

---

We do not want another 25,000 homes built in Enfield. We have no room for another 50,000 people over the next 18 years.

Why are you even considering this ludicrous proposal?

I have lived here all my life which is longer than most of you have been alive and I've seen changes, improvements and set backs. Never has there been such a shambolic self serving council until the present one. When will you listen to Enfield residents, who pay council tax for the pleasure of living here, and take notice of what we want for a change.

Wake up and listen to us.
