Financial assessments will also help people maximise their benefits income. If we think they would have a higher MIG on the anticipated benefits, we will give them this higher MIG while in the process of claiming.

Enfield's use of discretion

Enfield do not use the lower MIGs for 18 – 24-year-old in the statutory guidance. Enfield use the higher 24 – pension age MIG for all adults.

MIGs highlighted in yellow are discretionary local enhanced MIGs, to support residents to retain the daily living expenses portion of their benefit income.
