to navigations and surrounding land uses.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Landowners consider the wording to be overly prescriptive and not flexible enough to account for site constraints that may prevent the inclusion of an 8m set back in every circumstance. The wording of Part 6 is not consistent with the flexibility of Part C of London Plan Policy SI 12 which does not specify the minimum of 8 metre setback for developments in proximity to watercourses, stating that development proposals should ensure that flood risk is minimised and mitigated, and this</li> </ul>	<p>Point 1: Text in point 1 amended to provide clarification for application of the policy. Text in 1a amended for ease of understanding. Criteria 1 c has been added further to the representation received from The Canals and Rivers Trust as requested. Criteria referencing for c and d (now d and e) have been updated.</p> <p>Point 4: Text amended to strengthen policy wording.</p> <p>Supporting text paragraph 4.9.1: Text added / amended for clarification to the reader. Reference to overloading of banks added further to reference made in The Rivers and Canals Trust representation.</p> <p>Supporting text paragraph 4.9.3: Text amended for clarification to the reader.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>should include, where possible, “making space for water and aiming for development to be set back from the banks of watercourses”.</p> <ul style="list-style-type: none"> <li>Landowners consider that an 8m set back distance may normally be applied, but that in urban areas a ‘balanced’ approach should be adopted with proposals considered on a case by case basis. The draft policy wording should also be amended such that it allows for this flexible approach in terms of development proposals providing 8m set back distances in some areas of the proposal and not others, again subject to site constraints and feasibility of the wider development proposal. Indeed, an 8m set back distance may not always be required to allow for maintenance access along the entirety of a waterway and should therefore be subject to consultation with the Environment Agency again on a case by case basis, rather than prescribed by planning policy.</li> </ul> <p><b>Wider community</b></p> <p>The Enfield Society in principle supports the following policy and proposals for environmental improvements to address climate change and improvements to biodiversity, urban greening, allotments and community food production, especially the de-culverting of watercourses and naturalisation of river channels.</p>	
Policy SE10: Sustainable drainage systems	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Environment Agency note whilst it is good to see consideration of site condition and appropriateness for SuDS, the discussion of SuDS solutions at potentially contaminated sites should be expanded (or explanation provided) to discuss</li> </ul>	<p>Point 1 amended to clarify requirements.</p> <p>Point 2 amended to include footnote to guidance.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>the potential need for an Environmental Permit for discharges of surface water run-off.</p> <ul style="list-style-type: none"> <li>• Highways England note in relation to drainage and the SRN, it is important to note that no new connections are permitted to Highways England drainage network. In the case of an existing 'permitted' connection, this can only be retained if there is no land use change. Development must not lead to any surface water flooding on the SRN carriageway.</li> <li>• The Canals and Rivers Trust note subject to agreement with the Trust (including our consideration of environmental and operational issues), surface water can be drained to their waterways as part of a Sustainable Urban Drainage solution. They suggest that the supporting text to policy SE10 recognises the need for this agreement where discharge to the Lee Navigation is proposed and that pre -application discussions are encouraged.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Landowners recommend alternative wording noting a Sustainable Drainage Strategy will be required for all major developments or those where the inclusion of Sustainable Drainage Systems are necessary, to demonstrate how the proposed measures manage surface water as close to its source as possible and follow the drainage hierarchy in the London Plan.</li> </ul> <p><b>Wider community</b></p> <p>Community groups note drainage strategies do not appear to be explicitly covered, with para 4.8.12 containing materially weaker</p>	<p>Point 10 amended to clarify that the SUDs strategy is a requirement.</p> <p>Supporting text paragraph 4.10.2 added to clarify that this includes change of use applications.</p> <p>Supporting text paragraph 4.10.4 added to the end of the paragraph further to representations received from the Environment Agency and the Canals and Rivers Trust. The text ensures that developers understand that additional procedures are required to bring forward the development.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	wording than adopted policy, as it merely states that development proposals “should” provide a sustainable drainage strategy”. Wording must be changed.	

**Table A.7:** Summary of main issues and how representations have been taken into account – Chapter 5: Addressing equality and improving health and wellbeing

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
Policy SC1: Improving health and wellbeing of Enfield’s diverse communities	<p><b>Specific Bodies (Statutory)</b></p> <p>In general, strong support for several aspects of Improving health and wellbeing of Enfield's diverse communities.</p> <ul style="list-style-type: none"> <li>• Enfield’s recognition of sustainable transport to achieve healthier lifestyles, which involves safe cycling routes, attractive walking route and easy access to public transport to reduce car dependency.</li> <li>• The Canal and River Trust, agrees with the blue corridors are identified in plan, as an important component of reducing health inequalities in policy SC1 and strongly supports the requirement to consider how design can support wellbeing and greater physical movement as part of everyday routines.</li> </ul>	<p>Support and comments notes.</p> <p>The draft Local Plan acknowledges the critical issue of poor air quality in Enfield and London, and sets out policies to improve air quality in the borough. To address air pollution associated with vehicles, and particularly private car use, the Local Plan sets the planning framework to deliver on the London Mayor’s objective for journeys to be made by walking, cycling and public transport. As part of this approach, the Local Plan advocates for and seeks that new developments follow the Healthy Streets approach. Policies in Chapter 13 require new developments follow the Healthy Streets approach, which includes considerations for improving air quality. These policies with work in conjunction with the air quality section contained in the environmental protection policy, and are expected to help to deliver improvements in air quality.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• NHS London Healthy Urban Development Unit noted that this policy reflects the London Plan Healthy City Good Growth objective (GG3). <ul style="list-style-type: none"> <li>○ They suggest that additional clauses to be added which refers to the use the Healthy Streets approach in planning decisions (see Policy DM T2 Making active travel the natural choice), the need to mitigate the adverse negative health impacts of noise and air quality (see Strategic Policy SP ENV1: Local environmental protection) and to ensure that the design of new homes encourage healthy lifestyles and avoid health problems associated with damp, heat and cold (see Policy DM DE13: Housing standards and design).</li> <li>○ Strongly support in the requirement to carry out health impact assessments (HIA) to accompany planning applications, with suggestions to further clarify different types of development that would require an HIA, and to encourage the use of the HUDU Rapid HIA tool for larger residential-led development proposals.</li> <li>○ Suggestion to move paragraph 5.1.5 which refers to the use of the NHS Healthy Urban Development Unit’s “Planning Contribution Model for London” under Strategic Policy SP SC2 which deals with healthcare infrastructure.</li> </ul> </li> <li>• Sport England considers that the design of where communities live and work is key to keeping people active</li> </ul>	<p>The types of development requiring health impact assessments (HIA) are set out in Policy SC1.</p> <p>The Local Plan broadly supports healthy communities and active environments – this is reflected in the plan’s strategic objectives and in a number of policy topic areas, including on development design and public realm, which align with the active design principles, along.</p> <p>Key demographic and socio-economic statistics are continuously updated. The latest statistics from the 2021 Census can be found here:  <a href="https://www.enfield.gov.uk/services/your-council/census-and-socio-economic-information">https://www.enfield.gov.uk/services/your-council/census-and-socio-economic-information</a></p> <p>We recognise that some streets will still function as roads for carrying significant volumes of traffic. However, we also believe that these streets can still be significantly improved to make the walking and cycling more attractive.</p> <p>The forthcoming Infrastructure Delivery Plan (IDP) does include reference for the developments creating significant new residential development to assess and then provide additional infrastructure where needed. Site proformas have been updated as necessary.</p> <p>It is not possible to require existing operators to address microparticle emissions and their health impact related to their facilities – unless they submit a planning application for their site. If a facility is in</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>and placemaking should create environments that make the active choice the easy choice. Sport England along with Public Health England have launched our revised guidance, Active Design, which intends to inform the urban design of places, neighbourhoods, buildings, streets and active open spaces to promote sport and active lifestyles. The guide sets out ten principles to consider when designing places that would contribute to creating well designed healthy communities which has considerable synergy with many elements of the Draft Local Plan. Active Design is also mentioned specifically in Strategic Policy SP SC1 which is supported by Sport England.</p> <ul style="list-style-type: none"> <li>• Sport England recommend, however, that the links between the proposed draft and Active Design can be developed and strengthened, especially given the Council's intention to improve the health and wellbeing of the borough's population. In this respect Sport England have the following comments in relation to Active Design that could be considered: Strategic Policy SP SC1, which seeks to improve the health and wellbeing of Enfield's diverse communities, does specifically state that proposals will be expected to incorporate Active Design principles. Sport England, however, recommend that the supporting text elaborates on the principles and provides links to the guidance to assist developers and planning officers. It would also recommend to fully embed the principles by requiring planning applications, in addition to Health Impact Assessments, to include a completed Active</li> </ul>	<p>breach of its environmental permit, this is a matter for the regulator rather than the Local Plan.</p> <p>Comments noted regarding the creation of woodland and green spaces in the east of the borough to alleviate the urban heat island effect. The approach set out in the Local Plan outlines the benefits that blue and green infrastructure can produce to help combat the urban heat island effect whilst responding to the climate crisis addressing the need for new buildings to help combat the urban heat island effect.</p> <p>The Council has chosen to follow the guidance for the new Urban Greening Factor as set out in the London Plan closely and will in future be required to prepare its own Urban Greening Factor, which can identify different thresholds, guidance and requirements for different parts of the borough.</p> <p>Comments noted on the legal obligations under the Equality Act 2010/Public Sector Equality Duty and whether the plan has been developed with due consideration for protected groups. This is set out in the IIA and the council's Equality Impact Assessment.</p> <p>The sustainable transport policies aim to minimise unnecessary non-active travel journeys, though complete removal is not the objective. Car parking will always be available in the borough, nevertheless, the emphasis is on promoting active travel whenever possible. It is the intention of the Local Plan and the supporting documents to enhance cycling</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>Design Checklist that demonstrates how the principles were incorporated within a proposals' design.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Better Streets for Enfield and the Enfield Cycling Campaign suggest, the need more literature local on life expectancy, to demonstrate life expectancy gap across the borough over seven years between Cockfosters and Upper Edmonton. With reference to how Active travel can support the closing of this gap. As well as to consider its position on e-scooters once the current trial is concluded- this has the potential to remove a lot of cars from the road and improve health. A lot of journeys to local workplaces could be cut, including those were working from home is not an option such as schools and hospitals.</li> <li>• More literature how the plan adds to or diminish pressures on provision of and access to primary health.</li> <li>• The A406 North Circular is the site of the proposed enlarged waste incinerator in Upper Edmonton- need information about the way in which the microparticle emissions and their impact on health including guidance from DEFRA to Directors of Public Health which states "There is no safe level for particulate matter (PM10, PM2.5), while NO2 is associated with adverse health effects at concentrations at and below the legal limits". The Local Plan fails to mention this, or the increased vehicular movements associated with the intention to</li> </ul>	<p>infrastructure and create welcoming pedestrian-friendly walking facilities to increase safety. There is no perceived need for changes to the Local Plan regarding whether the elimination of car parks aligns with legal requirements.</p> <p>The Regulation 19 Local Plan includes a revised policy on tall buildings (DE6). The policy has been amended following the adoption of the London Plan in March 2021 and comments received from the GLA, which necessitated changes to the definition of 'what is a tall building'. In accordance with the London Plan, the Plan also identifies zones where tall buildings will likely be suitable and provides maximum/appropriate building heights in each zone defined through a detailed analysis which is set out in the Character of Growth Study <a href="https://www.enfield.gov.uk/services/planning/evidence-base">https://www.enfield.gov.uk/services/planning/evidence-base</a> There is no perceived need for changes to the Local Plan regarding whether the elimination of tall buildings aligns with legal requirements.</p> <p>Wording in Strategic Policy SP SC1 has been updated to emphasise that development will be expected to plan and contribute towards healthy and active lifestyles.</p> <p>Acknowledge the potential harm to residents' health caused by the loss of Green Belt. More details on the IIA and EC Topic Paper can be found here</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>import waste from beyond the boundaries of the North London Waste Authority.</p> <ul style="list-style-type: none"> <li>• The plan should consider the creation of woodland and appropriate green space for shade in the East of the borough, this is a major health concern given the changes in climate and the mid-summer temperatures. The urban heat island (UHI) effect is considerable in those areas and areas of green space and woodland of sufficient size are known to alleviate the issue and lower temperatures.</li> <li>• The plan needs to carefully consider the spatial distribution of development, it's impacts on heat and the social and economic east/west divide in the borough. The Integrated Impact Assessment Appendix A 4.26 explains the UHI and illustrates how Enfield is affected by summer heating in comparison to the rest of London. It concludes that the east of the borough is more adversely affected by heat and, that since poorer Londoners will be more adversely affected by UHI, and that heat is more of an issue in the east of the borough.</li> <li>• Meridian Water development should deliver a higher proportion of open green space. The Local Plan could address this by planning for green space and woodlands where they are most needed to address health and social inequalities in the east of the borough.</li> <li>• Chase Park Topic Paper HIC6 and HIC 10 are promoted as sites for extra care or older age housing. The plan should show how primary health infrastructure will be able to cope with the demands of poor air quality, excessive</li> </ul>	<p><a href="https://www.enfield.gov.uk/services/planning/evidence-base">https://www.enfield.gov.uk/services/planning/evidence-base</a></p> <p>The importance of green and blue infrastructure and accessibility to support the improvement of health and wellbeing for Enfield residents is clearly referenced throughout the plan particularly in Chapters: 4: Sustainable Enfield, 6: Blue and Green Enfield and 3: Places – the area-specific strategies provided place-specific policy framework around blue and green infrastructure provision. No changes to the Local Plan are considered necessary.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>heat and an ageing population; and health, wellbeing and equality in Enfield will undoubtedly suffer.</p> <ul style="list-style-type: none"> <li>• When considering equality, it is an important legal obligation under the Equality Act 2010/Public Sector Equality Duty for the planning authority to have due regard to the need to: eliminate discrimination, harassment, victimisation, and other conduct prohibited under the Act; <ul style="list-style-type: none"> <li>○ - advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it; and</li> <li>○ - foster good relations between persons who share a relevant protected characteristic and persons who do not share it.</li> </ul> </li> <li>• The protected characteristics are age; disability; gender reassignment; marriage and civil partnership (this characteristic is excluded from the PSED); pregnancy and maternity; race; religion or belief; sex; and sexual orientation. Aspects of Plan suggest that it has been developed without the consideration of protected groups required by law, e.g. elimination of car parks and significant numbers of tall buildings.</li> <li>• The policy sets out that proposals will be expected to contribute to healthy and active lifestyles and include measures to reduce health inequalities through the provision of a set list of identified methods. It is understood that health and wellbeing play an important role in communities however, some of these identified</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>methods should be provided at a Borough wide level and then filtered down through individual developments. They are not methods that could be provided without direction of the Council, and its evidence base documents, and collaborative working. Recommended changes: Strategic Policy SP SC1 1. to be amended from 'Proposals will be expected to contribute to promote healthy and active lifestyles and include measures to reduce health inequalities through the provision of contribution to.'</p> <ul style="list-style-type: none"> <li>• Strategic Policy SP SC1 1- to be amended from 'Proposals will be expected to contribute to promote healthy and active lifestyles and include measures to reduce health inequalities through the provision of contribution to.'</li> <li>• Recommend alternative wording - "Proposals will be expected to promote healthy and active lifestyles and include measures to reduce health inequalities through contribution to."</li> <li>• Recommended addition/wording- that LB Enfield will support proposals that are directly concerned with the provision of sport/leisure and recreation.</li> <li>• To ensure a comprehensive approach, additional clauses are suggested referring to the use the Healthy Streets approach in planning decisions (see Policy DM T2 Making active travel the natural choice), the need to mitigate the adverse negative health impacts of noise and air quality (see Strategic Policy SP ENV1: Local environmental protection) and to ensure that the design of new homes</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>encourage healthy lifestyles and avoid health problems associated with damp, heat and cold (see Policy DM DE13: Housing standards and design).</p> <ul style="list-style-type: none"> <li>The loss of Green Belt would cause a significant amount of harm to residents' health.</li> </ul> <p><b>Wider community</b></p> <p>A number of residents emphasised the importance of the green space and accessibility to support to Improving Health and Wellbeing of Enfield residents.</p>	
Policy SC2: Protecting and enhancing social and community infrastructure	<p><b>Specific Bodies (Statutory)</b></p> <p>Broad support on several aspects of Protecting and enhancing social and community infrastructure with some suggestions:</p> <ul style="list-style-type: none"> <li>Metropolitan Police Service note that the policy indicates contributions are towards schools (subsection 3) and health / social care (subsection 4) and to include a new subsection (5) on policing infrastructure will be sought from major developments.</li> <li>NHS London Healthy Urban Development Unit, the support for new social and community infrastructure but suggest: <ul style="list-style-type: none"> <li>considering the redevelopment or disposal of surplus NHS sites to consider that the policy should be sufficiently flexible to allow the loss of a facility, or part</li> </ul> </li> </ul>	<p>Comments noted the recommendation for the including policing infrastructure contributions from major developments. However, the placemaking policies requires development proposals to minimise opportunities for crime and antisocial behaviour in a site-specific manner, based on an understanding of the locality and the potential for crime and safety issues. No change to the Local Plan required as a result of MPS' representation.</p> <p>Agreed. Policy SC2 aims to promote health and wellbeing and this policy approach could be strengthened by the additional text suggested within the policy and also in the supporting text. SC2 has been updated accordingly to provide flexibility to allow the redevelopment or disposal of surplus NHS sites, subject to service transformation and estate strategies.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>disposal of a site, where declared surplus to requirements in accordance with service transformation and estate strategies. The redevelopment of NHS sites and the introduction of housing and other uses provides vital investment to re-invest in new and improved health facilities which are fit for purpose. In order to accord with clauses F and G of London Plan Policy S1.</p> <ul style="list-style-type: none"> <li>○ To amend criterion b) to read “declared surplus to requirements and the loss, or partial loss is part of a wider public service transformation plan which requires investment in modern, fit for purpose infrastructure and facilities.”</li> <li>○ To explore opportunities for sharing the use of an existing site or co locate services.</li> <li>○ Under clause 4 and the use of developer contributions for new and improved health and care facilities- to add supporting text that refers to the Infrastructure Delivery Plan and to Appendix D: Table D.1: Developers' contributions which sets out current requirements (in the Planning Obligations SPD).</li> <li>○ Healthy facilities and services should read ‘Health facilities and services.</li> <li>○ Paragraph 5.2.1 defines social and community infrastructure, suggest that the second bullet should read ‘health and care facilities’ and be separated from leisure facilities.</li> </ul>	<p>Agreed. The Policy has been amended to ensure that new facilities explore opportunities for shared spaces or co-located uses.</p> <p>Policy D1: Securing Contributions to Mitigate the Impact of Development and its explanatory text – contains references to the Infrastructure Delivery Plan and the Planning Obligations SPD. No change to the policy as a result of NHS HUDU’s representation.</p> <p>Comment noted on Propose changing "Healthy facilities and services" to "Health facilities and services" and is set out in Policy D1.</p> <p>Comment noted on the matter of separating health and recreational facilities. Amendment made (now paragraph 5.7).</p> <p>Comment noted on the wording emphasising dialogue for contributions towards new school places in the drafting of Section 106 Heads of Terms and recommendations for revising Sections 3 and 4 to state that contributions 'may be sought' rather than 'will be sought,' depending on specific considerations. However, the policy and supporting text is clear, in that where a development would generate a site-specific impact, the Council will expect the impact to be mitigated on-site or through the provision of financial contributions, thereby supporting the provision of necessary facilities in appropriate locations.</p> <p>Agreed. The wording of the policy has been amended to allow for the loss of public services where it can be</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Areli for Blackrock and a consortium of landowners, suggest amended wording, stressing dialogue: “Contributions will be sought towards new school places to meet the needs arising from new housing development (excluding care homes), taking account of available capacity within existing schools and the number of pupils it will generate, from early years through to secondary education. New or expanded schools will be expected to incorporate specialist provision where demand exists and make reasonable adjustments to support the needs of the disabled and mobility impaired. In exceptional circumstances, a contribution towards off-site outdoor play space will be accepted in the vicinity of the school in lieu of on-site provision. These contributions will be captured in the dialogue between the Council and developers for the drafting of the Section 106 Heads of Terms.”</li> <li>• It was recommended by TfL Commercial Development to revise Sections 3 and 4 to state that contributions ‘may be sought’, rather than ‘will be sought’ as these requirements will be dependent on the specific considerations set out within each policy in relation to education and healthcare.</li> <li>• Diocese of London relating to land at Jesus Church, Forty Hill noted that the Local Plan envisages the delivery of circa. 25,000 new units in the Borough and this will undoubtedly require new school facilities. As the Council considers its distribution strategy for this growth, the Diocese stand ready and willing to provide a new school or an extension to the existing on part of the land to the</li> </ul>	<p>demonstrated there is no need and is part of wider transformation plan.</p> <p>Objection noted in relation to Hadley Wood and the impact of development on social infrastructure, particularly in relation to GPs and education provision. However, the Local Plan seeks to create a positive framework for managing growth over the plan period, in line with the NPPF. The Council will use the Community Infrastructure Levy to fund strategic infrastructure necessary to deliver the vision set out in the Local Plan, including the ambitions outlined within the Place-specific policies, where appropriate, and with the priorities identified in the Council’s Infrastructure Delivery Plan. Further, Planning obligations will be sought on a site-by-site basis to ensure that development proposals provide or fund local improvements to mitigate the specific impact of development. No change to this policy required as a result of this representation.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>South of and surrounding Jesus Church. In addition to the need for a SEND school in the Borough, to enable the opportunity for the site to provide the land needed to expand schools to meet demand if it arises from housing growth, providing much needed educational facilities through expanding on the existing infrastructure which already establishes the north of the infill site.</p> <ul style="list-style-type: none"> <li>• Savills on behalf of Crosstree Real Estate Partners suggested that when seeking contributions towards new school places to meet the needs arising from new housing development that its best captured in dialogue between the Council and developers in the Section 106 Heads of Terms so that any contribution to new school places is appropriate for the local need.</li> <li>• British Land support the objectives across the borough as a whole but note all forms of development can directly deliver this due to their scale, location or nature of use. They recommended that the intended application and interpretation of this policy in decision making is clarified.</li> <li>• London City Mission is supportive in principle but suggest that the criteria for development involving the loss or release of a community building should be expanded to include provision for whether there are alternative sites available within the local area to allow consolidation of facilities where appropriate.</li> </ul> <p><b>Wider community</b></p>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	Residents raised objection in relation to Hadley Wood (SA45) in light of the impact on social infrastructure particularly in relation to GPs and education provision.	

**Table A.8:** Summary of main issues and how representations have been taken into account – Chapter 6: Blue and green Enfield

