

Suffolks Primary School

Additional SEN Places from Autumn 2025

As part of the SEN ARP/Unit initiative, works have been completed at Suffolks Primary School to support 40 additional SEN places across two years.

The Council has partnered with the School to deliver a range of adaptations that enhance the existing facilities and provide quality spaces to support effective teaching and learning.

These improvements include:

- **Upgraded sensory room equipment** to better support SEN pupils' needs including behaviour regulation
- **A new soft play room** to encourage active and safe play, and for pupils to develop a range of skills including developing social interaction
- **Bespoke storage solutions** to maximise space and ensure the safe storage of SEN equipment
- **Security improvements** to strengthen pupils' safety in the play areas
- **New playground equipment** to create a more stimulating and safe environment for recreation.
