

Dear/Sir /Madame,

I am writing to you to raise my concern over the development proposal to build apartments/flats on the current site of Sainsburys supermarket and surrounding park. I moved into this area 15 years ago for its quiet leafy neighbourhood with its charming period properties.

As a resident of Winchmore Hill/Fernleigh road I am very concerned about this new proposal -we cannot allow to lose this precious green space -which would have negative impact on the environment! This green space is also a place where many go to relax, this puts social & wellbeing of residents in jeopardy.

There are already too many new flats built in a close proximity along Green Lanes, Capitol house P.. Is there an infrastructure in place that supports this new influx of families into this small area? GPs, schools, supermarket(within walking distance) ? Not to mention the pressure on parking and further road congestion..

This proposed development will also spoil the character of this charming area given the proximity of existing traditional historic properties.

Why not to redevelop sites on A10 with few properties affected? Or Morrisons in Palmers green?? That would not affect any adjacent properties.

Best regards,