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
Policy BG1: Enfield's Blue and Green Infrastructure	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Lee Valley Regional Park Authority is generally supportive of this policy, particularly where measures to overcome issues of physical severance, inaccessibility and the fragmentation of spaces and habitats are identified. In particular, Policy BG1 point 2 which refers to the prioritisation of a range of future blue-green interventions including expansion of routes into the Regional Park and new continuous and publicly accessible linear parks such as Brooks Park and Edmonton Marshes which are proposed as part of Meridian Water. Reference to the “revitalisation of open spaces and leisure/recreational activities at Banbury Reservoir, Picketts Lock, Hotspur Way, Ponders End and Whitewebbs Park” under BG1 2.j. is also noted.</li> <li>Natural England noted that various forms of mitigation are captured in table 6.1, however Natural England suggests further explore potential SANG opportunities within the borough and to work with LBE to identify suitable mitigation options in the borough. Noting that the plan can be used as a vehicle to identify potential developer mitigation options around the</li> </ul>	Further detailed evidence base work is required to adequately evidence SANG mitigation to protect the Epping Forest SAC. This work is ongoing and will link to nature recovery projects in Enfield. These links have been clarified in the policy and further detail provided in the explanatory text.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>borough. Having this sort of strategic approach to the avoidance and mitigation measures for Epping Forest SAC would help in the evidence base for the HRA to show that the quantum of housing proposed is deliverable. Currently, the identified avoidance and mitigation measures for Epping Forest SAC gives some level of risk to the deliverability of this Plan.</p> <ul style="list-style-type: none"> <li>• Natural England that LBE takes part in the discussions around the emerging Epping Forest Strategic Solution and for LBE to sign up to the updated SAMMs project once it has been agreed. Moreover, note that Green Infrastructure should be incorporated into the plan as a strategic policy area, supported by appropriate detailed policies and proposals to ensure effective provision and delivery.</li> <li>• TfL Spatial Planning is supportive of proposals for public realm improvements along main routes (e.g. A10, A406 and A101) and at key stations and town centre gateways and for new crossings/bridges over the A10, A406 and Lee Valley line to overcome east-west severance. It will be important that there is early engagement with the relevant infrastructure providers and managers including TfL.</li> <li>• TfL suggest it would also be helpful to confirm support for adoption of the Healthy Streets Approach to ensure consistency with other sections of the Local Plan.</li> <li>• The Canals and River Trust is supportive of the council's aspirations for a more integrated, multifunctional and accessible blue and green infrastructure network and to address deficiencies in quantity, quality and access across the Borough. The Trust notes that while policy BG1 supports the rewilding</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>and naturalisation of river corridors, significant rewilding and/or naturalisation is highly unlikely to be achievable on the Lee Navigation, given its function as a navigable waterway. For the avoidance of doubt, they suggest that part g of the policy should be amended as follows (additional text underlined): protecting and enhancing existing residential moorings located on the <u>River Lee and River Lee Navigation</u>.</p> <ul style="list-style-type: none"> <li>• Sport England support the protection and enhancement stance in Draft Strategic Policy SP BG1, particularly in relation to a sites' function as this should prevent, for example, playing field being lost to more general open space. However, Sport England would like to highlight that private playing fields have an important role for the delivery of sport therefore these should have similar protection. It should be noted that the NPPF, paragraph 99 in particular, does not distinguish between public and private playing fields and sports facilities. Draft Strategic Policy SP BG1 1. h. seeks to create and increase publicly accessible open space and outdoor sports, including playing pitches and ancillary sporting facilities, particularly in locations which experience the highest level of deficiency. Sport England support this stance and would like to highlight that the PPS would be able to direct what facilities/pitches are required and where. In relation to 2. b, the sport villages, and the facilities within them, should be informed by the PPS and other sport facility strategies to ensure that they meet identified needs. Although both Firs Farm and Enfield Playing Fields are mentioned as potential hub sites in the PPS, so could be argued the PPS steers towards a sports village of sorts, Hotspur Way is not.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Broxbourne District Council noted that Figure 6.1 (contained within a separate 'Errata Note') shows the New River as a 'green link', LBE is also proposing to create an active travel corridor along the New River to the M25 crossover, subject to funding. Broxbourne District Council is keen to progress this connection, particularly in light of the proposed film studios at Park Plaza West within Broxbourne.</li> <li>• LB Waltham Forest is generally supportive of the comprehensive approach taken in this chapter, they recommend that specific and separate policies are developed detailing how development proposals will contribute to the protection and enhancement of the Epping Forest Special Area of Conservation and the Lee Valley Regional Park. They also recommend early engagement with Natural England and the City of London (Conservators of Epping Forest) as the plan progresses through to Regulation 19 Stage. The London Borough of Waltham Forest is committed to supporting the London Borough of Enfield in developing these policies to ensure that a consistent approach is delivered in each Local Plan to mitigate the in-combination effects of air quality and recreational pressures.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• General support regarding the commitment to preserving and enhancing the natural realm, suggestion involve encouraging maximise urban greening.</li> <li>• More emphasis on joined up green links for walking and cycling, and new crossings to reduce severance.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• For the Enfield ‘green loop’ to also be accessible by bike, including non-standard and adapted cycles.</li> <li>• The principle of crossings to reduce east-west severance to be extended particularly to railway lines in the Borough.</li> <li>• Concerns raised regarding any use of Green Belt land for development.</li> <li>• To create wildlife corridor along Monken Mead Brook with ponds, wetlands and leaky SUDS to improve the rural landscape, enhance the wildlife corridor, reduce the increasing risk of flooding downstream and improve public access.</li> <li>• Cockfosters Local Area Residents Association is supportive of LBE aspirations to protect the openness of the Green Belt (1.a.) and the ‘sensitive restoration and enhancements of registered historic parks and gardens. (Trent Park...) (2.i.) Also supportive of LBE para. 6.14 which notes that the effect of this policy will extend to the management of the parks and in the light of this we would ask Enfield to review the use of Trent Park for large music festivals.</li> <li>• Lansdown Land representing Anglo Aquatic Plant Co, is supportive of the objectives set out in Policy BG1 which prioritises development that will contribute to the creation of a “more integrated, multi-functional and accessible green and blue infrastructure networks”. They recognise the policy is consistent with the vision set out in Policies SP BG1- BG9. For example, Placemaking Principle 14 of Policy SP PL9 states that development at Crews Hill should incorporate “green links to the surrounding designated landscapes, for example Enfield Chase,</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>and the National Cycle Network route 12". Anglo Aquatic falls within close proximity to key blue and green infrastructure networks, such as Enfield Chase which connects Crews Hill and Trent Park. The proposal site will benefit from restoration of this area as detailed in the Crews Hill Topic Paper, which will comprise a publicly accessible woodland, open space, sustainable movement routes and extensive rewilding. They note, effective masterplanning of the Crews Hill Placemaking Area as supported in Policy SP SS2 has the potential to protect and enhance these green and blue infrastructure networks.</p> <ul style="list-style-type: none"> <li>• Tottenham Hotspur Football Club supports the Plan's protection, maintenance and enhancement of the blue and green infrastructure network and the long-term vision of EC to create a green and distinct place. They noted that there is no definition within the Plan to the term "World Class Sport Villages". To ensure consistency with other policies (namely, SP CL4) the Policy should be modified in its reference to the SA62 area (as proposed to be extended to include SA57) as "<u>professional and community sports, recreation and leisure facilities, including ancillary and related uses</u>" rather than "Sport Villages".</li> <li>• Tottenham Hotspur Football Club suggests amending of Criterion (j) where it relates to land at Hotspur Way and Whitewebbs Park. Indicating that the policy suggests that revitalisation of open spaces and leisure/recreational activities should take place in these two locations, along with other areas within the Borough. The Criterion appears to suggest that there is a need to improve open space and leisure/recreational activities in this area. The development management for these areas is contained in Site Allocation SA62 and draft Strategic Policy SP CL4. Together, the Allocation and Policy SP CL4,</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>provide an appropriate development management approach to open space and recreation/leisure objectives for this site. They request that Criterion (j) is re moved from the Policy where it relates to SA62 (as proposed to be extended to include SA57).</p> <ul style="list-style-type: none"> <li>• Joanne McCartney MP described the plan as ‘Positive and ambitious proposal’.</li> <li>• Thames Water from a landowner’s perspective is not supportive of the Wildlife Corridor designation covering the Thames Water sites at SA55: Land to North West Innova Park and Land south of William Girling Reservoir.</li> <li>• The British Horse Society noted that several categories of public rights of way (bridleways, restricted byways and byways and minor public roads) are already shared by cyclists and other user groups. Thus, as a general principle, we believe that, for maximum public benefit &amp; fairness, the reciprocal should be implemented, i.e. that new cycle paths should be shared with other user groups unless there is a specific, unresolvable reason not to do so.</li> <li>• Cllr Anne Brown noted the need to address the pressing need to reduce pollution and/or protect/ enhance green spaces.</li> <li>• The Enfield Society is supportive of aspects of the policy but concerned that the ‘blue and green infrastructure network’ is being used by the Council, together with the ‘National Park City’ concept (policy SP PL8) to justify the loss of important areas of countryside and Public Rights of Way.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Better Homes Enfield is generally supportive but raise the following concerns and objections. <ul style="list-style-type: none"> <li>○ The policies themselves are open to wide interpretation.</li> <li>○ There are very few quantifiable/measurable metrics that could be used to assess a planning application.</li> <li>○ A lot of the polices are just general aims and are non-committal. They will be open to “negotiation”.</li> <li>○ Better Homes feel that, however nice these aims may sound, that in practice the policies themselves are largely meaningless.</li> </ul> </li> <li>• City of London who act as conservators of Epping Forest, support the aspiration of LBE to become the greenest in London and believe that Enfield has the potential through its Green &amp; Blue Infrastructure Strategy to create new and improved Open Spaces within the Borough boundary.</li> <li>• The Hadley Wood Neighbourhood Planning Forum with reference to SP BG1 – suggest that developments must ensure that “development protects and enhances significant ecological features” – how is that defined? Areas of Special Character, which includes the Hadley Wood site, must be protected. Para 6.1.5 states that “Enfield’s long-term ambition is to become the greenest borough in London”. This ambition is reflected throughout the ELP; however, the statements are entirely undermined by the proposals to build a quarter of all new housing on Green Belt land. DMD 78 – new Policy SP BG1 has materially weaker wording, as it merely requires developments to contribute to the blue &amp; green network, vs the current</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>statement that developments along wildlife corridors will only be permitted if they protect and enhance the corridor. Similar weakening of nature conservation and ecological enhancements. Wording must be strengthened.</p> <ul style="list-style-type: none"> <li>LBE Strategic Property Service support Policies BG1 to BG11. It suggests that the policies Map (2021) designates Crews Hill Golf Course as a “Site of Borough Importance for Nature Conservation” and “Local Open Space”, as well as draft Site Allocation SA27 (Land at Crews Hill) and draft Policy PL9 (Crews Hill placemaking area). These designations relate to Policy BG2 (Protecting Nature Conservation Sites) and Policy BG6 (Protecting Open Space). LBE Strategic Property Services recommend that the plan provides further information on the relationship between these proposed policies, especially as the site is proposed to come forward for strategic development.</li> </ul> <p><b>Wider community</b></p> <p>A high number of residents are supportive of the council's aim to protect green spaces and biodiversity but raised concerns about climate change and any developments to the Green Belt.</p>	
Policy BG2: Protecting nature conservation sites	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Lee Valley Regional Park and Pickett’s Lock are identified as locations for SANG mitigation in terms of recreational pressure. The LVRPA would welcome further discussion. It will be necessary to understand the implications of the HRA Report and its recommendations for revising policy to ensure “the Local Plan provides specific guidance on the circumstances in which SANG, developer contributions and/or project level HRA will be</li> </ul>	As an interim measure the policy has been revised to accommodate the expected quantum of SANGs that will be delivered in the borough as a clear policy requirement, or where this is not possible on site for offsite payments in lieu to be collected. This is considered to meet the statutory requirement for mitigation to ensure the plan is sound.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>needed, and the quantities required” and that this is referenced in policy text (paragraph 6.10).</p> <ul style="list-style-type: none"> <li>• The LVRPA highlights the importance to identify appropriate sites within the Park to meet the requirements of SANG mitigation and understand what this will mean for the long term management in relation to the Authority’s venues and open spaces and delivery of the PDF proposals.</li> <li>• The LVRPA is concerned that the open spaces within the Regional Park, many of which are designated as part of the Lee Valley SPA, already face considerable recreational pressure from visitors and increased numbers of local residents, which makes their management for ecological objectives in accordance with these designations difficult.</li> <li>• Epping Forest District Council is unable to conclude no adverse effects on the integrity of Epping Forest SAC, as a result of recreation pressure. Mitigation for recreation pressure at Epping Forest SAC needs to be set out in the Local Plan in order to avoid adverse effects on the integrity of Epping Forest SAC.</li> <li>• The Environment Agency consider that all developments should be expected to provide an ecological assessment, ensuring an ecological baseline is created, from which it can be ensured biodiversity is conserved and enhanced.</li> <li>• Natural England welcomes the policy and notes that only Epping Forest SAC is set out in the summary box and advises that the Lee Valley SPA and Wormley Hoddesdonpark Woods SAC should also be named, to ensure that the final Local Plan gives great weight to the protection of habitat sites. The final</li> </ul>	<p>The policy makes links to the forthcoming SANGs strategy which will provide the requisite detail to inform updates to site allocations.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>Local Plan should give great weight to the protection of Epping Forest SAC.</p> <ul style="list-style-type: none"> <li>• Natural England welcome the strength of the policy but considers that development is not being permitted where it would adversely affect the integrity of SPAs and SACs, unless it meets the requirements in the regulations. Natural England advises that an HRA screening is required for all sites with the Zone of Influence of a Habitat Site (SPAs and SACs) in order to comply with the Habitats Regulations.</li> <li>• Natural England notes that currently the local plan only refers to developments of over 100 units in point 3 of SP BG2, this needs to better reflect the interim strategy in terms of the need for SAMM and SANG payments as appropriate. Developments in the 0-3km ZOI are required to contribute SAMM payments, and this should be made clearer. If this is only collected on major developments (&gt;10 units) to also cover the mitigation costs of minor developments, then NE is happy to agree to this approach, but it should be written up in the supporting text and HRA. Discussions around moving the interim strategy forward are ongoing. Currently the oversight group is hopeful that a governance agreement and breakdown of the SAMM tariff may be able to be brought before councils in January 2022 and we would advise that the policy may need to be amended as appropriate as these discussions develop. Natural England advises the addition of a further point to this policy stating that appropriate avoidance and mitigation measures will be secured prior to occupation.</li> <li>• Natural England agree with the conclusions of the HRA that currently the effects of the plan on air quality remain uncertain</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>and that further information is required. It is pleased to see that the air pollution and traffic data surveys have been commissioned by Enfield Council and would be happy to discuss these once completed.</p> <ul style="list-style-type: none"> <li>• LB Redbridge support the SANG requirements; however, it is likely that with the possible exception of the sites to be released from Green Belt land, that these sites will be incapable of providing SANG on-site; in common with the other London Boroughs within the Epping Forest SAC catchment. Table 6.1 lists those locations which can provide new or upgraded spaces to serve as SANG, supported by the Enfield Blue &amp; Green Strategy; this is supported provided such sites offer suitable recreational capacity and overall attractiveness to visitors as semi-natural spaces.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• City of London (CoL) (who act as conservators of Epping Forest) note that Zone of Influence is 6.2km, and that this Zol is to be subject to regular review through further Epping Forest Visitor Surveys. Such reviews, undertaken as part of the Competent Authorities' SAC Mitigation Strategy monitoring work, may see this Zol change. This potential for change and for regular review should be covered in the wording of the Policy, so that Policy remains sound throughout the Local Plan period to 2039.</li> <li>• CoL consider that the use of the word 'offset' in this Policy contradicts the earlier wording of mitigation and avoidance. The Habitat Regulations protect Epping Forest SAC from adverse impacts by requiring mitigation, which involves first and foremost</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>avoidance of any impacts, as the Policy correctly highlights. However, offsetting suggests compensatory measures which would make the Policy unsound because compensation would not be acceptable without a justification under IROPI - i.e. for imperative reasons of overriding public interest. In this case, The Conservators, therefore, request that for avoidance of doubt about the Policy meaning, the word 'offset' should be deleted and replaced with the word 'prevent'.</p> <ul style="list-style-type: none"> <li>• CoL welcomes the wide range of proposed mitigation set out in table 6.1 but recognise there is no detail here. For the SANGS element, the scale, suitability and future management of these SANGs is not yet certain or fleshed out and, therefore, The City of London Corporation are not able to comment on the potential viability of the proposed provision. However, we are concerned about the quality and type of SANGS that may be provided for such a large, proposed increase in residential population.</li> <li>• The Conservators welcomes the ambition and objectives of the Borough's Local Plan but encourages the Borough to give further serious consideration through its HRA's Appropriate Assessment to the impact of the Plan's proposals on the statutorily protected area of Epping Forest.</li> <li>• The Conservators seek the opportunity to work with both the Borough and Natural England to ensure that, in the face of the development proposed under the Regulation 19 version of the Local Plan, that Epping Forest not only remains a protected landscape but that it is enhanced as part of a wider area of protected open spaces, providing quality access to nature for local people while protecting the Forest's irreplaceable habitats</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>and features from any deteriorations in air quality and unsustainable increases in recreational pressure.</p> <ul style="list-style-type: none"> <li>• The Hadley Wood Neighbourhood Planning Forum consider that the policy must also protect Areas of Special Character to ensure consistency with the NPPF paras 101 and 174.</li> <li>• LBE's property services support this policy (BG1 to BG11) and consider Crews Hill placemaking area would bring significant landscaping and biodiversity benefits to the Borough, including biodiversity net gain. The service considers this could be achieved through carefully planned development and it would be a key component of the SPD.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Concerns were raised amongst the wider community that any development would have an impact on the local SINC's and reduce the biodiversity and nature conservation interests particularly to Firs Farm.</li> <li>• There are concerns that development on the Green Belt will involve the massive loss of mature grassland ancient tree and hedge habitats to numerous species including Bats, Red Kites, Buzzards, Tawny &amp; Barn Owls, Deer, Hedgehogs, Woodpeckers and Foxes, and disruption to the precious but fragile environment which once lost can never be replaced.</li> </ul>	
Policy BG3: Biodiversity net gain,	<b>Specific Bodies (Statutory)</b>	No changes except to add 'latest' to refer to the BNG metric model used.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
rewilding and offsetting	<ul style="list-style-type: none"> <li>• The Environment Agency is very pleased to see their concerns have all been addressed in the plan and that net gain is now a requirement for all new developments.</li> <li>• Natural England welcome the inclusion of this policy, outlining that all developments must submit an action plan evidencing how the development will achieve a minimum of 10% net gain, preferably on site.</li> <li>• Natural England note that Chingford Reservoirs have been identified in point 3 of the policy and would highlight that these are notified as an SSSI, and any improvements would have to be made in line with the regulations for this designation, and without any impact to the site and species.</li> <li>• Natural England recommends that where net gain cannot be provided on site, or feasibly as close to the development as possible, that consideration is given to developing a suite of projects across the borough/area that development within the Borough can contribute to thereby ensuring the biodiversity within the Borough is protected and enhanced.</li> <li>• Natural England considers that the Plan should set out a strategic approach, planning positively for the creation, protection, enhancement and management of networks of biodiversity. There should be consideration of geodiversity conservation in terms of any geological sites and features in the wider environment. A strategic approach for networks of biodiversity should support a similar approach for green infrastructure. Plans should set out the approach to delivering net gains for biodiversity. Net gain for biodiversity should be considered for all aspects of the plan and development types,</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>including transport proposals, housing and community infrastructure.</p> <ul style="list-style-type: none"> <li>• The Canal and River Trust welcomes riparian corridors being identified as a priority location for off -site biodiversity improvements.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Friends of Trent Country Park and Enfield Road Watch raises concern that the policy is being used to justify development that would be highly damaging to the environment. They state that there are irreplaceable priority habitats within Enfield Chase lying within a non-re-creatable historic setting. Development would destroy or fragment these important assets. No amount of developer contributions to ‘rewilding’ or offsetting can compensate for damage to these aspects of the countryside.</li> <li>• Enfield Road Watch highlights that Vicarage Farm is located on the Buglife B-line (part 3c of the policy) and should be protected, rather than destroyed by development in an area great for wildlife, insects and birds.</li> <li>• Goodman Logistics Development UK Ltd supports biodiversity net gain and the potential to provide off site. However, wants to seek an element of flexibility in the context of intensification.</li> <li>• Fairview New Homes support the direction of the policy to improve access to nature. They indicate that access to nature will be provided both on the site, through the provision of open space, and new and improved linkages to open spaces within the surrounding area. As part of the landscaping strategy, native</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>tree, shrub and flower planting will be incorporated across the site, to achieve net gains in biodiversity and provide habitats for locally important species. Whilst, Blue and green infrastructure will be integrated across the site to provide wildlife corridors for locally important species.</p> <ul style="list-style-type: none"> <li>• Notting Hill Genesis support the direction of the policy but considers that all major developments should be considered in light of the mitigation hierarchy (avoid, mitigate, and compensate) to protect most valuable ecological features of the site and minimise harm to nature – rather than all developments.</li> <li>• Local politicians oppose to the policy as they consider there is conflict with Policy CL4 as it identifies Firs Farm as facilitating and contributing towards developing sport and leisure facilities in Enfield, but its proposal has significant effect on SINC, reduction in biodiversity and nature conservation interest; reduce effectiveness of flood alleviation provided by Firs Farm wetlands; uncertainty into the future use of Firs Farm wetlands and jeopardises funding for projects secured by community groups.</li> <li>• The Enfield Society considers that the Council should work with their tenant farmers to secure access to these environmental government subsidies, rather than looking to force tenant-farmers away to make way for ‘rewilding’ projects financed by developers.</li> <li>• The Enfield Society notes that the ‘errata note’ removes reference to the Bug Life B-Line from the policy as a minor modification. They indicate that the Buglife B-Line corridor is a</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>network of 'insect pathways' where wildflower-rich habitat will be restored and created to connect existing wildlife areas, which will be of benefit to insects. It is of significance for birds and species that rely upon insects for food. It believes this is why bird sightings, including skylarks, have been so frequent over the fields near Trent Park at Vicarage Farm. It believes the removal has significant implications for draft Policy CH10: Chase Park. This is because the Review of Sites of Importance for Nature Conservation (2021) identifies that the Vicarage Farm and Rifles Site Borough- Wide Site of Importance for Nature Conservation (SINC – LUC site ID30, SINCID ENb15) is connected with the SINC at Trent Park by 'similar' habitat (see the Review, Appendix C, PDF page 14). LUC identify the 'strategic' importance of the wildlife site 'given its location'. Trent Park and Vicarage Farm essentially comprise one large area of strategic wildlife habitat. Suggest that the BugLife B-Line should be reinstated to the policy and clearly shown on the mapping.</p> <ul style="list-style-type: none"> <li>• The Hadley Wood Neighbourhood Forum consider that the policy is significantly weaker than the London Plan which, in para 8.6.6 states that "this approach does not change the fact that losses [of biodiversity] should be avoided and biodiversity offsetting is the option of last resort".</li> <li>• LBE's Property Services support the direction of the policy and consider this could be achieved through carefully planned development and it would be a key component of the SPD and recommend that the plan provides further information on the relationship between policies SA27, PL9, BG2 and BG9, especially as the site (SA27) is proposed to come forward for strategic development.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Broad support received from the wider community with suggestions to include relatively small features, such as incorporating swift bricks and bat boxes in developments and providing safe routes for hedgehogs between different areas of habitat, can often achieve important benefits for wildlife. These should follow best practice guidance in accordance with the London Plan, Policy G6 (4) and in line with the guidance in NPPG Natural Environment Paragraph 023.</li> <li>• Residents welcomed the proposed environmental improvements which address climate change and biodiversity</li> <li>• There was concern that not all habitats can be re-created.</li> <li>• It was noted that Vicarage Farm is deficient of biodiversity and suggested that the council could work with the existing tenant farmers to enable them to take advantage of Government subsidies for rewilding. This would be preferable to building a housing estate over farmland and then the developers creating "rewilding projects".</li> </ul>	
Policy BG4: Green Belt and Metropolitan Open Land	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No points raised by specific bodies regarding this policy.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• The North West London RSPB Group objects to the policy as the Green Belt attracts many low impact visitors (not just local residents) to the area especially those seeking to enjoy the</li> </ul>	Policy revised to clarify approach to development adjacent to the greenbelt and policy split into new policy BG6. New policy BG6 introduced to reflect best practice in greening the green belt and the potentially multifunctional benefits recognised explicitly in NPPF 2021 Paragraph 142.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>open farmland atmosphere in largely unspoilt countryside. They indicate that the Politicians now have the chance to prove that the Green Belt is “safe in their hands”.</p> <ul style="list-style-type: none"> <li>• Lansdown Land representing Anglo Aquatic Plant and land at Theobalds Park Road support the general position of this policy that states that Enfield’s Green Belt and Metropolitan Open land should be protected from inappropriate development that would have a detrimental impact on openness and character of its surroundings.</li> <li>• TfL Commercial Development does not support Section 2 of Draft Policy SP BG4 which allows for development within the Green Belt and on Metropolitan Open Land where there is no significant detrimental impact on their openness, and the character of their surroundings is respected. As per Policy G2 of the London Plan, Enfield’s Green Belt, ‘Exceptional circumstances are required to justify either the extension or de-designation of the Green Belt through the preparation or review of a Local Plan’.</li> <li>• TfL Commercial Development recommend Enfield’s draft policies be amended so as to explicitly preclude development within the Green Belt. Equally, Policy SP BG4 should actively encourage and advocate the use and optimisation of brownfield sites within the borough to mitigate the need for Green Belt development.</li> <li>• The Hadley Wood Neighbourhood Planning Forum object to development in the Green Belt, indicating that SA45 should not be released for development. Enfield’s Green Belt and MOL Study indicates that the site: 1) contributes to purposes and</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>openness of the Green Belt; 2) merits continued protection 3) assessments conclude that Hadley Wood makes a ‘strong’ contribution to the Green Belt; and 4) assists in safeguarding the countryside from encroachment.</p> <ul style="list-style-type: none"> <li>LBE’s Property Services support the direction of the policy and consider this could be achieved through carefully planned development and it would be a key component of the SPD and recommend that the plan provides further information on the relationship between policies SA27, PL9, BG2 and BG9, especially as the site (SA27) is proposed to come forward for strategic development.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>Crews Hill Golf Course objected to this policy and considered the golf course is a major part of north Enfield, provides the opportunity for all members of the public to improve both their physical and mental health and should not be considered for development.</li> <li>The wider community objected to the release of Green Belt for development and considered that development will spoil the countryside, resulting in a loss to habitats, greenery and view.</li> </ul>	
Policy BG5: Green Belt and edges of the countryside/urban areas	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Lee Valley Regional Park Authority welcomes this policy and its links with draft Policy BG2 which allows for the partial or complete redevelopment of previously developed sites in accordance with restrictions in terms of the impact on the openness of the Green Belt and increases in traffic generation.</li> </ul>	No changes.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>However, it was noted in their representation that the draft Policies Map does not indicate the designated area of the Pickett's Lock major developed site. The current draft Policies Map shows only the Site Allocation SA56 keyed on the map as 'Preferred Option for Spatial Growth Sporting/Leisure' and which covers a portion of the site relating to the car park and cinema and does not for example include the camp site, athletics centre or site of the previous leisure centre. The LVRPA wants a much greater emphasis within the Local Plan on the strategic importance and potential of Pickett's Lock in the eastern part of the Borough. Following an initial Duty to Co-operate meeting the Authority would wish to discuss this point in further detail and it has been agreed that a revised site allocation for Pickett's Lock will be provided that better reflects the Authority's ambitions for the site in accordance with the Park Development Framework Area Proposals and current joint working on The Wave London project. Likewise, Council officers will be advising on the 'missing' Policies Map notation for major developed sites in the Green Belt, which should apply to Pickett's Lock. The Authority may wish to comment further on this point in due course.</p> <ul style="list-style-type: none"> <li>• Hertfordshire County Council is concerned about the commitment to parking provision in this policy. This seems contrary to the commitment to sustainable transport set in other policies, and the aim of achieving 80% sustainable modal share.</li> <li>• TfL Commercial Development maintain objections to this policy in a similar vein to their objections set out at policies BG4 and SS1.</li> <li>• Tottenham Hotspurs Football Club, support the identification of land at Hotspur Way (site allocation SA62, as proposed to be</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>extended to include SA57) as “major developed site” given it comprises substantial areas of previously developed land. It appears to suggest in the text that future development will only be countenanced where existing uses become redundant and, therefore, does not consider development proposals that are in addition to existing functions of the area. THFC respectfully request that this aspect of the Policy is clarified, and that it is made clear that the MDS designation applies to further development at the SA62 site, and not only in cases where the existing uses become redundant. However, it considers it unnecessary, for those cases where further development is proposed for a planning brief or masterplan to be prepared.</p> <ul style="list-style-type: none"> <li>• THFC and D&amp;J London Property Ltd considers whether there should be separate policy covering MDS or whether there be a specific reference to MDS in Policy BG5 and applied to further development not only where the site is redundant. However, THFC consider it is not necessary that in those cases where further development is proposed that a planning brief or masterplan is required.</li> <li>• D&amp;J London Property Ltd point out the guidance for the future use of ‘previously developed land’ in paragraph 6.5.3 in the ‘Explanation’ supporting policy BG5. This states that ‘Limited infilling or the partial or complete redevelopment of previously developed land and temporary accommodation will not be inappropriate subject to meeting the criteria set out in parts 2 and 3 of the policy.’ Such guidance should apply equally to land in the MOL that has been previously developed such as the site at 144 Firs Lane.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• The Wave, consider the requirement set out in BG5 2 b (“...not lead to an increase in the developed proportion of the site...”) is not consistent with NPPF para 149 g and should be removed. Criterion 3 (traffic impact) should be dealt with under other policies related to the assessment of development proposals and not added as a further criterion to this part of policy BG5. Also, Picketts Lock referred to as a Major Developed Site (6.5.5) - this terminology dates from PPG2. NPPF uses the terminology of Previously Developed Land.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Cockfosters Local Area Residents Association notes that the policy only covers ‘development in the Green Belt’ but considers that it should cover ‘development that affects the Green Belt’ as well, in line with existing policy DMD83, London Plan policy G2 and NPPF para 144.</li> <li>• The Hadley Wood Neighbourhood Planning Forum considers that the requirement for Green Belt developments to provide 50% affordable housing, which they indicate by definition comprises higher density and lower cost builds, conflicts with SP BG5, which requires the siting, scale, height and bulk of developments adjacent to the Green Belt to be compatible with the primary aim of preserving the openness of the Green Belt, with high standards of design and landscaping. They also consider that para 6.5.1 of the plan is looser than or inconsistent with the NPPF wording. For example, Enfield state that some Green Belt development that is not inappropriate “includes some forms of development on previously developed sites, limited infilling within existing settlements”. NPPF para 149.g) specifies that such developments must “not have a greater</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>impact on the openness of the Green Belt than the existing development, or not cause substantial harm to the openness of the Green Belt, where the development would re-use previously developed land and contribute to meeting an identified affordable housing need”.</p> <ul style="list-style-type: none"> <li>• LBE Property Services support the direction of the policy and consider this could be achieved through carefully planned development and it would be a key component of the SPD and recommend that the plan provides further information on the relationship between policies SA27, PL9, BG2 and BG9, especially as the site (SA27) is proposed to come forward for strategic development.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Residents highlight the importance to have a Green Belt in London and recognise its importance for wildlife, mental wellbeing and future generations.</li> <li>• Objections were received recognising that the Green Belt must be protected and conserved in North West Enfield and Cuffley Brook and the land up to Burnt Farm Ride where it serves vital purposes including separation from Barnet and Potters Bar, helping air quality in the borough and biodiversity.</li> </ul>	
Policy BG6: Protecting open space	Comments related to Policy BG6 were received from local organisations and the wider community. They note the importance of Open Space and its benefits to the borough. However, contradictory concerns have been raised relating to how the policy	BG6-3 development in back gardens is seen to be in conformity with Policy H2 of the London Plan as well as in line with national policy in this respect. No change needed.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>would either support or restrict back garden development coming forward.</p> <p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• None noted.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• LBE Strategic Property Services support this policy.</li> <li>• The Hadley Wood Neighbourhood Planning Forum object to garden development being permitted with mitigations, the concern relates to the policy wording permitting all garden development that may come forward.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Noted Parks, golf courses, open spaces are vital for human welfare, health benefits and leisure for all.</li> <li>• Green spaces are valuable, especially to people living in flats with no gardens.</li> <li>• Objection as the policy would restrict development of homes in back gardens. This policy completely undermines council's own policy (Policy DM H4) of permitting 'incremental, sustainable intensification' on small sites. Proposals for development in garden land should always be fairly assessed on their own merits.</li> <li>• Objection as the policy introduces uncertainty into the future use of Firs Farm wetlands that jeopardises funding for projects</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	secured by local community groups (e.g. from Thames Water) that have been endorsed and supported by Enfield Council.	
Policy BG7: Watercourses	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Lee Valley Regional Park Authority is supportive of the aspiration for the enhancement of the river and to encourage the public connection to the waterways, however the need for space for nature should not be overlooked. Within emerging designs, refuge or quiet areas should be incorporated to enable species with a large home range, such as otter to both move through and rest up. Similarly, for species such as Water Vole to colonise and establish territories, breed and thrive there is a need for undisturbed areas. Concern remains however about the demands policy is potentially placing on the waterways within this area – the waterways are identified in policy as part of the public realm, a focal point for cultural activity, with access routes alongside, and an important ecological resource. Bullet point 11 proposes the Lee Navigation as a venue for water sports facilities. Further thought should be given to the primary role of the waterways and how the various demands can be balanced. There is a similar concern in respect of the detail of Policy BG7 'Watercourses'.</li> <li>The Canal and River Trust indicate that policies do not generally support online permanent moorings, with a preference for offline mooring, moorings in laybys or basins. However, in their view, there may be locations where online moorings are appropriate if they satisfy the criteria of the trust's Online Mooring Policy. Amongst other things, permanent online moorings may make a valuable contribution to public enjoyment of the waterways,</li> </ul>	Minor amendment to refer to typical 8 metre setback from watercourses, but otherwise no changes. The role of the local plan is to determine an appropriate spatial strategy which can include different types of moorings.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>natural surveillance and the character of an area, including within regeneration areas that span a Trust waterway, such as Meridian Water. We suggest that, at the Local Plan stage, it would be premature for online moorings to be ruled out to the extent that they are by policy BG7. Point 3 of the policy should be amended to require moorings to not have adverse impacts against a range of appropriate criteria (such as those already included) but it should not seek to specify a location in relation to the main channel.</p> <ul style="list-style-type: none"> <li>• Sport England welcomes that sport and recreation activities within or adjacent to watercourse would be supported in Policy DM BG7.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• The Enfield Society is concerned that the Council’s approach to rewilding in Policy BG3: biodiversity net gain, rewilding and offsetting could force the Council’s tenant farmers off the land. A more effective approach to biodiversity enhancement in Enfield Chase would be to work with the tenant farmers to encourage best practice in agri-environmental management, for example in the approach to crop rotation, reduction in the use of chemical fertilisers and pesticides, and allowing field margins to flourish. A further benefit of this approach would be that it would not require financial contributions from developments in the Green Belt countryside.</li> <li>• Landowners support Policies BG1 to BG11 and consider Crews Hill placemaking area would bring significant landscaping and biodiversity benefits to the Borough, including biodiversity net gain. We consider this could be achieved through carefully</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>planned development and it would be a key component of the SPD.</p> <ul style="list-style-type: none"> <li>The Hadley Wood Neighbourhood Planning Forum Policy note DM BG 7 does not differentiate between the different types of watercourses. Greater protection should be provided to Main Rivers versus, for example, Ordinary Watercourses.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>None noted.</li> </ul>	
<p>Policy BG8: Urban greening and biophilic principles</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Lee Valley Regional Park Authority is supportive of this policy which seeks to maximise opportunities to green the borough's urban and more rural environment, including the Regional Park. Noting that the plan acknowledges measures such as green/brown roofs, living walls, trees and soft landscaping treatments, will have multiple environmental benefits for biodiversity, flood mitigation, urban cooling as well as improve the quality and aesthetic value of the area if appropriately implemented and maintained over time.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Social Housing Plus – Fore Street Limited (c/o DP9 Ltd) raise a concern that the plan has a several competing factors around site landscaping (including playspace, cycle parking, resident's amenity areas) in practice this is unlikely to be achievable unless you are dealing with large masterplan sites which have</li> </ul>	<p>The wording is considered appropriate and therefore no change is needed.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>the space to consider this policy. Rather than 'expect' the text should be updated to 'encouraged'.</p> <ul style="list-style-type: none"> <li>• Connected Living London (Arnos Grove station car park) raise an objection noting that the Policy does not meet the need for sustainable growth in the area NPPF para 11: Sustainability test. As well as the NPPF para 35: Soundness test - the Policy does not meet the tests of soundness.</li> <li>• Connected Living London considers that to ensure that the policy is deliverable and effective, proposed modification suggested that part 1: New development will need to demonstrate how it will exceed target the urban greening factor targets set out in the London Plan... London Plan Policy G5 requires Boroughs to develop an Urban Greening Factor (UGF) to 'identify the appropriate amount of urban greening required in new developments. It requires the UGF targets to be 'tailored to local circumstances. No evidence has been provided that would support a higher recommended target than that set out in the London Plan. The policy should be amended to align with London Plan Policy G5 Urban Greening Factor targets.</li> <li>• TfL Commercial Development supports the aspiration to exceed London Plan targets in relation to the urban greening factor as set out in Section 1 of Draft Policy DM BG8 and will seek to exceed this target wherever possible. However, they recommend the inclusion of a caveat which states that this should be achieved where viable and subject to site constraints. Draft Policy DM BG8 should accord with London Plan Policy DF1, which sets out that 'applicants and decision-makers should firstly apply priority to affordable housing and necessary public</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>transport improvements and the priorities set out in Section D of the policy.</p> <ul style="list-style-type: none"> <li>• Origin Housing suggest that ‘All major development will be encouraged to exceed the urban greening factor targets set out in the London Plan and to show how the green features will be maintained throughout the life of the development in line with the principles of biophilic design. Reference should be made to circumstances where urban greening factor London Plan targets cannot be met and how suitable mitigation, where necessary, is applied.</li> <li>• SEGRO suggest amending the policy to align with the requirements set out in the London Plan or be amended to provide more flexibility and state “Where appropriate, New development will need to demonstrate how it will exceed the urban greening factor targets set out in the London Plan...”.</li> <li>• Notting Hill Genesis suggested that wording of ‘development’ is replaced with <b><u>‘all major development will be encouraged to’</u></b> exceed the urban greening factor targets set out in the London Plan and to show how the green features will be maintained throughout the life of the development in line with the principles of biophilic design. Reference should be made to circumstances where urban greening factor London Plan targets cannot be met and how suitable mitigation, where necessary, is applied.</li> <li>• British Land note that Part 2 - lists priority areas but does not detail how these will be achieved. Detail needed to comment on the policy. Part 3 b - welcome the inclusion of the wording ‘subject to viability and other planning considerations.’ Part 3 c -</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>recommend that the word 'maximised' is replaced with 'optimised.'</p> <ul style="list-style-type: none"> <li>The Hadley Wood Neighbourhood Planning Forum note that DMD 80 – new Policy DM BG8 has materially weaker wording, as it merely says that developments that involve harm to trees will be “resisted”, as opposed to the current “refused”.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>Many residents are supportive of plan’s aspiration in planning for green space and woodlands where they are most needed to address health and social inequalities in the east of the borough in the form of “tiny forests” e.g. in existing parks and playing fields (e.g. Durrants, Jubilee, Albany, Bullsmoor Lane, Bellmore playing fields, school playing fields, in the two new small parks (Edmonton Marshes and Brooks) or as a continuous swathe across Lee Valley to Epping Forest.</li> </ul>	
<p>Policy BG9: Allotments and community food production</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>NHS Healthy Urban Development Unit welcome paragraph 6.9.2 which states that where a health impact assessment (HIA) is required, consideration should be given to how the development will support access to green space, exercise and healthy food, but suggest this requirement should be moved to BG1.</li> </ul> <p><b>General bodies / other organisations</b></p>	<p>No changes. Developments of all kinds can include measures such as developer contributions to increase or promote food production in the borough. The policy is considered to be proportionate and appropriately detailed and does not seek to repeat national guidance in this area.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Enfield Climate Action Forum cast doubt on the description of Enfield as ‘a leading centre in the development of sustainable food production and horticulture.’</li> <li>• LBE Strategic Property Services support this policy.</li> <li>• British Land raise issues of practicality if the requirement to promote food production in new development is applied to industrial developments.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• One respondent highlighted a site (Broomfield Park stable yard) as a potential site for food production.</li> </ul>	
Policy BG10: Burial and crematorium spaces	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The Environment Agency support the principles of the policy but would like to see this section of the plan expanded to promote relevant guidance, particularly Section L (cemetery developments) of the Environment Agency’s Approach to Groundwater Protection, and Cemeteries and burials: groundwater risk assessments.</li> <li>• Sport England objects to the loss of playing fields which the PPS states requires protection.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Bush Hill Park Residents Association, Cockfosters Residents Association, Winchmore Hill Residents Association, CPRE London, Friends of Firs Farm, LBE’s Conservative Group,</li> </ul>	The approach to allocate sites is based on an assessment of need which aims to address the increasing demand for burial and cremation facilities in the borough. Only a limited number of sites were considered for burial and cremation needs and through evaluation Sloeman’s Farm and a small proportion of Church Street Recreation Ground are considered for burial needs and for crematorium (respectively).

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>Enfield Road Watch, Better Homes Enfield, Southgate District Civic Voice, The Enfield Society – object to Policy BG10 as it proposes recreation grounds to be changed to burial uses. Recreation is an important contribution to a healthy lifestyle and reduces the costs to the local health system. Additionally, these proposals appear contrary to Policy DM CL5 (page 280) which (point 2) states Development proposals that result in the loss of sports and recreational buildings and land will be resisted unless: a. an assessment has been undertaken which has clearly shown the facilities to be surplus to requirements; or b. the loss resulting from the proposed development would be replaced by equivalent or better provision in a suitable location; or c. the development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss.</p> <ul style="list-style-type: none"> <li>• CPRE London does not support Option F (preferred option) in the plan to meet objectively assessed need in the urban area and new sites in the borough. The option would involve the allocation of three public parks / open spaces / recreation grounds for burial – these sites perform an important public amenity function and should continue. CPRE suggest it would be better to allocate an appropriate Green Belt site (for example the ‘Land opposite Enfield Crematorium’) where burial is an appropriate use, providing openness is retained. The three sites currently proposed as allocations for burial – Alma Road Open Space, part of Firs Firm Recreation Ground and Church Street Recreation Ground – are all providing important public amenity and should be safeguarded for future to ensure green space standards and sports pitch requirements can be met now and in future, given population is set to increase.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• CPRE London indicate that Table 6.4 of the plan does not mention loss of amenity in relation to the proposed allocations of the three parks. No 'cons' are listed at all. A better alternative would be site SA44 (Land opposite Enfield Crematorium) which currently provides no public amenity but is Green Belt and so should not be allocated for development as currently proposed.</li> <li>• Friends of Firs Farm raises their concern that the development of a crematorium at Firs Farm and its operation will all reduce the effectiveness of the work done to date and will therefore reduce the value of the significant investment of money, time, other resources and good will that the various partners working at Firs Farm have put into the project to date. By designating the area for burial/crematorium use, the longer-term future of the community hub proposal is seriously in doubt. As a result, the funding already secured from third parties is likely to be lost, and the time and resources expended in development the proposal to date will have been wasted. It seems likely that third party funders such as Thames 21 may have their confidence in Enfield Council as a trusted partner undermined.</li> <li>• Friends of Firs Farm indicate that the proposed cremation/burial use at Firs Farm does not constitute the very special circumstances to warrant development on MOL. Although cemeteries and burial grounds are identified as not inappropriate on Green Belt/MOL (Paragraph 149 (b)), crematoria are not specifically mentioned, which relates to the regulation of the cremation of human remains under the statutory Local Air Pollution Prevention and Control (LAPPC) regime. The draft Local Plan also has provided little or no evidence to support the inclusion of this proposal, either in</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>terms of its need or how the site at Firs Farm was identified and evaluated in relation to other options.</p> <ul style="list-style-type: none"> <li data-bbox="533 416 1413 887">• Friends of Firs Farm highlight that while the provision of crematoria is not specifically referenced in the NPPF, the most recent Government review of policy concluded that the restrictions in the 1902 Cremation Act remain appropriate to protect neighbouring dwellings and the sanctity of memorial grounds. The 1902 Act (§5) states that no crematorium shall be constructed nearer to any dwelling- house than two hundred yards, except with the consent, in writing of the owner, lessee and occupier of such house, nor within fifty yards of any public highway. The site indicated in the draft Local Plan is situated less than 200 yards from dwellings in Barrowell Green. It is also adjacent to the public highway at Firs Lane. The proposal is therefore not consistent with national policies and legislation in these respects.</li> <li data-bbox="533 919 1413 1222">• Friends of Firs Farm highlight that the proposals for a crematorium at Firs Farm recreation ground is not in line with the London Plan (Mar-16). Specifically, the proposals are not in line with Policies GG3, S1, S5 and G3. Cremation is not specifically identified in the NPPF or London Plan as a use that is not inappropriate on MOL. It considers that the Council has also failed to demonstrate that this proposal would constitute the very special circumstances necessary for this proposal to be identified in the Local Plan and/or granted planning consent.</li> <li data-bbox="533 1254 1413 1374">• Friends of Firs Farm indicate that the Burial needs assessment does not discuss cremation capacity in any respect, nor does it mention the use of land at Firs Farm for burial or cremation. There is therefore no connection between the policy set out in</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>the draft plan and the evidence base that is supposed to support it.</p> <ul style="list-style-type: none"> <li>• Friends of Firs Farm considers that the IIA does not properly consider the ecological and flood prevention role of Firs Farm when compared with Church Street Recreation Ground. This is also not consistent with the assessment of cumulative effects presented in Table 7.4 of the IIA document, which identifies differential effects for the two proposed sites in terms of flood risk.</li> <li>• Overall, local interest groups consider that the council has failed to demonstrate either the need for additional cremation capacity in the borough or that, even if such need exists, the proposed site at Firs Farm identified in the draft Local Plan is an appropriate place or the best option available when compared with the available alternatives.</li> <li>• Cockfosters Residents Association questions why Trent Park cemetery is not included in Table 6.3.</li> <li>• Local residents' association raises concerns about the allocation as a site for a crematorium, with no recognition in the Local Plan of its ecological and community significance; especially as there are plans to build a community hub on this location.</li> <li>• Several local interest group and local politicians indicate that the proposal will significantly affect the local Site of Interest for Nature Conservation and reduce the biodiversity and nature conservation interest of Firs Farm wetlands, contrary to several other policies in the draft Local Plan.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• LBE property services support the policy and consider the site could offer potential to provide landscaping and biodiversity benefits to the Borough, including biodiversity net gain through carefully planned development.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• A number of residents used a proforma response which emphasised that the recreation grounds make a positive contribution to wellbeing and health, and this has a positive benefit to the local health system, which should not be used for burial and/or cremation space</li> <li>• There was also concern that the development would negatively impact the SINC and negatively impact biodiversity and reduce the effectiveness of flood alleviation provided by the wetlands. Adverse impacts to traffic and the environment generally were also raised as issues.</li> <li>• Whilst the wishes of various faith groups are respected, the wider community felt that the idea of using undeveloped land in the Green Belt as additional burial space is unnecessary and considered making more intensive use of space in existing sites and encouraging families to use crematorium is far preferable.</li> <li>• Residents felt that there are quite a few crematoria in north London and empty warehouses on the North Circular Road and M25 areas that the council could consider exploring instead of the sites in the plan.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
Policy BG11: Blue and green infrastructure plans	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Natural England is generally supportive of the inclusion of Blue and Green Infrastructure as its own policy (Policy BG1 and BG11). Noting that a strategic approach for green infrastructure is required to ensure its protection and enhancement, as outlined in para 179 of the NPPF. Green Infrastructure should be incorporated into the plan as a strategic policy area, supported by appropriate detailed policies and proposals to ensure effective provision and delivery.</li> <li>The Canal and River Trust mention the need for major planning applications to submit a blue -green infrastructure plan to demonstrate how the development will contribute towards delivering priorities of the Blue and Green Strategy.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>The Canal and River Trust is supportive of the need for major planning applications to submit a blue -green infrastructure plan to demonstrate how the development will contribute towards delivering priorities of the Blue and Green Strategy.</li> <li>A high number of developers are not supportive of submitting a blue &amp; green infrastructure plan alongside major planning applications, noting that it's not requirement of London Plan.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No specific comments.</li> </ul>	

**Table A.9:** Summary of main issues and how representations have been taken into account – Chapter 7: Design and character

