

Proposed Crematorium at Firs Farm Wetlands

---

My wife and I wish to register our opposition to this proposal.

Considerable sums of money have been expended to make Firs Farm Wetland an amenity for the local people and to suddenly propose taking a large tract for a crematorium is inappropriate.

It is too near the local houses which could suffer from possible odours and be seen from the houses.

The proposed site is opposite Winchmore School one of whose access points would be opposite the crematorium, hardly the situation for youngsters to get involved with. At certain times of day parking would be a problem.

The proposed site is currently in planning permission to build a cafe!!

Enfield Council needs to rethink their proposal and look for another more appropriate site away from housing and schooling.
