Date: 29 June 2026

Dear Mr Lee,

Initial Council Response to Inspector's Post Hearing advice (IN14)

Thank you for your letter of 15 June 2026 setting out your post-hearing advice in relation to the Enfield Local Plan. Since the close of the examination hearing sessions, there has been a change in the political administration of the Council.

The Council confirms its commitment to continuing to progress the Local Plan through the Examination process and to work constructively with you towards Main Modifications and adoption.

The Council notes your advice regarding the Main Modifications required to ensure the soundness and legal compliance of the Plan. Work is now underway to prepare the schedule of Main Modifications, including internal review and governance processes, ahead of submission to you and subsequent public consultation. The Council anticipates that preparation of the Main Modifications will take place over the coming months, with a view to consultation later in 2026, subject to further discussion with you on the detailed timetable.

For the purposes of ongoing engagement, correspondence will continue to be managed through the Programme Officer. The Council's officer lead on the Local Plan is May Hope, Programme Director, Strategic Planning, Design and Inclusive Growth, who will lead the Council's engagement with the Examination process.

We look forward to continuing to work constructively with you to progress the Local Plan to the next stage.

Yours sincerely

Perry Scott
Chief Executive