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
<p>Policy DE1: Delivering a well-designed, high quality and resilient environment</p>	<p><b>Specific Bodies (Statutory)</b></p> <p><b><i>Metropolitan Police Service</i></b></p> <ul style="list-style-type: none"> <li>The Metropolitan Police Service expresses general support for the policy area related to designing out crime. However, they suggest a modification to paragraph 7.1.4, which currently appears in a box. The proposed adjustment is to reword the paragraph as follows:</li> </ul> <p><i>"The Council will consult the Metropolitan Police on all applications involving major development. In areas with high crime rates, achieving Secured by Design certification may be required as a condition of planning consent. Applicants should consult with the Metropolitan Police designing out crime officers at the earliest opportunity and include details of security and Secured by Design compliance on the Design and Access statement. Where a conflict exists between Secured by Design principles and other urban design objectives, applicants must explain their reasoning behind the compromises made in their design and access statement."</i></p> <p><b><i>Sport England</i></b></p> <ul style="list-style-type: none"> <li>Sport England suggest adding to the supporting text (for example paragraph 7.1.2), a reference to incorporating the Active Design Principles within proposals so that developers are aware of requirements of Strategic Policy SP SC1.</li> </ul>	<p>The suggested modification to paragraph 7.1.4 regarding designing out crime is appreciated. This suggestion is be considered in refining the policy to enhance safety and security in proposed developments.</p> <p>The incorporation of Active Design Principles within proposals is welcomed. The emerging policy encourages active lifestyles and supports strategic objectives outlined in SP SC1.</p> <p>Feedback on potential confusion regarding the reference to public realm is noted. We have reviewed the language to ensure clarity and alignment with the intended scope of the policy.</p> <p>HCC's support for Policy SP DE1 and the prioritisation of sustainable transportation options is welcomed.</p> <p>Support of high-quality design interventions and the suggestion to confirm adoption of the Healthy Streets Approach is welcomed. Consistency with other sections of the Local Plan to promote sustainable and inclusive urban environments is made.</p> <p>Support for our approach to high-quality development and the clarity provided on policy objectives is welcomed. Feedback on taller buildings and amenity</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p><b><i>Historic England</i></b></p> <ul style="list-style-type: none"> <li>Historic England is generally supportive of this policy area, note that the reference to public realm in the first sentence is potentially confusing, as it would appear the policy is intended to cover all new development in the borough rather than simply that relating to public realm.</li> </ul> <p><b><i>Hertfordshire County Council</i></b></p> <ul style="list-style-type: none"> <li>Hertfordshire County Council is fully supportive this policy and Enfield's prioritisation of people over private vehicles, which aligns to our vision in LTP4.</li> </ul> <p><b><i>TfL Spatial Planning</i></b></p> <ul style="list-style-type: none"> <li>TfL Spatial Planning is supportive of the emphasis on high quality design led interventions in the public realm including references to movement in part 2d and public spaces in part 2f. However, suggest that it would be helpful to confirm support for adoption of the Healthy Streets Approach to ensure consistency with other sections of the Local Plan.</li> </ul> <p><b><i>LB Waltham Forest</i></b></p> <ul style="list-style-type: none"> <li>LB Waltham Forest is supportive of the approach taken to secure high-quality and well-designed development in the borough in the plan period in line with the NPPF. We are pleased to see that a thorough approach has been taken to the strategy surrounding taller buildings and the addition of the London Plan definition provides clarity on</li> </ul>	<p>space will be taken into consideration during the policy review process.</p> <p>General support from developers for Policy SP DE1 is welcomed. The Council will continue to engage with stakeholders to ensure that the policy fosters high-quality design and meets the needs of our community.</p> <p>Suggestions regarding transformative change at Arnos Grove are noted. We have reviewed the designation of Sites A and B to ensure consistency with the overall objectives of the Local Plan.</p> <p>Recommendations regarding innovation and transformative change within development sites are welcomed. Policies in the plan have been refined to encourage creativity and diversity in urban design, where appropriate.</p> <p>Support of nature and public spaces within Policy SP DE1 is welcomed. The plan has emphasised the importance of these elements for the well-being and recreation of Enfield residents in the final policy, where appropriate.</p> <p>Reference to Enfield's Characterisation Study is noted. We will ensure that the Green Belt area's unique characteristics are preserved and respected in the final policy.</p> <p>The community's support for high-quality development and public realm enhancements is welcomed. Suggestions for more rigorous design policies will be</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>this matter. Also pleased to see clear policy setting our amenity space for new development.</p> <p><b>General bodies / other organisations</b></p> <p><b><i>Developers/landowners</i></b></p> <ul style="list-style-type: none"> <li>• General support from developers/landowners on the requirements of draft Policy SP DE1 which seek to achieve the principles of high-quality design set out in the NPPF and London Plan.</li> </ul> <p><b><i>Connected Living London</i></b></p> <ul style="list-style-type: none"> <li>• Connected Living London (Arnos Grove station car park) suggest that Sites (A and B) at Arnos Grove should be designated as areas of 'transformative change' to ensure consistency with other parts of the draft ELP. Noting that policies SP DE1, SP DE4 and SP DE6 do not meet the need for sustainable growth in the area and do not meet the tests of soundness.</li> </ul> <p><b><i>TfL Commercial Development</i></b></p> <ul style="list-style-type: none"> <li>• TfL Commercial Development (CD) recommends that the London Borough of Enfield (LBE) acknowledges the importance of innovation within Draft Policy SP DE1. They emphasise that integrating innovation into the policy allows for the delivery of infrastructure, homes, and commercial floorspace that aligns with the context and locality, introducing creativity and diversity to the streetscape. TfL CD specifically suggests the inclusion of 'innovation' as an additional characteristic of well-</li> </ul>	<p>taken into account to ensure that developments meet the highest standards of design quality.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>designed places, particularly within areas designated as 'transformative' in Figure 7.1.</p> <ul style="list-style-type: none"> <li>• Regarding Figure 7.1, TfL CD comments on the designation of Site A in the Cockfosters allocation (SA31) as appropriate for a 'Transformative' level of change, while Site B is not. They recommend that both Sites A and B are collectively identified as suitable for a 'Transformative Level of Change' to provide comprehensive support for the development site as a whole.</li> <li>• Furthermore, TfL Commercial Development suggests amending the designation of Arnos Grove (identified by draft site allocation SA24) from a 'Medium' to a 'Transformative' level of change. This recommendation is based on Arnos Grove's allocation, which is identified as suitable for tall buildings.</li> </ul> <p><b>City of London</b></p> <ul style="list-style-type: none"> <li>• City of London the conservators of Epping Forest – is supportive of SP DE1 section e and f, in relation to nature and public spaces as part of delivering a well-designed, high quality and resilient environment. But suggest reiterating the importance of this for the well-being of Enfield's residence and as in Borough source of recreation.</li> </ul> <p><b>The Hadley Wood Neighbourhood Planning Forum</b></p> <ul style="list-style-type: none"> <li>• The Hadley Wood Neighbourhood Planning Forum note that Enfield's Characterisation Study (2011) explicitly</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>refers to the fields as: “Although a small area within the borough, this landscape character area is part of an important area of Green Belt and is in good condition. The Green Belt area is clearly defined by Bartram’s Lane and the rear boundaries of properties on Camlet Way, Crescent West.”</p> <p><b>Wider community</b></p> <p>A number of residents are supportive of development of high-quality buildings and public realm but suggest more rigorous design policies, including greater requirements in relation to public realm, specific policy requirements for proposals that involve tall buildings and mechanisms by which developers can be held to account on design quality at both planning and implementation stage.</p>	
Policy DE2: Design process and design review panel	<p><b>Specific Bodies (Statutory)</b></p> <p><b><i>NHS London Healthy Urban Development Unit</i></b></p> <ul style="list-style-type: none"> <li>NHS London Healthy Urban Development Unit supports the collaborative approach to infrastructure planning as set out in the policy and paragraph 15.3.1. Paragraph 15.3.2 refers to the Infrastructure Delivery Plan (IDP). The latest draft IDP (June 2021) identifies healthcare projects and priorities, including those new primary healthcare facilities identified in the site allocations. The CCG would welcome the opportunity to update the latest IDP to ensure that it reflects current provision, the NHS strategic context and estate priorities.</li> </ul>	<p>Support for the collaborative approach to infrastructure planning outlined in the policy is appreciated. The Infrastructure Delivery Plan (IDP) is a living document and is updated to reflect current healthcare provision and priorities is noted. We will work collaboratively to ensure that the IDP accurately reflects the NHS strategic context and estate priorities.</p> <p>The concerns raised regarding potential conflicts between Policy SP DE1 and Strategic Policy SP SS2 are noted. These policies have been reviewed to ensure coherence and alignment in guiding development in identified placemaking areas.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>A number of developers indicate that this policy conflicts with Strategic Policy SP SS2 which sets out that the Council will ensure that development is planned and implemented in a coordinated way in the identified placemaking areas, guided by Masterplans. Pending the preparation of and adoption of Masterplan SPDs for the identified placemaking areas and Borough-wide design guide, proposals for major development will be considered on the basis of good growth principles and policies included in this plan and the London Plan.</li> </ul> <p><b>The Enfield Society</b></p> <ul style="list-style-type: none"> <li>The Enfield Society agrees with the principle of masterplanning to achieve comprehensive development, but question whether it is adequate to leave all masterplanning to the planning application stage. Some degree of masterplanning should be frontloaded onto the plan-making stage and subject to examination rather than deferred. The Society expects to see considerably more detail of emerging sites at the Regulation 19 stage because the indicative sketches provided in Appendix C to the draft Local Plan are inadequate to form a reasonable judgement as to expectations of design quality and layout.</li> </ul> <p><b>Wider community</b></p> <p>No comments noted related to this section.</p>	<p>The principle of masterplanning for comprehensive development is welcomed. The concerns regarding the adequacy of leaving masterplanning to the planning application stage is understood. We will explore opportunities to frontload some degree of masterplanning onto the plan-making stage, subject to examination, to provide greater clarity and guidance for stakeholders. The need for more detailed information on emerging sites at the Regulation 19 stage is duly noted, and adequate detail to facilitate informed decision-making is provided.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
<p>Policy DE3: Inclusive design</p>	<p><b>Specific Bodies (Statutory)</b></p> <p><b><i>Highways England</i></b></p> <ul style="list-style-type: none"> <li>Highways England recognises the potential traffic impacts of forthcoming development site proposals and policies. They emphasise the importance of fully assessing these impacts during the plan-making stage. Referring to Government policy, specifically DfT Circular 02/2013, they stress that capacity enhancements and necessary infrastructure for strategic growth should be identified at the Local Plan stage. This approach aligns with the government's directive that enhancements should not be treated as fresh proposals at the planning application stage.</li> <li>Highways England expects the Local Plan to identify and test necessary Strategic Road Network (SRN) improvements as part of the cumulative assessment. They emphasise the importance of providing infrastructure at the right time to support the development strategy, with developer contributions secured through an Infrastructure Delivery Plan (IDP). As individual site allocations progress through the planning application process, Highways England anticipate them aligning with the identified highway improvements in the IDP.</li> <li>They highlight the use of Grampian conditions to ensure that essential infrastructure is in place prior to or phased in relation to the development becoming operational. This</li> </ul>	<p>Recognition of the potential traffic impacts of forthcoming development proposals and policies are appreciated. The emphasis on fully assessing these impacts during the plan-making stage aligns with our commitment to strategic growth and infrastructure planning. The evolution of the Transport Assessment ensures that necessary Strategic Road Network (SRN) improvements are identified and tested as part of the cumulative assessment.</p> <p>The Draft Infrastructure Delivery Plan (IDP) as a guiding document for infrastructure provision in Enfield is acknowledged. We welcome your interest in engaging in discussions about infrastructure projects, especially those near the administrative border. We will collaborate closely with you to address education demands and strategies for managing education capacity, ensuring the provision of sufficient school places to support development within Hertfordshire.</p> <p>Support for the infrastructure outlined in the draft Infrastructure Delivery Plan is appreciated. We recognise the importance of acknowledging proposals such as Crossrail 2 while refraining from overemphasising uncertain projects. We will continue to work collaboratively with neighbouring boroughs to address infrastructure needs and opportunities.</p> <p>Insights regarding the management of electricity and water supply networks in proposed development areas are acknowledged. Recommendations for early</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>approach is crucial for ensuring the safe and efficient operation of the SRN.</p> <p><b>Hertfordshire County Council</b></p> <ul style="list-style-type: none"> <li>Hertfordshire County Council (HCC) acknowledges the Draft Infrastructure Delivery Plan (IDP) as a guiding document for infrastructure provision in Enfield, outlining various types of infrastructure needed for future growth, with details on delivery and phasing to be developed in the next Local Plan production stage. As a service provider in Hertfordshire, the council expresses interest in engaging in discussions about infrastructure projects, especially those near the administrative border.</li> <li>From an education perspective, HCC recognises the potential cross-boundary movement of children, particularly at secondary school age. However, they emphasise that while accommodating some cross-boundary movement, they are committed to ensuring sufficient school places to support development within Hertfordshire. The council expresses a willingness to engage in consultations regarding education, aiming to identify any demands and strategies to manage education capacity, including necessary mitigation measures. This is particularly significant for Cuffley, one of the nearest towns to Crews Hill, where primary school mitigation for additional growth in Welwyn Hatfield Borough Council is expected to be at its uppermost limit.</li> </ul> <p><b>LB Redbridge</b></p>	<p>engagement and effective planning to address increased demand are duly noted. We will ensure that infrastructure planning considers the impacts on utilities and promotes water-efficient practices among developers and customers.</p> <p>Comments on the need for adequate infrastructure to support new homes, increased school provision, and access to medical services are noted. Infrastructure provision is set out in the IDP available here:</p> <p><a href="https://www.enfield.gov.uk/services/planning/evidence-base">https://www.enfield.gov.uk/services/planning/evidence-base</a></p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>LB Redbridge expresses support for the infrastructure outlined in the draft Infrastructure Delivery Plan. While acknowledging uncertainties surrounding Crossrail 2, the plan appropriately acknowledges its relevance and potential benefits for the borough. However, the plan wisely refrains from overemphasizing this proposal.</li> </ul> <p><b>National Grid</b></p> <ul style="list-style-type: none"> <li>National Grid highlights that the local distribution network operator manages the local electricity distribution network, supplying electricity from the national electricity transmission system directly to sites and premises. In response to increased demand, the operator may request improvements to existing National Grid substations or the establishment of new grid supply points. The process for gas involves transitioning from the transmission system to distribution networks at high pressure, with subsequent pressure reduction tiers before delivery to sites and premises. They provide a website with a map displaying distribution networks and their respective regions for reference.</li> </ul> <p><b>Affinity Water</b></p> <ul style="list-style-type: none"> <li>Affinity Water acknowledges that most proposed development areas fall within Thames Water's supply area, and they recommend Thames Water as the appropriate authority for comments in those cases. The potential allocations within Affinity Water's supply area are generally small in scale, with no foreseen significant issues related to water supply. However, they emphasise</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>the importance of early engagement on plans for future development, especially considering nearby Local Authorities projecting a substantial increase in demand. Affinity Water encourages effective planning to address the impacts of the associated rise in demand, with projections subject to developers and customers reducing Per Capita Consumption (PCC) in line with their Water Resources Management Plan (WRMP) through the development of water-efficient buildings and promoting water conservation among customers.</p> <p><b>General bodies / other organisations</b></p> <p><b><i>The Enfield Society</i></b></p> <ul style="list-style-type: none"> <li>• The Enfield Society suggest the level of infrastructure required to support the very high levels of growth proposed can be delivered without further harm to the character of the borough. The Regulation 19 (pre-submission) consultation should be of 12 weeks' duration in order to allow for adequate scrutiny of that complex evidence.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• A number of residents indicated that more literature is needed regarding infrastructure to support new home, together with increased school provision and access to medical services.</li> <li>• Some residents noted that the consultation does not describe how sewage, electricity, gas and communications networks will have to be developed and</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>enhanced in order to accommodate the extra housing and the impact that this will have on the borough of Enfield due to the large-scale Civil Engineering and general construction works that will be required as a result.</p>	
<p>Policy DE4: Putting heritage at the centre of place making</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Historic England is generally supportive of DE1 and DE4 but noted that consider there are further work to be done in the Plan's preparation to ensure it provides a positive strategy for the historic environment and indeed that it conforms with national and regional policy in this respect. While we note the logic as set out in relation to strategic policies for the various places across the borough (and the site allocations within these places). They are concerned that there has not been adequate assessment of the potential effects on the significance of important designated heritage assets before the principle of the development specified at these locations is established. This concern relates to allocations both in the green belt and within urban and town centre locations. The most important example of the shortcomings of this approach within the Plan relate to the proposed development at Chase Park. A number (although not all) of the heritage assets likely to be affected have been identified and referenced both within policy PL10 and the site allocation pro forma. However, it is unclear whether any analysis of these assets and their settings have played a part in determining whether the site is appropriate for such large scale development given the potential effects on their significance, or whether such analysis has been taken into</li> </ul>	<p>Concerns regarding the adequacy of our assessment of potential effects on the significance of designated heritage assets, particularly in locations such as Chase Park are acknowledged. The importance of conducting thorough analyses of heritage assets and their settings before establishing the principle of development at these locations are understood. Our approach to ensure that heritage considerations are fully integrated into our site allocations and policies have been reviewed and addressed in the Plan, in cooperation with Historic England. The Duty to Cooperate Statement sets out further details.</p> <p>The recognition of the importance of waterways to the historic development of the borough is acknowledged. We are committed to integrating cultural, built, and landscape heritage into our sustainable growth agenda, enhancing access to these valuable assets for the benefit of our community.</p> <p>The feedback on the need for clarity regarding the application of the policy to both designated and non-designated heritage assets is appreciated. The language of the policy has been revised reflecting this inclusivity, emphasising the importance of safeguarding and enhancing all heritage assets. The</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>account in determining the indicative capacity. They further note the absence of explicit reference to the historic environment within policy PL10. They consider there is a risk that the approach set out in section 3 (Places) and the constituent site allocations undermines the strategic approach set out elsewhere in the Plan to the historic environment.</p> <ul style="list-style-type: none"> <li>• The Canal and River Trust is supportive of the recognition of the importance of waterways to the historic development of the borough in para 7.4.5, and the need for new development to respond to cultural, built and landscape heritage and to integrate it into the sustainable growth agenda and improve access to it.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• London Historic Parks and Gardens Trust requires clarify that the whole policy applies to designated and non-designated heritage assets. Furthermore, to clarify (part 2d) the objective to remove heritage assets from the Heritage at Risk Register is by safeguarding their future and ensuring they remain designated heritage assets. Moreover, to clarify (part 3) all new development should contribute to the character and appearance of adjacent heritage assets (both designated and non-designated). This is especially important in the context of parks and open spaces.</li> </ul> <p><b>Wider community</b></p> <p>No specific comments.</p>	<p>requirement for all new development to contribute positively to the character and appearance of adjacent heritage assets, including both designated and non-designated ones is emphasised.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
<p>Policy DE5: Strategic and local views</p>	<p><b>Specific Bodies (Statutory)</b></p> <p><b><i>The Lee Valley Regional Park Authority</i></b></p> <p>The Lee Valley Regional Park Authority expresses support for Policy DE5 Strategic and Local Views, emphasising its importance in identifying long-distance views from Rammey Marsh across the open countryside beyond the M25. The policy aims to ensure that development contributes positively to the setting and integrity of these views, recognizing their significant role in shaping the character and identity of the Borough. The protection and significance of views from and across the Park are acknowledged, particularly in relation to Rammey Marsh, as outlined in PDF Area Proposals.</p> <p><b>General bodies / other organisations</b></p> <p><b><i>Countryside Properties (UK) Ltd</i></b></p> <ul style="list-style-type: none"> <li>Countryside Properties (UK) Ltd consider the policy overly vague and potentially onerous where it states: ‘where developments are likely to be visible within designated important views, the council will require the production of accurate visual representations of the development from the surrounding area and from different points within the viewing corridor. Dynamic models, such as VuCity, will often be sufficient.’ It is important that this policy is applied in a proportionate and flexible manner.</li> </ul> <p><b><i>Friends of Forty Hill Park</i></b></p>	<p>Support for Policy DE5, emphasising its importance in preserving long-distance views from Rammey Marsh across the open countryside beyond the M25 is welcomed. Recognition of the significance of these views in shaping the character and identity of the Borough is invaluable as we work to protect and enhance them.</p> <p>Concerns about the potential vagueness and onerous nature of the policy is understood. Revisions have been made accordingly.</p> <p>The suggestion regarding the inclusion of a longer-distance important view across the northern part of Forty Hall looking east from Whitewebbs Road/Lane is acknowledged. We will review this input as we refine and finalise the policy.</p> <p>Concerns regarding the omission of important strategic views and local views from Figure 7.2 are recognised. We will review these views and ensure that all significant views, including those from Enfield Road and Trent Park, are appropriately represented and protected in the policy.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>Friends of Forty Hill Park consider a longer distance important view no. 6 - should also include across the northern part of Forty Hall looking east from Whitewebbs Road/ Lane.</li> </ul> <p><b><i>London Historic Parks and Gardens Trust</i></b></p> <ul style="list-style-type: none"> <li>London Historic Parks and Gardens Trust, suggest that this DM policy should also apply to views of and from designed landscapes including parks and open spaces. Developments can potentially impact on designed views into, as well as from the landscape and its setting, adversely affecting their landscape character and defined significance. Para 7.5.3 should be part of the policy.</li> </ul> <p><b><i>The Enfield Society</i></b></p> <ul style="list-style-type: none"> <li>The Enfield Society raise significant concerns about the proposals, Figure 7.2 omits the very important strategic views of the open countryside on both sides of Enfield Road, which provides a sense of separation between Oakwood and Enfield Town, and which are highly valued by users of the A110 Enfield Road, providing a clear sense of separation between the town and the countryside. It also fails to indicate the fine views south and west from the periphery of Trent Park (see our objection to Policy SP PL10).</li> </ul> <p><b><i>The Hadley Wood Neighbourhood Planning Forum</i></b></p> <ul style="list-style-type: none"> <li>The Hadley Wood Neighbourhood Planning Forum suggest that Policy DM DE5 requires development to “positively contribute to the setting and integrity of</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>important local views (..) and shorter-distance local views (as identified in conservation area character appraisals". The Hadley Wood Heritage and Character Assessment (Appendix 6) highlights the proposed development site as having "important views"</p> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Cllr Alessandro Georgiou indicates that the council has recognised that the views from certain sites within the Greenbelt are valued. All sites that would be negatively impacted if this proposal were to proceed.</li> </ul>	
Policy DE6: Tall buildings	<p>Mixed views were received with objections particularly from residents living close to proposed allocations as well as objections where tall buildings would have an impact on local character. However, there was general support from developers promoting their sites.</p> <p>Main issues on tall buildings include:</p> <p><b>Specific bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Neighbouring authorities provided general support for tall buildings in principle but wanted the council to take into account the impact tall buildings have on neighbouring boroughs, the Green Belt, heritage assets, conservation areas and their settings.</li> <li>• The GLA preferred the identification of broader areas or 'tall building zones', where there would be certainty that within those areas tall buildings would generally be</li> </ul>	<p>The support for tall buildings in principle while emphasising the need to consider their impact on neighboring boroughs, the Green Belt, and heritage assets – are appreciated. Suggestions have been taken into account and further work on locations for tall buildings can be found: <a href="https://www.enfield.gov.uk/services/planning/evidence-base">https://www.enfield.gov.uk/services/planning/evidence-base</a> - providing clarity to inform Policy.</p> <p>Additionally, building heights identified in the draft Plan are clearly reflected in design principles set out in the site allocation proformas.</p> <p>The absence of an assessment of local sensitivity to development and the effects of proposed heights on heritage significance is noted. Recommendation for an assessment of significance to determine appropriate heights to address these concerns and provide clarity in the Plan are acknowledged, and further</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>acceptable and outside of those areas they would not. They also indicated that building heights identified in Figure 7.3 of the draft Plan should be carried through to be reflected clearly in the site allocations.</p> <ul style="list-style-type: none"> <li>Historic England indicated that the plan is absent on an assessment of local sensitivity to development and the effects of heights proposed on heritage significance. It emphasised that the Plan should be much clearer as to these potential effects and how they will be managed and recommended an assessment of significance to determine appropriate heights.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Developers provided support for tall buildings around stations as an appropriate area, but policy should provide a flexible approach to encourage tall buildings in areas that are not identified within tall building areas and give consideration to the changing nature of surrounding context where large developments are being planned to come forward.</li> <li>There was encouragement from developers that the borough should fully unlock the potential that tall buildings have by giving significant weight to the community benefits that come with tall buildings (including the delivery of affordable housing) when assessing development proposals.</li> </ul>	<p>engagement has been made with Historic England to address their comments.</p> <p>Support for tall buildings around stations and the encouragement on unlocking their potential by giving weight to community benefits, including the delivery of affordable housing – is acknowledged. Suggestions for a flexible approach to encourage tall buildings in appropriate areas and ensure that the policy reflects the changing context of surrounding developments will be considered. The policy has evolved to reflect our ongoing Character of Growth study and the changing context of developments.</p> <p>The concerns expressed by residents regarding tall buildings, particularly their impact on Enfield's suburban character and historic market town character – are understood. To address these concerns, we have taken proactive steps, including the provision of massing models in the Character of Growth study to facilitate effective scrutiny of sites. The Study carefully considers the appropriateness of tall buildings in different areas of the borough. Sustainability concerns have also been taken into account to ensure that tall buildings contribute positively to the local housing needs and provide safe and well-designed living spaces.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>References to height should be removed with heights in metres being the preferred approach for measuring tall buildings.</li> </ul> <p><b>Wider community</b></p> <p>The wider community expressed concerns about the Local Plan, pointing out that the absence of massing models made it challenging for people to scrutinise the sites effectively. Residents, in general, felt that tall buildings, particularly around stations, were inappropriate for Enfield's suburban character, which is characterised by low-rise structures. Several residents highlighted potential negative impacts on the historic market town character of Enfield Town. Sustainability concerns were raised, with some arguing that tall buildings are less sustainable than alternative development configurations. Criticisms included the belief that tall buildings wouldn't meet local housing needs, provide sufficient family-sized homes, and pose potential safety risks similar to Grenfell Tower. However, a minority of residents supported tall buildings in town centres, viewing them as a more efficient use of brownfield space if well designed.</p>	
Policy DE7: Creating liveable, inclusive and quality public realm	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Hertfordshire County Council is supportive of this policy, suggesting that a further consideration for public transport is needed, particularly with regard to creation of safe and accessible routes.</li> </ul>	<p>The supportive feedback from Hertfordshire County Council, LB Waltham Forest, TfL Spatial Planning, and Feryal Clark MP regarding our policy on transportation and infrastructure development in the Enfield Local Plan – is welcomed.</p> <p>In response to Hertfordshire County Council's suggestion for further consideration of public transport,</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• LB Waltham Forest is supportive of the approach taken to secure high-quality and well-designed development in the borough in the plan period in line with the NPPF.</li> <li>• TfL Spatial Planning is supportive of this policy, suggesting that it would be helpful to confirm support in part 3 for adoption of the Healthy Streets Approach to ensure consistency with other sections of the Local Plan.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Feryal Clark MP is supportive of the commitment to deliver a greater provision of electric charging points to encourage the shift away from petrol vehicles. But notes that a 'greater public transport provision to key development locations is the only solution to reduce car dependency locally and development to date has done little to address this'.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• A few residents suggest that the Plan to include important strategic views of the open countryside on both sides of the A110, shorter distance local views well worthy of protection i.e. Priory Hospital looking over Grovelands Park and lake, Christchurch Southgate from the Walker cricket ground and The Arnos Park Pymmes Brook floodplain looking towards the Piccadilly Line viaduct.</li> </ul>	<p>particularly in creating safe and accessible routes, we are committed to enhancing public transport provisions to key development locations. We recognise the importance of safe and accessible routes to encourage sustainable modes of transportation and are actively engaging HCC in the evolution of the TA.</p> <p>The Healthy Streets Approach underpins policies T1 to T3 of the plan.</p> <p>Commitment to increasing the provision of electric charging points to encourage the transition away from petrol vehicles is welcomed. Greater public transport provision to key development locations is essential to reduce car dependency locally, and we are actively working to address this issue.</p> <p>Views are dealt with under DE5.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
<p>Policy DE8: Design of business premises</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Hertfordshire County Council is supportive this policy in enabling businesses to promote a shift to sustainable travel amongst their staff.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Henry Boot suggest caveating this policy to make clear that co-location will only be supported on non-designated sites/ LSIS.</li> <li>British Land indicate that the content is centred on acknowledging the difference in design and materiality between resi and industrial buildings. Amended text/ removals suggested for section 1 parts a, b, h, l, and part 3.</li> <li>DTZ Investors note that this policy is overly prescriptive and does not allow sufficient flexibility reflecting the variance of typologies across business users. Recommend that the policy is split into two parts, one which shall apply to more placemaking compatible business uses (i.e. offices, retail), and the other to more intensive uses (i.e. industrial).</li> </ul> <p><b>Wider community</b></p> <p>No specific comment.</p>	<p>Feedback from Hertfordshire County Council regarding our policy aimed at enabling businesses to promote sustainable travel among their staff – is welcomed.</p> <p>The approach taken in the ELP encourages sustainable travel options as essential for reducing carbon emissions and improving air quality in our borough and we are committed to working with businesses to achieve this goal.</p> <p>The need for clarity and flexibility in our policy is recognised. The feedback has been carefully considered to ensure that the policy effectively supports sustainable development while providing the necessary flexibility for different types of businesses and sites.</p> <p>The suggestion to clarify that co-location will only be supported on non-designated sites – has been reviewed to ensure that this distinction is clear and appropriate.</p> <p>The comment on differences in design and materiality between residential and industrial buildings is valuable. The suggested amendments and removals as recommended have been reviewed to ensure that the policy reflects these differences accurately.</p> <p>The recommendation to split the policy into two parts, one for more placemaking-compatible business uses and the other for more intensive uses, is well-received.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
		The suggestion has been considered to ensure that the policy provides adequate guidance and flexibility for different types of business developments.
Policy DE9: Shopfronts and advertisement	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Highways England raise a concern that there is no reference on the SRN or Highways England within this Local Plan policy.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>No specific comment</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>General comment, suggesting minimising backlit signs, keeping signs to traditional cohesive sizes, limiting full shutters and enforcing improvements to shop fronts even where applicants for poor quality changes can show similar examples of what they are applying for as grounds for their application to be accepted. The policy needs to be enforced properly.</li> </ul>	<p>The feedback provided by Highways England and the wider community regarding the Local Plan policy is welcomed.</p> <p>To address Highways England's concern regarding the lack of reference to the Strategic Road Network (SRN) or Highways England within the policy, we have reviewed the policy language to ensure that it adequately considers and aligns with the requirements and standards related to the SRN and Highways England. It should also be recognised that the plan needs to read as a whole, policies T1-3 relating to movement and connectivity.</p> <p>The importance of coordination and collaboration with relevant stakeholders to ensure the effective management and development of transportation infrastructure within the borough – is recognised.</p> <p>The importance of maintaining the aesthetic appeal and coherence of our urban environment is recognised. Suggestions to minimise backlit signs, maintain traditional cohesive sizes for signs, limit full shutters, and enforce improvements to shop fronts have been reviewed. Ensuring the proper enforcement of policies is crucial, and we are committed to</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
		implementing mechanisms to uphold the standards outlined in the Local Plan.
Policy DE10: Conserving and enhancing heritage assets	<p><b>Specific Bodies (Statutory)</b></p> <p>Historic England expresses support for the policy under consideration. They propose enhancements to the policy by including explicit support for proposals addressing Heritage at Risk cases within the borough. Additionally, they recommend incorporating requirements for appropriate energy efficiency measures to prevent adverse impacts on heritage assets through adaptation.</p> <p>Historic England notes that strategic policies PL1-PL7 may underestimate the potential effects of the envisaged development on the historic environment, local character, and the significance of individual heritage assets across different areas. They emphasise that while there are varying sensitivities to development in different places, almost all contain designated heritage assets that would be impacted. The proposed tall buildings at Meridian Water (PL5) may have far-reaching effects beyond the immediate site, potentially impacting areas and heritage assets in neighbouring boroughs.</p> <p>To address these concerns, Historic England recommends refining the placemaking vision and strategic policies for each place. They advocate for specific references within these policies to understanding, conserving, and enhancing the significance of the historic environment. This alignment with national planning policy and strategic policies DE1 and DE4</p>	<p>The detailed feedback provided by Historic England, The London Historic Parks and Gardens Trust, Social Housing Plus – Fore Street Limited, The Edmonton Hundred Historical Society (EHHS), Residents of the Hadley Wood Conservation Area, and The Enfield Society, as well as the wider community – are welcomed.</p> <p>The importance of enhancing the policy to explicitly support proposals addressing Heritage at Risk cases within the borough and incorporating requirements for energy efficiency measures to prevent adverse impacts on heritage assets – are acknowledged. We have refined the placemaking vision and strategic policies for each placemaking area to ensure alignment with national planning policy and enhance the transparency of communication by identifying all relevant heritage assets on maps and diagrams, where appropriate.</p> <p>The importance of retaining and enhancing the significance of historic parks and gardens, managing the impact of development on views, and ensuring subsequent restoration – is recognised.</p> <p>The concerns raised by Social Housing Plus – Fore Street Limited, EHHS, Residents of the Hadley Wood Conservation Area, and The Enfield Society regarding</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>elsewhere in the Plan is seen as crucial. Furthermore, Historic England emphasises the importance of clearly identifying all relevant heritage assets on maps and diagrams to ensure transparent communication and comprehensive planning.</p> <p><b>General bodies / other organisations</b></p> <p><b><i>The London Historic Parks and Gardens Trust</i></b></p> <ul style="list-style-type: none"> <li>• The London Historic Parks and Gardens Trust expressed several concerns about POLICY DM DE10. Formulated as a strategic policy, it lacks the clarity necessary for developers in crafting development proposals and does not furnish decision-makers with the requisite details to assess applications effectively.</li> <li>• London Historic Parks and Gardens Trust indicated that proposals affecting the layout, design, character, use and function of both designated and non-designated historic parks and gardens should retain and enhance their significance and should not prejudice their future restoration. Features such as original planting layout, garden buildings, statuary, railings, steps and fountains should be identified and protected. The impact of development on views from and towards historic open spaces should be carefully managed to maintain the character and enjoyment of these spaces. Consents for temporary development and events in open spaces should ensure subsequent restoration.</li> </ul> <p><b><i>Social Housing Plus – Fore Street Limited</i></b></p>	<p>housing development on the Green Belt are noted. We have carefully considered these concerns and explored alternatives to prioritise the preservation of Enfield's historic and natural assets while meeting housing needs. The importance of conducting thorough heritage impact assessments and involving the community in the decision-making process is recognised.</p> <p>Furthermore, the wider community's concerns regarding the proposed re-designation of the Green Belt for housing and other purposes, particularly in areas with historical significance such as Enfield Chase are acknowledged. These concerns have been taken into account and the relevant policies have been revised to strike a balance between development and preservation to safeguard Enfield's unique heritage for future generations, where appropriate.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Social Housing Plus – Fore Street Limited (c/o DP9 Ltd) suggest that Parts 1 and 3 of the draft policy should be combined to better reflect the National Planning Policy Framework (NPPF). This would allow the consideration of impact on a heritage asset and the benefits a scheme would deliver. At the moment this important consideration is dealt with separately within draft policy.</li> </ul> <p><b><i>The Edmonton Hundred Historical Society (EHHS)</i></b></p> <ul style="list-style-type: none"> <li>• The Edmonton Hundred Historical Society (EHHS) expresses concerns over plans for a large housing development on the Green Belt, particularly impacting the historic Enfield Chase. As an organisation with an 85-year history covering the entire Enfield Borough, EHHS emphasises the significance of the Chase, which holds a special place in the hearts of Enfield residents. The society warns that encroachments on this cherished resource will lead to ongoing development, resulting in more housing, roads, and pollution over time. EHHS advocates for the removal of Green Belt sites from the Strategic Housing Land Availability Assessment, proposing a focus on developing Enfield's brownfield sites and preserving the Green Belt for future generations.</li> </ul> <p><b><i>Residents of the Hadley Wood Conservation Area</i></b></p> <ul style="list-style-type: none"> <li>• Residents from the Hadley Wood Conservation Area raise significant concerns about the proposed Intensification Zone. The current map indicates that the Conservation Area spans the proposed zone, extending over 350</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>meters to the south-west and 450 meters to the north-east, encompassing Hadley Wood Station.</p> <ul style="list-style-type: none"> <li>• Residents assert that any relaxation of planning regulations allowing taller buildings and intensified development within an 800-meter radius of Hadley Wood Station would jeopardise the character and ambiance of the area. They emphasise the potential harm to the Conservation Area, established over thirty years ago, and argue against intensification that could compromise its integrity. Residents advocate for strict height limits, insisting that new buildings should not exceed the rooflines of existing houses and should be solely designated for residential occupation.</li> <li>• The Conservation Area, located in the heart of the proposed Intensification Zone, is described as a heritage asset with consistent architectural style and a spacious, leafy suburb of high quality. Residents strongly oppose the application of intensification in an area that they consider unsuitable for such development. They highlight the importance of preserving trees, some protected by Tree Preservation Orders, which contribute to the character of the neighbourhood by rising above rooftops and must not be destroyed.</li> </ul> <p><b><i>The Enfield Society</i></b></p> <ul style="list-style-type: none"> <li>• The Enfield Society noted that a heritage impact assessment should have been undertaken to inform the selection of development sites and the form and extent of development. This should involve appreciation of the</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>nature of historic landscapes and their collective contribution to understanding of the historic environment. A Heritage Impact Assessment, including modelling of the impacts from relevant vantage points should have been presented for public comment at the Regulation 18 stage of consultation.</p> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No specific policy comment but large number of residents noted concerns regarding SP policies PL9 and 10 which proposes the redesignation of the Green Belt for housing and other purposes, indicating that these sites are part of the historic Enfield Chase, which is unique and played an important role in Enfield.</li> </ul>	
Policy DE11: Landscape design	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The LVRPA welcomes the detail that is set out in this policy, which seeks to ensure landscape character and distinctiveness including its biodiversity, cultural value and tranquillity are restored, conserved and enhanced as part of development proposals.</li> </ul> <p><b>General bodies / other organisations</b></p> <p><b><i>Cockfosters Local Area Residents Association</i></b></p> <ul style="list-style-type: none"> <li>The Cockfosters Local Area Residents Association expresses strong support for the emphasis on conserving and enhancing the Borough's landscape character, particularly highlighting Trent Park. However, they raise</li> </ul>	<p>The feedback provided by the LVRPA, Cockfosters Local Area Residents Association, The London Historic Parks and Gardens Trust, The Enfield Society, The Hadley Wood Neighbourhood Planning Forum, and LBE Property Services – are welcomed.</p> <p>LVRPA's support of the policy aimed at conserving and enhancing the borough's landscape character is welcomed. Their endorsement reinforces our commitment to restoring, conserving, and enhancing landscape character, biodiversity, cultural value, and tranquillity as integral parts of development proposals.</p> <p>The concerns regarding the clarity of the policy and the perceived discrepancy between the policy and the accompanying plan are recognised. The policies have</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>concerns about the clarity of the policy, noting a perceived disconnect between the policy and Figure 7.4 in the plan.</p> <ul style="list-style-type: none"> <li>Specifically, they are concerned by the interpretation of potentially suitable locations for tall buildings, as indicated in the policy and plan. The area adjoining Cockfosters Station is marked as an 'Appropriate location for tall buildings to mark station,' with a maximum height of 45 meters (15 storeys), even though the plan designates the boundary with the Green Belt as a 'sensitive edge.' This depiction raises concerns as it appears to contradict various policies elsewhere in the plan, including SS1, PL8, DE11, DMD43, DMD44, DMD83, and Enfield's Local Plan evidence base on March 2013 regarding tall buildings and important local views.</li> </ul> <p><b><i>The London Historic Parks and Gardens Trust</i></b></p> <ul style="list-style-type: none"> <li>The London Historic Parks and Gardens Trust consider that the policy has been placed in the supporting text rather than the policy statement. This means it will not have the status of the adopted plan and will carry limited weight in the determination of planning applications by the council or by the planning inspectorate.</li> </ul> <p><b><i>The Enfield Society</i></b></p> <ul style="list-style-type: none"> <li>The Enfield Society consider that the Council does not appear to have given any consideration to the Areas of Special Character in selecting its preferred development sites. Development on the above sites would cause severe harm to the Enfield Chase Heritage Area of</li> </ul>	<p>been reviewed its alignment with the plan to ensure consistency and address any ambiguities have been made in ensuring that the policy preserves sensitive areas such as Trent Park.</p> <p>The feedback regarding the placement of the policy within the supporting text is duly noted. We have reviewed the suggestion to ensure that the policy statement carries appropriate weight in the determination of planning applications.</p> <p>The concerns regarding the selection of development sites and the omission of Areas of Special Character, are acknowledged. The AoSC designation has been considered to ensure that the new Local Plan adequately safeguards these areas in compliance with relevant national planning policy.</p> <p>The support from LBE Property Services is welcomed.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>Special Character (AoSC). A review of the AoSC undertaken by the Council in 2013 is attached to our submission at Appendix F. Expert testimony and various documents confirms that Enfield Chase is of national significance.</p> <p><b><i>The Hadley Wood Neighbourhood Planning Forum</i></b></p> <ul style="list-style-type: none"> <li>• The Hadley Wood Neighbourhood Planning Forum recognises the importance of the current policy outlined in DMD84, which restricts development in Areas of Special Character and requires the preservation and enhancement of key features or characteristics crucial to maintaining the area's quality. The draft Local Plan is perceived as silent on Areas of Special Character, potentially due to the designation of both the Hadley Wood and Chase Park sites under this category, making their release from the Green Belt for development challenging to defend.</li> <li>• The Forum insists on the retention of the Areas of Special Character designation, or an equivalent, to ensure the continued protection of these spaces, citing NPPF para 174 and para 101, emphasising the importance of contributing to and enhancing the natural environment and allowing communities to identify and safeguard green areas of particular significance.</li> <li>• Additionally, the Forum raises concerns about the omission of Hornbeam Hills South from the list of areas of landscape character in Policy DM DE11, section 1. They advocate for an amendment to include this area, citing its</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>inclusion in the 2013 Area of Special Character Boundary Review and the South Hertfordshire Landscape Character Assessment.</p> <ul style="list-style-type: none"> <li>The Hadley Wood Neighbourhood Planning Forum strongly advocates for the retention of the current safeguards provided by DMD84 in the new Local Plan.</li> </ul> <p><b>LBE Property Services</b></p> <ul style="list-style-type: none"> <li>LBE property services support this policy.</li> </ul> <p><b>Wider community</b></p> <p>None noted.</p>	
Policy DE12: Civic and public developments	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>NHS London Healthy Urban Development Unit, note that it is unclear how this policy relates to Strategic Policy SP SC2 which addresses the same issues such as creating a strong active frontage (b), optimise the use and capacity of the site (c) and operate as a multifunctional space (d). Whilst they support the aim of the policy to create well-designed accessible buildings, with potential to collocate services and share spaces, not all new health facilities will be of a scale and type which will provide this opportunity, particularly new health facilities not in NHS ownership and leased from private developer or landowner. The range of services accommodated in a new facility will be determined by service strategies.</li> </ul>	<p>The feedback provided by the NHS London Healthy Urban Development Unit regarding Policy DM DE9 of the Enfield Local Plan is appreciated.</p> <p>The observation regarding the relationship between Policy DM DE9 and Strategic Policy SP SC2 is noted. The similarity in objectives between these policies, particularly in creating strong active frontages, optimising site capacity, and operating as multifunctional spaces are acknowledged. The alignment between these policies have been reviewed to ensure coherence and avoid duplication of objectives.</p> <p>The point about not all new health facilities being conducive to collocating services and sharing spaces,</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• None noted.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• None noted.</li> </ul>	<p>especially those not owned by the NHS and leased from private developers or landowners is recognised. The range of services provided in new facilities will be influenced by service strategies and operational considerations.</p>
<p>Policy DE13: Housing standards and design</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comment</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Countryside Properties (UK) Ltd indicate that elements of policy DE13 are considered overly prescriptive. notable elements which have the potential to constrain an innovative design approach include the following specified in the draft policy. Noting that design requirements should be balanced with the policy aim of London Plan policy D3 which requires a design-led approach. Stipulations in draft policy DE13 if applied uniformly across the borough may restrict and constrain a design-led approach in the borough's most accessible and sustainable locations.</li> <li>• London Historic Parks and Gardens Trust suggest following, in addition, housing development which benefits from its proximity to a public open space should contribute to its ongoing maintenance. Development close to or adjacent to a greenspace should contribute to:</li> </ul>	<p>Concerns about elements of Policy DE13 being overly prescriptive and potentially constraining innovative design approaches are understood. We agree that design requirements should be balanced with the policy aim of promoting a design-led approach, as outlined in the London Plan policy D3. The feedback has been taken into consideration to ensure that the final policy strikes the right balance between promoting high-quality design and allowing flexibility for innovation, particularly in the borough's most accessible and sustainable locations.</p> <p>Suggestions regarding housing development benefiting from proximity to public open spaces is acknowledged. Recommendations to ensure that such developments contribute to the ongoing maintenance of open spaces, including covering additional maintenance costs, providing facilities for increased users, and implementing landscape improvements, are noted. These considerations will need to be carefully reviewed to enhance the integration of new developments with existing green spaces and mitigate any adverse impacts.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>○ additional maintenance costs arising from increased footfall.</li> <li>○ additional facilities to cater for the additional users e.g. playspace, seating, planting</li> <li>○ landscape improvements to mitigate adverse impacts on the park arising from the development.</li> </ul> <ul style="list-style-type: none"> <li>• Social Housing Plus – Fore Street Limited (c/o DP9 Ltd) indicate that although the draft policy states that residential development will only be supported there it preserves the amenity of existing and new occupants in terms of daylight/sunlight/outlook etc. Whilst draft policy explains regard will be had to best practice guidance, the draft policy doesn't recognise the frequent issues which design teams need to consider and balance in developing proposals for sites in built up areas. In addition, parts 2 and 3 are seeking to set very prescriptive design standards. Draft policy should be amended to allow discussions around the form of development to take place as part of the pre-application and application process which allows the individual consideration of sites and their unique constraints and opportunities.</li> <li>• TfL Commercial Development broadly supports Draft Policy DM DE13, however request that clarity is provided in relation to Section 1 (g) which requires the provision of 'adequate' car parking. TfL CD request that this policy is framed in the context of London Plan Policy T6, Car Parking, which requires that 'car-free development should be the starting point for all development proposals in</li> </ul>	<p>Concerns about the draft policy's approach to residential development and its impact on the amenity of occupants are recognised. Feedback on the need for flexibility in design standards and the importance of considering unique constraints and opportunities of individual sites is duly noted. The explanatory text has been reviewed to ensure that it allows for meaningful discussions during the pre-application and application process, facilitating the consideration of site-specific factors.</p> <p>TfL Commercial Development's support for Draft Policy DM DE13 and its request for clarity regarding the provision of car parking is welcomed. The suggestion to frame the policy in the context of London Plan Policy T6 and Draft Policy SP T1 is valuable and has been taken into account to ensure consistency and alignment with broader transport and development policies.</p> <p>The input regarding the obligation of private and public landlords to maintain or improve housing standards is acknowledged. The suggestion to create jobs through schemes similar to those implemented in the 1980s to subsidise house improvements is noted.</p>

Policy DE15: Residential extensions	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>No comment</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Bush Hill Park Residents Association are supportive of this policy.</li> <li>Lakes Estate Conservation Area, suggest that more explanation is given to other types of residential developments in CAs subject to article 4 directions. They would like the LBE to encourage residents to bring forward high quality proposals which get planning consent, rather than poor quality plans which are refused, or which have an adverse impact when built.</li> <li>The Hadley Wood Neighbourhood Planning Forum indicate that this policy has no maximum angle for single storey extensions and has 45 degrees for extensions above ground floor. This is materially more lenient than the current 30 degrees for above ground floor and 45 degrees for single storey. The substantial height of single storey extensions can materially impact daylight and amenity value, and the max 45 degrees should be retained also for single storey extensions.</li> </ul> <p><b>Wider community</b></p> <p>No comment.</p>	Comments noted.

