

---

Dear Sir ,

I want to register my objection to Draft Local Plan that includes any building on Green Belt Land.

Surely this Covid period we have all suffered should alert everyone to the value of green spaces which have proved vital for peoples health and mental wellbeing over these past 18 months.

The Green Belt was created by the our forefathers to stop London expanding and to be the lungs of the capitol. Its our responsibility to protect it for future generations not concrete over this green space to satisfy short term housing requirements. Surely the Council is capable of a more inventive solution.

Those responsible for this destructive plan would be horrified at the thought of burning down the Amazon rain forest or chopping down the Orangutan jungle but do not see the parallels with their proposed destruction of Enfield's Green Belt. Its environmental destruction on a grand scale. Whilst the Major of London introduces measures to improve air quality those responsible in Enfield Council for this dreadful plan are hell bent on doing the complete opposite.

I hope this council will soon reconsider its plans and give the Green Belt the protection and value it right deserves.
