What are Supported Internships?

The College of Haringey, Enfield and North East London

Supported Internships are work-based study programmes for young people aged 16-24 with Special Educational Needs (SEN). Internships aim to equip students with the practical skills they need for work. They are unpaid and last for a minimum of six months. Students complete a personalised study programme alongside their employment. Wherever possible, employers will support students move into paid employment at the end of their programme.

Our Partners

Our Supported Internships are run in partnership with North Middlesex University Hospital NHS Trust, DFN Project SEARCH, Haringey Council and Tottenham Hotspur Foundation.

DFN Project SEARCH is run by the DFN Charitable Foundation and provides employment programmes for people with SEN. More than 65% of people who have completed its programmes have gone on to gain full-time employment. This is huge when compared to national figures that show just 6% of people in the UK with SEN are in work.

Entry Requirements

- Aged 18-24 at the time of enrolment and have an Education, Health and Care Plan (EHCP), formally a Statement of SEN.
- Commitment to five days a week, with the ability to travel independently to and from a place of work.

Get Involved

If you're a student, parent or an employer interested in finding out more about Supported Internships call **020 8442 3055** or email courseinfo@conel.ac.uk