**Table A.10:** Summary of main issues and how representations have been taken into account – Chapter 8: Homes for all

Chapter or policy reference	Summary of main issues	How have representations been taken into account
Policy H1: Housing development sites	<p>The most discussed consideration here was the preferred housing target figure. Site specific comments were also noted, which are summarised in relation to the relevant site allocations later on.</p> <p><b>Specific bodies (Statutory)</b></p> <p><b>Greater London Authority (GLA)</b></p> <ul style="list-style-type: none"> <li>• <b>Alignment with London Plan and NPPF:</b> The GLA recommended revising the approach to setting the housing target to align with London Plan explanatory text (4.1.11). They emphasised that sites might not need identification beyond the 0–10-year period, following National Planning Policy Framework (NPPF) guidance.</li> <li>• <b>Consideration of Stepped Trajectory:</b> The GLA suggested the Council consider applying a stepped trajectory, especially concerning expected periods of housing delivery. This approach could assist in navigating the Housing Delivery Test.</li> <li>• <b>Engagement with Landowners and Stakeholders:</b> The GLA expressed interest in understanding how Enfield engaged with landowners and stakeholders directly. They sought insights into catalysing earlier development and identifying new housing supply sources, particularly from untapped potential in small sites.</li> <li>• <b>Suggestions for Meeting Housing Targets:</b> The GLA provided a range of suggestions for the borough to consider in order to</li> </ul>	<p>Policy updated to provide revised site allocations. Further explanation of these changes is provided in the housing topic paper.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>meet housing targets. The specifics of these suggestions were not detailed in the provided information.</p> <p><b>Historic England</b></p> <ul style="list-style-type: none"> <li>Historic England strongly suggested undertaking a significance-based approach to site allocations, as set out in their guidance.</li> </ul> <p><b>Sport England</b></p> <ul style="list-style-type: none"> <li>Sport England highlighted that any disposal or building on playing fields or open space should consider the local playing pitch needs as per the playing pitch strategy.</li> </ul> <p><b>Environment Agency</b></p> <ul style="list-style-type: none"> <li>The Environment Agency (for proposed housing sites) highlighted relevant guidance in relation to potable groundwater abstractions and groundwater protection that would need to be considered in assessing development proposals.</li> </ul> <p><b>NHS London HUDU</b></p> <ul style="list-style-type: none"> <li>The NHS London HUDU highlighted a number of sites which could include health uses subject to evidence of need.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li><b>Supportive Stances:</b> Some developers and organisations, including the Home Builders Federation, supported the proposed housing target in the plan.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<ul style="list-style-type: none"> <li>• <b>Divergent Views from Landowners/Developers:</b> Some landowners and developers argued for higher housing figures for their sites, proposing alternative development numbers.</li> <li>• <b>Call for Higher Target and Buffer:</b> Developers suggested adopting a higher housing target than the proposed 25,000 homes, with a proposal between 25,000 and the standard method's suggestion of around 55,000 homes. They stressed the need for a buffer to account for housing delivery fluctuations.</li> <li>• <b>Under-delivery Concerns:</b> Developers cited the Council's under-delivery track record, emphasising the importance of ambitious planning and proactive measures to meet housing needs.</li> <li>• <b>Buffer:</b> The Home Builders Federation recommended a significant buffer to ensure meeting housing targets annually, given the housing delivery fluctuations.</li> <li>• <b>Site Promotion and Trajectory:</b> Developers continued promoting sites not included as allocations. Suggestions included a flat trajectory for even delivery and support for a wider range of developers, especially in Build to Rent.</li> <li>• <b>Third Age Living and Build to Rent:</b> Developers stressed the need to identify locations for third age living developments. Calls were made for more positive support for Build to Rent products.</li> <li>• <b>Concerns About Existing Food Retail Sites:</b> Community groups objected to housing site allocations with existing food retail, expressing concerns about housing impacting parking. Some suggested that measures to reduce lapsed planning permissions could obviate the need for proposed site allocations.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<ul style="list-style-type: none"> <li>• <b>Questioning Housing Figures:</b> Community groups questioned the soundness of housing figures, suggesting reassessment of brownfield site capacity. Uncertainty due to Brexit and the pandemic was highlighted.</li> <li>• <b>Contradictions and Undercounting:</b> Some local groups noted contradictions between housing delivery estimates in the local plan and other Council documents. Questions were raised about undercounting from large sites.</li> <li>• <b>Radical Intervention and CPOs:</b> A community group proposed a more radical, interventionist approach, including the use of Compulsory Purchase Orders (CPOs) to meet housing targets.</li> <li>• <b>Concerns about Small Sites and Wider Areas:</b> Local community groups expressed concerns about insufficient small sites to meet the London Plan target and suggested that "wide areas of search" were not adequately considered in the Strategic Housing Land Availability Assessment (SHLAA) and Housing and Economic Land Availability Assessment (HELAA)</li> <li>• <b>Building on GLA's 2017 SHLAA:</b> Some local community groups noted that the housing target did not build on the Greater London Authority's (GLA) 2017 SHLAA and questioned the appropriateness of rolling forward the 1,246 dwellings per annum (dpa) target.</li> </ul> <p><b>Wider community</b></p> <p>Overall, the consultation revealed a diverse range of opinions, emphasising the need for a nuanced and comprehensive approach to</p>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>housing development, considering various factors such as affordability, infrastructure and community impact.</p> <ul style="list-style-type: none"> <li>• <b>Scale of Housing Need:</b> Acceptance of the need for housing, but criticism of the proposed scale. Many residents favoured the Mayor's targets over the Government's approach to calculating need.</li> <li>• <b>Figure and Justifications:</b> Residents found the proposed housing figure too high. They urged the Council to explore justifications, including exporting growth, seeking assistance from neighbouring authorities, or not accepting migration/growth at all.</li> <li>• <b>Support for New Housing:</b> Some residents supported new housing, citing unaffordable prices and the belief that increasing supply would benefit long-term pricing.</li> <li>• <b>Brownfield Development:</b> General support for housing on brownfield sites but concerns about inadequately explored options and specific site-related worries.</li> <li>• <b>Infrastructure Concerns:</b> Worries about housing growth without adequate social and physical infrastructure provisions, including concerns about healthcare, education, public transport, utilities, and water.</li> <li>• <b>Targeting Local Residents:</b> Desire for new housing to prioritise local people in need rather than commuters or those from outside the borough.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<ul style="list-style-type: none"> <li>• <b>Densities and Health:</b> Concerns about increased densities impacting physical and mental health, along with environmental factors like air pollution.</li> <li>• <b>Focus on Affordable Housing:</b> Some residents urged the Council to focus on delivering affordable housing, specifically social rented housing.</li> <li>• <b>Population Projections and Impacts:</b> Noting that population projections did not adequately factor in the impacts of Covid-19 and Brexit.</li> <li>• <b>Impacts on Non-residential Premises:</b> Concerns about the unknown impacts of Covid and Brexit on non-residential premises, with the possibility of conversion to housing.</li> <li>• <b>Supermarket Sites and Car Parking:</b> Significant concern about allocating supermarket sites for housing, questioning re-provision of such facilities and the adequacy of car parking in replacement developments.</li> </ul>	
Policy H2: Affordable housing	<p><b>Statutory bodies</b></p> <p><b>Greater London Authority</b></p> <ul style="list-style-type: none"> <li>• The GLA welcomes the strategic target set out in policy H2 but considers Part 3 of Policy H2 should make it clear that the Mayor’s affordable housing thresholds are not targets but are the level of proposed affordable housing beyond which viability assessments are no longer required as part of planning applications; the Fast Track Route (FTR). Where planning proposals do not meet or exceed the affordable housing</li> </ul>	<p>A number of changes on the wording of the policy to provide more clarity around expectations and reflecting comments on GLA viability reviews. The intention of the policy has not changed, only the way that requirements are expressed. The explanatory text has been revised to reflect this and the latest evidence in the housing topic paper.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>thresholds, they will be required to take the Viability Tested Route (VTR) and will need to provide viability assessments as part of planning applications and will be subjected to viability reviews in accordance with Policy H5 of the LP2021. As currently drafted the thresholds appear to be targets and should be amended accordingly to ensure it is consistent with the London Plan.</p> <ul style="list-style-type: none"> <li>• The GLA highlight that part 3a of the Policy which seeks 50% affordable housing from estate regeneration is not consistent with Policy H8 of the London Plan. Policy H8 and paragraph 4.8.5 of the London Plan make it clear that where estate regeneration involves the loss and replacement of affordable housing, it should deliver an uplift in affordable housing wherever possible. These types of estate regeneration schemes must go through the VTR to demonstrate that they have maximised the delivery of any additional affordable housing. Enfield should follow the guidance set out in Policy H8 of the London Plan and associated supporting text.</li> <li>• The GLA highlight that part 7 of Policy H2 of the draft Plan is not consistent with Policy H5 of the London Plan as it sets out that regard will be given to the economics and financial viability of the development when determining the requirement for affordable housing. Where residential proposals meet or exceed the thresholds in Policy H5 of the London Plan they will not be required to provide viability evidence and will be subject to the FTR. Only those proposals that cannot meet the threshold levels will be required to take the VTR to submit viability information and will be subjected to review mechanisms in accordance with Policy H5 of the London Plan. Part 7 should be removed or amended accordingly to make it consistent with the London Plan.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<ul style="list-style-type: none"> <li data-bbox="517 323 1420 959">• The GLA considers that the propose a tenure mix of 50% social and affordable rented housing and 50% intermediate housing is consistent with the approach set out in Policy H6 of the London Plan. However, Enfield should ensure that the proposed 50/50 split is based on local evidence. The London Plan at paragraph 4.6.2 makes it clear that there should be a presumption that the 40% to be determined by the borough will focus on Social Rent and London Affordable Rent, given the level of need for this tenure across London. Of particular relevance, is Enfield's Strategic Housing Market Assessment (2015) (Enfield's most recent assessment) which recommends that the borough's tenure split should be set at 70% for social and affordable rent and 30% intermediate housing. Part 4 of Policy H2 suggests that there may be flexibility in applying the required tenure split to applications subject to viability. It should be noted that where proposals diverge from the required tenure split, they will be required to take the VTR in accordance with Part B of Policy H6 of the London Plan. In these cases, proposals will be subject to viability review mechanisms.</li> <li data-bbox="517 995 1420 1294">• The GLA noted and reflected in the draft Plan that where off-site or cash-in-lieu payments are considered as an acceptable alternative to on-site affordable housing, such schemes will be required to follow the VTR and will also be subjected to early and late stage review mechanisms in accordance with paragraph 4.5.15 of the London Plan. It should also be noted that in these circumstances the affordable housing level is set at 50% provided across the main site and any linked sites when considered as a whole in line with paragraph 4.4.13 of the London Plan.</li> </ul> <p data-bbox="517 1326 1245 1358"><b><i>London boroughs of Waltham Forest and Redbridge</i></b></p>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<ul style="list-style-type: none"> <li>The London boroughs of Waltham Forest and Redbridge are supportive of Enfield's strategy for delivering housing across its Local Plan period on the sites allocated in the Local Plan.</li> </ul> <p><u>Waltham Forest</u></p> <ul style="list-style-type: none"> <li>LB Waltham Forest look forward to working collaboratively on schemes that come forward on sites on and surrounding the boundary between the two boroughs. They are delighted that the Council has decided to maximise the delivery of affordable housing in the plan period, aiming to secure 50% of all new homes delivered as being genuinely affordable.</li> </ul> <p><u>Redbridge</u></p> <ul style="list-style-type: none"> <li>LB Redbridge is supportive of Enfield's approach and recognise that their acute housing needs and reliance on temporary accommodation is comparable in scale to that of Enfield; and they have also seen significant increases in rents, house prices, and housing unaffordability.</li> <li>LB Redbridge is supportive of the approach to provide 50% affordable housing on Green Belt but it considers the wording of the policy should be clarified to ensure that it includes land that was released from the Green Belt, due to how the Green Belt boundaries change immediately upon adoption, thus it could be interpreted that the de-designated land is exempt from this intended policy requirement.</li> </ul> <p><b>General bodies / other organisations</b></p> <p><b><i>NHS London HUDU</i></b></p>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<ul style="list-style-type: none"> <li>NHS London HUDU welcomes the policy and recognises that the shortage of affordable housing is hindering the recruitment and retention of public service workers. It suggests that that the supporting text specifically to innovative approaches that set aside a proportion of homes on land owned by Government departments and agencies for key workers, such as health and education professionals. A nomination approach can be agreed to meet an identified housing need for homes for NHS staff.</li> </ul> <p><b><i>Developers Countryside Properties, Warmerdam, London Diocesan Fund, Diocese of London, Regenta Development and Connected London Living (CLL)</i></b></p> <ul style="list-style-type: none"> <li>Developers Countryside Properties, Warmerdam, London Diocesan Fund, Diocese of London, Regenta Development and Connected London Living (CLL) support the aspiration to maximise affordable housing.</li> </ul> <p><b><i>Connected London Living</i></b></p> <ul style="list-style-type: none"> <li>CLL suggest that Policy H2 (1) should be revised so that it is clear that the London Plan Threshold Approach (LP Policy H5) should be applied to individual applications and also confirm that 'genuinely affordable' is defined in the London Housing Strategy (2017).</li> <li>CLL supports the requirement for all sites comprising 10 or more new homes or over 10,000sqm to provide on-site affordable housing with a target of 35% for all major housing developments on land which is not council owned, industrial or within the Green Belt. It should be ensured that Policy H2 (3) is clear that the requirements of this policy are subject to terms any portfolio</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>agreement with the Mayor of London. The requirements of Policy H2 (3) should be measured based on habitable rooms.</p> <p><b><i>Countryside Properties</i></b></p> <ul style="list-style-type: none"> <li>• Countryside Properties consider that the aspiration must be balanced with site specific circumstances. For estate regeneration schemes in particular, affordable housing is one of several community benefits being provided, which can include public realm improvements, provision of youth facilities and enhancements to public transport connections. Often these elements of estate regeneration are as important as the provision of affordable housing, in the role of placemaking. Therefore, Countryside considers that the affordable housing target, as well as being subject to viability, should also take into account site specific circumstances. Accordingly, there is not a need to increase the affordable housing target, as this could deter investment in other community benefits. In addition, Paragraph 64 of the NPPF states that ‘to support the re-use of brownfield land, where vacant buildings are being reused or redevelopment, any affordable housing contribution due should be reduced by a proportionate amount.’ The affordable housing target therefore should be flexible, subject to viability, and support the reuse of brownfield land in line with the NPPF.</li> </ul> <p><b><i>Warmerdam and Co</i></b></p> <ul style="list-style-type: none"> <li>• Developers Warmerdam and Co consider that the stipulation which includes Crews Hill and Chase Park within the Green Belt affordable housing requirement (at the end of part ‘3 c’) should be removed. This will enable new sites which are earmarked for residential development to have a greater chance of delivering a</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>viable scheme whilst contributing 35% affordable housing (part '3 d'), subject to viability tests.</p> <p><b>Areli for Blackrock</b></p> <ul style="list-style-type: none"> <li>• Areli for Blackrock suggests changes to the wording of the policy and supporting text to provide flexibility.</li> </ul> <p><b>Home Builder Federation (HBF), Crosstree Real Estate Partners, Notting Hill Genesis, LBE Conservative Group, Diocese of London (DoL) and the London Diocesan Fund (LDF)</b></p> <ul style="list-style-type: none"> <li>• Home Builder Federation (HBF), Crosstree Real Estate Partners, Notting Hill Genesis, LBE Conservative Group, Diocese of London (DoL) and the London Diocesan Fund (LDF) wants to ensure that the delivery of First Homes and Exception Sites are an integral part of this policy.</li> </ul> <p><b>Home Builder Federation</b></p> <ul style="list-style-type: none"> <li>• HBF considers that the Council will need to ensure the potential impacts on viability of First Homes is taken into account. As part of this testing, it is important to recognise that First Homes are a market product and as such the risk is with the developer, unlike for affordable housing where the developer is effectively a contractor delivering units for the RSL. This means that the risk associated with their delivery is different to an affordable unit and as such profit associated for the delivery of such homes must be the same as for market housing.</li> </ul> <p><b>Diocese of London (DoL) and the London Diocesan Fund (LDF)</b></p>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<ul style="list-style-type: none"> <li>• DoL and LDF considers that the approach to First Homes would require a 60% discount to make them affordable for Enfield residents. However, further analysis is required if this policy were to be taken forward in the Local Plan, not least on viability. Currently, the evidence base needs a more sophisticated analysis than that provided to withstand developer scrutiny. If LBE are seeking to omit First Homes from the Draft Local Plan, this would require robust evidence in order to support this.</li> <li>• On Exception Sites, LDF and DoL considers these are a useful tool in delivering affordable homes on land which would otherwise not be suited to come forward for development. Exclusion of this from the Local Plan fails to adhere to the Government's commitment to allow Exception Sites in the Green Belt.</li> </ul> <p><b><i>Home Builder Federation</i></b></p> <ul style="list-style-type: none"> <li>• HBF raises concerns that the viability study indicates that many development typologies in the lower values areas and higher density development in medium value areas will not be viable if required to deliver a 35% affordable housing contribution. Whilst HBF acknowledge that the Council states that where an applicant can demonstrate their development is made unviable by policy H2 it will consider reducing this requirement it is also necessary to consider that the NPPF and PPG are both clear in the Government's objective of reducing the amount of negotiation at the planning application stage. In order to achieve this objective, it is important that local policies reflect the viability evidence and provide more variation by both area and development typology. Such variation in policy will help to ensure development comes forward in these areas without recourse to negotiation on every application. HBF would suggest that the Council reconsiders this</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>policy and set out a reduce affordable housing requirements in its lower value areas.</p> <p><b>Churchill Retirement Living and McCarthy Stone</b></p> <ul style="list-style-type: none"> <li>Churchill Retirement Living and McCarthy Stone are concerned that the Viability Assessment has overplayed the viability of older persons' housing. In light of the urgent need to significantly increase the delivery of specialist older persons' housing in the Borough and across Greater London, they consider that it is imperative that the viability of these forms of development is careful robustly against planning obligations and policy requirements. They are strongly of the view that it would be more appropriate to set a lower, potentially nil, affordable housing target for Retirement Living housing and extra care accommodation in the Borough. The evidence they have provided in their viability appraisals for Retirement Living housing and Extra Care Housing typologies, concludes that these forms of development should be exempt from affordable housing provision. At this stage, the developer consider the Plan is therefore considered to be unsound on the grounds the affordable housing targets are not justified, positively prepared or effective.</li> </ul> <p><b>Comer Homes</b></p> <ul style="list-style-type: none"> <li>Comer Homes is pleased to see that Part 7 of draft Policy SP H2 acknowledges the role of viability in determining the appropriate affordable housing. They remain doubtful that there will be any circumstances where there will be robust viability evidence that will support increasing the target for affordable housing above 50%. 50% is already a challenging target and in the current uncertain economic market, exacerbated by the pandemic, it is</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>likely that there will be schemes that struggle to achieve this and will therefore have to rely on viability evidence to justify a reduced level.</p> <ul style="list-style-type: none"> <li>• Comer Homes is concerned that where a reduced affordable housing contribution is justified on viability grounds, the applicant will be required to implement the scheme within 12 months of the granting of consent. This is onerous and is not justified – there are no national or strategic policies which advocate this approach. It therefore conflicts with the tests of soundness set out in the NPPF.</li> <li>• Comer Homes is pleased that there is no reference to these contributions in the draft Local Plan (other than 50% affordable housing), however, they are concerned that reference to this in the Topic Paper will raise unrealistic expectations and could be used by the Council in negotiations with applicants.</li> </ul> <p><b><i>LBE Property Services</i></b></p> <ul style="list-style-type: none"> <li>• LBE Property Services support policies H2 and H3 to provide affordable housing, mix and type – and would aim to achieve 35% affordable housing on site and 50% on Green Belt sites.</li> </ul> <p><b><i>Bush Hill Park Residents Association (BHPRA)</i></b></p> <ul style="list-style-type: none"> <li>• BHPRA considers the policy laudable and unrealistic considering the current position of 40% is missed. In a similar vein LBE Conservative Group also highlight that these targets have not been met for large schemes such as Arnos Grove and Cockfosters Tube Station.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<ul style="list-style-type: none"> <li>• BHPRA recommend a more realistic figure is set and enforced through the planning system.</li> </ul> <p><b><i>CPRE London and Enfield Road Watch</i></b></p> <ul style="list-style-type: none"> <li>• CPRE London and Enfield Road Watch highlights that Green Belt sites cannot deliver affordable housing. Evidence shows that housing developments in Green Belt have historically delivered only 10% affordable homes and these are not even genuinely affordable.</li> <li>• Enfield Road Watch do not believe that the proposed plan will deliver the housing that most local people need. What Enfield needs are affordable homes in areas with existing public services and good transport links, not unaffordable and sprawling executive homes in rural locations that use land inefficiently and increase car-dependency. The Council should refocus its objectives on building high quality mid-rise homes, in a range of unit sizes including family homes, in non-Green Belt locations across the borough. In particular, the Council should prioritise high quality development in under-utilised brownfield sites, that includes new high quality private and public open space.</li> </ul> <p><b><i>LBE Conservative Group</i></b></p> <ul style="list-style-type: none"> <li>• LBE Conservative Group welcomed the approach taken to encourage affordable housing. However, greater recognition is needed of the potential role of housing associations working in partnership with the Council.</li> <li>• LBE Conservative Group agree with Para. 8.2.15 that affordable housing contributions from developers should be calculated on</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>the number of habitable rooms per unit and gross floor space and that contributions will continue to be assessed based on the financial viability of the schemes in question up to a maximum of 50%.</p> <p><b><i>The Enfield Climate Action Forum (EnCAF) Land Use Working Group</i></b></p> <ul style="list-style-type: none"> <li>• The EnCAF Land Use Working Group highlights that there is no clarity about what “affordable” and ‘genuinely affordable’ means. The commitments to affordability are vague.</li> </ul> <p><b><i>Southgate District Civic Voice (SDCV)</i></b></p> <ul style="list-style-type: none"> <li>• The SDCV query the assumptions, based on the viability paper, that greenfield sites such as Chase Park will yield 50% affordable housing. It recognises Enfield’s track record in achieving affordable housing does not back this up. Developers will inevitably find a way to reduce the levels of affordable housing to well below this level, for example by finding abnormal costs. London Councils has recently argued convincingly that market failure should be acknowledged, and direct public sector provision of affordable housing accelerated.</li> </ul> <p><b>Local Politicians</b></p> <ul style="list-style-type: none"> <li>• Local MPs highlight that the policy is positive and ambitious, but questions whether local people will be able to afford the homes that may be built if development on the green belt is permitted and whether they will deliver the mix of homes Enfield needs.</li> <li>• Local Councillors consider that the Local Plan is devoid of a decent strategy for meeting the very real housing shortage in</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>Enfield and could compound the housing issues in the Borough. The needs of the most vulnerable have been ignored in favour of superficial targets.</p> <p><b>Wider community</b></p> <p>Overall, the feedback from the wider community recognises the complex landscape of opinions and concerns regarding affordable housing in Enfield. While there is broad support for the provision of affordable homes, challenges arise concerning the definition of affordability, the distribution of affordable housing across different areas of the borough, and the potential impact on the Green Belt. Respondents express a nuanced perspective on the balance between affordable housing and environmental considerations. The call for clarity on the designation of council homes, the impact of new housing products, and the emphasis on affordable family homes with gardens further highlight the intricacies of addressing diverse community needs. The council should carefully consider these varied viewpoints to formulate a comprehensive strategy that aligns with the community's expectations and ensures a balanced approach to affordable housing throughout the borough.</p> <ul style="list-style-type: none"> <li>• <b>Support for Affordable Homes on Brownfield Sites:</b> Respondents generally supported the provision of affordable homes on brownfield sites.</li> <li>• <b>Affordable Homes vs. Green Belt:</b> Support for affordable homes was expressed, but not at the expense of the Green Belt.</li> <li>• <b>Commitment to 50% Genuinely Affordable Homes:</b> There was support for the commitment to secure 50% of all new homes as genuinely affordable.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<ul style="list-style-type: none"> <li>• <b>Concerns about Affordability in the North:</b> Uncertainty and concerns were raised regarding whether new homes in the north of the borough would be affordable, with a preference for focusing affordable housing in the east where there is perceived to be more scope.</li> <li>• <b>Lack of Clarity on Council Homes:</b> Respondents expressed uncertainty about the number of homes designated as council homes.</li> <li>• <b>Understanding "Affordable" and Ensuring Developer Compliance:</b> Lack of clarity was noted regarding the definition of "affordable" and how the council ensures that developers build affordable homes. Concerns were raised about luxury developments in Crews Hill and Chase Park.</li> <li>• <b>Affordability in Green Belt Areas:</b> Residents highlighted concerns about market values in Green Belt areas, with examples of premium pricing by developers.</li> <li>• <b>New Affordable Housing Products:</b> Residents raised the need for the draft plan to reference new affordable discounted housing products, such as First Homes introduced by the government.</li> <li>• <b>Concerns about Unaffordability at Meridian Water:</b> Concerns were expressed about the affordability of developments at Meridian Water.</li> <li>• <b>Affordability and Supply Constraints:</b> Some respondents argued that affordability is more driven by supply constraints related to buy-to-let houses and mortgage rules. Suggestions were made to address mortgage rules to enhance affordability.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<ul style="list-style-type: none"> <li>• <b>Need for Affordable Family Homes:</b> Recognition of the need for affordable family homes with gardens was emphasised.</li> <li>• <b>Objection to Excessive Shared Ownership:</b> Some residents objected to the policy allowing too much shared ownership, urging controls to ensure a mix of intermediate housing products.</li> <li>• <b>Support for Council's Ambition to Build Affordable Homes:</b> Some residents fully supported the council's ambition to build more affordable homes and encouraged developments that do not price out local needs.</li> </ul>	
Policy H3: Housing mix and type	<p><b>Statutory bodies</b></p> <ul style="list-style-type: none"> <li>• None noted.</li> </ul> <p><b>General bodies / other organisations</b></p> <p><b><i>Developer Warmerdam and Co and Wolden Garden Centre</i></b></p> <ul style="list-style-type: none"> <li>• Developer Warmerdam and Co and Wolden Garden Centre concur with part 1a that the dwelling mix should reflecting the most up to date evidence as set out in the Local Housing Needs Assessment (2020) or successor documents.</li> </ul> <p><b><i>Bush Hill Park Residents Association and Cockfosters Residents Association</i></b></p> <ul style="list-style-type: none"> <li>• BHPRA and Cockfosters Residents Association supports the inclusion of housing mix and type in policy.</li> </ul> <p><b><i>LBE Conservative Group</i></b></p>	<p>The policy as it is redrafted to be justified and effective and to balances the objectives of mixed communities with housing need and this has been clarified in the explanatory text. The policy now makes clear expectations around housing mix and the emphasis the plan places on the provision of family homes as defined by the London Plan, particularly on publicly owned sites or those released from the Green Belt. The policy has also been updated to incorporate London plan provisions around site optimisation so as to provide guidance to developers seeking to provide homes that are significantly above minimum space standards.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<ul style="list-style-type: none"> <li>The LBE Conservative Group acknowledges a prevalent issue in the borough where developers tend to provide an excess of one-bedroom and two-bedroom homes. They propose adopting a comparable approach in the Local Plan to enforce the desired dwelling size priorities outlined in table 8.1 in section DM H3. This involves requiring developers, under the Local Plan, to meet specified targets for different unit sizes and specific tenures. The aim is to address the persistent under-provision of larger units by developers in the borough.</li> </ul> <p><b><i>The Enfield Climate Action Forum (EnCAF)</i></b></p> <ul style="list-style-type: none"> <li>EnCaf feel that the implication that the Local Plan will increase the delivery of larger/family homes with gardens and of affordable housing in the Green Belt is cruelly misleading to low income families and those in temporary accommodation.</li> </ul> <p><b><i>Connected London Living</i></b></p> <ul style="list-style-type: none"> <li>CLL supports the Council's housing size mix target on a borough-wide basis, taking into account various site-specific considerations. They argue that while there is a need for all sizes of housing in Enfield, it is not suitable for every individual site to aim for the same mix. Referring to Policy H10 of the London Plan (2021), they emphasise the importance of considering diverse site-specific factors. The draft ELP acknowledges this by recognising the expectation of higher proportions of flatted developments in urban areas and the reliance on greenfield developments for more family housing. The CLL points out that Build to Rent schemes, primarily designed for 1- and 2-bedroom homes, are commonly proposed in sustainable locations suited for smaller households. Therefore, requiring these schemes to</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>deliver a high proportion of larger family-sized homes would not be appropriate.</p> <p><b>Southgate District Civic Voice</b></p> <ul style="list-style-type: none"> <li>• SDCV supports the need for suitable housing to meet the housing needs of different groups, including for families, older people, and for affordable housing. There are many examples of high-quality developments across London where such housing has been achieved on brownfield land through efficient layouts and a good mix of planned private and public space.</li> </ul> <p><b>Home Builders Federation</b></p> <ul style="list-style-type: none"> <li>• The HBF expresses confusion regarding the inclusion of table 8.4 in the policy, questioning its purpose and whether the listed priorities are requirements for applicants. They argue that local plan policies should be clear and unambiguous, as per NPPF paragraph 16(d), and recommend deleting table 8.4 to avoid confusion for decision-makers and applicants.</li> <li>• Additionally, the HBF suggests amending the policy to align with the findings of the London Plan SHMA, which identifies the greatest need for one-bedroom homes (55% of overall supply, market and affordable) between 2018-2041.</li> </ul> <p><b>TfL Commercial Development</b></p> <ul style="list-style-type: none"> <li>• TfL CD expresses a willingness to collaborate with the Council to ensure that its sites align with local requirements for residential dwelling typology, mix, and size. They recommend that Section 1</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>of Draft Policy DM H3 takes housing type into account when determining an appropriate mix.</p> <ul style="list-style-type: none"> <li>• Additionally, TfL CD suggests removing a prescriptive mix for market homes, emphasising that the need for such a mix will vary based on housing type (sale, rental, retirement, etc.) and should respond to market requirements. They advocate for a flexible approach that considers market factors rather than a one-size-fits-all approach for all development schemes.</li> </ul> <p><b><i>Crosstree Real Estate Partners</i></b></p> <ul style="list-style-type: none"> <li>• Crosstree Real Estate Partners acknowledge that priorities outlined for dwelling mix in the Local Plan may face challenges in being universally achievable across all sites due to contextual factors and site constraints. They suggest that there might be instances where deviating from the prescribed dwelling mix is desirable to enable the delivery of other benefits associated with a proposal. This flexibility is seen as necessary, especially when adhering strictly to the prescribed mix may pose viability challenges or hinder the realisation of additional project benefits. The idea is to allow for adaptability through the planning balance exercise.</li> </ul> <p><b><i>Regenta Developments, Notting Hill Genesis and Origin Housing</i></b></p> <ul style="list-style-type: none"> <li>• Regenta Developments, Notting Hill Genesis, and Origin Housing have no specific comments on the policy but suggest recognising a transition in traditional family housing. They propose that two-bedroom properties catering to four people should also be considered family housing. Advocating for greater flexibility in the policy, they emphasise that material considerations, such as the</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>site's context and location, may limit its ability to adhere to the specified housing unit mix. They provide an example of central locations being more suitable for a higher proportion of 1 and 2 bed units. They recommend changes to Strategic Policy SP H3 to include wording that allows greater flexibility for developers in providing housing mix and type based on the context of the site.</p> <ul style="list-style-type: none"> <li>• Notting Hill Genesis suggests greater flexibility in the policy, emphasising that material considerations, such as the site's context and location, may limit its ability to adhere to the specified housing unit mix. They provide an example of central locations being more appropriate for a higher proportion of 1 and 2 bed units. Notting Hill Genesis recommends changes to Strategic Policy SP H3 to include wording that allows greater flexibility for developers in providing housing mix and type dependent on the context of the site.</li> </ul> <p><b><i>The Enfield Caribbean Association</i></b></p> <ul style="list-style-type: none"> <li>• The Enfield Caribbean Association highlights that private developers must not be allowed to just build one and two bedrooms for sale rent.</li> </ul> <p><b><i>Better Homes Enfield</i></b></p> <ul style="list-style-type: none"> <li>• Better Homes Enfield stresses the urgent need for affordable dwellings with 3+ bedrooms in Enfield, along with a significant need for market housing with 3+ bedrooms. They recommend rewriting the policy to focus on addressing this need more effectively. According to them, the current policy wording seems to provide loopholes for applicants to avoid delivering the desired housing mix in Enfield.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p><b><i>LBE property services</i></b></p> <ul style="list-style-type: none"> <li>• Enfield Property Services supports Policy H3 but seeks clarification from the Council regarding whether it is a policy requirement or an ambition for the Borough. They suggest that specifying the anticipated housing mix and types within placemaking areas, especially Crews Hill, would be beneficial.</li> <li>• The support for this policy approach is based on the consideration that some brownfield sites may face challenges in providing larger units, making greenfield sites, like Crews Hill, crucial for meeting the requirement of providing a significant number of family units.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• A local councillor criticises the plan for not prioritising the urgent need for family homes, particularly three- and four-bedroom homes that are affordable to families with below-average to average incomes in Enfield. The councillor expresses concern about the focus on the number of homes rather than addressing the specific housing requirements, especially for those who have been waiting for adequate housing for many years. Additionally, the councillor highlights reservations about the proposed high-rise buildings in Enfield Town and other areas, emphasizing that they do not fulfil the demand for family-sized homes. The lack of a clear strategy for Meridian Water is noted, suggesting a missed opportunity for large-scale building of affordable family homes on available sites.</li> <li>• Overall, the councillor contends that the plan lacks an effective strategy to address the housing shortage in Enfield and may worsen housing issues in the borough, asserting that the needs of</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p>the most vulnerable have been neglected in pursuit of superficial targets.</p> <ul style="list-style-type: none"> <li>• Residents express concerns about the lack of consideration for older people residing in Green Belt properties, emphasising the need for flexibility in building changes or garden use to provide annex accommodation.</li> <li>• Some respondents support housing considerations for older individuals but seek clarity on the proportion dedicated to sheltered accommodation or care homes.</li> <li>• While welcoming the provisions outlined in policy H3, residents highlight the potential enforcement challenges without an Article 4 Direction, particularly regarding internal space standards.</li> <li>• On the contrary, objections to Policy H3 emphasise the perceived inadequacy in addressing the demand for larger homes (3+ bedrooms).</li> <li>• Critics argue for policies requiring applicants to assess and incorporate 3+ bedroom homes from the outset, advocating for a 'needs-first' approach to design and application processes to better align with local housing requirements.</li> </ul>

However, they suggest that the Local Plan policy should encompass the full extent of need, including both Travellers who meet the Planning Policy for Traveller Sites (PPTS) definition and those who do not.</li> <li>• They recommend setting a target to meet the overall permanent need of 23 pitches. Additionally, they express disapproval of a separate Gypsy and Traveller Local Plan, advocating for considering and evaluating all sites through the regular Local Plan process to ensure culturally appropriate housing. They propose exploring various options, including multiple small sites, and emphasise the importance of thorough consultation with Gypsy and Traveller families.</li> </ul> <p><b><i>The City of London Conservators</i></b></p> <ul style="list-style-type: none"> <li>• The City of London Conservators welcomes the inclusion of the Borough's Gypsy and Traveller accommodation needs assessment in Policy DM H10. They note that, in their experience, many incursions and attempted occupations of Forest Land, particularly along the western edge of the Forest, appear to stem from the lack of such provision within the Enfield Borough.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been taken into account
	<p><b><i>The Hadley Wood Neighbourhood Planning Forum</i></b></p> <ul style="list-style-type: none"> <li>The Hadley Wood Neighbourhood Planning Forum acknowledges the Needs Assessment in the Evidence Base, which indicates a perceived need for 21 pitches, even though none are currently provided. This represents a substantial increase from the requirement for 1 pitch identified in the 2008 needs assessment referenced in the latest London Plan. The suggested pitch requirement seems to be driven more by desire than actual need. Additionally, the Assessment does not address how the proposal aligns with the needs and interests of the broader community.</li> </ul> <p><b>Wider community</b></p> <p>Residents express support for the preferred approach to planning 21 pitches. However, they highlight that this segment of the population is not necessarily static and may not be tied to a specific borough and its administrative boundaries. The wider community also deems planning for 21 pitches as appropriate.</p>	

**Table A.11:** Summary of main issues and how representations have been taken into account – Chapter 9: Economy

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
Policy E1: Employment and growth	<p><b>Specific bodies (statutory)</b></p> <ul style="list-style-type: none"> <li>Areli on behalf of Blackrock and the GLA – highlight that there are significant unexplored opportunities in the untapped brownfield land supply - including intensification.</li> </ul>	Change to point 1 to update need figures, in line with updated Employment Land Review assessment of need.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Thames Water highlight unexplored greenfield opportunities.</li> <li>• The GLA raised concern that the release of Green Belt sites to meet employment needs may make intensification unviable, therefore intensification sites should be allocated in the plan.</li> <li>• The London boroughs of Newham and Waltham Forest – support the principle of safeguarding existing sites to meet identified needs.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• FERAA and the Enfield Society were sceptical of the principle of safeguarding existing sites to meet identified needs.</li> <li>• CPRE, Conservative Group and several amenity groups oppose to the development of Green Belt sites, such as land west of Ramme Marsh and land east of J24 of the M25.</li> <li>• Several respondents highlighted the age of the Employment Land Review (2018) and the need to account for the evolving economic landscape (Brexit, Covid, etc) since then.</li> <li>• Several landowners expressed their discomfort on the assessed floorspace capacity for employment sites, with some expressing concern that the figures were too high and arguing for flexibility. They requested for further dialogue and engagement.</li> <li>• Prologis, SEGRO and developers of warehouses supports the employment strategy which seeks to deliver additional industrial and office floorspace in the borough.</li> </ul>	<p>Changes to Table 9.1 to remove mixed use sites (such as Sainsburys Baird Road), sites to be incorporated as part of wider site allocations (such as Land at 135 Theobalds Park Road), and new sites which have come forward since the Reg 18 draft (such as Heritage House). In addition, floorspace assumptions updated in line with intensification evidence base.</p> <p>Supporting text amended to reference new land supply position and corresponding spatial strategy.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• The wider community pointed out that there is the likely move away from office space by businesses looking to reduce costs after the pandemic and maximise the use of new technology for home and remote working, which have not been picked up in the plan.</li> <li>• The wider community acknowledge the increase nature of working from home, accelerated by Covid-19 will reduce the need for office space, avoiding the need to encroach on the Green Belt.</li> <li>• Respondents suggested there are no exceptional circumstances to justify releasing land from the Green Belt for employment development and wants brownfield land should be used instead.</li> </ul>	
Policy E2: Promoting inclusive business and job growth	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The London borough of Brent viewed this policy as ‘an appropriate way for Enfield to ensure that industrial needs identified can be delivered’ in identifying new opportunities to provide for additional industrial floorspace, whilst also seeking to protect and make best use of existing floorspace.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Lansdown Land, SEGRO, and LBE Strategic Property Services expressed their support for the policy approach to protect SIL and supported SIL extension</li> </ul>	<p>Number of SILs/ LSIS set out in the table amended to reflect updated totals.</p> <p>Supporting text amended to reflect job growth projection contained within the 2022 GLA projections.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• The Universities Superannuation Scheme did not support the principle of SIL extension and argued for future flexibility.</li> <li>• The Hadley Wood Neighbourhood Planning Forum stressed that public transport links to important industrial locations is crucial and should be addressed.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No specific comments were received on this policy.</li> </ul>	
Policy E3: Protecting employment locations and managing change	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The London borough of Brent viewed this policy as ‘an appropriate way for Enfield to ensure that industrial needs identified can be delivered’ in identifying new opportunities to provide for additional industrial floorspace, whilst also seeking to protect and make best use of existing floorspace.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Tarmac Trading, Henry Boot, and Goodman Logistics Development UK Ltd – expressed their support for the range of uses set out as permissible within SIL.</li> <li>• British Land and Goodman Logistics Development UK Ltd supported the policy approach to uses with in / adjacent to SILs not compromising integrity/ effectiveness of SILs. DTZ Investors offered a dissenting voice.</li> </ul>	Small changes to text to improve clarity and avoid confusion.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Areli for Blackrock and landowner consortium argued for a mechanism by which residential uses can be delivered on SIL to be clearly set out in this policy.</li> <li>• DTZ Investors also argued against blanket restriction on residential use.</li> <li>• The Enfield Society recognised that the principle of residential development potential of SIL is preferable to the loss of Green Belt.</li> <li>• Better Homes Enfield argued for specific and strict policies managing housing in SIL areas, arguing residential should be permitted where there is no loss of industrial floorspace and an increase in employment.</li> <li>• LBE Strategic Property Services provided general support to this policy.</li> <li>• Enfield Sport suggested that sports use such as: fitness clubs, gyms, climbing centres and five aside centres should be acceptable on employment sites.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No specific comments were received on this policy.</li> </ul>	
Policy E4: Supporting offices	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comments were received on this policy from specific consultees.</li> </ul>	Small change to policy text to improve clarity and avoid confusion

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• The Enfield Society and LBE’s Property Services supported this policy.</li> <li>• Cockfosters Local Area Residents Association and the Hadley Wood Neighbourhood Planning Forum questioned the relevance of this policy in the context of recent events.</li> <li>• Henry Boot, (Hadley Wood Neighbourhood Planning Forum) argued that office development should be allowed outside town centres.</li> <li>• Notting Hill Genesis and Regenta argued for the specified active marketing period to be reduced from 24 to 12 months.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• One individual objected to the protective stance of the policy on the grounds of increased homeworking and the popularity of residential conversions.</li> </ul>	<p>Updates to supporting text to reflect the findings of the updated Employment Land Review.</p>
<p>Policy E5: Transforming Strategic Industrial Locations and Locally Significant Industrial Sites</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The London borough of Brent viewed this policy as ‘an appropriate way for LB Enfield to ensure that industrial needs identified can be delivered’ in identifying new opportunities to provide for additional industrial floorspace, whilst also seeking to protect and make best use of existing floorspace.</li> </ul> <p><b>General bodies / other organisations</b></p>	<p>Small changes to text to improve clarity and avoid confusion.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• Goodman Logistics Development UK Ltd, British Land, LBE Strategic Property Services – expressed their support towards the policy approach which encourages intensification.</li> <li>• The Hadley Wood Neighbourhood Planning Forum also expressed support for intensification, provided the infrastructure is appropriate and the impact on the locality is acceptable.</li> <li>• LaSalle IM objected to the requirement to retain businesses on site/ implement effective arrangements in the case of redevelopment.</li> <li>• British Land suggested a ‘where feasible’ modification to this requirement.</li> <li>• The Canal and River Trust supported the requirement for new development within Strategic Industrial Locations and Locally Significant Industrial Sites to integrate with, and enhance, blue &amp; green networks.</li> <li>• Better Homes Enfield urged that the policy be reconsidered because of the prohibition of housing development in SIL.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No specific comments were received on this policy.</li> </ul>	
Policy E6: Redevelopment of non-designated industrial sites	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The London borough of Brent viewed this policy as ‘an appropriate way for LB Enfield to ensure that industrial needs identified can be delivered’ in identifying new opportunities to</li> </ul>	No change.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>provide for additional industrial floorspace, whilst also seeking to protect and make best use of existing floorspace.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• LBE Strategic Property Services – support the principle of this policy.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No specific comments were received on this policy.</li> </ul>	
Policy E7: Providing for workspaces	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The London borough of Brent viewed this policy as ‘an appropriate way for LB Enfield to ensure that industrial needs identified can be delivered’ in identifying new opportunities to provide for additional industrial floorspace, whilst also seeking to protect and make best use of existing floorspace.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• British Land indicated that the need to define what is meant by ‘workspace’ for the purposes of decision making was requested, and it was argued that small scale business space should be provided in mixed use neighbourhood contexts, rather than be required in SIL, ‘requirements for small workshops and quasi-office spaces in SIL may erode its capacity for strategically important industrial development and this must be avoided to meet identified needs for industrial development.’</li> </ul>	Change to supporting text to include a definition of workspace, in response to British Land comment.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>The Enfield Society and LBE Strategic Property Services expressed their in-principle support.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No specific comments were received on this policy.</li> </ul>	
Policy E8: Local jobs, skills and local procurement	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>No comments were received on this policy from specific consultees.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>The Enfield Society, SEGRO and LBE Strategic Property Services – expressed their in-principle support.</li> <li>SEGRO suggested refinements to the policy and argued that the requirement for an ‘site-specific employment and skills plan’ may instead need to be secured by condition, as it may not be possible to confirm exact details of the number of trainees, weeks training etc, alongside the submission of a planning application.</li> <li>Notting Hill Genesis and Regenta Development argued that part 2 of the policy should be deleted, as it conflicts with draft policy E4 and would lead to unwelcome consequences.</li> <li>Some suggestions for improvement were received from local groups.</li> <li>Enfield Caribbean Association suggested that ‘the construction workforce who will physically implement the plan should reflect</li> </ul>	<p>Supporting text amended to include the option of securing an employment and skills plan via S106 (in response to comments from SEGRO and British Land).</p> <p>Supporting text amended to include a definition of local labour (in response to comment from Hadley Wood Neighbourhood Planning Forum).</p> <p>Supporting text amended to include requirement for workers on site to reflect Enfield’s demographic diversity (in response to comment from the Enfield Caribbean Association).</p> <p>Supporting text amended to state at least one apprentice or trainee should be employed per £3 million (in response to feedback from internal colleagues and British land rep).</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>the demographics of the borough. **Table A.12:** Summary of main issues and how representations have been taken into account – Chapter 10: Town centres and high streets

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
Policy TC1: Promoting town centres	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Hertfordshire County Council suggested that improvements to active and public transport links to high streets to promote their usage should be included within this policy.</li> <li>• Metropolitan Police Service (with reference to ‘designing out crime’) specifically support the reference to safety and security within the policy.</li> <li>• TfL Spatial Planning (with reference to ‘designing out crime’ support part 1d which refers to ‘managing streets and spaces to facilitate pedestrian and cycle movement, improve links to surrounding areas and reduce traffic flows along key routes’. They</li> </ul>	Amendments to Part 1 point D of the policy to include reference to active travel (in response to Hertfordshire County Council) and public transport links (in response to Hertfordshire County Council and TfL Spatial Planning).

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>suggested the addition of 'public transport' before links to clarify the intention of the policy.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• TfL Commercial Development, W M Morrison Supermarkets Ltd and LBE Strategic Property Services – expressed their support.</li> <li>• Better Homes Enfield argued that the plan does not recognise the importance of Enfield Town as Enfield's main shopping destination, or address practical elements such as car parking provision and servicing. They highlight scope for the plan to promote the greening of Enfield Town, support for green business, and ventures that promote sustainability.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• The wider community expressed support for independent shops, and highlighted the importance of encouraging businesses back into Enfield's town centres.</li> <li>• One noted the site allocations relating to large grocery retailers throughout the borough, and highlighted implications for local household food needs.</li> <li>• One highlighted that Aldermans Hill local centre functions as part of the wider Palmers Green town centre and suggested that the two should be considered in tandem.</li> </ul>	
Policy TC2: Encouraging vibrant	<b>Specific Bodies (Statutory)</b>	Additional text included as part of Part 2 of the policy to reference active travel and

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
and resilient town centres	<p>Hertfordshire County Council suggested a positive addition could be improvements to active and public transport links to high streets to promote their usage, including for the night-time economy.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• W M Morrison Supermarkets Ltd, Notting Hill Genesis, and LBE Strategic Property Services expressed their support and agreement that large local centres should continue to provide service and uses to benefit the needs of local residents.</li> <li>• LBE Conservatives identify a tension between encouraging town centres to develop as vibrant and economically successful hubs through this policy, and the proposed redevelopment of car park sites elsewhere in the plan. They argue that removing car parking from town centres and supermarkets will encourage shoppers to go elsewhere.</li> <li>• Cockfosters Local Area Residents Association argue that support for small shops should be removed from the policy, as it would help small shops in general if their numbers were reduced.</li> <li>• Notting Hill Genesis suggested that the policy be amended to remove the wording stating that proposals for residential uses at ground floor level will be refused, as greater flexibility is preferable.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Several members of the community expressed concerns at the loss of car parks and supermarket car parking proposed in other parts of the plan.</li> </ul>	public transport links (in response to Hertfordshire County Council).

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<ul style="list-style-type: none"> <li>• One argued that the redevelopment of supermarkets (proposed as part of site allocations) would impact elderly and disabled residents, and force people to drive further.</li> <li>• One suggested that Enfield Town could be improved with more independent retailers and markets, and a better evening economy offer. They also pointed to the benefits of raising the quality of Enfield Town's retail offer.</li> </ul>	
<p>Policy TC3: Floorspace above commercial premises</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comments were received on this policy from specific consultees.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• LBE Strategic Property Services expressed their support towards this policy.</li> <li>• Some respondents suggested uses and activities that would be beneficial for upper floors in town centre locations.</li> <li>• The Hadley Wood Neighbourhood Planning Forum suggested that space above shops could also be used for leisure and entertainment ventures.</li> <li>• Sport England expressed concern that the policy could be interpreted as preventing leisure uses above ground floors. They encourage an amended stance to permit above ground floor sports uses.</li> </ul>	<p>Reference made to leisure and entertainment uses and sports and recreation uses (in response to Hadley Wood Neighbourhood Planning Forum and Sport England comments respectively).</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No specific comments were received on this policy.</li> </ul>	
Policy TC4: Markets	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>No comments were received on this policy from specific consultees.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Crosstree Real Estate Partners LLP and LBE Strategic Property Services expressed their support.</li> <li>Crosstree Real Estate Partners LLP argued that the requirement to preserve or lower rent for traders in instances of redevelopment does not align with London Plan Policy E9 and is outside the remit of planning policy.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No specific comments were received on this policy.</li> </ul>	Point 1 part C amended to include reference to a strategy for existing traders to take up pitches should be secured as part of any planning application affecting existing markets.
Policy TC5: Meanwhile uses	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Hertfordshire County Council ‘welcomes Enfield’s consideration for mitigating against additional car usage.’</li> <li>TfL Spatial Planning welcomed the statement that: ‘Uses which are not considered suitable meanwhile uses include vehicle parking’,</li> </ul>	Additional supporting text added at 10.5.2 to reference opportunities for housing as a meanwhile use (in response to comments from Modomo). This aligns with Policy H3 of the London Plan.

