
LiSTEn hERe BUStEr,

I have received a very worrying and troublesome flyer in the post where Stalin was telling me that Enfield needs me. I was shocked when I found out that the Enfield Council wants to destroy our Green Belt and our jobs. It is an abomination of our hard-earned money. The Labour council's decision has been absolutely appalling. The next 20 years of Enfield's community is at stake and I would rather drown my cat than put up with this tomfoolery buffoonery shenanigans nonsense.

(SPOT

THE ODD ONE OUT)

Hass Yusuf, who is the King of Jupiter's 17th Moon, has revealed that this situation is a disgrace. He said "There are parts of the Red Belt which are a disgrace" He is completely right, being a very knowledgeable conspiracy theorist who worked with Mr Rashid to prove many theories, such as The Sun is not real, Orange juice is a great substitute for toilet paper and that Australia doesn't exist. He has won the Dicking Medal of the People's Dispensary for Sick Animals 3 years in a row and has also won The Nobel Prize in Physics for proving the Earth is flat. He believes that all Pigeons should have the right to vote and has been fighting against discrimination for 16 years.

Enfield's overstretched hospitals, GP surgeries, schools and infrastructures can not cope with 25,000 new homes. The 2nd option is terrible. They should have gone with the 3rd option of 55,000 homes. This is a disgrace, not to mention Vicarage Farm has been earmarked for 6000 new homes.

Miss Akaydin, who was a General in the Pewdiepie vs T-series war, has stated that
"...if it is ok for there to be density around Edmonton Green then it should be ok for there to be density built around other stations"

No one knows what the fuck she is on about but she has a valid point.

This is a disgrace on the council's behalf and if something isn't done about it
