

---

I have tried to register with this website without success.

I am distraught at the possibility of this development. I have lived in the same quite ordinary house since 1975 and have loved the local green environment, taking weekend walks , enjoying the peace and fresh air and local wildlife.

But also I live near to the Town and it is a great balance. Over recent years the M25 and increasing traffic sometimes results in gridlock in our area, and this and other developments have caused a strain on our infrastructure. To think of thousands of homes being built on the Green Belt and the detrimental effect this would have on local people is a dreadful prospect that must be avoided. We are already bursting at the seams. Please leave our breathing space alone.