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>although pointed out that it would help to include this point within the policy.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Modommo expressed support for the policy, but request the wording is strengthened with regards to housing to bring it in line with London Plan policy H3. Detailed suggestions for amendments were provided in their representation.</li> <li>• LBE Strategic Property Services expressed their support.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No specific comments were received on this policy.</li> </ul>	
<p>Policy TC6: Managing the clustering of town centres uses</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• NHS London Healthy Urban Development Unit expressed support for the policy, and specific support for the use of a planning condition where applications for hot food takeaways are permitted. However, they indicated that it was unclear how the requirement for Cumulative Impact Assessments relate to the requirement for health impact assessment under Policy SP SC1. They requested that the London Plan requirement which controls new hot food takeaway uses within 400 metres walking distance from the entrances and exits of an existing or proposed primary or secondary school be part of the policy, and (with regards to paragraph 10.6.3) noted that, in addition to hot food takeaways, over concentrations of other uses, such as betting shops, pawnbrokers, pay-day loan stores, amusement centres and casinos can also have a detrimental impact on health and</li> </ul>	<p>Changes made to summarise Cumulative Impact Assessment requirements in supporting text.</p>

Chapter or policy reference	Summary of main issues	How have representations been taken into account?
	<p>wellbeing and concentrations of these uses are often found in deprived areas.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• M Morrison Supermarkets Ltd and LBE Strategic Property Services – expressed their support.</li> <li>• Planware Ltd objected – arguing that limiting the concentration of hot food takeaways is unsound - would apply an over-generic approach to restrict development with little sound reasoning or planning justification. Restricting town centre uses within centres contradicts the NPPF and sequential approach. They observed that overconcentration is not defined, and no evidence is provided to show existing concentration levels in the borough.</li> <li>• The Hadley Wood Neighbourhood Planning Forum observed that it is unrealistic to require businesses such as food outlets to have no impact on neighbouring properties in terms of noise, smells, light pollution, parking, etc.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• One representation was received arguing that fast food and gambling venues should not be permitted in Enfield Town.</li> </ul>	

**Table A.13:** Summary of main issues and how representations have been addressed – Chapter 11: Rural Enfield

Chapter or policy reference	Summary of main issues	How have representations been addressed?
<p>Policy RE1: Character of the Green Belt and open countryside</p>	<p>Comments have been received from local organisations and the wider community.</p> <p>The comments received generally raise concerns that the policy contradicts with the London Plan and that this policy is inconsistent with Green Belt release related to policies PL9 and PL10.</p> <p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• None noted.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• LBE Strategic Property Services expressed their support.</li> <li>• The Hadley Wood Neighbourhood Planning Forum support the policy, but have observations. They agree with the approaches of the policy but raise concerns of how the policy conflicts and can be applied in relation to the proposal related to green belt release to deliver new homes.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Respondents indicate that there are inconsistencies in the Local Plan with both policies PL9 and PL10 – so therefore infringes the conditions of 1a-1f of this policy.</li> <li>• Respondents object to the principle of this policy. They indicate that the approach towards development in the Green Belt is contrary to the London Plan 2021. They indicate that the Mayor of</li> </ul>	<p>The concerns raised about the policy contradicting the London Plan and its inconsistency with Green Belt release related to policies PL9 and PL10, are understood, given the importance of alignment with higher-level planning policies and the need to ensure consistency across different planning documents.</p> <p>The policy has been carefully reviewed to ensure that it aligns with the objectives and principles outlined in the London Plan, particularly regarding Green Belt protection and release, and the spatial strategy of the plan.</p> <p>Support for the policy while expressing observations and concerns about its application, particularly regarding proposals related to Green Belt release for delivering new homes is noted. We have considered the feedback to address any conflicts and ensure that the policy is effectively implemented in a manner that respects local planning contexts and priorities.</p> <p>The concerns raised about inconsistencies with policies PL9 and PL10, as well as potential contradictions with the London Plan and Enfield's Characterisation Study are</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>London strongly supports the continued protection of London's Green Belt which performs a number of functions including combating the urban heat island effect, growing food and providing recreational space. They also recognise that the London Plan Page 314 Policy G2 states 'The Green Belt should be protected from inappropriate development' and 'exceptional circumstances are required to justify either the extension or de-designation of the Green Belt'. They suggest that the Enfield Local Plan does not show any 'exceptional circumstances' and does not appear to have explored more suitable areas for development.</p> <ul style="list-style-type: none"> <li>• Respondents suggest there is contradiction to Enfield's most recent Characterisation Study as this states that "The existing Green Belt boundary should be retained and protected, and future development and land use changes resisted". They suggest if this site is included in the Local Plan, this statement of the Council would be completely overturned.</li> <li>• The Green Belt and wild open spaces should be made a priority to increase much needed biodiversity.</li> <li>• Objections received as developing on Green Belt is against the Mayor's Transport Strategy which encourages people to walk and cycle more.</li> <li>• Comments from the wider community received recognising the importance to keep greenbelt conserved in terms of separating the area from Barnet and Potters Bar.</li> </ul>	<p>noted. We have ensured that the proposed policies are in line with established planning principles and do not compromise the protection of Green Belt areas or other valuable open spaces.</p> <p>Feedback on prioritising biodiversity and promoting sustainable transportation methods is noted and taken into account in the plan making process.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
<p>Policy RE2: Improving access to the countryside and green corridors</p>	<p>Comments have been received from local organisations and the wider community. Overall, there is support from local organisations in the main with this policy, most concerns are arising from the wider community with concerns it conflicts with Local Plan policies that will de-designate areas of the Green Belt.</p> <p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• None noted</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• London Borough of Enfield Strategic Property Services support this policy.</li> <li>• The Hadley Wood Neighbourhood Planning Forum support the policy but have observations. They agree with the approaches of the policy but raise concerns of how the policy conflicts and can be applied in relation to the proposal related to green belt release to deliver new homes.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Developing parts of the Green Belt will make these locations inaccessible, contrary to the aspirations of the Plan as a whole.</li> <li>• The policy is inconsistent with the Local Plan, policies PL9 and PL10 infringe upon this policy.</li> </ul>	<p>The importance of ensuring alignment and coherence within the Local Plan is recognised.</p> <p>The policy has been carefully reviewed aligned with the recommendations of the IIA to mitigate any conflicts and ensure that they achieve our overarching planning objectives.</p> <p>The support from local organisations, including the London Borough of Enfield Strategic Property Services and the Hadley Wood Neighbourhood Planning Forum – are welcomed.</p> <p>The comment about the potential negative impact on accessibility and the perceived inconsistency with PL9, are recognised, in light of the goal to create a Local Plan that reflects the aspirations of our community while safeguarding the environment and promoting sustainable development.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>The policy does not recognise the value of Merryhills Way to local people. It is highly valued for its contribution to physical and mental health benefits.</li> </ul>	
<p>Policy RE3: Supporting the rural economy</p>	<p>Comments have been received from local organisations and the wider community. There is support from local organisations in the main with this policy, concerns addressed from the wider community relate to the potential negative impact of PL9 on this policy.</p> <p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>None noted.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>London Borough of Enfield Strategic Property Services support this policy.</li> <li>The Hadley Wood Neighbourhood Planning Forum support the policy with observations. They agree with the approaches of the policy but raise concerns of how the policy conflicts and can be applied in relation to the proposal related to green belt release to deliver new homes.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>The wider community expressed that the policy is inconsistent policy PL9 as it will destroy the local economy rather than support.</li> </ul>	<p>The support expressed by local organisations, particularly the London Borough of Enfield Strategic Property Services, for this policy – is welcomed.</p> <p>The concerns regarding potential conflicts between Policies and proposals related to green belt release for new homes are duly noted. We have carefully considered these observations and worked to address any conflicts to ensure coherence and effectiveness within the Local Plan.</p>

**Table A.14:** Summary of main issues and how representations have been addressed – Chapter 12: Culture, leisure and recreation

Chapter or policy reference	Summary of main issues	How have representations been addressed?
<p>Policy CL1: Promoting culture and creativity</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Lee Valley Regional Park Authority is supportive of the Plan’s recognises of the contribution that the leisure and visitor experience can make to economic growth and this is welcomed. It is important that policy enables both the protection of existing facilities and the growth and expansion of new attractions. It would be helpful if both strategic and development management policies could offer more specific support for the Regional Park in this respect. Strategic Policy CL1 Promoting culture and creativity seeks to direct new arts, culture and entertainment towards the Borough’s regeneration areas and town centres which is understandable given the accessibility of these locations. The Regional Park contains established venues and locations for leisure and entertainment and should also be identified as a suitable location, in particular the Lee Valley Leisure Complex, a strategic location within the east of the Borough.</li> <li>LB Waltham Forest is supportive of the approach taken for the development of culture, leisure and recreational development in the borough in the plan period and will continue to work collaboratively with the London Borough of Enfield to assist the realisation of aspirations in and around the borough boundary.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Better Streets for Enfield and the Enfield Cycling Campaign are supportive of the policy and suggest the following:</li> </ul>	<p>Paragraph 12.4 added to provide context to the policy. The Cultural Strategy is referenced twice within the policy itself. It was considered important to provide this context prior to the policy for clarification.</p> <p>Point 1 amended to provide clarification to the reader. Reference to ‘Culture Connects’ has been updated to the ‘Cultural Strategy for Enfield’. Reference to re-use of existing provision and also ‘accessible locations’ has been added further to comments received from the Lee Valley Regional Park Authority. Reference to ‘regeneration areas’ has been removed as these are not defined within the ELP.</p> <p>Point 2 ‘But not limited to’ wording added to provide flexibility to the policy. 2a text added as suggested by the Theatres Trust. 2b Reference to Culture Connects now updated to refer to Cultural Strategy.</p> <p>Point 3 ‘Easily accessible’ wording has been added for clarification to the reader. ‘Festivals’ word has been added to clarify that this is included as a performance activity. Sentence regarding diversification has been</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>- sustainable tourism and in particular walking and cycling activities are encouraged and supported</li> <li>- all cultural, leisure and recreation facilities (extant and planned) have ample secure and covered cycle parking</li> <li>- car parking at these venues is minimised.</li> </ul> <ul style="list-style-type: none"> <li>• The Theatres Trust is supportive of the policy and suggest minor amendments to part 2a - 'a. the use is identified as surplus to requirements' or 'the use is identified as surplus to requirements and is no longer economically viable or capable of being operated on a community or not-for-profit basis.'</li> <li>• Enfield Ignatians Rugby Football Club note beyond Sport the Village and playing fields could make a significant contribution to Culture and Arts in the Borough. CL1.3 The Enfield Playing fields and Sports Village presents an excellent opportunity for outdoor art culture and performance activities, for example sculptural waymarking on activity routes within the playing fields, and festivals.</li> </ul> <p><b>Wider community</b></p> <p>No specific comments were received on this policy.</p>	<p>added further to comments received from Enfield Ignatians Rugby Football Club.</p>
Policy CL2: Leisure and tourism	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comment</li> </ul> <p><b>General bodies / other organisations</b></p>	<p>Point 1c: Text amended for clarification purposes.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>There was general support from general bodies/other organisations that tourism is an important sector of the rural economy that has great potential for further growth. They consider that the site could provide tourist accommodation or tourism related employment to support the rural economy in this area of Enfield.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>The wider community recognised that further culture, leisure and recreation opportunities, particularly for teenagers and young adults whose lack of meaningful activities are being a trigger for anti-social activities to support increasing population should be identified.</li> </ul>	<p>Point 2: Text amended to make is easier to apply. 'Catchment area' is difficult to measure.</p> <p>Point 2b: Text added as suggested by the Theatres Trust.</p>
Policy CL3: Visitor accommodation	<p><b>Specific Bodies (Statutory)</b></p> <p>The Lee Valley Regional Park Authority notes that the Policy CL3 Visitor Accommodation makes no reference to the Regional Park as a location for potential visitor accommodation facilities and yet these feature within a number of sites in the Park, including at Pickett's Lock. PDF Area proposals outline further opportunities for a range of provision across a wide range of accommodation types, and indeed hotel, glamping and lodge style accommodation is often an integral part of major leisure and sporting developments. It is being actively considered as part of The Wave proposals. Policy CL3 should be amended to include a reference to the Regional Park under CL3 point 4, (see text in red bold font). Proposals for camping facilities and the conversion of existing buildings to accommodate visitors in rural parts of Enfield will be supported especially within Enfield</p>	<p>Point 1: Text added further to request from Enfield Ignatians representation as this provides example of location that would otherwise fail the sequential test.</p> <p>Point 4: Reference to Lee Valley Park added further to the Lee Valley Regional Park Authority representation which demonstrates the existing provision within the park area.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>Chase and the Lee Valley Regional Park in line with policies RE4 and PL8.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Cockfosters Local Area Residents Association note the need to protect hotel accommodation.</li> <li>• Enfield Ignatians Rugby Football Club note that CL3 Enfield Playing Fields may present an opportunity for an appropriately located hotel serving the Sports Village and Southbury. At 12.2.2 major visitor accommodation (e.g. hotels) outside town centres will be subject to the sequential test. We are concerned that whilst an appropriately located hotel in walking distance to public transport within or adjacent to the Sports Village would meet the general description of both CL3 1 and CL3 2, such a beneficial proposal, potentially capable of cross funding the Sports Village or contributing to its revenue subsidy may fail the sequential test if an alternative site were available in Enfield town. CL3 1 ...And other locations such as the proposed Sports Village at Enfield Playing Fields which are within walking distance...</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No specific comments were received on this policy.</li> </ul>	
Policy CL4 Promoting sporting excellence	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The LVRPA supports the direction of this policy as it offers potential support for the authority's current investment proposals for Pickett's Lock, which include: The Wave. However, the Authority would wish to see a much more extensive area</li> </ul>	Point 1c: Text added further to representation from Enfield Ignatians Rugby Football Club, which expressed concern regarding the protection and enhancement of facilities.

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>included given the leisure and sporting activities across the wider site. It is also confusing that explanatory text to the policy groups together the Hotspur training ground, Pickett's Lock, Enfield Playing Fields and Firs Farm as suitable locations for the development of world-class sports villages – this is not a proposal that the Authority has identified for Pickett's Lock.</p> <ul style="list-style-type: none"> <li>• TfL Spatial Planning object to SA62 Land at Tottenham Hotspur FC training ground as the site is likely to be dependent on car access due to the relatively poor connectivity by active travel or public transport with a PTAL of 1a-b. The site proposals (including ancillary related facilities) should exclude major trip generating uses unless there is substantial investment in viable public transport and active travel improvements.</li> <li>• Sport England does not consider that the draft complies with the NPPF and therefore does not consider the document to be sound and objects to the draft. Specifically: <ul style="list-style-type: none"> <li>○ policies relating to indoor and outdoor sport facilities, including playing fields, should be included within the Draft Local Plan and these should be based on a robust and up-to-date evidence base, such as the Playing Pitch Strategy (PPS) and indoor/built sport facility strategy, that would steer which types of indoor and outdoor sports facilities need protecting, enhancing and where new facilities, if any, are needed to meet current demand and the demand from future growth.</li> <li>○ the PPS is not included within the list of evidence base documents stated to inform the Local Plan, although Sport England does appreciate that there are some</li> </ul> </li> </ul>	<p>Point 1d: Text added to emphasise that inappropriate development within the Green Belt would not be supported, further to representation received from CPRE London.</p> <p>Supporting text 12.4.4 amended further to representation received from The Lee Valley Regional Park Association, noting that Pickett's Park is not proposed as a 'sport village', so clarification has been provided. It was also requested that the wider site associated with Picketts Lock offers facilities across the wider cite, and not just the athletic centre itself. Additional text has been added to provide clarification.</p> <p>Supporting text 12.4.4 point 2: Text added further to representation received from THFC which request that it be recognised that public access should be managed in a way that is compatible with the professional sporting function of the training centre.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>references to the PPS in the draft and that some elements have been referred to in the Blue and Green Infrastructure Strategy. The Local Plan also appears to suggest different recommendations/actions than what appears in the Draft Local Plan, particularly in relation to identifying a hierarchy of sporting hubs, including sites that do not appear in the PPS, such as the Tottenham Hotspur Training Ground and allocating sites for development that the PPS clearly seeks to protect and enhance, such as the Church Street Recreation Ground. As a result, Sport England has no alternative than to consider that the policies that relate to sport facilities are not informed/justified by robust and up-to-date strategies therefore consider that the policies are not sound at this point in time. Sport England, therefore, strongly recommend that the Council, at least, undertake a review of the PPS and develop an indoor/built facility strategy to inform the Local Plan to ensure that the next draft (Regulation 19) is in sound.</p> <ul style="list-style-type: none"> <li>○ 1. b. states publicly accessible strategic sport and leisure facilities would be provided to meet the needs of the growing population would be based on a location hierarchy however this hierarchy is not discussed in the PPS and could result in certain facilities being located in these location that are not strategically identified as required in these location. The PPS does not recommend facilities are required at Tottenham Hotspur's Training Facility and only certain improvements are cited at Enfield Playing Fields and Firs Farm. It appears, therefore, that</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>this element of the policy has not been informed by the strategy/evidence base.</p> <ul style="list-style-type: none"> <li>○ concerns with section 2. since it is not clear if the expansion of the Tottenham Hotspurs Training Centre would meet locally identified needs as explained above. In addition, if the expansion results in the loss of sports facilities then in order to meet the NPPF, paragraph 99, and Sport England Policy it must be robustly demonstrated that the facility that would be lost is either surplus in an assessment or replaced, especially since the PPS does not highlight a community need for the proposed facility at present. Please note that lack of use should not be seen as necessarily indicating an absence of need for a specific sports facility in the locality. Such land can retain the potential to provide to meet current or future needs.</li> <li>○ SA56: Land at Picketts Lock, any new sports and leisure facilities should meet a strategically identified need.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• CPRE London support the removal of reduction of surface car parking at land identified for promoting sport excellence at Picketts Lock but does not support development which would be inappropriate for development in the Green Belt, land should remain open. SA56: Land at Picketts Lock should be explicit that any 'new sports, recreation and leisure facilities' would need to comply with Green Belt policy.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>• CPRE London objects to SA62: Land at and within the vicinity of Tottenham Hotspurs Football Club training ground as it is in the Green Belt which is performing an important function. It should not be subject to inappropriate development. It should certainly not be removed from Green Belt. CPRE London highlight that it does not appear to be a genuine allocation for development of “professional sport, recreation and community sports/leisure uses”: rather, it appears to be an allocation aimed at enabling the expansion of the football club’s training facilities. There is no need to allocate this site within the Local Plan – and indeed this allocation is inappropriate and it should be removed. If Tottenham wish to expand the appropriate route would be via a planning application.</li> <li>• The Metropolitan Police Service for designing out crime support the reference to safety and security set out in the policy</li> <li>• Thompsons of Crews Hill objects to this policy.</li> <li>• Enfield Road Watch object to the allocation of 42.5 hectares of Green Belt for “professional sport, recreation and community sports/leisure uses” At present the Whitewebbs Golf course is open land, well-used and enjoyed by the public for outdoor recreation. ERW have concerns that fencing off portions of this site would impact the openness of the Green Belt. The existing Spurs facility already includes a number of inappropriate built structures in the Green Belt and there appears to be potential for more inappropriate structures on the former Whitewebbs Golf Course.</li> <li>• Enfield Ignatians Rugby Football Club, recognises the exciting opportunity to develop a Sports Village, integrating a number of</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>council assets, in a central accessible location, delivering Borough wide benefits, most obviously in Sport, Health and Wellbeing, key elements of the Blue and Green Strategy, and with careful master planning and design encouraging the multiple use of the facilities creating opportunities in Education, Business development, Tourism, and Community, Social and Cultural benefits. However, they also consider there is the need to protect and enhance the playing fields from running into disrepair and being unsafe due to increased casual leisure use generated by the proposed neighbouring developments; to create a physical environment which the Council will be able to manage efficiently. The need to advance the quality of the playing pitches and ancillary facilities in line with the existing and to be review Playing Pitch strategy.</p> <ul style="list-style-type: none"> <li>• Enfield Ignatians Rugby Football Club raises concerns around the concept of a “hierarchy of priority locations” but neither the policy nor the explanatory text provides any guidance to interpret this phrase. We believe it is intended to suggest that the facilities at each of the locations have a national, regional, sub-regional or Borough wide importance due to the quality, scale and draw of the facilities; not ambiguously the order or preference of the Plan to allocate investment. THTC is not currently publicly accessible and does not meet the needs of (the current or) growing population. The proposals at THTC and Picketts Lock are both private sector commercial projects whereas the Sports Village will be a public sector led.</li> <li>• Tottenham Hotspurs Football Club (THFC) supports the principle of their training centre and adjoining land as a key facilitatory and contributor towards the development of “first class” strategic sport and leisure facilities. THFC supports this aspect of the Policy.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>However, the policy suggests that the strategic sport and leisure facilities should be publicly accessible. It is outlined in the attached Policy Designation Document that the existing Training Centre provides community access to the Training Centre in a variety of forms and THFC will continue to provide such community access both as part of the existing operations and future development. However, in order to protect professional sporting environment, any public access must be managed in an appropriate manner. Therefore, whilst THFC support public access, this can only be on the basis of its compatibility with the professional sporting environment that is the main focus of the Training Centre use. It is necessary for the Policy to recognise that public access should be managed in a way that is compatible with the professional sporting function of the training centre.</p> <ul style="list-style-type: none"> <li>• THFC recognises the Policy requires optimising access to, and through the designated site by pedestrian and cycle. Again, THFC are supportive of ensuring appropriate access to the site, and support improvements to such, although access through the site by the public will need to be managed where such is required beyond any existing public rights of way. This again is to protect the professional sporting function of the area. Seeks modifications to Criterion B to clarify that public access should be managed. In addition, the Criterion should remove the Training Ground from the hierarchy of public sporting locations as presently drafted the Policy suggests that THFC's Training Centre is a key public sports facility and will be so in the future.</li> <li>• THFC support the exceptional circumstances proposed identification of their Training Ground and adjoining land as being an area of sporting excellence where further associated</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>development will be supported in principle, subject to a range of development management criteria. Notably, the land designated for sporting excellence should be extended to incorporate the former Whitewebbs Golf Course, creating a single site-wide allocation.</p> <ul style="list-style-type: none"> <li>• Friends of Forty Hill Park object to SA62 as it is inappropriate for THFC to expand and damage more of the local area. Lack of public access to their area of Forty Hill.</li> <li>• The Wave welcomes the policy including the reference at 1B to Picketts Lock.</li> <li>• The Enfield Society support the culture, leisure and recreation policies, but has some concerns about the proposed activities at Whitewebbs Lane, which would be inappropriate if they lead to loss of the openness of the existing Green Belt.</li> <li>• Local politicians object to the policy in particular to it allocating SA62 as it proposes the redesignation of Green Belt for housing and other purposes. These sites are part of historic Enfield Chase, which is unique in the southeast and played an important role in the development of Enfield. It is a rare and valuable landscape asset, and its loss would cause permanent harm not only to the Green Belt, but also to the very character of the borough.</li> <li>• Barnet and Southgate College wouldn't rule out the development of recreational and sporting facilities in Crews Hill or other rural parts of Enfield, but would like to see provision for retaining or</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>developing sports pitches for public use, closer to existing town centres and nodes of public transport.</p> <ul style="list-style-type: none"> <li>• LBE property services support the policy</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Residents objected to this policy because it transfers Whitewebbs Park, a public amenity, into private management</li> <li>• Objections were also received in relation to the proposed crematorium which involves a loss of sports facilities. As currently worded, SA59 is contrary to policy CL4 as it identifies Firs Farm as facilitating and contributing towards developing sport and leisure facilities in Enfield.</li> <li>• Residents objected to the site allocations contained in this policy as the loss of the sites would cause permanent harm not only to the Green Belt but to the character of the borough</li> <li>• Objections were received from the wider community on this policy as all of which propose the designation of Green Belt for housing and other purposes. Vicarage Farm/ Merryhills Way footpath are much used by residents for exercise and relaxation, physical and mental health benefits would be destroyed by development.</li> <li>• Residents supported this policy and highlighted that the council is correct to promote sport and recreation</li> <li>• Residents questioned how the creation of an academy for female footballers be described as a benefit to the wider local community. It is a benefit to Tottenham and involves the loss of a</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>significant amount of green belt for what will almost certainly be a “closed” operation.</p> <ul style="list-style-type: none"> <li>• Residents expressed concern over at how much community access is going to be available and how much the community will benefit from this expansion.</li> <li>• Residents think the policy is an excellent move as Golf is a sport which reserves a vast quantity of Land for a tiny number of people. Enfield currently has seven golf courses: reducing that number to four or five could help meet the areas housing need, without genuinely disadvantaging anybody.</li> </ul>	
Policy CL5: Sport, open space and recreation	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Sport England objected to the policy. They consider that specific polices relating to indoor and outdoor sport facilities, including playing fields, should be included within the Draft Local Plan and these should be based on a robust and up-to-date evidence base, such as the Playing Pitch Strategy (PPS) and indoor/built sport facility strategy, that would steer which types of indoor and outdoor sports facilities need protecting, enhancing and where new facilities, if any, are needed to meet current demand and the demand from future growth. These strategies would provide a clear strategy and action plan with delivery priorities for playing pitches and built sport facilities within the borough and therefore should direct the objectives and policies of the Draft Local Plan.</li> <li>• Sport England recommends that LBE undertakes a review of the PPS and develop an indoor/built facility strategy to inform the</li> </ul>	Point 1: Text added further to representation received from Barnet & Southgate College to emphasise provision for retaining or developing sports pitches for public use, close to existing town centres and nodes of transport. Additional second sentence added further to representation from sport England, ensuring that provision is evidence based.

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>Local Plan to ensure that the next draft (Regulation 19) is in sound.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Barnet &amp; Southgate College notes that their college lack suitable sports fields that are in an equally accessible location and currently have to transport students by bus to facilities (New River, Coles Park) in the London Borough of Haringey. Whilst they wouldn't rule out the development of recreational and sporting facilities in Crews Hill or other rural parts of Enfield, they would like to see provision for retaining or developing sports pitches for public use, closer to existing town centres and nodes of public transport.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• A number of residents raised concerns regarding SA59: Firs Farm recreation ground (part) the crematorium location and loss of sports facilities.</li> <li>• Further concerns regarding SA61 (Church Street Recreation Ground) noting that the plan mentions that development proposals that result in the loss of sports and recreational buildings and land will be resisted unless: <ul style="list-style-type: none"> <li>○ a. an assessment has been undertaken which has clearly shown the facilities to be surplus to requirements; or</li> <li>○ b. the loss resulting from the proposed development would be replaced by equivalent or better provision in a suitable location; or</li> </ul> </li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>○ c. the development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss.</li> </ul>	
<p>Policy CL6: Protecting and attracting public houses</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• None noted.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Crosstree Real Estate Partners broadly support the concept of ensuring the replacement or re-provision of a public house is of comparable character and quality as the existing public house and has an appropriate amount and configuration of floorspace. However, they question whether it is feasible to make it a requirement that the replacement or re- provision of the public house must be of comparable character and quality based on its existing context, when the existing quality of the public house has an opportunity to be further improved and where a regeneration scheme could improve the quality of the wider site within which the public house is situated.</li> <li>• Campaign for Real Ale (CAMRA) welcome Policy CL6 but recommends some minor amendments. They suggest that the minimum three-year marketing period is a particular strength. However, the policy should specify that that the pub must have been marketed at a price reflecting the ‘going rate’ for pubs of that type in the area to be effective. Failure to include this clause will give rise to risk of the building being marketed for a higher figure that makes pub use economically unviable. It should also</li> </ul>	<p>Point 1: Text added further to comments received from Campaign for Real Ale to add clarification.</p> <p>Point 1b: Text added further to comments received from Campaign for Real Ale. Text will reduce risk of building being marketed for higher rate (which makes the pub economically unviable).</p> <p>Text added further to representation received from Crosstree Real Estate Partners, noting that the existing quality of a public house has an opportunity to be further improved, and regeneration could improve the wider site. Additional wording provides opportunity for improvement.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>refer to London Plan Policy HC7, stating that any development effecting public houses should also be compliant with it.</p> <ul style="list-style-type: none"> <li>• CAMRA strongly object to the IIA findings which states without evidence that the provision of public houses and nightclubs may encourage residents and visitors to lead unhealthy lifestyles. In 2016 CAMRA commissioned research from Professor Robin Dunbar of Oxford University on the role of pubs at the heart of their community. The report found that pubs play a key role in facilitating friendships and that those who have a local pub are happier, more trusting and better connected to their community, many also provide healthy home cooked food commensurable to any restaurant. It sets out that moderate levels of drinking have been associated with improved physical health and that the absence of public houses can cause unhealthy drinking patterns in homes. Removing public houses does not remove alcohol from society but the provision of regulated public houses provides people access to regulated environments for drinking and socialising. There is therefore no evidence that having public houses encourages unhealthy patterns of drinking and poor health. Recommend that reference to public houses is removed entirely from IIA finding 2.91.</li> <li>• CAMRA congratulates the council's progress on the LP.</li> <li>• The Enfield Society support the culture, leisure and recreation policies</li> <li>• LBE property services support the policy</li> </ul> <p><b>Wider community</b></p>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li data-bbox="517 323 1391 416">Resident was not sure that the policy should be a priority for the council, as it is not happening. Pubs are closing or being converted.</li> </ul>	

**Table A.15:** Summary of main issues and how representations have been addressed – Chapter 13: Movement and connectivity

Chapter or policy reference	Summary of main issues	How have representations been addressed?
<p>Policy T1: Promoting sustainable transport</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The London Borough of Barnet welcome the promotion of sustainable travel and will seek to work with Enfield to improve orbital connectivity, including support for cross boundary east-west links for active modes of travel and public transport.</li> <li>• Broxbourne Council note it has prepared a Transport Strategy to underpin its own Local Plan (adopted June 2020). The modelling work underpinning that Strategy indicated a need for significant upgrades to the A10 north of Junction 25 in order accommodate the planned growth in Broxbourne. They indicated a number of other pinch-points across the network. Given the very high levels of growth proposed within Enfield, there is a possibility that the cumulative or spill over impacts on the highways network within Broxbourne could be significant. They would be grateful for early sight of your transport modelling to understand those implications.</li> <li>• Broxbourne Council notes that the 12-hectare employment site allocation SA52: Land West of Rammey Marsh (page 372) is proposed to encompass the Small River Lea. Broxbourne Council is currently preparing an Area Action Plan for Waltham Cross and the Small River Lea has been identified as having potential as an active travel corridor between our two boroughs under the M25. They would be grateful if Enfield Council could consider how this could be accommodated as a part of evolving masterplans for site SA52. They realise that there may be implications for any proposed new M25 junction and would welcome a discussion regarding this.</li> </ul>	<p>Point 1b: Wording added to policy as specifically requested by TFL in their representation.</p> <p>Point 1c: Some Landowners consider that the approach set out policy T1 seeking car-free development as the starting point in new development proposals is fundamentally flawed, lacks evidential justification and goes beyond what is required within the London Plan (Policy T6). Reference to ‘should’ has been added to provide flexibility within the application of the policy as requested by landowners, and residents. This was strongly opposed given the nature of some of the borough. Landowners noted the plan should acknowledge that some parking will be required in certain circumstances (such as industrial development, given 24/ 7 operation and shift work). ‘In areas that are well connected by public transport, and have active travel opportunities’ added further to representations received from landowners noting concerns that the policy would be difficult to implement in areas not already connected by public transport due to investment. The policy requirement still promotes / priorities car-free development, but allows flexibility within the implementation,</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>• Hertfordshire County Council fully supports the ambition of Enfield on this policy and are positive of the commitment being made to supporting sustainable transport in relation to growth. This is similar to the approach being taken by HCC in the development of our Growth and Transport Plans, which support their Local Transport Plan (LTP4). As suggestions, they would encourage Enfield to strengthen this policy through an amendment to 1c, with the addition of committing to improving public transport, and to 2 through more focus on what Enfield is seeking to deliver on active travel.</li> <li>• TfL support Enfield Council's expectation that new development will be "car-free (or offer a low level of parking provision)", in accordance with London Plan Policy T6, GG2, and the Mayor's Transport Strategy.</li> <li>• TfL have concerns about the lack of detail on some strategic transport issues. There is a need to confirm that London Plan maximum standards for car parking and minimum standards for cycle parking will be applied (or an even more ambitious approach if desired). Clarification is also required on whether projects such as east-west transit are still being promoted and if so, how they will be delivered. They previously expressed concerns about viability and a lack of commitment and funding, particularly in the current climate.</li> <li>• TfL and GLA have major concerns about some of the growth areas identified in rural parts of the borough which are less well connected by public transport and would require both substantial investment in transport infrastructure and services, and a restrictive approach to car parking in order to achieve the objectives of Good Growth. The high level of investment in active</li> </ul>	<p>especially within the outer areas of the borough. 'which are appropriate to the proposed use of the development' added, noting concerns from landowners that parking requirements differ depending on the use i.e. residential / industrial uses. Reference to the London Transport Plan standards are referenced as a minimum as requested by TFL. Electric vehicle charging added further to requests from residents and GLA. Minimum standards for electric vehicle charge and cycle parking as set out within the London Plan, added further to request from TFL. Retrofitting referenced further to representation received from residents.</p> <p>Point 1d: 'Actively seek' and 'where possible' included to add flexibility to the policy noting that landowners considered that traffic reduction wasn't always possible, especially in terms of industrial developments. Specific reference to the A10, A406 and the M25 are referenced as these are noted as being major transport in and around the Enfield area within the Enfield Transport Plan, and provide hooks for the Infrastructure Delivery Plan.</p> <p>Point 2a (new criteria): added to better link with Policy T2, and to emphasise that active travel is a priority.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>travel and public transport which would be required may not be realistic or viable in the long-term. There is a real risk that these areas could: become car dependent, have poor access to key services and put further pressure on the road network. We understand that further assessment work is underway, but as they currently stand, we would be likely to object on strategic transport grounds to proposed growth areas at Crews Hill and Chase Park, as well as the employment site at land east of junction 24.</p> <ul style="list-style-type: none"> <li>• TfL welcomes Enfield’s commitment to meeting the Mayor of London’s Transport Strategy objectives to deliver a transport network that improves the health and wellbeing of all Londoners and to achieve an 80% mode share for active and sustainable travel by 2041. We are pleased to see the requirement that development will be expected to contribute to these aims. However, it would be helpful to mention the Mayor’s ambition to achieve Vision Zero and to give greater force to these requirements by including them within a policy rather than being included solely in explanatory text.</li> <li>• TfL broadly welcome the contents of this policy including the safeguarding of existing and future transport land, ensuring that major development contributes to the delivery of a wide range of transport projects including Crossrail 2 and new public transport infrastructure or services, as well as support for car free development or low levels of parking provision. However, it is important that the approach to parking states explicitly that London Plan maximum standards for car parking will be applied, to ensure compliance with London Plan policy T6. Any car parking should provide active electric vehicle charging points at a minimum of 20 per cent of spaces and the remaining 80 per cent should provide passive provision. Construction Logistics Plans</li> </ul>	<p>Point 2b (previously 2a): Text added further to representations received from landowners, to ensure that only major development that would generate demand for/benefit from such improvements contributes to their delivery.</p> <p>Point 2c (previously 2b): Reference to improvement added further to concerns raised by Hertfordshire County Council. Link to rural areas provided to pick up concerns from TFL and GLA regarding concerns re: growth in rural areas.</p> <p>New supporting text para 13.1.2: Additional context added to the supporting text to further explain active travel schemes and their impact on the highway network and the potential impact of active travel. This provides a link to Policy T2.</p> <p>Supporting text 13.1.5: Reference to new infrastructure and funding added to provide link to further work in the Infrastructure Delivery Plan and concerns raised by TFL. Note that modelling will pick up and shared in due course further to concerns raised by Broxbourne Council.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>and Delivery and Servicing Plans should be submitted alongside planning applications to detail how the impact of road based freight can be mitigated and maximum use made of the alternatives.</p> <ul style="list-style-type: none"> <li>• TfL note the policy should also be explicit that mitigation in the form of new infrastructure or funding may be required to address the impact on rail stations or bus services in order to provide increased capacity or improved access. This does not just apply in areas of low public transport accessibility as suggested in part 2b, and includes stations such as Southbury, Enfield Town, Edmonton Green and Silver Street served by TfL Rail/London Overground where substantial growth is proposed. Bus priority measures should also be considered for funding as an incremental approach to improve journey times and reliability at a much lower cost than a full-scale transit project.</li> <li>• TfL note the aspiration to provide frequency improvements on the Enfield Town/Cheshunt services. Although the potential for off peak improvements is being discussed with rail industry partners, this cannot be guaranteed at this point and remains subject to further consideration of its economic and financial case. We currently have no firm plan to increase peak service levels further but will keep this option under review. Currently our ability to enhance and invest in the West Anglia service is heavily constrained by the conditions of our latest funding deal with central government; the extent to which this constraint is relaxed depends on how well demand recovers.</li> <li>• TfL note the current status of the Crossrail 2 project and any updates on safeguarding are available on the Crossrail 2 website. Some site allocations may be affected by safeguarding updates</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>so these will need to be taken into account when they are published by the Secretary of State.</p> <ul style="list-style-type: none"> <li>• TfL support the Council's desire to improve air quality and reduce car dependency as it is one of the most significant issues facing all residents in the borough. However, they are concerned that the challenges related to the lack of transport infrastructure to support access to sites proposed for development has not been considered fully or given appropriate weight.</li> <li>• GLA welcome the commitment to deliver a greater provision of electric charging points to encourage the shift away from petrol vehicles, but greater public transport provision to key development locations is the only solution to reduce car dependency locally and development to date has done little to address this.</li> <li>• GLA note the aspiration of the draft local plan to support growth and enable people to get around by walking, cycling, and public transport is welcomed. In particular, the approach set out in the draft local plan to further reduce car use in line with the Mayor's targets for 2041 and to implement the Healthy Streets Approach.</li> <li>• GLA have concerns about the lack of detail on some strategic transport issues. There is a need to confirm that London Plan maximum standards for car parking and minimum standards for cycle parking will be applied (or an even more ambitious approach if desired). Clarification is also required on whether projects such as east- west transit are still being promoted and if so, how they will be delivered. Transport for London (TfL) previously expressed</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>concerns about viability and a lack of commitment and funding, particularly in the current climate.</p> <ul style="list-style-type: none"> <li>• The London borough of Waltham Forest is highly supportive of the aims of the Movement and Connectivity Chapter and are delighted to see reference to the aim of achieving an 80% mode share towards sustainable travel including walking, cycling and public transport use by 204. They also pleased to see reference to car free development in the period too which will help to progress the modal shift in the Local Plan period and beyond.</li> <li>• The London borough of Redbridge support the proposed measures regarding transport improvements and active travel. It should be noted that major transport projects are amongst the types of developments which have the potential to adversely affect Epping Forest SAC.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Countryside Properties agrees with the wording of draft Policy T1, and in particular the shift to car-free development and the provision of initiatives such as car clubs and well designed. Through the delivery of the Alma Estate regeneration, these elements have formed an integral part of the design approach. It should be highlighted however, that whilst the encouragement of investment in public transport infrastructure is welcomed, it is noted that some locations in the borough are more suited to public transport access and investment than others. Sustainable brownfield sites near or close to existing transport nodes for example, are considered more suitable for investment and growth, than less accessible Green Belt and edge of Green Belt locations.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>• Better Streets for Enfield and the Enfield Cycling Campaign note in terms of any new school, housing development and so on the language could be strengthened further. If, for example, a new primary school has bike routes to it and so on it is helpful but is somewhat mitigated against if there is a car park space for every member of staff. 'Access to' active travel and public transport is not quite the same as the new priority established in the proposed highway code). We agree that choosing to walk, cycle or take public transport requires investment in these modes. They commit to the Mayor of London's Transport Strategy objectives to deliver a transport network that improves the health and wellbeing of all Londoners and to achieve an 80% mode share for active and sustainable travel by 2041. There is little to disagree so they support this section.</li> <li>• Landowners are supportive of the requirements of this policy, to achieve these aims but consider that improvements to the wording would reinforce the Borough's position and contribute more positively to the requirements for sustainable development.</li> <li>• Morrisons Group supports the Council's vision to deliver and promote sustainable transport throughout the Borough. The current drafting of Policy T1 states that new development is expected to be car free or offer a low level of parking provision. The Morrisons site at Southbury Road is well located for public transport, however customer parking will be needed to ensure the store is operationally viable. In relation to residential uses a completely car free development is unlikely to be commercially viable in this location, notwithstanding the public transport connections.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>• Some Landowners consider that the approach set out policy T1 seeking car-free development as the starting point in new development proposals is fundamentally flawed, lacks evidential justification and goes beyond what is required within the London Plan, which only seeks car-free development where the site is already well-connected by public transport.</li> <li>• Landowners and developers note that the policy T1's starting point is that development should be car-free, which goes much further than the London Plan's starting point of car free where the site is already well connected by public transport. This Council's policy to create car-free developments from the start is not in the realm of reality. Enfield is an outer London borough which is not well connected by London Transport, this is a fact.</li> <li>• Landowners mentioned that the stated aim of new development being provided as car free also needs to be understood in the reality of the allocations policies, which include building on existing car parks. They recognise that the result of such allocations will be a considerable net loss of existing car parking provision as well as no/little new car parking spaces being provided. As a consequence, this will create enormous levels of parking congestion on-street, to the significant detriment of residents, businesses and cycle lanes, and gives rise to the very real risk of compromising highway safety.</li> <li>• Landowners note the Part 1 c – car free – plan should acknowledge that some parking will be required in certain circumstances (such as industrial development, given 24/ 7 operation and shift work). There is also the need to consider operational vehicles. Part 1 d – development should reduce traffic, but they recognise it is not always possible or desirable from an</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>industrial development perspective, especially as intensification will mean more traffic movement. Landowners recommend that Policy T1 is refined to allow for appropriately managed and mitigated industrial intensification to come forward as this would currently be prevented by the wording of the draft policy. Part 2a – contribution to 4 tracking – policy should be adapted to state ‘where reasonable and appropriate’, to ensure that only major development that would generate demand for/benefit from such improvements contributes to their delivery.</p> <ul style="list-style-type: none"> <li>• The City of London Conservators understand the desire to maintain and improve the economic potential of the borough. In relation to the Forest and the EFSAC, the Borough’s location with access to the M25 and A406 would be attractive to businesses looking to service London. The CoL Conservators are concerned about the impact of such new business will have on increased traffic on these roads which also dissect the Forest and have a major effect in terms of nitrogenous air-pollution. The CoL Conservators note that the HRA does not reach firm conclusions on this issue and detailed traffic modelling is required to understand the potential for increased traffic from workers coming out of the Borough to attend work at potential new industrial or office sites or the operations of such sites along these traffic corridors.</li> <li>• The CoL Conservators is concerned that any increases in the form of industry, new office provision or increased retail, especially on the Borough’s constrained eastern side, might lead to future proposals to consider the Northern Gateway Access Road (NGAR) provision between the A10 and M25. The Conservators remain clear that such a proposal would have adverse impacts on the Forest and, therefore, any future</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>development in the Local Plan must work within the current east-west road constraints and, as discussed at the Examination-in-Public for the North-East Enfield Area Action Plan (NEEAAP) in 2014. They recommended that solutions for access to new development need to rely on sustainable transport options.</p> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>Residents are concerned there are no infrastructure and transport improvements listed in the new Enfield Local Plan. They indicate that minor improvements to the local infrastructure have failed to prevent houses from being repeatedly damaged by surface flooding over many years. Sewage periodically spills onto the rail station platform when the main sewer from Crescent West gets blocked, which happened most recently on 27 July 2021. Walkability in Hadley Wood is in the lowest categories because of the lack of local services and facilities within walking distance and the disjointed network of residential roads in cul-de-sacs and loops off through roads that cannot be improved.</li> <li>Residents note electric vehicle charging points are mentioned twice, and the commitment is heartening, though specific targets are necessary for the proposals to have credibility. They suggest that the numbers and energy-efficiency targets for a big retrofit programme are equally essential. Commitments to setting more tangible, quantitative proposals would be more convincing and for resident's keen to pursue their own electric vehicles. However, at the moment the lack of information about providing EV charging to existing properties with on-street parking is discouraging. They noted, in Enfield's Climate Emergency Action Plan the Council makes a commitment to "Influence residents to adopt zero carbon lifestyles and take low carbon decisions." Alongside the</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>recognition of the important part that the Local Plan plays in helping the Borough respond to the climate emergency, they are disappointed to read how limited the Council's ambition to influence residents is. They indicate Prof Jules Pretty recently published a paper called "The Good Life and Low Carbon Living" which included this guide to personal behaviours to reduce annual carbon footprint, under the headings: food, home, mobility and leisure. It's a useful guide to what will make a difference and should inform policy priorities. Enfield cannot increase the size of its road network yet requires improved internal transport capacity for residents and commerce. It can enhance capacity by improved junctions and underpasses (2 are justified across the A10) in the east. Making best use of road capacity by removing unproductive obstructions inserted in the name of cycling and LTN's, replacing with selective bus lanes to enhance the appeal of public transport is strongly supported, as is a policy of improving intersections.</p> <ul style="list-style-type: none"> <li>• Residents note that Enfield has major roads and served by rural scale intermediaries. Yet traffic manages to move the equivalent of half the population of Glasgow (600k pop) every day on such roads. There may be little scope for increased traffic at busy times yet the ELP envisages another 20% increase in population over the next 18 years. Peak congestion may increase but this is no reason to penalise all movement during the remainder of the day, nor to stigmatise reliance on personal transport, especially for the many with families, mobility issues, security concerns, and traders.</li> <li>• Residents note that the 80% mode share for active and sustainable travel is a London-wide target. In outer London, residents acknowledge that this is not possible. For example, the</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>MTS states: Trips in this area [outer London] tend to be longer and have many different start and end points, which makes it harder to provide efficient public transport services.</p> <ul style="list-style-type: none"> <li>Resident Group object to the continuing insistence on developments being 'car-free' when much of the transport in the borough remains sub-optimal (despite claims to the contrary by the Mayor of London).</li> </ul>	
<p>Policy T2: Making active travel attractive and the natural choice</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Hertfordshire County Council fully support this policy, as it aligns with their principles outlined in LTP4. They fully support Enfield's aspiration to exceed minimum standards, which can often be insufficient to readily support uptake of cycling. HCC would also suggest a commitment may need to be given here to aiming to deliver to LTN 1/20 standard for cycling infrastructure, to avoid substandard facilities.</li> <li>TfL broadly commend draft Policy DM T2 regarding Enfield Council's endorsement of the 'Healthy Streets Approach' and recognises it is in accordance with Policy GG3 and T2 of the London Plan.</li> <li>TfL broadly welcome the contents of this policy including the requirement for development to support the Healthy Streets Approach and improvements to walking and cycling access. However, they consider the reference to journeys under 2 km is misleading as there is great potential to increase active travel, particularly cycling, over longer distances.</li> </ul>	<p>Point 1: 'Substantial' added to clarify that this shift is required to off-set the impact of development on the transport network. 'Private car journeys' added for clarification to the reader. 'but not limited to' add further to suggestion from TfL, as it was considered misleading without this clarification.</p> <p>Point 1c: Text added for clarification as requested by TfL within their representation.</p> <p>Point 1d: 'low traffic neighbourhoods' added further to representations received from local residents. Footnote added to take the reader to further information about the initiative.</p> <p>Point 1e: Text added as suggested by TfL within their representation.</p> <p>Supporting text 13.2.4: 'private' word added for clarification. Additional text added to provide more information about what the 'Vision zero' covers (rather than just focusing</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>• TfL support the requirement in part 1c for development proposals to provide and ideally exceed minimum standards in respect of high quality short and long stay cycle parking provision on site or contribute to offsite provision where this is not feasible. TfL suggest that reference should be made here to the London Plan cycle parking standards being applied as a minimum requirement to be exceeded where possible and for the need to have regard to design guidance including the London Cycling Design Standards (LCDS) or any successor document. They would welcome the reference in part 1e to the creation of quieter neighbourhoods through the removal of road traffic and prioritising active travel measures over car journeys. The reduction or removal of car traffic could also be applied to selected locations in town or district centres.</li> <li>• The London Borough of Waltham Forest (LBWF) is highly supportive of the aims of the Movement and Connectivity Chapter and is delighted to see reference to the aim of achieving an 80% mode share towards sustainable travel including walking, cycling and public transport use by 204. They are also pleased to see reference to car free development in the period too which will help to progress the modal shift in the Local Plan period and beyond. LBWF believe that this partnership approach will improve east-west cross borough connectivity to existing and emerging assets. This has the potential to support existing and emerging communities, connect open spaces, accelerate the delivery of new homes, employment floor space, workspace and jobs, promote active travel and reduction of car use.</li> </ul> <p><b>General bodies / other organisations</b></p>	<p>on speed). TFL requested that these are mentioned.</p> <p>Supporting text 3.2.5: Text and footnotes added further to request from TFL re: London Cycling Design Standards and Hertfordshire County Council re: LTN 1/20.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>• Countryside Properties is supportive of the healthy streets approach outlined in draft Policy T2, and the requirement for proposals to encourage the shift to active transport modes. Notwithstanding the important role proposed development can have in improving access to active transport modes, they recognise there needs to be greater recognition within draft Policy T2 that some locations are more suitable. It is critical that new development occurs in locations which are, or which can be, made sustainable including through enabling access for occupiers to a range of services by modes other than the private car, and through facilitating use of public transport, walking and cycling as modes of travel.</li> <li>• Landowners support general transport principles that have been outlined in Chapter 13 and agree with the draft approaches set out in T1 and T2. The Sustainability Movement and Connectivity place-making principles outlined in Draft Strategic Policy SP PL9 are consistent with the policies in Chapter 13.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Local residents would like to see both a stronger commitment to and a higher profile for active travel, and reducing car journeys, with targets set. There are targets about ‘whole life cycle carbon’ and a clear link to the climate plan, but a lack of metrics in the report as a whole. The phrase ‘low traffic neighbourhood’ does not appear in this section, or indeed anywhere else in the document. We would like to see a strong commitment to this in general, as well as in the design of any new developments. There’s only one proposal (on p45) for a new cycle lane.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>Policy T2 is to make active travel the natural choice yet we see almost no proposals for new active travel infrastructure or services. For instance, there's only one proposal for a new cycle lane. Quieter neighbourhoods are also mentioned once, but as part of the (many) conditions to be met by developers. No suggestion that the council has an overall plan or will take any initiative.</li> <li>Residents agree with the policies set out on sustainable and active transport/travel, considering the mobility difficulties of what is likely to be an ageing population.</li> </ul>	

**Table A.16:** Summary of main issues and how representations have been addressed – Chapter 14: Environmental protection

Chapter or policy reference	Summary of main issues	How have representations been addressed?
Policy ENV1: Local environmental protection	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Epping Forest District Council note there is further detailed technical analysis to take forward related to the HRA and EFSAC. However, it is unclear at this stage how or if traffic from Enfield will be mitigated by the strategy proposed by Epping Forest District Council, and it is likely that Enfield would need its own mitigation strategy in place. The proposed approach is something that requires further discussion between the neighbouring authorities and Natural England and is part of ongoing discussions under their Duty to Cooperate. Until the traffic modelling and air quality assessment has been completed, and mitigation agreed, it is not possible for EFDC to conclude no</li> </ul>	<p>Deletion of the previous paragraph 14.5 as it repeats verbatim the NPPF.</p> <p>New supporting text added at 14.1.15 and 14.1.16 in response to comments from the Environment Agency.</p> <p>Hyperlink in 14.4.14 updated in response to Environment Agency comment.</p> <p>Reference to the North London Waste Plan made at new supporting text para 14.1.22 in</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>adverse effects on the integrity of the Epping Forest SAC as a result of air pollution.</p> <ul style="list-style-type: none"> <li>• The Environment Agency (EA) note policies should require developers to avoid potential dewatering activities being located in the most sensitive locations (i.e. SPZs) from a groundwater protection viewpoint. Policies should steer high risk developments away from SPZ1. This includes proposals that have the potential to release hazardous substances to ground, involve effluent discharge or will physically disturb an aquifer (E.g. Petrol filling stations in SPZ1).</li> <li>• The EA note in relation to Contaminated Land - It would be helpful if this section could link to and promote relevant guidance such the Environment Agency's Approach to Groundwater Protection and Land Contamination Risk Management (LCRM). The Approach to Groundwater Protection should be considered with regard to development proposals that we would object to in principle (E.g. petrol filling stations and non-inert landfills within SPZ1).</li> <li>• Natural England note the Local Plan indicates a housing delivery target of 25,000 homes by 2039. Whilst the contribution of this new development to air pollution impacts on the nearby designated sites is partially dependent on the chosen spatial development strategy, without effective cross-boundary cooperation with other Boroughs, it is unlikely that a Likely Significant Effect on the SAC can be ruled out.</li> <li>• Natural England agree with the conclusions of the HRA that currently the effects of the plan on air quality remain uncertain and that further information is required. We are pleased to see</li> </ul>	<p>response to City of London - Conservators of Epping Forest comment.</p> <p>Sources of water pollution added to 14.1.12 in response to Natural England comment.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>that the air pollution and traffic data surveys have been commissioned by Enfield Council and would be happy to discuss these once completed. In accordance with the paragraph 171 of NPPF, the plan should allocate land with the least environmental or amenity value. Natural England expects sufficient evidence to be provided, through the SA and HRA, to justify the site selection process and to ensure sites of least environmental value are selected, e.g. land allocations should avoid designated sites and landscapes and significant areas of best and most versatile agricultural land and should consider the direct and indirect effects of development, including on land outside designated boundaries and within the setting of protected landscapes.</p> <ul style="list-style-type: none"> <li>The Canals and Rivers Trust note that Pymmes Brook and Salmons Brook suffer from water pollution, which affects the water quality of the Lee Navigation. The source of pollution is generally considered to be misconnected plumbing, sewage overflows and pollutants from roads. Whilst we support section D of this policy, they suggest that more information on sources of water pollution should be provided.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Local MPs note the plan identifies principles relating to mitigation against poor air quality but there is little concrete within the plan or supporting documentation to secure this. Air quality improvements need to be secured while ensuring mitigation measures are not used by developers to reduce the provision of public realm and affordable housing within the site. The Colosseum retail park development consented in 2020 is an</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>example of this with extremely poor public realm proposed and no provision to ensure air quality on the site was improved.</p> <ul style="list-style-type: none"> <li>• Sport England supports the inclusions of the agent of change principle as this would protect sport sites, for example from new dwellings sited next to artificial grass pitches without sufficient mitigation against noise or on the edge of cricket sites without mitigation from ball strike. Sport England suggest that the latter example is considered to be mentioned in policy, potentially under hazard/health and safety section, as it is often overlooked by developers.</li> <li>• The Conservators would wish to comment specifically on the need of the Borough to actively consider the provision of waste facilities, which they understand is being reviewed as part of the North London Waste Plan, though this is not referenced in this Plan version.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Resident Groups note the lack of reference to the Edmonton Incinerator. Residents recommend a pause in the plans, and for proper consultation from the NLWA. There are disproportionate impacts from poor air quality.</li> <li>• Resident Groups note much greater clarity and restrictive wording is required.</li> <li>• Resident Groups note that there appears to be contradiction to the wider plan that proposes building on Green Belt land which absorbs carbon dioxide and causes lower levels of air pollution compared to areas that are built upon. Therefore, to achieve this</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	policy they suggest the principle of the building on green belt land should be taken out of the plan.	

**Table A.17:** Summary of main issues and how representations have been addressed – Chapter 15: Delivering and monitoring

Chapter or policy reference	Summary of main issues	How have representations been addressed?
Policy D1: Securing contributions to mitigate the impact of development	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Thames Water note Local Authorities should also consider both the requirements of the utilities for land to enable them to meet the demands that will be placed upon them. This is necessary because it will not be possible to identify all the water and wastewater/sewerage infrastructure required over the plan period due to the way water companies are regulated and plan in 5-year periods (AMPs).</li> <li>Welwyn Hatfield District Council Draft recognise that the Infrastructure Delivery Plan provides a schedule of required infrastructure to support the preferred growth scenario and that further transport modelling and identification of mitigation measures will take place at the next stage of the plan. They support further modelling and consider that LB Enfield will need to engage with the relevant Hertfordshire planning and highway authorities under the Duty to Cooperate to understand the infrastructure implications arising from your proposals and to ensure they are appropriately mitigated.</li> </ul>	<p>The importance of considering the requirements of utilities in land use planning to ensure the adequate provision of water and wastewater infrastructure is recognised. We will take into account the regulatory constraints faced by utilities and work collaboratively to address infrastructure needs over the plan period.</p> <p>The need for further transport modelling and infrastructure planning, especially regarding the Duty to Cooperate with neighbouring authorities – is acknowledged. We are committed to engaging with relevant stakeholders to understand infrastructure implications and ensure appropriate mitigation measures are implemented.</p> <p>The importance of prioritising public transport improvements and active travel infrastructure to support sustainable growth and address key priorities such as tackling climate change</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>TfL note to ensure consistency with London Plan in particular policy DF1 D where contributions towards public transport improvements should be given equal key priority status with affordable housing. Public transport and active travel improvements are essential enablers of growth and will contribute to other identified priorities including tackling climate change and improving public health.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Landowners note that inappropriate and unjustified financial contribution policies seem to be finding their way in to the New Plan including, for instance, that “planning contributions will be sought towards the provision and maintenance of public art installations and cultural facilities from developments comprising 50 or more residential units. Whilst this is not to detract from the need to create interesting and cultural places to live and work, art is not necessary to make a development acceptable and this fails the CIL Regulation test for a planning obligation. The requirement for public art to make developments acceptable was taken out of national policy requirements many years ago. More importantly there remains a lack of evidenced based consideration of planning obligations. The majority of allocations across the New Plan remain extremely difficult to bring forward and are unlikely to accommodate contributions which are anything less than essential whilst producing viable development proposals. We have been unable to find a whole plan viability assessment and would strongly suggest that one is undertaken forthwith.</li> <li>The Canals and Rivers Trust welcome the support in policy PL8 for improved walking and cycling routes along watercourses. We</li> </ul>	<p>is recognised. We will ensure consistency with the London Plan and give equal priority to contributions towards public transport improvements alongside other key objectives.</p> <p>Concerns regarding financial contributions and the need for evidence-based planning obligations are acknowledged. The policy framework is reviewed to ensure that planning requirements are justified, proportionate, and support viable development while contributing positively to community well-being.</p> <p>Support for improving walking and cycling routes along watercourses are welcomed. Suggestions for amending Policy D1 to provide a stronger basis for seeking financial contributions from new developments to enhance active travel infrastructure have been considered.</p> <p>Critical transport infrastructure projects and mitigation measures are adequately addressed, and their implementation is clearly outlined in the Local Plan and/or the IDP to avoid adverse impacts on the environment and communities.</p> <p>Concerns regarding the availability of amenities, infrastructure, and the impact of development on quality of life are acknowledged. We will strive to manage</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>welcome any opportunities to work with the council to improve the towpaths of the River Lee Navigation for walking and cycling, improved connections, access points and wayfinding to strengthen the active travel and recreational network in Enfield. They suggest below that policy D1 of the Draft Plan should be amended to provide a stronger policy basis for the Council seeking financial contributions from new development to achieve this.</p> <ul style="list-style-type: none"> <li>• Landowners note Part 2 states that where an outline application is submitted, it should be accompanied by a full planning application for the first phase of the development. They do not consider this requirement to be appropriate and each case should be treated on its own merits, with pre-application advice being used as a tool to define the appropriate application format, in accordance with draft Policy DM DE2.</li> <li>• MPs note the policy highlights several critical transport infrastructure projects outside the Council's control - of [particular concern is the highways section (3.6) - many schemes underfunded or would make the situation worse by bringing greater volumes of traffic. At present, they consider that little information is provided to indicate how key priorities will be achieved.</li> <li>• The City of London Conservators note that Strategic Policy SP D1: does not reference the securing of SAMM contributions by developments under 100 units to contribute to mitigation measures to protect the Epping Forest SAC under the Habitats Regulations 2017. The importance of cumulative mitigation being addressed through a combination of both SANGS and SAMMS needs to be considered. This combination is essential</li> </ul>	<p>existing services effectively, ensure adequate provision of social infrastructure, and address any conflicts between the Local Plan and neighborhood plans to achieve a balanced and sustainable approach to development.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>to ensure the effectiveness and certainty of avoiding adverse impacts from the Local Plan on EFSAC.</p> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Resident groups note amenities are very much the props to quality of life in the suburbs. Health, education, employment services, sports and recreation plus freedom of movement - all are under pressure or not slated for upgrades anytime soon. They consider the freedom of movement is played down as inconvenient to the rapid growth that is core to the London Plan, which itself offers no major transport improvements to 2041. They consider there should be better management of existing services, rather than suppressed use or exclusion, is required to support quality of life for residents. On past form it's doubtful that will be delivered.</li> <li>• Residents support the requirement for developments to make CIL contributions toward providing social infrastructure, often as well as needing financing, this infrastructure requires space. They can see Policy DM D2 allows a mechanism for this to be achieved on larger developments, there does not appear to be a way for this to be achieved from smaller schemes. This provision should be incorporated.</li> <li>• Residents note there are no facilities within reasonable walking distance. Wider afield the picture is little better. Enfield's document, Cockfosters Ward Profile: 2021, paints a gloomy picture. In the entirety of the Cockfosters Ward, in which Hadley Wood sits, to serve a population approaching 15,000, there are two state primary schools, one state secondary school, and one library, three NHS doctor's surgeries and three NHS dentists.</li> </ul>	

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>Other than one of the two state primary schools none are within walking distance of any current Hadley Wood resident and will, therefore, not be within walking distance for any of the hundreds of new residents which would be introduced to Hadley Wood if the Green Belt land is released for development. The Hadley Wood primary school is already heavily over-subscribed.</p> <ul style="list-style-type: none"> <li>Residents note Para 15.1 refers to neighbourhood plans but the Plan does not appear to indicate how conflicts between the Local Plan and neighbourhood plans are dealt with. Strategic Policy SP D1, section 3. Infrastructure can be provided off-site where it is shown to be unviable on-site. This provision should be tightened, so that off-site becomes the rare exception. Para 15.4.1 states that the Plan will cover the 15-year period from 2024 to 2039. This wording is inconsistent with the remainder of the Plan, which indicates 20 years from 2019 to 2039.</li> </ul>	
<p>Policy D2: Masterplans to achieve comprehensive development</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>No specific comments</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Landowners note the policy sets out that proposals must be accompanied by a masterplan where they form all or part of a site allocation. They consider that this is in direct conflict to Strategic Policy SP SS2 which sets out that the Council will ensure that development is planned and implemented in a coordinated way in the identified placemaking areas, guided by Masterplans. Pending the preparation of and adoption of Masterplan SPDs for the identified placemaking areas and Borough-wide design guide, proposals for major development</li> </ul>	<p>Points 1 to 3: Text updated further to representation received from various landowners querying how the Council will ensure that development is planned and implemented in a coordinated way in the identified placemaking areas. The text emphasises that whole site masterplans are preferred but accepts that there may be instances where this may not be possible. Landowners would now be required to demonstrate that whole site masterplans have been considered, and the remit of the masterplans justified.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>will be considered on the basis of good growth principles and policies included in this plan and the London Plan.</p> <ul style="list-style-type: none"> <li>Landowners and developers note that the requirement for proposals to be accompanied by a masterplan where they form part of a site allocation is an unnecessary and onerous policy requirement and, in many cases, will duplicate the planning application process. Policy D2 should therefore be deleted.</li> <li>The NHS welcomes the collaborative approach to infrastructure planning as set out in the policy and paragraph 15.3.1. Paragraph 15.3.2 refers to the Infrastructure Delivery Plan (IDP). The latest draft IDP (June 2021) identifies healthcare projects and priorities, including those new primary healthcare facilities identified in the site allocations. The CCG would welcome the opportunity to update the latest IDP to ensure that it reflects current provision, the NHS strategic context and estate priorities.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No specific comments.</li> </ul>	<p>Point 4a: Point added further to requirement in D2 point 1.</p> <p>Point 5: Text added / amended to emphasise that engagement should be on-going.</p> <p>Supporting text para 15.2.1: Text added to the end of the paragraph to clarify what evidence is required to justify the remit of the masterplan.</p>
Policy D3: Infrastructure and phasing	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Highways England is interested in the potential traffic impacts of any development site proposals and/or policies coming forward, and the need to ensure that these are fully assessed during the plan-making stage. It is also imperative to identify any improvements needed to deliver aspirations at this early stage, as set out in Government policy.</li> </ul>	<p>The importance of assessing traffic impacts and identifying necessary improvements early in the planning process is acknowledged. We will ensure that any proposed development are aligned with the policies in the local plan, the London Plan and the Mayor's Transport Strategy, and where necessary improvements to the Strategic Road Network (SRN) are identified and incorporated into the</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<ul style="list-style-type: none"> <li>• Highways England would expect necessary SRN improvements to have already been identified and tested as part of the cumulative assessment of the Plan. It should identify the provision of infrastructure at the right time to support the development strategy, combined with developer contributions to secure infrastructure provision as part of an Infrastructure Delivery Plan (IDP).</li> <li>• Hertfordshire County Council would like to ensure that sufficient infrastructure services are planned for within the borough of Enfield to provide for the medium growth option which has been selected of up to 25,000 homes. The Draft Infrastructure Delivery Plan is noted as a document to guide infrastructure provision, identifying the different types of infrastructure that will be required to meet future growth needs of Enfield, along with delivery and phasing, which will be further developed during the next stage of Local Plan production. As a service provider within Hertfordshire, the county council would be keen to engage in discussions regarding infrastructure projects particularly those close to the administrative border.</li> <li>• The London Borough of Redbridge supports the provision of the infrastructure identified in the draft Infrastructure Delivery Plan. They note the current uncertainties about Crossrail 2 and acknowledge that the plan makes appropriate reference to it and it is clear the borough would benefit. However, the plan correctly avoids placing undue emphasis on this proposal.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• The Department for Education request school projects listed in the draft IDP reflects the current position on planned education</li> </ul>	<p>Infrastructure Delivery Plan (IDP) to support the development strategy.</p> <p>The need for sufficient infrastructure planning to accommodate future growth is recognised. The Draft Infrastructure Delivery Plan will guide infrastructure provision to ensure coordinated planning and delivery of infrastructure projects, particularly those near administrative borders.</p> <p>The importance of the Infrastructure Delivery Plan and the uncertainties surrounding projects like Crossrail 2 are acknowledged. The plan appropriately reflects the current status of planned education provision and consider updates to address any changes or new requirements.</p> <p>The draft IDP will be reviewed to ensure that it accurately reflects the current position on planned education provision. It acknowledges the need for contributions towards policing infrastructure, and considers any requirements for electricity distribution network improvements. The concerns about infrastructure planning, including provisions for schools, hospitals, and other essential services, to support sustainable growth in the borough are recognised.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>provision and would therefore request this document be amended.</p> <ul style="list-style-type: none"> <li>• The Metropolitan Police Service note that this document does not appear to show an understanding of the representations submitted on behalf MPS in 2019, the need for contributions towards policing infrastructure, or the established precedents for this. They suggest that it would be appropriate to update the document, to acknowledge that MPS has a key requirement for contributions towards policing infrastructure.</li> <li>• National Grid note the local distribution network operator is responsible for operating the local electricity distribution network which supplies electricity from the national electricity transmission system direct to sites and premises. If new infrastructure is required in response to an increase in demand across the local electricity distribution network the operator may request improvements to an existing National Grid substation or a new grid supply point.</li> <li>• Local MPs note the wider community Lack of infrastructure planning - the road network is already severely stretched, developing locations such as Crews Hill and Chase Park will cause more congestion and pollution. What provision has been made for schools, hospitals, doctors' surgeries/ clinics, nurseries etc.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Residents note the increased population requires additional sports facilities. The mixed use and residential developments of Southbury and Enfield Town cannot come forward in a</li> </ul>	<p>The importance of sports facilities and active open spaces in supporting sustainable development and community well-being are recognised. Investments green and blue infrastructure to ensure adequate provision of sports facilities and open spaces to accommodate the increased population and support growth initiatives across the borough are considered in the Plan. The goal is to deliver infrastructure that meets the needs of all residents and contributes to a healthy, vibrant community.</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>sustainable way- in a post pandemic environment- without quality active open space provision. A failure to invest in the Sports Village could delay the delivery of the sites in Southbury, in particular, and Enfield Town- with lower residential and commercial values the redevelopment of the retail and leisure parks becomes more challenging. The Sports Village is required to support and deliver growth across the Borough. Without an early intervention there is a significant risk that the existing pitches will be damaged to such an extent that the clubs using them become unsustainable being unable to retain and attract players. The Sports Village contributes to a wide range of Borough wide initiatives, for example delivering equality across the Borough with good access from the deprived wards of the East and South.</p>	
Policy D4: Monitoring and reviewing	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Historic England note that the new London Plan Policy M1 (Monitoring) contains a new Key Performance Indicator relating to heritage. This is intended to monitor whether the applications that the GLA is consulted on have a beneficial, neutral or harmful impact on the historic environment – we would commend this approach to the Council in its monitoring framework.</li> <li>• The London borough of Waltham Forest is supportive of the ways in which the delivery of the Local Plan will be monitored.</li> <li>• The London borough of Redbridge support the inclusion of clear criteria for the review of the Local Plan, and the listing of</li> </ul>	<p>The recommendation to adopt the monitoring approach outlined in the new London Plan Policy M1 is acknowledged. A similar Key Performance Indicators related to heritage impact will be considered in our monitoring framework to ensure that applications are assessed for their impact on the historic environment.</p> <p>Feedback on considering the monitoring policy as a strategic one is duly noted.</p> <p>The suggestion regarding the consideration of net gain in community infrastructure and the identification of further indicators for monitoring strategic objectives is valuable. We</p>

Chapter or policy reference	Summary of main issues	How have representations been addressed?
	<p>remedial actions to be taken in the event of underdeliver. However, this policy should be considered a strategic policy.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>The NHS suggest that objectives should consider net gain in community infrastructure. In addition, further indicators could be identified to monitor strategic objective No 2 and Policy SC1 using indicators in the Joint Health and Wellbeing Strategy related to the priorities of a healthy diet, increased physical activity, and providing more opportunities for social interaction.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>Residents note the plan should say that “the policies and proposals set out in the Local Plan will be subject to review, in whole or in part, at least once every five years after its adoption”. They support this; however, it is unclear how and when the public might be involved in this review and further information on this would be welcome.</li> </ul>	<p>will explore incorporating these aspects into our monitoring framework to ensure that it comprehensively addresses community health and well-being priorities.</p> <p>Support for the regular review of the Local Plan is recognised and the importance of public involvement in this process is acknowledged. The intention is for regular reviews in line with the NPPF. Public engagement will be a key aspect of our review process, and we will endeavour to keep the community informed and involved.</p>

**Table A.18:** Summary of issue by site

Chapter or policy reference	Summary of main issues
SA1: St Anne's Catholic High School for Girls	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Environment Agency pointed towards generalised guidance around groundwater protection and potable groundwater abstractions that would need to be considered.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Historic England provided their support, but subject to specific reference to understanding, conserving and enhancing the significance of the historic environment, both to better reflect national planning policy but also to align more closely with strategic policies DE1 and DE4 elsewhere in the Plan. All relevant heritage assets should also be clearly identified on maps and diagrams.</li> <li>• Sport England noted that playing fields must be replaced to at least the same quality, quantity and accessibility as the existing site, and a similar approach should be taken to any indoor sports facilities that exist on site.</li> <li>• CPRE made similar comments (to be above point) in relation to playing fields.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• The Trustees of the Sisters of the Holy Family of Nazareth-Good Shepherd Province – commented that there had been no direct contact with the Trust and that the land ownership was described incorrectly with the School standing on land owned by the Roman Catholic diocese of Westminster and the Trustees owning the field and convent property at 52 London Road.</li> <li>• A number of local groups objected to the proposals for housing on this site, noting the importance of the school to meeting the borough’s social infrastructure needs.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• There was general objection from the community to redevelopment of this school site for housing. It was felt that the loss of the school was not justified, particularly without re-provision of an alternative school facility in advance of this. It was also suggested that removal of a school playing field would require permission from the Secretary of State.</li> <li>• It was suggested that identification of the site was contrary to the London Plan Policy S3 which identifies a growing need for school places.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>A number of residents suggested that demolishing the school would result in greater car use by local residents, as they would have to drive their children to schools which are further away instead.</li> </ul>
SA2: Palace Gardens Shopping Centre	<p>Objections were received from local residents and local politicians as well as support from statutory stakeholders. The most common issues being:</p> <p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Historic England – supported the policy in principle, but subject to specific reference to understanding, conserving and enhancing the significance of the historic environment, both to better reflect national planning policy but also to align more closely with strategic policies DE1 and DE4 elsewhere in the Plan. All relevant heritage assets should also be clearly identified on maps and diagrams.</li> <li>NHS HUDU supported the delivery of enhanced health and community facilities in Enfield Town and in particular suggested that the redevelopment of Palace Gardens</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>A number of local residents’ groups and a councillor objected to the proposals for tall buildings here, with generalised comments on the negative impacts of tall buildings.</li> <li>In particular, these groups noted the potential negative impacts of tall buildings on the setting of listed buildings and on the Conservation Area.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>Respondents mentioned that the site is in an inappropriate location for tall buildings. They considered that Enfield Town is a Conservation Area, so therefore tall buildings in this location would be out of keeping architecturally, dominate the skyline, and cast large shadows over locations such as Enfield Market Square, destroy the character, create congestion and overcrowding</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Respondents consider that tall buildings will spoil the character of Enfield Town and the area will end up looking like Edmonton Green. They suggest that the character needs to be preserved as well as providing more restaurants etc.</li> <li>• Respondents considered that development will comprise of high priced apartments aimed at the rental market of singles and couples, rather than sensibly priced ownership for families</li> <li>• Respondents expressed their concerns over the lack of car parking provision. They consider that the flat owners (of the new development) will continue to drive and own cars – which will have a substantially adverse impact on all surrounding roads for extensive periods of time.</li> <li>• Respondents consider that tall buildings are ugly and take up a lot of daylight from the surrounding area.</li> </ul>
SA3: 100 Church Street	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comments received.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Dominvs Group recognises that the Council has to bring forward both brownfield development sites and greenfield sites in order to achieve mixed and balanced communities. However, in their view they consider it is invariable that brownfield land has a greater role to play in the short-term in order to ensure that the Council can demonstrate a five-year supply of housing land and boost overall housing delivery. In supply terms, identified Green Belt sites which are proposed as draft allocations in the emerging Local Plan will have a greater lead-in time owing to the fact that they are unable to be consented prior to the adoption of the Local Plan without demonstrating that Very Special Circumstances exist. There is an urgent need to ensure that committed and allocated brownfield sites in the Council's trajectory are maximised in terms of development capacity to contribute to addressing the urgent need to increase housing supply in the short-term.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Respondents recognised that the lack of housing delivery is now having a direct impact on the affordability of housing for local people and cannot continue. They consider that the Council require sites such as SA3 to be fully optimised if this trend is going to be reversed.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• The wider community consider the units proposed are too small.</li> <li>• Respondents object to the site allocation because of the lack of parking for residents.</li> </ul>
SA4: Enfield Town station and the former Enfield Arms	<p>Comments have been received from statutory bodies, local organisations and the wider community relating to this site allocation.</p> <p>Representations from the Environment Agency set out the policies that would need to be applied to this site allocations.</p> <p>Overall, there is broad support for this site allocation with some considerations to be made relating to the wider place making vision set out in policy PL1 that the site allocation is located within. On the other hand, objections have been received relating to the height of development at this location.</p> <p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The Environment Agency provides the following information in regard to groundwater protection relates to the following sites. Sites within SPZ1 are particularly sensitive with respect to groundwater, and additional constraints will be placed on the above development proposals. With respect to the Environment Agency's Approach to Groundwater Protection, the following chapters would apply to these sites: <ul style="list-style-type: none"> <li>○ D1-General principles-all storage facilities</li> <li>○ D2-Underground Storage (and associated pipework)</li> <li>○ D3-Subwater table storage</li> </ul> </li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>○ G2- Sewage Effluent Discharges within SPZ1</li> <li>○ G4- Trade effluent and other discharges within SPZ1</li> <li>○ G8-Sewage pipework</li> <li>○ G13- Sustainable Drainage systems</li> <li>○ N7- Hydrogeological risk assessment</li> <li>○ N8-Physical disturbance of aquifers in SPZ1</li> </ul> <ul style="list-style-type: none"> <li>● The EA would recommend planning conditions for any piled foundation proposals at these sites. The use of piled foundations would require a robust supporting Foundation Works Risk Assessment demonstrating that they are appropriate at the particular location and would not result in a deterioration of groundwater quality. Without such a risk assessment we would object to the use of piled foundations at these sites.</li> <li>● The EA notes for sites in close proximity to potable groundwater abstractions they would strongly advise that the abstraction licence holder is also consulted with respect to piled foundation proposals.</li> <li>● Historic England support the place making vision but have observations for Enfield Town as set out in Policy PL1 in which this site allocation is located. There are concerns strategic policy PL1 underplays the potential effects of envisaged development will have on the historic environment, existing local character and significance of individual heritage assets across the place making area.</li> <li>● Historic England recommend placemaking visions and strategic policies for each place should include specific reference to understanding, conserving and enhancing the significance of the historic environment, both to better reflect national planning policy and align more closely with strategic policies DE1 and DE4 within the Local Plan.</li> <li>● Relevant heritage assets should be clearly identified on maps and diagrams.</li> </ul> <p><b>General bodies / other organisations</b></p>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• TfL Commercial Development welcome the inclusion of this draft site allocation. In accordance with Enfield’s SA4, TfL CD consider the allocation to be suitable for high density, mixed-use development, including residential, offices, retail and commercial, and cultural facilities. They also consider there to be an opportunity to enhance Enfield Town Station’s transport facilities. They would welcome the proposed timeframe of 5 to 10 years.</li> <li>• Regenta Development supports the inclusion of SA4 in principle but suggest that modifications to text is made by removing: 'vacant public house' from existing land use text; clarify what is meant by 'usual methodology for assigning indicative site density will not apply'; land use requirements should recognise that phased development through different applications would be supported; change availability to 0-5 years.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Respondents object to the inclusion of SA4 and consider that a 17 Storey development in Enfield Town Station and 13 storey buildings in Palace Gardens and Southgate Circus would be totally out of sympathy with the surrounding architecture.</li> <li>• Respondents consider that Enfield Town and Southgate still retain a village feel and a building of this height would tower over the surrounding area, adversely effecting local housing and businesses, impacting on residents’ quality of life and putting an increased strain on local infrastructure.</li> </ul>
SA5: Enfield Civic Centre	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comments received.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• The Twentieth Century Society notes the inclusion of the site ‘SA5: Enfield Civic Centre’ in the draft local plan and is concerned that it is described as one of a ‘number of key development sites’ in the borough. The Society considers the Enfield Civic Centre to be of local heritage significance and believe it should be treated as a non-designated heritage asset (NDHA). The civic centre was built in 1957-75 by Eric Broughton &amp; Associates. Its architectural and historic interest is indicated by its</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>inclusion in contemporary and recent architectural texts. Significantly, it is recorded in Pevsner's London: North volume of the Buildings of England series. This notes the 'Dominant twelve-storey tower at N end of the site, clad in stainless steel, of 1972-5 by Eric G. Broughton &amp; Assocs [...] The first phase, 1957-61 by the same firm, is a satisfying composition, consisting of a long brick administration range with upper floor projecting over a blue brick base, and the Council Chamber to the rear reached by a bridge from the main stairs. In front, a pool created from a loop of the New River; bronze sculpture of the Enfield Beast by R. Bentley Cloughton. Inside, in the stairwell, an applique wall panel by Gerald Holtom'. The Twentieth Century Society urges the local authority not to earmark the Enfield Civic Centre as a potential development site.</p> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Respondents objected to the proposals for tall buildings on this site, particularly noting that this would be unsympathetic to the surrounding area. They noted alongside Palace Gardens and the Enfield Town Overground station that the inclusion of the site would lead to a large number of taller buildings in the area.</li> <li>• Respondents consider that the proposals for tall buildings were also noted as unacceptable in the context of the Grenfell disaster.</li> </ul>
SA6: Tesco, Southbury Road	<p>Comments have been received from statutory bodies, local organisations and the wider community relating to this site allocation.</p> <p>Representations from the Environment Agency set out the policies that would need to be applied to this site allocations.</p> <p>Overall there is broad support for this site allocation with some considerations to be made relating to the wider place making vision set out in draft policy PL1 that the site allocation is located within. On the other hand, objections have been received relating to the height of development at this location, to the cumulative loss of retail of this site allocation in conjunction of others and lack of certainty over future provision on site when development schemes come forward.</p>

Chapter or policy reference	Summary of main issues
	<p data-bbox="618 288 994 316"><b>Specific Bodies (Statutory)</b></p> <ul data-bbox="667 347 2029 874" style="list-style-type: none"> <li data-bbox="667 347 2029 443">• The Environment Agency notes for sites in close proximity to potable groundwater abstractions they would strongly advise that the abstraction licence holder is also consulted with respect to piled foundation proposals.</li> <li data-bbox="667 480 2029 608">• Historic England support the place making vision with observations for Enfield Town set out in Policy PL1 in which this site allocation is located. There are concerns strategic policy PL1 underplays the potential effects of envisaged development will have on the historic environment, existing local character and significance of individual heritage assets across the place making area.</li> <li data-bbox="667 644 2029 772">• Historic England recommend placemaking visions and strategic policies for each place should include specific reference to understanding, conserving and enhancing the significance of the historic environment, both to better reflect national planning policy and align more closely with strategic policies DE1 and DE4 within the Local Plan.</li> <li data-bbox="667 809 2029 874">• Historic England mentioned that relevant heritage assets should be clearly identified on maps and diagrams.</li> </ul> <p data-bbox="618 900 1128 927"><b>General bodies / other organisations</b></p> <ul data-bbox="667 963 2029 1362" style="list-style-type: none"> <li data-bbox="667 963 2029 1203">• Bush Hill Park Residents Association objects to the inclusion of sites: SA6, SA8, SA10, SA12, SA19, SA20, SA22, SA32 (Existing Food Retail). They note, that when combined, the quantum of homes totals 3,247 (not including Tesco/Ikea Glover Drive). They consider that whilst the trend to online food retail has accelerated through the pandemic, to convert all these sites to housing/ mixed use, and through the reduction in car parking, is sub optimal. The substantial amount of housing proposed for these sites suggests a likely large reduction in car parking space. The residents' association object to the implementation of these policies areas if they will reduce car parking for food retail.</li> <li data-bbox="667 1230 2029 1362">• Enfield Town Residents Association object to the land being described as brownfield and raise issues related to how residents travel to retail destinations, noting surveys conducted by retailers themselves reveal that around 60% of shoppers arrive at retail destinations in the borough by car, in contrast to the less than 30% typically cited by LBE from surveys conducted with interviewers.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Respondents recognise a major concern if the site allocation is implemented. They consider that proposals are likely to lead to the loss of many of our major food retailers from the borough, followed by a decline in the small businesses that surround them and an increase in delivery vehicles on the road network.</li> <li>• Regenta Development request the site allocation should include 29 Southbury Road for residential led development.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Respondents object to these sites being targeted for mixed use as it will necessarily result in a significant loss of car parking for food retail.</li> <li>• Respondents raise concerns that the site allocation lacks certainties. They question whether car parking will remain on the site and what is the impact of any change?</li> <li>• Respondents raise concerns that the site allocation lack of certainties. They question what size retail units will remain? Will they be adequate in size to serve local community? What will the impact be on jobs?</li> <li>• There was a comment that housing is not needed here.</li> </ul>
SA7: Oak House, 43 Baker Street	<p>Comments have been received from Historic England, where they express a general support for the Place Making vision this site allocation sits within but with greater consideration given to the impact development will have on the historic environment, existing local character and the significance of individual heritage assets across the place making area.</p> <p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Historic England support the place making vision with observations for Enfield Town set out in Policy PL1 in which this site allocation is located. There are concerns the strategic policies PL1 underplays</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>the potential effects of envisaged development will have on the historic environment, existing local character and significance of individual heritage assets across the place making area.</p> <ul style="list-style-type: none"> <li>• Historic England recommend placemaking visions and strategic policies for each place should include specific reference to understanding, conserving and enhancing the significance of the historic environment, both to better reflect national planning policy and align more closely with strategic policies DE1 and DE4 within the Local Plan.</li> <li>• Historic England consider that relevant heritage assets should be clearly identified on maps and diagrams.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• No comments received.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No comments received.</li> </ul>
SA8: Sainsburys, Crown Road	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The Environment Agency advised that the site been identified as partly or fully overlying historic landfills: Development on historic landfills may require an Environmental Permit. They advise that developers need to make enquires regarding potential requirements under the Environmental Permitting Regulations 2016.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Sainsbury's Supermarkets Ltd highlighted the essential grocery offer of the site, and the potential for the store to provide an anchor role in redevelopment. They argue in favour of the retention of the store, highlighting negative consequences if the store is lost. They argue that redevelopment should incorporate the re-provision of adequate car parking to support the viability of the re-provided store.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Bush Hill Park Residents Association and Enfield Town Residents Association highlight concerns with the redevelopment of the site for residential/ mixed use, and potential loss of car parking.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Representations raised the issue of the loss of car parking, and uncertainties over future retail provision on site.</li> </ul>
SA9: Colosseum Retail Park	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The Environment Agency identified the site as a historic landfill and noted the potential need for an environmental permit.</li> <li>• NHS HUDU noted they had already provided comments on the hybrid planning application at this site and supported the need for health infrastructure across the wider area to be looked at holistically. They also noted that the site was one where there was potential for health uses, subject to evidence of need.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• No comments were received.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Few comments were received in relation to the site specifically, but the existing retail park was noted as being disconnected from the wider community.</li> </ul>

SA15: Joyce Avenue and Snells Park Estate	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>No comments received.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Encaf objects to the inclusion of the site allocation as the homes are already in the pipeline but designated in a 10 year window. The Council Minutes acknowledge that the scheme would be expensive but it would create over 2,000 new affordable homes.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>NHS London HUDU welcomes the policy which seeks to revitalise the high street and renewal of the neighbouring housing estates. The CCG is working with the Council to assess the healthcare needs and infrastructure requirements arising from the emerging proposals for the Joyce Avenue and Snells Park Estate (SA15). The area also contains a site in the south-east corner of the North Middlesex University Hospital (SA18) and the CCG supports the redevelopment of this site for housing as part of the Trust's wider masterplan for the hospital site.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No comments received.</li> </ul>
SA16: Public House, 50-56 Fore Street, London	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>No comments received.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Social Housing Plus – Fore Street Limited welcome the inclusion of the site as a site allocation within the draft Local Plan. This recognises the important contribution the Site can play in meeting the Council's overall objections for the new Local Plan. They have indicated the Site had capacity to accommodate circa 120 residential dwellings together with commercial floorspace. Therefore, the current estimated site capacity of 68 homes as set out within the draft Local Plan significantly underestimates the Site's capacity. They note that the site allocation also deals with heritage considerations, which gives a draft heritage consideration of 'amber'. They would suggest the 'amber' allocation is removed and instead the draft allocation recognises the Site is located adjacent to the Fore Street Conservation Area and designated and non-designated heritage assets. It considers the location is of low sensitivity but with proposals needing to consider the setting of the conservation area and heritage assets.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No comments received.</li> </ul>

SA18: South-east corner of the North Middlesex University Hospital Trust, Sterling Way, London	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comments received.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• No comments received.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No comments received.</li> </ul>
SA19: IKEA store, Tesco Extra, 1 Glover Drive, Meridian Water, Willoughby Lane and Meridian Way	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The EA provides the following information in regard to groundwater protection relates to the following sites. Sites within SPZ1 are particularly sensitive with respect to groundwater, and additional constraints will be placed on the above development proposals. With respect to the Environment Agency's Approach to Groundwater Protection, the following chapters would apply to these sites: <ul style="list-style-type: none"> <li>○ D1-General principles-all storage facilities</li> </ul> </li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>○ D2-Underground Storage (and associated pipework)</li> <li>○ D3-Subwater table storage</li> <li>○ G2- Sewage Effluent Discharges within SPZ1</li> <li>○ G4- Trade effluent and other discharges within SPZ1</li> <li>○ G8-Sewage pipework</li> <li>○ G13- Sustainable Drainage systems</li> <li>○ N7- Hydrogeological risk assessment</li> <li>○ N8-Physical disturbance of aquifers in SPZ1</li> </ul> <ul style="list-style-type: none"> <li>● The EA would recommend planning conditions for any piled foundation proposals at these sites. The use of piled foundations would require a robust supporting Foundation Works Risk Assessment demonstrating that they are appropriate at the particular location and would not result in a deterioration of groundwater quality. Without such a risk assessment we would object to the use of piled foundations at these sites.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>● Bush Hill Park Residents Association notes that the inclusion of sites: SA6, SA8, SA10, SA12, SA19, SA20, SA22, SA32 (Existing Food Retail) when combined totals 3,247 homes (not including Tesco/Ikea Glover Drive). They acknowledge that whilst the trend to online food retail has accelerated through the pandemic, to convert all these sites to housing/ mixed use, and with the reduction in car parking, is sub optimal. The substantial amount of housing proposed for these sites suggests a likely large reduction in car parking space. The residents' association object to the implementation of these policies areas if they will reduce car parking for food retail.</li> <li>● Ikea Properties Investment support the inclusion of the allocation but considers that it fails to recognise IKEA's current role in the area and importance in meeting retail/ employment needs. They</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>wish to explore how the current store can be accommodated into the wider placemaking vision, without adversely affecting future business plans.</p> <ul style="list-style-type: none"> <li>• Enfield Town Residents Association object to this allocation as they are valuable areas that support retail in the borough. To imply anything less is quite simply nothing other than dishonest.</li> <li>• The NHS London HUDU notes that the aspiration is for the whole Meridian Water placemaking area to deliver 10,000 homes, but only 5,000 new homes is set out within the plan period on SA19. It supports the policy which recognises that significant social infrastructure is needed to respond to housing and population growth and help create a new local centre. The CCG is working with the Council to secure appropriate healthcare infrastructure as part of the Phase 1 and 2 planning applications. It suggests that this site could include a proposed health use subject to evidence of need.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• The wider community considers that the council should seek to build 10,000 new homes at Meridian Water during the plan period, which would avoid the need for release of the Green Belt</li> <li>• Residents object to these sites being targeted for mixed use as it will necessarily result in a significant loss of car parking for food retail.</li> <li>• Residents object to Policy PL5: Meridian Water because the land on the “east bank” needs to put forward for mixed-use development as part of this plan, with any loss of SIL off-set by intensification within the site area itself and/or by the creation of new SIL areas e.g. in Southbury. They consider that if this does not happen, the main new park and greenspace planned for the area (i.e. at Edmonton Marshes), will be cut-off from the new homes i.e. the homes for Phases 1 and 2 will be on one side of an industrial estate and the greenspace on the other. They recognise that the council has repeatedly told local residents that 10,000 homes will be delivered at Meridian Water, but this draft Local Plan would deliver just half of this and offers no guarantee whatsoever that 10,000 homes would ever be built at the site.</li> </ul>

Chapter or policy reference	Summary of main issues
SA20: Asda Southgate, 130 Chase Side, Southgate	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Historic England noted these areas each contain a concentration of designated heritage assets as well as successful existing character that will clearly be affected by the level of development proposed, including a number of tall buildings. While they note the relevant documents in the evidence base relating to tall buildings, there does not appear to have been any assessment of local sensitivity to such development and therefore the effects of heights proposed on heritage significance. The Plan should be much clearer as to these potential effects and how they will be managed, rather than leaving this to the point of decision on individual planning applications when they will be more difficult to avoid. Using an assessment of significance to determine appropriate heights is key.</li> <li>• The NHS noted the site could include a proposed health use subject to evidence.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• No specific comments</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Residents noted whilst the trend to online food retail has accelerated through the pandemic, to convert all these sites to housing/ mixed use, with the attendant reduction in car parking, is sub optimal. Chapter or policy reference	Summary of main issues
	<p>amount of housing proposed for these sites suggests a likely large reduction in car parking space. They object to the implementation of these policies areas if they will reduce car parking for food retail.</p>
<p>SA23: Minchenden Car Park and Alan Pullinger Centre, 1 John Bradshaw Road, Southgate</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Historic England note that each area contains a concentration of designated heritage assets as well as successful existing character that will clearly be affected by the level of development proposed, including a number of tall buildings. They note the relevant documents in the evidence base relating to tall buildings, there does not appear to have been any assessment of local sensitivity to such development and therefore the effects of heights proposed on heritage significance. The Plan should be much clearer as to these potential effects and how they will be managed, rather than leaving this to the point of decision on individual planning applications when they will be more difficult to avoid. Using an assessment of significance to determine appropriate heights is key.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Barnet and Southgate College – is keen to ensure its development plans are consistent with and complementary to those for the neighbouring Site Allocation SA23 (Alan Pullinger Centre and Minchenden car park). They would be very interested collaborating with the other landowners to deliver a joint redevelopment of this part of the High Street.</li> <li>Landowners support the inclusion of this draft Site Allocation SA23 which allocates the site for comprehensive mixed-use redevelopment. They support proposals for the Southgate placemaking area, which includes the site. They seek to confirm the level and mix of development in the site allocation, especially as there is more than one site involved. They note that draft Site Allocation SA23 states the combined site area is 0.11ha. However, their understanding that the site area of the Alan Pullinger Centre is 0.1101 hectares and the site area for the Minchenden Car Park is 0.2471 hectares; totalling 0.3572ha. Based on the above they suggest that the site could be further optimised to deliver additional dwellings. They consider that development of the site for housing / non-residential uses would help support the Council’s Vision and Strategic Objectives (draft Local Plan Chapter 2) and contribute towards achieving the housing target (draft Policy H1). The site is previously developed land, with a high PTAL. Development would achieve sustainable patterns of development (in accordance with NPPF Para. 11). The site is deliverable (in accordance with the</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>NPPF). It is available for development (in the plan period) and any relevant legal matters are currently being reviewed. Development is achievable and the location is suitable for development.</p> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>Residents note the car park listed as Minchenden Car Park in Leigh Hunt Drive is used by both shoppers and commuters. Its use has been promoted by residents in feedback to the Southgate regeneration consultation, in order to encourage shoppers to park here rather than in the town centre. This car park is key to removing cars from the town centre and driving through the area. Building on this car park will make it more difficult to achieve the aim of removing cars from Southgate. The Alan Pullinger Centre is the only youth provision in the immediate Southgate area. It is used by a wide range of groups and has been instrumental in helping youths who may potentially exhibit anti-social behaviour. Removing this facility would be detrimental to the lives of many local young people. Rather than removing this completely, they consider it could be redeveloped to provide better provision for youth groups and other local community groups.</li> </ul>
SA24: Arnos Grove Station car park	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Historic England note that the inclusion of SA24 is within the setting of the Grade II* listed Arnos Grove tube station. While they would not disagree, there is potential for development on either site, they also note that tall buildings are also indicated for this area. They would point out that the list description for Arnos Grove station specifically identifies its landmark status in the locale as part of the reason for its special interest. Again, they consider that an understanding of the significance of the station itself is necessary to help determine what appropriate building heights should be in this area.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Landowners welcome the inclusion of New Southgate as an identified placemaking area and a major urban foci of high quality growth as identified by Policy SP SS1 Part 4.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Landowners support the Council’s objective to deliver a mix of social affordable rented homes and intermediate homes across the borough with flexibility for individual sites subject to site specific considerations including viability and/ or where higher amounts of affordable housing are proposed.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Residents submitted strong objections to the proposal to build on the Arnos Grove car park. It restricts access to public transport and will significantly disadvantage, indeed bar very many of our disabled, elderly and frail residents from using the station.</li> </ul>
SA25: Site between North Circular Road and Station Road	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The Environment Agency note the former Gasworks sites i.e. SA25 is associated with a former gasworks site, a highly contaminative former use. These sites will require detailed intrusive investigation to characterise any soil and groundwater contamination on site, and any development scheme will be required to fully establish the risks to controlled waters. Groundwater is sensitive at this location as the sites lie atop a Secondary A Superficial aquifer (River Terrace Deposits).</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Landowners welcome the allocation of the former Homebase site, Gasholder site and Topps Tiles site for redevelopment to create new homes. The policy acknowledges that the wider Western Gateway site is the only opportunity for large scale development in the area.</li> <li>• Landowners note the draft plan fails to allocate the Builders’ Depot site for development. This is at odds with the discussions that have taken place with LBE to date. This failure to allocate the Builders’ Depot site for development also contradicts with the draft plan, which states that the developers of the Western Gateway sites “must bring forward development in a coordinated manner in order to ensure that the potential of the sites here can be maximised”. The exclusion of the Builders’ Depot site will undoubtedly undermine the delivery of LBE’s aspiration for a coordinated approach to the development of the Western Gateway.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>The NHS note that New Southgate area contains the inclusion of two site allocations SA25 and SA26 where new housing is planned. They support the policy which identifies the need for improvements to community facilities and the CCG would welcome the opportunity to review the requirements in the light of the new site allocations and the demand generated by the Ladderswood estate development.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No specific comments.</li> </ul>
SA26: Station Road, New Southgate	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Environment Agency note the former Gasworks sites i.e. SA26 is associated with a former gasworks site, a highly contaminative former use. SA27: Land at Crews Hill	<p>Objections were received from local residents, statutory consultees, neighbouring authorities and local interest groups, as well as some support from developers. The most common issues they highlighted are set out below:</p>

Chapter or policy reference	Summary of main issues
	<p data-bbox="618 288 987 316"><b>Specific bodies (statutory)</b></p> <ul data-bbox="667 347 2029 703" style="list-style-type: none"> <li data-bbox="667 347 1951 411">• Welwyn Hatfield District Council has serious concerns on the level of harm that will result to the Green Belt as a consequence of this allocation.</li> <li data-bbox="667 443 1995 544">• Hertfordshire County Council support the inclusion of the draft site allocation and would like to be involved in the stakeholder masterplanning, particularly whether there is any school provision to be utilised within Hertfordshire by developments in Enfield.</li> <li data-bbox="667 576 2029 639">• Hertfordshire County Council indicated they would be unable to accommodate significant influx to the county.</li> <li data-bbox="667 671 1861 703">• Historic England noted that there should be explicit reference to the historic environment</li> </ul> <p data-bbox="618 730 1133 758"><b>General bodies / other organisations</b></p> <ul data-bbox="667 794 2029 1358" style="list-style-type: none"> <li data-bbox="667 794 1962 890">• Developers, landowners and site promoters welcomed the inclusion of Crews Hill in the plan and indicated that these benefits serve to highlight why Crews Hill can help meet the challenges and objectives that face Enfield over the plan period and beyond.</li> <li data-bbox="667 922 2018 1086">• Developers indicated that Crews Hill has the potential to create a new sustainable residential community to meet the anticipated housing need over the plan period and is ideally suited to make significant contributions to these emerging housing targets to support housing delivery in Enfield and London as a whole. It was suggested that the benefits could be secured through the allocation and any future masterplanning exercise.</li> <li data-bbox="667 1118 2029 1358">• Developers, landowners and site promoters supported the Council's approach to remove the area identified within the Crews Hill Concept Plan Map from the Green Belt. It was highlighted that following the Examination in Public process of the London Plan and the Main Modifications put forward, the tests for demonstrating Exceptional Circumstances contained within the adopted new London Plan now reflect those contained within the NPPF. It was suggested that the approach set out in the draft ELP to establishing Exceptions Circumstances is in conformity with the London and national policy requirements;</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Developers noted that the ELP is supported by a Green Belt review that was prepared independently by LUC. They noted its importance, but also highlights that it is not – and should not – be the sole driving factor as to whether a parcel should be released from Green Belt, which is a planning judgement that has to be made around preferred site options by the Council, including in cognisance of the national policy at NPPF Paragraph 142 which directs where Local Planning Authorities should consider releasing Green Belt when it is deemed to be necessary.</li> <li>• Developers highlighted that the evidence should assess the finer grained nature of the contribution of parcels to Green Belt purposes, and the potential for Green Belt mitigation, in considering the finite extent of the Crews Hill allocation area.</li> <li>• Developers considered that Crews Hill is a sustainable location, part of which includes previously developed land which is centred on an underutilised train station.</li> <li>• Developers and site promoters suggested that the existing transport infrastructure (i.e. Crews Hill station) is not being utilised to its full potential. Due to the nature of the garden centres and the large goods they trade, the area is currently heavily dominated by car use which overshadows the existence of the train station.</li> <li>• Local residents’ groups suggested that there is currently insufficient transport infrastructure to support the proposals.</li> <li>• Local residents’ group suggested that a key benefit put forward was the opportunity to deliver new social and community infrastructure – to serve both the new settlement and northern part of the Borough – as part of a planned new community; rather than needing to plan for piecemeal upgrades to existing provision. Its community infrastructure could be self-contained and self-funding, with the settlement able to deliver new local day to day facilities.</li> <li>• Local residents’ group suggested that the delivery of a new settlement can incorporate climate resilience measures, significantly benefitting from a community-wide approach (rather than a focus just on buildings) as well as incorporating development-wide measures, such as on-site renewable energy generation, to achieve net zero carbon targets in line with draft Strategic Policy SP SE1.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Developers, site promoters and landowners indicated that delivery could also provide employment, skills and training opportunities both during construction and operation through the delivery of flexible business spaces, live-work opportunities and community infrastructure. This would more than off-set any loss in economic activity from the loss/displacement of the existing uses, creating significant net economic and employment benefits.</li> <li>• Developers considered that given the substantial scale of the inclusion of the draft Site Allocation (approx. 82 hectares) the policy wording should be amended to state ‘a minimum of 3,000 homes’ rather than approximately 3,000 homes.</li> <li>• Similarly, developers suggested that the policy should be clearer on how many homes are proposed to be delivered overall - with evidence for this – clearly stating how many homes would be delivered within the plan period and how many are anticipated beyond the plan period. It was requested that further information and elaboration be provided in relation to the safeguarding of land for future plans, as mentioned in the draft plan.</li> <li>• A number of developers also highlighted concerns about the indicative area for housing development shown in the draft plan and suggested that this should be revised or removed.</li> <li>• One housebuilder suggested that development should be phased from the west, where less land coordination would be required, meaning development could come forward at a faster pace.</li> <li>• Developers noted that Crews Hill has the ability to deliver a large number and wider range of new homes and can therefore act as a counterbalance to the denser forms of development associated with the intensification of LB Enfield’s urban land. It was noted that in recent years development in LB Enfield has weighed predominantly in favour of flatted and smaller homes.</li> <li>• However, developers highlighted that they thought there were areas of further work required in relation to the placemaking area which needed to be addressed in the next draft. They noted that the placemaking policy should be informed by iterative masterplan led process which should be supported by fully worked up IDP and site-specific viability evidence. This could help establish the scale of land required to be released to enable the new settlement to incorporate necessary</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>infrastructure (including social and community facilities) and achieve a critical mass with a housing mix and form of development appropriate to its setting and location.</p> <ul style="list-style-type: none"> <li>• Developers noted that how the 'core area' should be defined may require refinement and the precise extent of Green Belt boundaries changes needed to be established, with particular reference to how changes to Green Belt boundary might dovetail with maintaining and enhancing the remaining Green Belt in the future, including mitigation/enhancement measures (such as new woodland and tree planting to the west of Crews Hill to respect and respond to views across the valley from The Ridgeway).</li> <li>• Site promoters queried the need to retain existing equestrian uses on site and suggested that any potential replacement of equestrian and horticultural uses and garden centres could be clustered away from the station to an area which is more suitable for car access as customers will still require cars to transport plants and large goods (e.g., garden furniture and equipment). The site and Crews Hill would provide a feasible option to locate new residential or residential-led mixed use development in a shorter timeframe (approx. 6-10 years).</li> <li>• Subject to viability, developers indicated that Crews Hill could contribute much needed affordable and private family dwellings, which would accord with the priorities set out in Draft Policies SP H1 and SP H2 within the Draft ELP.</li> <li>• LBE Property Services support the allocation of the site at Crews Hill Golf Course as part of one of the new ten placemaking areas and consider the site can make a significant contribution towards achieving the Council's vision and strategic objectives. However, Crews Hill Golf Club highlighted that the golf course has a 30-year lease on their land, with no break clause, and therefore questioned the availability of the land within the plan period. They also suggested that Crews Hill Golf Course should be upgraded to a Metropolitan level SINC and preserved for its ecological value;</li> <li>• Northaw &amp; Cuffley Parish Council objected to the proposed inclusion of the allocation PL9 for 3,000 dwellings and associated infrastructure. They indicated that the approach set out in the plan is legally flawed for reasons (1) reasonable less environmental damaging options have not been tested; (2) the basis for the release of high value Green Belt land does not meet the legal test for exceptional circumstances according to CPRE study which considered the availability of non-Green Belt land and</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>the availability of at least the Brimsdown SIL site; and (3) the allocation is dependent on a transport strategy and assumptions about line capacity that are not tested. They consider that the allocation is not justified and therefore fails the soundness test mandated by the NPPF 2021 para 35.</p> <ul style="list-style-type: none"> <li>• Some local residents' groups asserted that SIL should be de-designated instead of Green Belt release, highlighting the placemaking area is not a sustainable location, and is likely to be car dependent. It was also suggested that the findings of the 'Space to Build' survey submitted by Enfield Road Watch previously had not been adequately considered. It was also suggested that development in this part of the Green Belt would diminish the separation between settlements.</li> <li>• Residents' groups also noted that the large number of garden centres in Crews Hill are a sub-regional attraction, and their loss will be a great loss to local economy and would lead to loss of local jobs;</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• The wider community objected to the loss of golf course, losing access to the countryside, loss of recreation and sport, and the site being in an outstanding area of SINC importance</li> <li>• The wider community consider that the land is Green Belt and meets all the Green Belt purposes and indicated that there are enough brownfield sites in Enfield to accommodate development needs, therefore there is no need to build on this site.</li> <li>• Objections received from MPs and local councillors to building on the green belt and other green spaces. They indicated that there would be impact on environment and there is a need to retain as much green and open space as possible.</li> <li>• MPs and the wider community recognise that the PTAL in Crews Hill is very low, so residents would use their cars to travel – which is contrary with other policy objectives of reducing congestion and air pollution, and encouraging healthy lifestyles.</li> <li>• A number of residents used a proforma response which emphasised the historic importance of Enfield Chase in the development of Enfield, highlighting the landscape value of the remaining undeveloped parts of the Chase. The proforma response also highlighted the value of Crews Hill businesses in terms of employment, and as a resource for residents of the borough and further afield.</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>It argued that horticultural activities should be encouraged and enhanced to support food and plant production.</p>
<p>SA28: Land at Chase Park</p>	<p>Objections were received from local residents, statutory consultees, neighbouring authorities and local interest groups, as well as some support from developers. The most common issues they highlighted are set out below:</p> <p><b>Specific bodies (statutory)</b></p> <ul style="list-style-type: none"> <li>• Historic England is unclear whether any analysis of the heritage assets and their settings have played a part in determining whether the site is appropriate for such large-scale development given the potential effects on their significance, or whether such analysis has been taken into account in determining the indicative capacity.</li> <li>• The Environment agency suggested that the site is a vital upland soakaway to prevent downstream flooding</li> <li>• TfL disputed that the area was well served by public transport, noting that a 30-minute walk to a tube station is not considered to provide good access. It was noted that when measured on WebCat PTAL most of the proposed development area is 1a to 1b.</li> <li>• NHS HUDU noted that housing development in Crews Hill and Chase Park will require investment in new infrastructure to support the growth. At Chase Park, this could include a health facility as envisaged in clause 10 of the policy based on evidence of need. The area is close to Chase Farm Hospital and the indicative site boundary includes land to the north of the hospital site. As such development in the area should be planned in a coordinated taking account future phases of development on the Chase Farm site.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Local groups noted that the release of Green Belt land in this location is concerning, particularly as the evidence suggested this could cause a high/very high level of harm.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li data-bbox="667 288 2029 592">• National interest group recognised that the area is rich in biodiversity, contributes to carbon capture, and helps negate some of the harmful effects of Climate Chaos, including, clean air to breathe and safe surface water management. Situated in the protected Green Belt it affords Enfield residents with immediate access to nature and the countryside, providing “openness” with unhindered historic rural views. Many respondents noted the value of Merryhills Way which is a much-valued Public Right of Way which crosses the site, noting that development here would decrease its value. It was also noted that it was considered there was already a deficit of green space per person in the ward. They also noted the potential impact on biodiversity and loss of habitats (the site was noted as being of ornithological importance).</li> <li data-bbox="667 624 2029 751">• National interest group also suggested that the land contributes to the setting of the adjacent Trent Park Registered Park and Garden and that the heritage significance of the site should play a role in informing the placemaking of the area, with some respondents noting that development here would cause irrevocable harm to the coherence of the historic Enfield Chase.</li> <li data-bbox="667 783 2029 951">• MPs and local interest groups raised concern that proposals were too focused on the proximity of the railway stations doing little to address the poor local transport connections which would result in the majority of journeys made by private vehicles. The lack of clarity regarding the major infrastructure improvements needed to deliver development of this scale causes concern that this deficiency is not being given sufficient weight, even at this early stage.</li> <li data-bbox="667 983 2029 1182">• Local interest groups were concerned that Chase Park is in an area of poor transport access (PTAL 1a and 1b), with poor road access and limited public services. They stated this meant the location could not be considered sustainable, and as the area is too hilly cycling would not be a realistic alternative to public transport. It was suggested residents living in any development here would have to travel to other town centres to access services and facilities, which would further exacerbate impacts on roads.</li> <li data-bbox="667 1214 2029 1278">• On the contrary, support was received from developers, landowners and site promoters indicating that the site performs weakly against the purposes of the Green Belt set out by the NPPF.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Site promoters indicated that a clear case for Exceptional Circumstances for release of the site can be established by virtue of the poor-quality Green Belt land and the significant range of benefits redevelopment can deliver</li> <li>• Developers indicated that the site is in a highly sustainable location – within walking distance of Oakwood Station on the Piccadilly Line and the bus stop outside the site is served by two bus routes with a frequency of 12 buses per hour. The site is within walking distance of a range of services and facilities, including Oakwood local centre and key infrastructure such as schools and open spaces.</li> <li>• Site promoter suggested that the land South of Enfield Road can be delivered within five years of permission being granted and can take advantage of existing infrastructure already in place and further enhance this by providing a new school, open space and green and blue infrastructure (including the rewilding of specific areas of the site which provide linkages to wider areas of open space).</li> <li>• Site promoters suggested a scheme here could deliver a range of different type of units to meet need within the borough, including a significant majority of family dwellings which is the biggest source of need in the borough (unlike flatted development to the East of the Borough) and older person care and accommodation.</li> <li>• Local groups were sceptical that the homes that would be delivered would be affordable, citing the nearby Trent Park development as an example.</li> <li>• Developer noted that the amount of developer contributions should not be prescribed, noting that the assumptions used in the whole plan viability assessment had been referenced within the placemaking study for Chase Park.</li> <li>• Local groups suggested there was inadequate infrastructure to support the proposed growth and pointed to Comer Homes – the most significant landowner of the area – already publicly promoting the site for 5,000 homes – i.e., in excess of the 3,000 homes stated in the draft Local Plan.</li> </ul> <p><b>Wider community</b></p>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• A number of residents used a proforma response which emphasised the historic importance of Enfield Chase in the development of Enfield, highlighting the landscape value of the remaining undeveloped parts of the Chase. The proforma response also highlighted the value of the Merryhills Footpath to recreation and health, and argued that the farmland should be put to productive use growing local food for local people.</li> <li>• The wider community considered that the site is in the Green Belt, meets all of the Green Belt purposes and therefore should not be considered for development.</li> <li>• Residents and local interest groups strongly dispute analysis which indicates this site does not meet Green Belt purposes. Furthermore, residents and local interest groups indicate that there are enough brownfield sites in Enfield to accommodate development needs.</li> <li>• The wider community considered that the proposed development would cause high or very high harm to open Green Belt countryside.</li> <li>• Residents and local interest groups were raised concerns that the development would cause irreversible harm to the coherence and integrity of Enfield Chase Heritage Area, severing the link between Trent Park and Old Park and adversely affecting the setting of both; it would end the visual separation between Oakwood and Enfield Town provided by the experience of passing through open countryside on the A110; it would spoil the openness of the popular Merryhills Way.</li> </ul>
SA29: Arnold House, 66 Ridgeway	<p><b>Specific bodies (statutory)</b></p> <ul style="list-style-type: none"> <li>• Historic England was unclear whether any analysis of the heritage assets and their settings have played a part in determining whether the site is appropriate for such large-scale development given the potential effects on their significance, or whether such analysis has been taken into account in determining the indicative capacity. As such it considers there is a risk that the approach set out in section 3 (Places) and the constituent site allocations undermines the strategic approach set out elsewhere in the Plan to the historic environment.</li> </ul> <p><b>General bodies / other organisations</b></p>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Nicholas Holdings wants further consideration given to the release of a larger area of land for housing to the west and north of the proposed Housing Allocation SA29 (SHLAA/HELAA site HIC8. They suggest the site could provide additional opportunity for delivering housing early on in the Plan period, and would play a more sustainable and more connected development at Chase Park through to Gordon Hill. The Key Diagram currently shows a clear unconnected divide between the development at Chase Park and the existing urban area to the northeast, and further consideration should be given as to how connections could be improved between the planned new neighbourhood and Gordon Hill.</li> <li>• Geras Estates Limited and Hebe Developments Limited request that site allocation be amended for 'care home/ extra care units.' Site 2: support the release of the site from the green belt. Site has the capacity for 62 units.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No comments received.</li> </ul>
SA30: Claverings, Centre Way, London N9 0AH	<p><b>Specific bodies (statutory)</b></p> <ul style="list-style-type: none"> <li>• No responses were received from specific bodies.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• LBE Strategic Property Services expressed support for the proposed site allocation. Clarity was sought on the quantum on non-residential floorspace proposed.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No responses were received.</li> </ul>
SA31: Cockfosters station car park (parcels a + b), Cockfosters Road	Comments have been received from statutory bodies, politicians, local organisations and the wider community related to this site allocation.

Chapter or policy reference	Summary of main issues
	<p>A number of points have been raised in objection to this site allocation relating to a number of policies relating to delivering well-designed, high quality and resilient environment (SP DE1), securing contributions to mitigate the impact of development (SP D1), strategic and local views (DM DE5), promoting sustainable transport (SP T1), making active travel attractive and the natural choice (DM T2) and tall building (DM DE6). There is support for the site allocation which will support sustainable transport methods for residents (SP T1).</p> <p><b>Specific Bodies (Statutory).</b></p> <ul style="list-style-type: none"> <li>• The EA notes for sites in close proximity to potable groundwater abstractions they would strongly advise that the abstraction licence holder is also consulted with respect to piled foundation proposals.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Cllr Alessandro Georgiou raised objections in relation to this site allocation: <ol style="list-style-type: none"> <li>1. Development would blight the landscape, going well beyond the height of the existing Black Horse Tower. (Policy H1)</li> <li>2. All education and health services are already stretched in Cockfosters with no possible chance of expansion of the primary schools, secondary school or local GP practice. (Policy D1)</li> <li>3. Cockfosters Station is a Grade II listed building with great architectural significance. (Policy DE10)</li> <li>4. The site sits within the Conservation Area which alone should stop a scheme from proceeding. (Policy DE10)</li> <li>5. The Council has recognised that the views from certain sites within the Greenbelt are valued. All sites that would be negatively impacted if this proposal were to proceed. (Policy DE5)</li> <li>6. This would spell the end of much need parking for families, the disabled, the elderly, commuters and local shoppers. The existing 370 spaces are well used and much valued by the Cockfosters community. (Policy T1 &amp; T2)</li> <li>7. By TfL's own admission over 690 cars are parked per day within the car park. Statistically even if 12 Blue Badge spaces were retained this would not be anywhere near enough to cover need at</li> </ol> </li> </ul>

Chapter or policy reference	Summary of main issues
	<p>Cockfosters station car park. This doesn't even begin to account for others that may not be Blue Badge holders, such as pregnant women, who will be clearly adversely impacted if they cannot find a necessary parking space. (Policy T1 &amp; T2)</p> <p>8. Where will all these new residents park their cars? Cockfosters residential roads can just about accommodate existing residents and those from outside the area. These proposals rather than reducing car usage will simply displace cars throughout the area inevitably leading to CPZs. (Policy T1 &amp; T2)</p> <p>9. The imposition of up to 15 storey tower blocks overlooking the final resting place for many (Cockfosters Cemetery) would clearly have an emotionally harming impact on their loved ones. (Policy DE6)</p> <ul style="list-style-type: none"> <li>• Connected Living London (CLL) strongly supports the inclusion of the Site adjacent to Cockfosters Station as an identified allocated housing site within Policy H1 (2). The Cockfosters Station site (Ref: SA31) is suitable and available now for housing delivery and can be delivered within the first 5 years of the plan period. The Site therefore meets the definition of 'Deliverable' housing sites as set out in Annex 2 of the NPPF (2021).</li> <li>• CLL consider that the inclusion of SA31 supports the strategic vision and requirement for sustainable growth and meets the tests of soundness.</li> <li>• CLL support the principle that the draft ELP focuses growth in placemaking areas, town centres and at transport nodes as identified by SP SS1 Part 3. Promoting development around transport nodes supports the principle of sustainable development and encourages residents to adopt a shift away from reliance upon cars by having easy access to other modes of transport whilst optimising previously developed land. This focus is therefore in conformity with the London Plan. However, it is considered that this could be further strengthened to ensure that the borough optimises land, especially previously developed or 'brownfield' land set out at NPPF paragraph 119. Paragraph 120 (d) also highlights the importance of promoting and supporting the development of underutilised land including car parks and railway infrastructure. This is further supported by Policy GG2 of the London Plan (Part A). Residential development should be provided in sustainable locations near to tube stations or involving the redevelopment of car parks (London Plan Policy H1).</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• CLL support the need for developments to accord with the local area’s vision, however it is recommended that an interim requirement is included within the Policy. This would ensure that development proposals in placemaking areas without an adopted ‘placemaking vision’, or larger developments in locations outside of placemaking areas, can be prepared and implemented without delay which includes SA31.</li> <li>• TfL Commercial Development welcome the inclusion of draft allocation SA31 Cockfosters Station Car Park (Parcels a and b) Cockfosters Road. The site is subject to live planning application ref.21/02517/FUL. TfL CD strongly support the inclusion of the Cockfosters Station Car Park, as a Draft Allocation in the Draft Enfield Local Plan. The Site provides a key opportunity for the borough to deliver much needed housing on a brownfield site at a sustainable location with high transport accessibility.</li> <li>• TfL CD recommend that the plan recognises the capacity of the site to accommodate at least 351 residential units, as demonstrated by the planning application. No evidence has been provided to justify that 316 units, as suggested by the draft allocation.</li> <li>• Chase New Homes Ltd objects to the inclusion to SA31. The New Plan represents a complete policy U-turn from adopted policy which has not been justified at all through the evidence base. It is noted in particular that the area around Cockfosters Station, having previously been identified as an inappropriate location for tall buildings, is now classified as appropriate and is allocated for very high-density housing within the New Plan. The TfL application is on a site which is part of designated ‘Local Open Space’, within the setting of: <ul style="list-style-type: none"> <li>1. a Grade 2 listed building (the station),</li> <li>2. Trent Park Grade II Registered Park and Garden, and</li> <li>3. immediately abutting the Metropolitan Green Belt and</li> <li>4. on a prominent ridge.</li> </ul> </li> <li>• Chase New Homes considers it is a completely inappropriate site for such a severely dense scheme, as already stated within the Council’s existing evidence base in the Report on the Location of Tall</li> </ul>

Chapter or policy reference	Summary of main issues
	<p data-bbox="712 284 2033 352">Buildings and Important Local Views 2012, and the Council’s existing adopted policies. The New Plan appears to be a poor attempt to shoe-horn in policy support for an extremely poor site.</p> <ul data-bbox="667 384 2033 1007" style="list-style-type: none"> <li data-bbox="667 384 2033 480">• Chase New Homes consider the approach to be inconsistent to protecting heritage assets and townscape &amp; the proposed allocations can only achieve the numbers quoted with very high-density schemes – tower blocks/tall buildings</li> <li data-bbox="667 512 2033 647">• Cockfosters Residents Association raised objections to the site in relations to its sensitive location being it is adjacent to the Green Belt. It is within a Conservation Area and it is adjacent to a Grade II nationally listed building (Cockfosters Station), a locally listed building (Trent Boys School House) and a nationally Grade II Listed Park &amp; Garden (Trent Park).</li> <li data-bbox="667 679 2033 911">• CRA provided comments that relate to modifications to text relating to SA31 and Policy H1. The PTAL of 6a is incorrect. The correct figure is mainly 3 with part being 4. Heritage Considerations should read: ‘Within the Trent Park Conservation Area; within the immediate setting of Cockfosters Station (Grade II Listed Building) and Trent Park Registered Park and Garden. Within the wider setting of numerous other heritage assets. Green – heritage constraints; potential to develop; usual methodology for assigning indicative density may not apply; heritage impact assessment required; mitigation required.’</li> <li data-bbox="667 943 2033 1007">• Enfield Town Residents Association object to SA31 on the same basis as representations made on Arnos Grove site allocation.</li> </ul> <p data-bbox="618 1038 869 1070"><b>Wider community</b></p> <ul data-bbox="667 1102 2033 1334" style="list-style-type: none"> <li data-bbox="667 1102 2033 1198">• The wider community object to the inclusion of SA31 in the plan. They consider the removal of the car park would negatively impact the mobility and engagement with local businesses and would therefore be bad for the economy.</li> <li data-bbox="667 1230 2033 1334">• The wider community objected the principle of height proposed for tall buildings in Cockfosters (15 storeys). They raised an objection in relation to impact on the Grade 2 listed tube station. (Policies DE6: Tall buildings and DE4: Putting heritage at the centre of place making)</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• The wider community object to the inclusion of the Cockfosters station car park as an appropriate location for tall buildings in Figure 7.4 because this would conflict with draft SP 6.4.2 (Relating to policy DE6: Tall buildings)</li> <li>• The wider community consider that the proposals for Cockfosters/Arnos Grove are ill-thought both in terms of quality of design and density of development, and lack of creative thinking around creating a joined-up transport network in the area. (Relating to policy DE1: Delivering a well-designed, high quality and resilient environment).</li> <li>• The wider community raised concerns relating to the loss of parking at train and tube stations as proposed in SA24 (Arnos Grove) and SA31 (Cockfosters). They believe that parking at stations is essential to encourage people who do not live near public transport to use trains and the tube. A lack of parking will force people to drive to their destinations.</li> </ul>
SA32: Sainsburys, Green Lanes	<p>Objections were received from local residents and local politicians, as well as some support from the wider community. The most common issues are set out below.</p> <p><b>Specific bodies (statutory)</b></p> <ul style="list-style-type: none"> <li>• The Environment Agency highlighted relevant guidance in relation to groundwater protection that would need to be considered in assessing development proposals.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Organisations raised concerns in relation to the loss of the supermarket and the cumulative impact of the proposed allocation of a large number of supermarkets in the borough and concern residents would have nowhere else to shop</li> <li>• Organisations raised concerns surrounding the loss of open space with respondents pointing out that the Secretary of State allowed planning permission in 1986 for Sainsburys to be built on the condition that the green space was retained for community use, whilst others noted there was a covenant on the land to retain 40% of the site as public green space.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Organisations felt that there was not enough certainty over whether the shopping facility would be re-provided on site, and if it was to be, whether an adequate level of car parking would also be provided.</li> <li>• Organisations considered that the inclusion of SA32 in the plan would have an impact on biodiversity.</li> <li>• Organisations were concerned that the potential closure of the store would lead to the loss of jobs and have an impact on the local economy</li> <li>• Organisations raised the potential impact on equalities particularly in relation to elderly and disabled residents – with respondents noting this would force them to have to travel further for accessible shopping facilities with adequate car parking.</li> <li>• Organisations highlighted that the likely additional pressure on local infrastructure such as GPs practices, schools, public transport, open space etc. was also noted as a concern.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• In general residents’ concerns were similar to those of general bodies/organisations which included residents’ associations, local interest groups and local politicians.</li> <li>• Some respondents supported the inclusion of the proposals set out in SA32, if the supermarket remained in situ.</li> <li>• Several residents recognised the need for new homes in areas with good links to public transport, roads and amenities and supported the allocation – particularly because the site is a brownfield site, so there is no need to go into the Green Belt.</li> <li>• However, there was a suggestion that the site was not big enough to accommodate 299 homes and 13,325 sqm of floorspace and provision of public green space and be in keeping with the character of the local area.</li> <li>• Residents suggested that the park surrounding the store should be retained and designated as an asset of community value</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Residents noted that the potential loss of the open space, impact on biodiversity and loss of trees, including those with TPOs was raised as a concern.</li> <li>• Residents also raised concern about the impact of development on the existing road network as well as associated air quality impacts, particularly on nearby schools.</li> <li>• Residents also commented on the lack of community facilities available in the immediate environs of the site.</li> <li>• Several residents argued that larger affordable housing units are needed, which the site would not be capable of delivering.</li> <li>• Several respondents commented on design and townscape matters, arguing that the site is inappropriate for development because of the proximity of historic properties, and a negative impact on the skyline as well as daylight/sunlight impacts on neighbouring properties.</li> <li>• Respondents raised queries relating to the future of Winchmore Hill library adjacent to the site.</li> </ul>
SA33: Blackhorse Tower, Holbrook House and Churchwood House, and 116 Cockfosters Road	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comments noted related to this site allocation.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Cockfosters Local Area Residents Association, notes that Appendix 1 which classifies Holbrook House/ Blackhorse Tower, the building next door, as 'Inappropriate location; inappropriate building'. No explanation or justification is given for this total reversal the council's view of appropriateness.</li> <li>• Chase New Homes Ltd, indicates that the Plan is not based upon a proper planning assessment of the character of the Borough and the evidence base, the report then confirms that tall buildings are inappropriate due to the local setting, and only buildings in Cockfosters smaller than the existing Blackhorse Tower (our client's building) may be considered appropriate.</li> </ul>

Chapter or policy reference	Summary of main issues
	<p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>Residents expressed their concerns around the plans to redevelop the area around Cockfosters station and they consider the area as inappropriate for tall buildings.</li> </ul>
SA34: 241 Green Street	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Historic England raised an objection and considers that a number of site allocation policies will conflict with overarching aims to conserve and enhance the historic environment. Without adequate consideration and identification of potential heritage issues at the plan-making stage, there is also the possibility that such site allocation policies will not provide for conservation and enhancement of the historic environment (NPPF para 20), not be based on up to date and relevant evidence (para 31) and may contain unacceptable ambiguity (para 16b).</li> <li>Historic England strongly suggest undertaking a significance-based approach to site allocations, as set out in our guidance on this subject: The Historic Environment and Site Allocations in Local Plans (<a href="http://historicengland.org.uk">historicengland.org.uk</a>). This comment applies to all site allocations bar SA30, 34, 35 and 40 although please see our comments on the Places section of the Plan and further comments on certain site allocations below.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Stonegate Homes Enfield Limited suggest that a request that the allocation is revised to reflect the recent consent (20/01526/FUL) - capacity for 148 homes.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No comment.</li> </ul>
SA35: Land at former Wessex Hall Building	Comments have been received from a statutory body and a national organisation relating to this site allocation.

Chapter or policy reference	Summary of main issues
	<p>Concerns have been raised over the inclusion of this site allocation which is deemed to conflict with overarching aims to conserve and enhance the historic environment and conflict with the NPPF.</p> <p>Objections received on the inclusion of proposed site allocation as it involves the release of Green Belt for development.</p> <p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Historic England considered a number of site allocation policies will conflict with overarching aims to conserve and enhance the historic environment. Without adequate consideration and identification of potential heritage issues at the plan-making stage, there is also the possibility that such site allocation policies will not provide for conservation and enhancement of the historic environment (NPPF para 20), not be based on up to date and relevant evidence (para 31) and may contain unacceptable ambiguity (para 16b).</li> <li>• Historic England strongly suggest undertaking a significance-based approach to site allocations, as set out in our guidance on this subject: The Historic Environment and Site Allocations in Local Plans (<a href="http://historicengland.org.uk">historicengland.org.uk</a>). This comment applies to all site allocations bar SA30, 34, 35 and 40 although please see our comments on the Places section of the Plan and further comments on certain site allocations below.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• CPRE London object to the inclusion of SA35 because the site is within the Green Belt so the allocation for housing is inappropriate. They consider there is enough brownfield land available to meet development needs in Enfield. They recognise that the site forms part of a green-chain and development on this site would narrow this stretch of the chain. Given it is not needed for development, CPRE London consider the site could be enhanced to provide nature value.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No comments noted related to this site allocation.</li> </ul>

Chapter or policy reference	Summary of main issues
SA36: 188-200 Bowes Road	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>No comment.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Notting Hill Genesis notes that the site at 173-189 Green Lanes is located within a large local centre and sits adjacent to land being identified as transformative level in Figure 7.1. It is therefore suggested that allowing the site to be increased to a transformative level of change would be in compliance with the characteristics of well-designed places as set out in the draft policy. The site at 1-7 Bowes Road and 141-161 Green Lanes is also located within a large local centre and provides the opportunity to optimise site capacity given its location beside the A406 North Circular Road. It is therefore considered appropriate that the level of change for this site should be increased to transformative. The site at Ritz Parade, 140-186 Bowes Road sits within a large local centre and the site which lies adjacent currently has planning permission (Site Allocation SA36). It would therefore seem logical and appropriate for both SA36 and the site allocation for Ritz Parade (Site Allocation SA38) to form a transformative level of change area within the Local Plan.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No specific comment.</li> </ul>
SA27: Main Avenue site	<p>Comments have been received from local organisations and the wider community, with similar concerns relating to the scale of development that would be acceptable on this site allocation in relation to the existing character of the area.</p> <p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>No statutory representations received relating to this site allocation.</li> </ul> <p><b>General bodies / other organisations</b></p>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Bush Hill Residents Association object to the inclusion of the site. They consider that the Local Plan does not give any specifics about the type of housing that could be provided, but as a Residents' Association we fear that densification will be used. They object to any additional height being added to the site as this would be out-of-character for the otherwise mostly late Victorian area.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• The wider community consider that Local Plan does not give any specifics about the type of housing that could be provided.</li> <li>• Respondent objects to any additional height being added to the site as this would be out-of-character for the otherwise mostly late Victorian area.</li> </ul>
SA38: Land at Ritz Parade	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comments were received on this policy from specific consultees.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Notting Hill Genesis argue that the site should be earmarked for 'transformational' change. Recommend that the site can accommodate a minimum of 105 units, rather than the 79 included in the draft site allocation.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• One representation suggests an S106 contribution is secured to fund the installation of floodlights for Broomfield School's Astro pitch to allow hockey to be played.</li> </ul>
SA39: Travis Perkins Palmers Green, Bridge Drive, Broomfield Lane	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The Environment Agency indicated the site is within a 250m radius of a potable groundwater abstraction. They strongly advise that the abstraction licence holder is consulted with respect to piled foundation proposals. They advised that the use of piled foundations would require a robust</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>supporting Foundation Works Risk Assessment demonstrating that they are appropriate at the particular location and would not result in a deterioration of groundwater quality. Without such a risk assessment they would object to the use of piled foundations at these sites.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>W M Morrison Supermarkets Ltd.'s submission referenced this site, but they did not comment any material aspect of the site allocation.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No comments were received.</li> </ul>
SA40: Land at Brimsdown Sports Ground	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The EA has identified the site as partly or fully overlying historic landfills: Development on historic landfills may require an Environmental Permit. They consider developers for these sites would need to make enquires regarding potential requirements under the Environmental Permitting Regulations 2016.</li> <li>Historic England suggests undertaking a significance-based approach to site allocations, as set out in our guidance on this subject: The Historic Environment and Site Allocations in Local Plans (<a href="http://historicengland.org.uk">historicengland.org.uk</a>)</li> <li>Sport England objects to the site allocation as it suggests that there could potentially be the loss of playing field land and associated facilities. The PPS clearly states that this site should be protected as playing field in the Local Plan.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>CPRE London does not support the site for housing and it should be removed from the Site Allocations. In particular because (1) it is Metropolitan Open Land and no justification is given for removing the designation (2) enabling development is not an appropriate justification for developing</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>on MOL and, in any event, CIL funds will be available from other nearby developments to restore the grounds. Given new homes planned in the immediate neighbourhood, as well as the potential for 7,500 homes to be built nearby in Brimsdown, at an absolute minimum this site should be safeguarded to ensure green space needs can be met now and in future. It should be brought back into use using funding from nearby major developments. Any consideration of use of this site should refer to MOL status, green space standards (i.e. referencing the amount of green space available per head of population) including needs as set out in the Playing Pitch Strategy.</p> <ul style="list-style-type: none"> <li>• United Living New Homes notes that the site is designated as a Local Open Space in the existing and emerging Local Plans, it is fenced off from public access and is in a dangerous, derelict and unsightly condition. The land contains multiple fly tipping sites, areas of severely overgrown vegetation, dangerous structures and – having previously been used for industrial landfill – is heavily contaminated. The site poses a serious risk to public safety and is a liability to the Council as freeholder.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• The wider community recognise that the site is widely used by both the private football club and local sports teams and question what is proposed to accommodate them.</li> </ul>
SA41: Albany Leisure Centre and car park and 55 Albany Road	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• None received</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• LBE property services support the inclusion of the draft Site Allocation SA41 which allocates the site for approximately 30 extra care homes and community floorspace at ground floor level with retention/renewal of the existing leisure centre. It also seeks conformation whether the surface level car park to the northern end of the site is included within the allocation. A holistic approach for the site is required so it would be useful to review the site to ensure future development is being optimised.</li> </ul>

Chapter or policy reference	Summary of main issues
	<p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>Residents object to the inclusion of SA41 and consider that the site has as a great leisure facility and has fantastic provision, for learning to swim and club facilities with good provision drawing people from across the borough and beyond. They consider that new building should not be at the expense of pre-existing leisure centre and should remain to encourage residents to stay healthy.</li> </ul>
SA42: Fords Grove car park	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Environment Agency notes the following information in regard to groundwater protection relates to the following sites. They recommend planning conditions for any piled foundation proposals at these sites. The use of piled foundations would require a robust supporting Foundation Works Risk Assessment demonstrating that they are appropriate at the particular location and would not result in a deterioration of groundwater quality. Without such a risk assessment they would object to the use of piled foundations at these sites.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Winchmore Hill Residents Association is supportive with the policy of development of smaller brown field sites within the borough, they note a concerned about the inclusion of the three sites in Winchmore Hill as potential areas for development: <ul style="list-style-type: none"> <li>SA32 Sainsburys Green Lanes (on which there is a covenant to retain 40% of the site as public green space).</li> <li>SA42 Fords Grove car park. Traders have already lost a significant amount of on street parking, through the construction of the A105 cycle lanes. The New River development will generate an additional parking requirement, as will the former Travis Perkins site to be redeveloped shortly. Any development will result in over-population, no supporting infrastructure and even more congested roads.</li> </ul> </li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>- Firs Farm Recreation Ground (p380) has been designated as a site for a crematorium, with no recognition in the Local Plan of its ecological and community significance; especially as there are plans to build a community hub on this location.</li> <li>• Southgate District Civic Voice noted that the draft plan includes a proposal to build 24 houses on the car park. SDCV considers that a desirable use of this space would be as an open space and children's play area, which the area lacks. Suggesting if residential development were to be planned for this site it would need to be part of an overall approach to planning of the local environment. One need is as we have said for open space and a play area. Another major need for the area is a traffic management scheme to address the following problems: <ul style="list-style-type: none"> <li>- on street parking on both sides of Fords Grove by workers and commuters avoiding paying to park in the Fords Grove car park and taking possible spaces for Fords Grove residents' vehicles</li> <li>- the resulting traffic congestion, particularly during the morning and evening journeys to and from work and school</li> <li>- the pollution that the traffic produces, not just from exhaust fumes, but also dust and particles from tyres and brake linings which deposit films of dust inside the houses in Fords Grove.</li> </ul> </li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Residents raised concerns indicating that Fords Grove and Farm Road are narrow streets and subject to quite a lot of traffic, this will greatly increase Congestion on the local roads and put severe pressure on parking. There are currently issues with street parking to visit the Winchmore Hill high street has been removed due to the new and successful cycle lane, and the Fords Grove car park is the only public parking available to the High Street. Furthermore, housing/flats will overpopulate the area, given the recent and future developments along Green Lanes - Travis Perkins, Capitol House etc. Additionally, there is a lack of supporting infrastructure- doctors, dentists, schools etc.</li> </ul>
SA43: Lodge Drive car park (incl. depot), Palmers Green	<b>Specific Bodies (Statutory)</b>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• The Environment Agency notes the following information in regard to groundwater protection relates to the following sites. They recommend planning conditions for any piled foundation proposals at these sites. The use of piled foundations would require a robust supporting Foundation Works Risk Assessment demonstrating that they are appropriate at the particular location and would not result in a deterioration of groundwater quality. Without such a risk assessment they would object to the use of piled foundations at these sites.</li> <li>• LBE Strategic Property Services suggests that the Council ensures that the development potential of the site is optimised. The site is proposed to be reconfigured to retain a car park and allow the delivery of residential development. Development of the site for residential uses would help support the Council's Vision and Strategic Objectives (draft Local Plan Chapter 2) and contribute towards achieving the housing target (draft Policy H1). The site is previously developed land and in close proximity to a range of transport modes. Development would achieve sustainable patterns of development (in accordance with NPPF Para. 11). The site is deliverable (in accordance with the NPPF). It is available for development (in the plan period) and any relevant legal matters are currently being reviewed. Development is achievable and the location is suitable for development.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• No comments.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No comments.</li> </ul>
SA44: Land opposite Enfield Crematorium (known as The Dell), Great Cambridge Road	<p><b>Specific bodies (statutory)</b></p> <ul style="list-style-type: none"> <li>• The Environment Agency notes the site have been identified as partly or fully overlying historic landfills: Development on historic landfills may require an Environmental Permit. Developers for these sites would need to make enquires regarding potential requirements under the Environmental Permitting Regulations 2016.</li> </ul>

Chapter or policy reference	Summary of main issues
	<p data-bbox="618 288 1133 316"><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li data-bbox="667 352 2033 515">• Landowners note given proximity to Enfield Crematorium and given this piece of land is not delivering any public amenity, it would be better to allocate this site for burial. It is odd this hasn't been assessed as a suitable location for burial. This is allocated for Mixed Use but it is Green Belt and this would be inappropriate development on Green Belt given there are enough brownfield sites in Enfield to accommodate development needs.</li> <li data-bbox="667 552 2033 679">• Landowners strongly support the proposed allocation of the site for mixed use development and promotes its release from the Green Belt and local open space designation. The delivery of the site will support the objectives of draft policy SP SS1. The objectives of draft Policy SP SS1 are supported and the proposed allocation of the site is considered to help support these.</li> <li data-bbox="667 716 2033 1366">• Landowners note the site is considered to be make an important contribution to the mix of proposed allocated sites in the borough as it provides land that: <ul style="list-style-type: none"> <li data-bbox="763 807 1995 970">– supports the delivery of housing in the borough with a mix of housing types, including townhouses and flat, to provide choice and to meet demand in line with the Local Plan and London Plan. The site is likely to be better suited to the delivery of townhouses, with affordable homes to support families, then smaller and more constrained urban sites where flatted development is more likely to come forward.</li> <li data-bbox="763 1007 2033 1201">– provides the opportunity to deliver accessible and public open space to serve the new homes and local communities, utilising the large site area s to provide ample open spaces to suit all age groups, with features to encourage active lifestyles and community growing initiatives. The site also offers the opportunity to deliver allotments within part of the site, which lies within an area of deficiency in allotment provision (as identified in the adopted North East Area Action Plan).</li> <li data-bbox="763 1238 2033 1366">– Urban sites are less likely to be able to offer these features on such a large scale, or if they are, it will likely be more constrained. The masterplan will enable part of the site to be delivered as open local space, this land will be able to de designated for this use, to ensure its long-term protection for this purpose.</li> </ul> </li> </ul>

Chapter or policy reference	Summary of main issues
	<p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>Resident Groups objected to the inclusion of this site and have noted the prospect of losing this valuable green belt asset for development. Residents enjoy the character of the conservation area and cannot believe the Council is seeking to remove the green belt designation to allow the site to be developed into housing.</li> </ul>
<p>SA45: Land between Camlet Way and Crescent West, Hadley Wood</p>	<p>Objections were received from residents as well as support from developers.</p> <p><b>Specific bodies (statutory)</b></p> <ul style="list-style-type: none"> <li>Hertsmere District Council was supportive of the approach to locate some new housing at Hadley Wood given its proximity to the mainline railway station, but they consider that care should be taken in the layout and design of development on the site to ensure it does not compromise the purposes of the green belt between Hadley Wood and the M25/Potters Bar, and between Hadley Wood and the hamlet of Bentley Heath within Hertsmere. Note - site directly adjoins Hertsmere borough.</li> <li>Historic England indicates that the site has potential for archaeology relating to the Battle of Barnet. The three fields that make up this area are the last piece of Enfield Chase still owned by the Duchy of Lancaster (since 1419). The site is potentially important as unlike adjacent land it has not been contaminated with green waste and would definitely need pre-determination archaeological fieldwork.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>The Duchy of Lancaster, support the inclusion of the site as a draft allocation in principle and they consider that the site is available now, can accommodate and mitigate identified constraints/ considerations and is capable of being delivered within the next five years.</li> <li>The Duchy of Lancaster's design team have undertaken technical assessments and has demonstrated that impacts relating to views of the open countryside could be addressed through a strong landscape strategy; impacts to the significance of the adjacent conservation areas would be limited and could be mitigated by the provision of appropriate landscape buffers and detailed design of development</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>proposals. The design team's technical work indicates that whole allocation is considered suitable for housing development.</p> <ul style="list-style-type: none"> <li data-bbox="618 384 2033 616">• The Duchy of Lancaster indicate that consideration would be given to the area of SINC land and presence of Flood Zone 3 surrounding the brook to the north of the site, extending beyond the northern boundary of the site. It is likely that development will need to be located away from this specific location, leaving an area of open space within the site to adjoin the land to the northeast of the allocation, which is designated as Local Open Space. This would present opportunities to retain openness to the area of land to the northeast, resulting in minimal impact to its distinction. It is therefore considered that the impact of the piece of adjacent Green Belt land to the northeast would be minimal</li> <li data-bbox="618 651 2033 847">• The Duchy of Lancaster indicates that the site is located adjacent to the urban area of Hadley Wood, near Hadley Wood Station. There is a Primary School 300m to the east of the site, with a nursery and a number of other services within the immediate vicinity of Hadley Wood. Bus and train connections to High Barnet allow for access to a range of supermarkets, convenience stores, shops and services. The site's close proximity to a station, and easy access to a range of shops and services, mean it is well located to accommodate housing development and represents a sustainable location.</li> <li data-bbox="618 882 2033 1315">• The Duchy of Lancaster indicates the site is currently pasture/grazing land and there is an area to the north of the site, which is identified as a SINC, Broadgate Pastures. The site promoter's Ecological Assessment confirms this SINC land hasn't been appropriately managed and therefore the value of this grassland will likely continue to decline. They indicate that this presents an opportunity for any future development on the site to enhance this area of SINC, which help to retain the open character of the site. The initial site survey found no evidence of protected species or badgers and no bat roosts were recorded. The presence of trees containing features with potential to support roosting bats was recorded. In themselves, these trees would not preclude development coming forward on the site. There is the potential for birds, dormice and reptiles within the site and its hedgerows. These also would not preclude development from coming forwards on the site if appropriately managed and mitigated. Based on the Ecological Assessment, there is no evidence to suggest any ecological constraints that would preclude development from coming forwards on this site. In fact, the development of the site could bring opportunities to further enhance the current ecological value of the site, in particular the area of SINC</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>land to the north. This evidence supports the continued allocation of the site for residential development within the emerging Local Plan.</p> <ul style="list-style-type: none"> <li>• The Duchy of Lancaster indicates that the Heritage Report concludes that development within the Site has the potential to impact upon the significance of the Hadley Wood Conservation Area and the Monken Hadley Conservation Area through the introduction of built form within their settings where there was previously none. It states that any such impacts to the significance of these heritage assets would be limited and could be mitigated by the provision of appropriate landscape buffers and the detailed design of the proposed development. Therefore, an appropriately and sensitively designed development could be brought forward on the site, suitably mitigating any potential impacts to heritage assets. The heritage considerations associated with the site are therefore not limiting and should not affect its continued allocation within the emerging Local Plan.</li> <li>• The Duchy of Lancaster indicate that the technical assessments undertaken concluded that the site is suitable for Green Belt release with minimal harm, which can be appropriately mitigated.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• The wider community consider that the proposed site allocation runs contrary to the national advice on the importance of protecting the Green Belt, biodiversity and aims of climate mitigation.</li> <li>• The wider community consider that the Council has not identified the exceptional circumstances as to why this site should be released for housing.</li> <li>• The wider community indicate that there is potential harm to the local character and no account has been taken of the fact that the site forms part of the Hornbeam Hills Area of Special Character. It also ignores the fact that the area has significant historic value as it was where the Battle of Barnet took place in the 15th Century. This historical aspect is celebrated, preserved and conserved for educational purposes and pertinent to locals and visitors.</li> <li>• The wider community consider that the site should not be classed as 'Available' and should not be included as an allocated site. The existing agricultural tenant has a lease on the land which runs way beyond 5 years and is therefore not available for development. The Council should not be looking to</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>allocate this green belt site for a development in 10-year time, as there will be other brownfield opportunities to replace these 160 homes within that timeframe.</p> <ul style="list-style-type: none"> <li>• The wider community consider that the current properties in Hadley Wood are of a high standard and the influx of 'affordable' living would lower the value of all the properties in the area</li> <li>• Residents were concerned that the site is adjacent to a Conservation Area and Grade II Listed Building. Adding to the concerns were around issues relating to public transport – PTAL is the lowest in Greater London (PTAL 0, 1a and 1b) and there are no local services and infrastructure.</li> <li>• Residents highlight that the area is in an Area of Special Character and there is no evidence from the council as to why it is no longer appropriate</li> <li>• Residents were concerned that there had been a lack of consultation on this site.</li> <li>• Residents indicated that there is merit in developing this site, but only if development brought along a long list of improvements such as mix of housing, better local links, better water management, local services and at least 10% of biodiversity net gain.</li> <li>• Several residents suggested that money was exchanged between the council and the Duchy of Lancaster.</li> <li>• Several residents highlighted the value of the site as rough pasture, listing the species of wildlife which can be found there.</li> <li>• Residents argued that the location of the site would lead to car-dependent development, as necessary amenities are some distance away and public transport options are limited.</li> <li>• Residents emphasised that 160 homes fail to make the most of the site, and the small scale of development would not warrant the infrastructure investment needed to properly support residential development.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>DTZ Investors observed that it is unusual for the site to be allocated for industrial use when it lies within SIL. They argued that the floorspace capacity proposed is too prescriptive as it would be premature to set a minimum figure that would need to be achieved as part of any future redevelopment, and that PTAL has been incorrectly stated.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>The wider community raised concern over the issues of congestion and the need for improved bus routes.</li> </ul>
SA50: 6 Morson Road	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Environment Agency noted that the site has a proposed industrial use. Highlighted that the site is within a 250m radius of a potable groundwater abstraction, and strongly advise that the abstraction licence holder is also consulted with respect to piled foundation proposals. Also indicated the site as partly or fully overlying historic landfills; indicated that development on historic landfills may require an Environmental Permit. Advise that developers would need to make enquires regarding potential requirements under the Environmental Permitting Regulations 2016.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Tarmac Trading Ltd indicated support and reaffirmed the site's availability and deliverability. They requested that the site allocation is amended to provide greater flexibility with regards to floorspace.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No comments were received.</li> </ul>
SA51: Montagu Industrial Estate	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Environment Agency noted that the site has a proposed industrial use and lies within SPZ1. Highlighted that the site is within a 250m radius of a potable groundwater abstraction, and strongly advise that the abstraction licence holder is also consulted with respect to piled foundation proposals.</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>Also indicated the site as partly or fully overlying historic landfills; indicated that development on historic landfills may require an Environmental Permit. Advise that developers would need to make enquires regarding potential requirements under the Environmental Permitting Regulations 2016.</p> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>Henry Boot advised that the red line boundary should cover the entirety of the site and requested further clarity on how the site capacity has been calculated, amongst detailed suggestions for revisions.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>No comments were received.</li> </ul>
SA52: Land west of Ramme Marsh	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>The Lee Valley Regional Park Authority indicated their support in principle. They indicated willingness to work with the council on the master planning of this area of the Park to ensure the appropriate and sensitive redevelopment of the land. Further information requested on the Green Belt status of the site. They observed that the site proforma is lacking in detail and should address the location in terms of the Regional Park and the comprehensive environmental, ecological, landscape and access improvements that would be required. State the inclusion of ecological enhancements within SA52 as part of its redevelopment would assist in strengthening the links between the Regional Park and Enfield Chase as part of the arc of open spaces identified in PL8. They consider it would be helpful to understand the policy requirements for PL8 in terms of this site.</li> <li>Broxbourne District Council noted that the site includes the Small River Lee and flagged that they are currently preparing an Area Action Plan for Waltham Cross, and the Small River Lea has been identified as having potential as an active travel corridor between the two boroughs under the M25. They suggest that LBE should consider how this could be accommodated as a part of evolving masterplans for site SA52, flag there may be implications for any proposed new M25 junction and welcome a discussion regarding this.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• Hertfordshire County Council required assurance from Enfield through the planning process that this site does not severely impact on the strategic transport network across the border in Hertfordshire – namely the A10, M25 and rail lines. This is particularly pertinent as this site is intended to be primarily industrial, and therefore is likely to create significant numbers of HGV movements which cannot easily be mitigated for.</li> <li>• The Environment Agency noted that the site has a proposed industrial use and lies within SPZ1. Highlighted that the site is within a 250m radius of a potable groundwater abstraction, and strongly advise that the abstraction licence holder is also consulted with respect to piled foundation proposals. Also indicated the site as partly or fully overlying historic landfills; indicated that development on historic landfills may require an Environmental Permit. Advise that developers would need to make enquires regarding potential requirements under the Environmental Permitting Regulations 2016.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• CPRE London highlighted the site is strongly performing in its Green Belt function. They identified the importance of green spaces such as the site supporting London’s ability to adapt to extreme weather events and mitigate climate change.</li> <li>• LBE Conservative Group expressed opposition to the release of the site from Green Belt.</li> <li>• Cllr Stephanos Ioannou objected to the inclusion of the site as a proposed site allocation. The respondent considered that the proposal would remove part of Rammey Marsh, a wildlife area and public amenity, from the Green Belt.</li> <li>• Cllr Clare De Silva expressed concern about the inclusion of the site, its respective development and impacts on wildlife and wetlands areas – as these areas provide opportunity for leisure and create pockets of natural green space which we cannot afford to lose.</li> <li>• GLP strongly supported the inclusion of the proposed allocation on the ground of poor performance against Green Belt objectives, the ability to appropriately manage traffic flows, and economic benefits. Flexibility is sought to ensure all development priorities can be achieved.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• LBE Strategic Property Services supported the inclusion of the site. They suggest that the potential development capacity of the site could be fully optimised.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Representations received from the wider community expressed concern at the removal of the site from the Green Belt, characterising the site as a wildlife area and public amenity.</li> <li>• The wider community also objected on the inclusion of the site potentially removing the biodiversity value of the site, including a range of plant species such as the Bee Orchid. The proposed removal was characterised as inconsistent with the battle against climate change, and also the need to enhance biodiversity.</li> </ul>
SA53: Car park site, Wharf Road	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The Environment Agency noted that the site has a proposed industrial use and lies within SPZ1. Highlighted that the site is within a 250m radius of a potable groundwater abstraction, and strongly advise that the abstraction licence holder is also consulted with respect to piled foundation proposals. Also indicated the site as partly or fully overlying historic landfills; indicated that development on historic landfills may require an Environmental Permit. They advise that developers would need to make enquires regarding potential requirements under the Environmental Permitting Regulations 2016.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• SEGRO indicated that an exceptional circumstances case exists to warrant the removal of the site from the Green Belt. They requested that the site is designated LSIS and not washed over by Green Belt designation. They consider that the site has a lower floorspace capacity than that set out in the site allocation and could come forward sooner (0-5 years).</li> </ul> <p><b>Wider community</b></p>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>No comments were received.</li> </ul>
SA54: Land east of Junction 24 of the M25	<p>Objections were received from local residents, statutory consultees, neighbouring authorities and local interest groups, as well as some support from developers.</p> <p><b>Specific bodies (statutory)</b></p> <ul style="list-style-type: none"> <li>Hertfordshire County Council wants reassurance from Enfield through the planning process that this site does not severely impact on the strategic transport network across the border in Hertfordshire – namely the M25 and B556. This is particularly pertinent as this site is intended to be primarily industrial, and therefore is likely to create significant numbers of HGV movements which cannot easily be mitigated for.</li> <li>TfL is particularly concerned about the employment site proposed at land east of junction 24 of the M25 (SA54) which is likely to be dependent on car access due to the proximity to the motorway junction and relatively poor public transport connectivity with a PTAL of 1a-b. It highlights that Table 9.2 is incomplete as it fails to recognise the access and transport issues that would overwhelmingly favour option A to meet the Borough’s industrial and logistics needs in the urban area. TfL is likely to object on strategic transport grounds to option B which sets out to meet the Borough’s industrial and logistics needs in the urban area and selected Green Belt sites.</li> <li>TfL highlighted that without substantial investment in active travel and public transport connectivity, which is likely to be costly and may not be viable and is therefore concerned that this site is likely to be dependent on car access due to the proximity to the motorway junction and relatively poor public transport connectivity with a PTAL of 1a-b.</li> <li>Hertsmere District Council would not support a proposal that sees development to the south of the strong and permanent green belt boundary provided by the motorway, resulting in encroachment into the countryside and a narrowing of the gap between Hadley Wood and Potters Bar.</li> </ul> <p><b>General bodies / other organisations</b></p>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• LBE Property Services support the inclusion of the site as a draft site allocation and suggests that the site has the potential for further intensification that could accommodate 75,000 sq. m of employment floorspace.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• The wider community objected to the inclusion of the site as a draft site allocation. They consider that this site is Green Belt and entirely inappropriate for development of the type proposed. It meets all the Green Belt criteria and therefore should not be included for development.</li> <li>• The wider community objected to the inclusion of the site as a draft site allocation. They consider that industrial development here would ruin the green gateway to Enfield Chase, and traffic implications on the A1005 and A111 would be hard to mitigate.</li> <li>• The wider community recognise that the site is within the Enfield Chase Heritage Area of Special Character (Section 4). The Enfield Characterisation Study states: “The presence of such attractive and well-maintained landscapes close to the urban edge is a valuable asset for the borough. They provide a landscape setting for the borough and an attractive gateway area when entering and leaving the borough to the north.” (page 159).</li> <li>• Residents consider that the consultation provides no evidence to support the need for a logistics hub at Junction 24 of the M25. It is not clear if there is a real requirement for the service or if the proposed hub is designed to attract business away from the other hubs close by in Essex, in this case making the proposal unnecessary and in addition risky.</li> </ul>
SA55: Land to the north west of Innova Park	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• The Environment Agency noted that the site has a proposed industrial use and lies within SPZ1. Highlighted that the site is within a 250m radius of a potable groundwater abstraction, and strongly advise that the abstraction licence holder is also consulted with respect to piled foundation proposals. Also indicated the site as partly or fully overlying historic landfills; indicated that development on</li> </ul>

	<p>historic landfills may require an Environmental Permit. Advise that developers would need to make enquires regarding potential requirements under the Environmental Permitting Regulations 2016.</p> <ul style="list-style-type: none"> <li>• The Lee Valley Regional Park Authority observed that the development of the site offers an opportunity to look comprehensively at what can be achieved in this area and offered to work closely with the Council on the master planning of this area of the Park to ensure the appropriate and sensitive redevelopment of the land. They indicated that the site proforma is lacking in detail and should address the location in terms of the Regional Park and the comprehensive environmental, ecological, landscape and access improvements that would be required. Further information requested regarding the Green Belt status of the site. They consider that it would be helpful to understand the policy requirements for PL8 in terms of this site.</li> <li>• Hertfordshire County Council requested assurance that this site does not severely impact on the strategic transport network across the border in Hertfordshire – namely the A10, M25 and rail lines. They argued this is particularly pertinent as this site is intended to be primarily industrial, and therefore is likely to create significant numbers of HGV movements which cannot easily be mitigated for.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Thames Water as the landowner of the site expressed support for removal of the site from Green Belt and its allocation for employment purposes. They considered the floorspace figure of 16,445 sq. m reasonable and deliverable. They objected however to the wildlife corridor designation. Considered that exceptional circumstances exist for the release of this land from the Green Belt and that the council should set this out in evidence-based assessment produced for the next stage of the Local Plan.</li> <li>• CPRE London identified the importance of green spaces such as the site supporting London's ability to adapt to extreme weather events and mitigate climate change.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• No comments were received.</li> </ul>

Chapter or policy reference	Summary of main issues
SA56: Land at Picketts Lock	<p data-bbox="618 312 994 344"><b>Specific Bodies (Statutory)</b></p> <ul data-bbox="667 376 2027 799" style="list-style-type: none"> <li data-bbox="667 376 2027 539">• The LVRPA would wish to see a much more extensive area included given the leisure and sporting activities across the wider site. It is also confusing that explanatory text to the policy groups together the Hotspur training ground, Pickett’s Lock, Enfield Playing Fields and Firs Farm as suitable locations for the development of world-class sports villages – this is not a proposal that the Authority has identified for Pickett’s Lock.</li> <li data-bbox="667 571 2027 703">• The Environment Agency has identified this site as partly or fully overlying historic landfills: Development on historic landfills may require an Environmental Permit. Developers for these sites would need to make enquires regarding potential requirements under the Environmental Permitting Regulations 2016.</li> <li data-bbox="667 735 2027 799">• Sport England highlight that any new sports and leisure facilities should meet a strategically identified need.</li> </ul> <p data-bbox="618 831 1128 863"><b>General bodies / other organisations</b></p> <ul data-bbox="618 895 2027 1058" style="list-style-type: none"> <li data-bbox="618 895 2027 1058">• CPRE London consider that the site is Green Belt and should remain so to avoid erosion of the stretch of Green Belt in the area which is the Lea Valley Regional Park. They support the removal or reduction of surface car parking (in line with sustainable transport objectives) but do not support development which would be inappropriate: the land should remain open. The allocation should be explicit that any ‘new sports, recreation and leisure facilities’ would need to comply with Green Belt policy.</li> </ul> <p data-bbox="618 1090 864 1121"><b>Wider community</b></p> <ul data-bbox="618 1153 1951 1217" style="list-style-type: none"> <li data-bbox="618 1153 1951 1217">• Residents consider that the site would require significant travel to reach it and therefore not publicly accessible.</li> </ul>

Chapter or policy reference	Summary of main issues
<p>SA57: Whitewebbs Golf Course, Beggar's Hollow, Enfield</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Sport England is not clear if the golf course is surplus or would be replaced therefore since the allocation suggest its loss it appears this allocation is contrary to the NPPF, paragraph 99, and Sport England Policy.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• CPRE London is not clear why this site is included as a Site Allocation when the proposal is 'to provide nature recovery uses'. They consider that this is part of a public park and the Local Plan should be clear that it exists for public amenity and this should be referenced in the site allocation and remain a public park, for public amenity. However, they consider that the site could provide nature recovery uses – but this should sit alongside its public amenity purpose.</li> <li>• Tottenham Hotspurs Football Club highlights that the former Whitewebbs Golf Course should not be identified as a nature recovery area. They consider that SA57 should be included in the allocation SA62. The nature recovery area should include the woodland, beyond the SA57 allocation, i.e. to its west and should be incorporated into the SA62 Site Allocation and should also be extended to include land to the west.</li> <li>• A local Politician object to its inclusion as site allocation and considers it to conflict with draft Policy CL4</li> <li>• LBE Property Services support the inclusion of the site allocation</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Residents considered that the ancient woodland must be protected at all costs</li> <li>• The wider community suggested that the inclusion of the site should include multiple sports and not just a focus on one sport, so the creation of designated cycling, skateboarding, running and walking paths, a gym, a tennis and squash court, a multipurpose venue to allow and encourage participatory</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>and performance arts, a community cafe with links with local schools and community outreach groups, including charities within Enfield.</p>
<p>SA58: Alma Road open space</p>	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• Sport England objects to this site allocation as historic aerial photographs indicate that there were playing pitches on this site therefore it falls within the definition of a playing field. It does not appear, therefore, that the requirements of the NPPF, paragraph 99, would be met at this stage.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Enfield Road Watch object to the use of Metropolitan Open Land [MOL] for new crematoria, specifically SA58 Alma Road Open Space, SA59 Firs Farm Recreation Ground (part) and SA61 Church Street recreation ground. They consider that these sites are too important to the health and well-being of Enfield residents and are afforded the same level of protection as Green Belt.</li> <li>• CPRE London considers that this site should not be included for burial use because this is an area deficient in open space for public recreation. It is also an area which is likely to see population densification so it should be safeguarded to ensure adequate green space provision for the area, with reference to green space standards and the Playing Pitch Strategy. A better alternative would be site SA44 (Land opposite Enfield Crematorium) which currently provides no public amenity but is Green Belt and so should not be allocated for development as currently proposed.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• The wider community wants to see more detail about the new burial spaces with regard to accessibility, public access and urban greening.</li> </ul>
<p>SA59: Firs Farm recreation ground (part)</p>	<p>Objections were received from residents and local politicians. Adding to the objections, a petition was also received by the council to remove the site from the ELP (date) and considered at Overview and Scrutiny Meeting (Nov-21).</p>

Chapter or policy reference	Summary of main issues
	<p data-bbox="618 284 994 316"><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li data-bbox="667 347 1989 411">• Sport England object to the inclusion of this site as a draft allocation, as it seeks the loss of playing field which the PPS states requires protection.</li> <li data-bbox="667 443 1989 609">• The Environment Agency – highlights that the following information in regard to groundwater protection relates to the following sites. Sites within SPZ1 are particularly sensitive with respect to groundwater, and additional constraints will be placed on the above development proposals. With respect to the Environment Agency’s Approach to Groundwater Protection, the following chapters would apply to these sites: <ul style="list-style-type: none"> <li data-bbox="763 641 1352 673">○ D1-General principles-all storage facilities</li> <li data-bbox="763 705 1491 737">○ D2-Underground Storage (and associated pipework)</li> <li data-bbox="763 769 1160 801">○ D3-Subwater table storage</li> <li data-bbox="763 833 1397 865">○ G2- Sewage Effluent Discharges within SPZ1</li> <li data-bbox="763 896 1491 928">○ G4- Trade effluent and other discharges within SPZ1</li> <li data-bbox="763 960 1093 992">○ G8-Sewage pipework</li> <li data-bbox="763 1024 1281 1056">○ G13- Sustainable Drainage systems</li> <li data-bbox="763 1088 1294 1120">○ N7- Hydrogeological risk assessment</li> <li data-bbox="763 1152 1384 1184">○ N8-Physical disturbance of aquifers in SPZ1</li> </ul> </li> <li data-bbox="667 1216 2011 1359">• The EA would recommend planning conditions for any piled foundation proposals at these sites. The use of piled foundations would require a robust supporting Foundation Works Risk Assessment demonstrating that they are appropriate at the particular location and would not result in a deterioration of groundwater quality. Without such a risk assessment we would object to the use of piled foundations at these sites.</li> </ul>

Chapter or policy reference	Summary of main issues
	<p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• Local politicians, Bush Hill Park Residents Association and Southgate District Voice object to the inclusion of this site as an allocation. They consider that recreation is an important contribution to a healthy life-style and reduces the costs to the local health system. Additionally, these proposals appear contrary to Policy DM CL5 (page 280) which (point 2) states Development proposals that result in the loss of sports and recreational buildings and land will be resisted unless: <ul style="list-style-type: none"> <li>a) an assessment has been undertaken which has clearly shown the facilities to be surplus to requirements; or</li> <li>b) the loss resulting from the proposed development would be replaced by equivalent or better provision in a suitable location; or</li> <li>c) the development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss.</li> </ul> </li> <li>• CPRE London object to the inclusion of this site as an allocation for burial use because this is an area deficient in open space for public recreation. It is also an area which is likely to see population densification so it should be safeguarded to ensure adequate green space provision for the area, with reference to green space standards and the Playing Pitch Strategy. A better alternative would be site SA44 (Land opposite Enfield Crematorium) which currently provides no public amenity but is Green Belt and so should not be allocated for development as currently proposed.</li> <li>• Friends of Firs Farm object to the inclusion of this site as an allocation as the proposals will all reduce the effectiveness of the work done to date, and will therefore reduce the value of the significant investment of money, time, other resources and good will that the various partners working at Firs Farm have put into the project to date. By designating the area for burial/crematorium use, the longer-term future of the community hub proposal is seriously in doubt. As a result, the funding already secured from third parties is likely to be lost, and the time and resources expended in development the proposal to date will have been wasted. It seems likely that third party funders such as Thames 21 may have their confidence in Enfield Council as a trusted partner undermined.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li data-bbox="667 288 2024 456">• Friends of Firs Farm consider that the boundaries of the proposed location SA59 for burial/cremation use encroaches into the SINC to the northern and eastern ends of this site. The proposal will adversely affect the hedgerows and other biodiversity resources, and this may be to the extent that the justification for the SINC status is compromised. In any event, the proposal is not consistent with the stated policy aims of protecting and enhancing the SINC. [BG2]</li> <li data-bbox="667 488 2024 647">• Enfield Road Watch object to the use of Metropolitan Open Land [MOL] for new crematoria, specifically the inclusion of draft site allocations: SA58 Alma Road Open Space, SA59 Firs Farm Recreation Ground (part) and SA61 Church Street recreation ground. These sites are too important to the health and well-being of Enfield residents and are afforded the same level of protection as Green Belt.</li> <li data-bbox="667 679 2024 775">• Winchmore Hill Residents Association objected to the inclusion of this site as an allocation. They state there is no recognition in the Local Plan of its ecological and community significance; especially as there are plans to build a community hub on this location.</li> <li data-bbox="667 807 2024 1110">• Better Homes Enfield do not support the use Firs Farm Recreation Ground and Church Street Recreation ground for burial or crematorium use. Each of these areas already plays an important (and growing role) role in the greenspace and recreational provision of local urban communities. Alma Road Open Space should be used as part of a connected network of greenspaces across the borough. This could be included alongside cemetery use, but this should be explicitly defined in the plan. They consider that all three of these sites may be better suited to greenbelt areas such as Sloemans Farm, due to the peaceful nature of these areas. Furthermore, urban crematorium sites, and, to a lesser extent, burial sites will increase traffic in urban areas and negatively impact air quality.</li> <li data-bbox="667 1142 2024 1350">• Developer D&amp;JLP is pleased to see that London Borough of Enfield has clarified the status of the Firs Lane site in the notation shown on the draft proposals Map accompanying the draft Local Plan. The draft Proposals Map clearly shows the site as not being part of the adjoining open space even though it is still shown as being in the MOL. This change from the current Local Plan Proposals Map acknowledges the status of the site as a brownfield site, i.e., 'previously developed land'. The consequence of this being that development of the site would not be 'inappropriate'.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>• LBE Property Services support the inclusion of the draft allocation to meet the needs of the community.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• Significant objections received from the local community on SA59. Firs Farm it is an important and highly valued open space contributing to the mental and physical health and well-being of the people of Enfield. A crematorium or burial ground within the area would destroy this opportunity.</li> <li>• The wider community wants the Council to remove from the Local Plan the proposal to build a crematorium/burial ground in Firs Farm.</li> <li>• The wider community object to the inclusion of the site as an allocation. They consider that the proposal would involve a loss of sports and recreational buildings contrary other policies in the plan as highlighted by the wider community and Sport England</li> <li>• The wider community was concerned that the development of the crematorium and its operation will all reduce the effectiveness of the work done to date and will therefore reduce the value of the significant investment of money, time, other resources and good will that the various partners working at Firs Farm have put into the project to date. By designating the area for burial/crematorium use, the longer-term future of the community hub proposal is seriously in doubt.</li> <li>• The wider community indicated that the proposed cremation/burial use at Firs Farm does not constitute the very special circumstances to warrant development on MOL. Although cemeteries and burial grounds are identified as not inappropriate on Green Belt/MOL (Paragraph 149 (b)), crematoria are not specifically mentioned, which relates to the regulation of the cremation of human remains under the statutory Local Air Pollution Prevention and Control (LAPPC) regime. The draft Local Plan also has provided little or no evidence to support the inclusion of this proposal, either in terms of its need or how the site at Firs Farm was identified and evaluated in relation to other options.</li> <li>• The wider community raised concern that the development would negatively impact the SINC and negatively impact biodiversity and reduce the effectiveness of flood alleviation provided by the wetlands. Adverse impacts to traffic and the environment generally were also raised as issues.</li> </ul>

Chapter or policy reference	Summary of main issues
SA60: Sloemans Farm	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>• No comments received</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>• CPRE London support the inclusion of the site as an allocation in the Green Belt</li> <li>• Bush Hill Park Residents Association object to the proposed use of the site, because recreation is an important contribution to a healthy life-style and reduces the costs to the local health system. This SA appears to be contrary to Policy DM CL5 (page 280) which (point 2) states Development proposals that result in the loss of sports and recreational buildings and land will be resisted.</li> <li>• The Enfield Society supports the inclusion of the site as an allocation in principle but considers there is a lack of clarity in the proposal as to whether any ancillary built development is proposed within the site, what landscape impacts there might be and how these might be managed, how the Public Right of Way that passes through the site from north to south will be maintained, and how the rural character and frontage onto Whitewebbs Lane will be maintained</li> <li>• LBE property services support the inclusion of the site as an allocation natural burial uses. However, they consider that the smaller south western part of the site represents a logical and sustainable location for future residential development for approximately 57 to 95 new homes, based on 30-50 dwellings per hectare ('dph') and a net developable area of c. 60%. Proposals would include a policy compliant level of affordable housing and other requirements. The site could also potentially come forward for employment-related uses if required.</li> <li>• LBE property services support the inclusion of the site as an allocation natural burial uses as proposals would meet identified burial needs in Enfield. They consider this use will sit comfortably alongside the Green Belt and London National Park City designations for the site</li> </ul> <p><b>Wider community</b></p>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>No comments received from the wider community relating to this policy.</li> </ul>
SA61: Church Street Recreation Ground	<p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Sport England object to the inclusion of this site as an allocation because of the loss of playing field. The PPS seeks the Local Plan to protect the site and advocates improvements. In addition, Sport England, ECB, Football Foundation and the Council have been working together to install an artificial cricket wicket in this location as part of recent mitigation package for approved development at the adjacent Latymer School.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>CPRE London does not support the inclusion of the site as a proposed allocation because the site is in an area deficient in open space for public recreation. It is also an area which is likely to see population densification so it should be safeguarded to ensure adequate green space provision for the area, with reference to green space standards and the Playing Pitch Strategy. A better alternative would be site SA44 (Land opposite Enfield Crematorium) which currently provides no public amenity but is Green Belt and so should not be allocated for development as currently proposed.</li> <li>The Enfield Society object to the use of Metropolitan Open Land [MOL] for new crematoria, specifically SA58 Alma Road Open Space, SA59 Firs Farm Recreation Ground (part) and SA61 Church Street recreation ground. These sites are too important to the health and well-being of Enfield residents and are afforded the same level of protection as Green Belt.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>The wider community object to the inclusion of this site as an allocation. They consider recreation is an important contribution to a healthy lifestyle and reduces the cost to the local healthcare system.</li> <li>Residents were concerned that the inclusion of this site as an allocation would appear contrary to draft ELP policy CL5.</li> </ul>

Chapter or policy reference	Summary of main issues
	<ul style="list-style-type: none"> <li>Residents pointed out that Enfield has two crematoria which should be sufficient and therefore the proposals at SA61 would not be required. They considered that the location is not suitable as mourners would have to negotiate the A10/A406 roundabout on exit. Many of the local community avoid this at all times.</li> <li>Residents considered that there were more appropriate sites to meet burial needs in the Green Belt.</li> </ul>
<p>SA62: Land at and within the vicinity of Tottenham Hotspur Football Club training ground, Hotspur Way, Whitewebbs Lane</p>	<p>Mixed views were received. Objections were received from local residents and local interest groups, as well as some support from developers.</p> <p><b>Specific Bodies (Statutory)</b></p> <ul style="list-style-type: none"> <li>Sport England raises concerns about the inclusion of this site as an allocation. They consider that it is not clear if the expansion of the Tottenham Hotspurs Training Centre would meet locally identified needs. In addition, if the expansion results in the loss of sports facilities, then in order to meet the NPPF, paragraph 99, and Sport England Policy it must be robustly demonstrated that the facility that would be lost is either surplus in an assessment or replaced, especially since the PPS does not highlight a community need for the proposed facility at present. It notes that lack of use should not be seen as necessarily indicating an absence of need for a specific sports facility in the locality. Such land can retain the potential to provide to meet current or future needs.</li> <li>TfL Spatial Planning object to the inclusion of SA62: Land at Tottenham Hotspur FC training ground as the site is likely to be dependent on car access due to the relatively poor connectivity by active travel or public transport with a PTAL of 1a-b. The site proposals (including ancillary related facilities) should exclude major trip generating uses unless there is substantial investment in viable public transport and active travel improvements.</li> </ul> <p><b>General bodies / other organisations</b></p> <ul style="list-style-type: none"> <li>CPRE London objects to the inclusion of SA62: Land at and within the vicinity of Tottenham Hotspurs Football Club training ground as it is in the Green Belt which is performing an important function.</li> </ul>

Chapter or policy reference	Summary of main issues
	<p>They consider it should not be subject to inappropriate development. It should certainly not be removed from Green Belt.</p> <ul style="list-style-type: none"> <li>• CPRE London highlight that it does not appear to be a genuine allocation for development of “professional sport, recreation and community sports/leisure uses”: rather, it appears to be an allocation aimed at enabling the expansion of the football club’s training facilities. There is no need to allocate this site within the Local Plan – and indeed this allocation is inappropriate, and it should be removed. They consider if Tottenham wish to expand the appropriate route would be via a planning application.</li> <li>• Tottenham Hotspurs Football Club support the inclusion of the site as an allocation. They consider that the proposed identification of their Training Ground and adjoining land as being an area of sporting excellence where further associated development will be supported in principle, subject to a range of development management criteria.</li> <li>• Friends of Forty Hill Park object to the inclusion of SA62 as it is inappropriate for THFC to expand and damage more of the local area. Lack of public access to their area of Forty Hill.</li> </ul> <p><b>Wider community</b></p> <ul style="list-style-type: none"> <li>• The wider community object to the inclusion of the site as an allocation. They consider that the site is in the Green Belt which is performing an important function and should not be subject to inappropriate development and therefore not be removed from Green Belt.</li> <li>• The wider community consider that the site does not appear to be a genuine allocation for development of “professional sport, recreation and community sports/leisure uses”: They felt that it was rather, an allocation aimed at enabling the expansion of the football club’s training facilities.</li> <li>• Several residents were concerned with public land being transferred to private management and call for its reinstatement. The Whitewebbs Golf course is open land, well-used and enjoyed by the public for outdoor recreation. Fencing off portions of this site would impact the openness of the Green Belt.</li> <li>• The wider community indicated that the site is part of the historic Enfield Chase - it is unique in the southeast and played an important role in the development of Enfield. It is a rare and valuable</li> </ul>
